

18th December 2015

Orinoco's Gold Plant Construction on Schedule – More Bonanza Grades In Development Sampling

Highlights

- **Underground Sampling Continues to Return Bonanza Grades up to 290 g/t (9.3ozs)**
- **High Grade Zones extended :**
 - 10m @ 100g/t (3.2ozs)
 - 11.6m @ 50.3g/t (1.6 ozs)
- **Cushing Circuit on Site – Installation Underway.**
- **Gravity Circuit Due on Site 2nd Half December.**
- **Commissioning on Schedule – Q1 2016**

The Directors of Tyranna Resources Ltd (TYX : ASX) note the recent announcement by Orinoco Gold Ltd (OGX : ASX) that additional bonanza grade gold results up to 290g/t (9.3ozs) have been returned from underground development sampling at the Cascavel project and as a result the high grade zones have been extended significantly.

Orinoco also reports that the onsite installation of the gold plant has commenced and that the Australian built gravity circuit is on schedule for delivery to site towards the end of this month.

Should everything remain on schedule, then plant commissioning and first gold production can be expected within the first quarter of next year.

Tyranna owns **14,301,973** shares in Orinoco Gold which is currently equivalent to **6.79%** of the Company.
