### **About WHL Energy Limited**

ASX-listed WHL Energy Ltd (**ASX: WHN**) is an oil and gas exploration Company focussed on East Africa and Australia.

WHL Energy holds a 12,856 km<sup>2</sup> exploration area offshore Seychelles, at 25% equity. A world class exploration portfolio and new exploration concepts are being matured in the acreage. WHL Energy has mapped a prospect and lead inventory containing at least 18 features. The Company farmed in proven East Africa explorer, Ophir Energy plc as Operator of the Block.

The high graded Junon leads are being matured for drilling with a 1,500 km<sup>2</sup> 3D seismic survey completed in July 2014. Additional new play concepts are being developed. Most structures identified to date are in < 50 m water with drilling targets at < 2000m depth, allowing for low cost drilling with a jack up rig.

WHL Energy also holds 100% equity in Exploration Permit VIC/P67 in the offshore Otway Basin, approximately 200 km WSW of Melbourne off the Victorian coastline. VIC/P67 contains the undeveloped La Bella gas field in proximity to the Victorian gas market, and several nearby exploration prospects. The La Bella 3D seismic survey was acquired in late 2013 to appraise the La Bella field and also firm up the exploration prospects. Initial results of the 3D seismic survey are encouraging and have identified structurally conformable amplitude anomalies associated with several of the key prospects.
