

## Appointment of Mineral Resources Manager

ASX Code: **NWF**

**Newfield Resources Limited** (“Newfield” or “Company”) is pleased to advise the appointment of Dr Renato Spaggiari as the Mineral Resources Manager (“MRM”) of Allotropes Diamond Co Ltd (“Allotropes”) and its diamond project in Sierra Leone. Dr Spaggiari replaces Mr Mike Lynn as the incumbent MRM upon his elevation to CEO of Allotropes. Dr Spaggiari’s appointment is in line with Newfield’s strategy to secure more specialist and experienced diamond skills into its senior management ranks as it enters the next important phase of development of its Allotropes Diamond Project.

Dr Spaggiari has over 30 years’ experience as a geologist on the African Continent in alluvial and kimberlite diamond exploration. This experience underscores his strong background in grass-roots exploration techniques, resource evaluation and mine production geology.

He is a graduate of Rhodes University of South Africa with a first class honours degree in geology and a PhD. His career to date has covered all facets of exploration and project management, including roles as exploration manager and chief geologist for De Beers Consolidated Mines, Gem Diamonds and other companies. Dr Spaggiari has worked as an expatriate in countries such as Botswana, The Democratic Republic of Congo, Cameroon, Mozambique and Namibia. His experience in remote African settings including interacting with relevant community and government groups will greatly support Newfield’s core value of being a responsible participant in the economic development of Sierra Leone.

Newfield welcomes Dr Spaggiari to its team in Sierra Leone and looks forward to both his leadership and experience contributing to the success of its operational objectives in the coming months.
