Aus Asia Minerals Limited (**ASX:AQJ** or the company) intends to undertake a share consolidation of 20 existing shares for one new share (20:1) subject to shareholder approval.

The company currently has approximately 800 Million shares on issue which is a high number for a company of its size. The proposed capital restructure will reduce the amount of shares on issue to approximately 40 Million, creating a more efficient capital structure.

The company will notify shareholders in the coming weeks of the timetable for the proposed share consolidation.

Regards

Robert Swarbrick  
**Managing Director**
