

# WARRO UPDATE

18 January 2016

## WARRO-6 WELL ALMOST COMPLETED

Transerv Energy (ASX: TSV) is pleased to announce that running of the 2 3/8" tubing at the Warro-6 onshore well in WA is nearly finished and testing of the well is expected to start at the end of this week.

Work at Warro-6 was delayed last week when a metal object was accidentally dropped down the hole. Four days were lost recovering the object and re-instating the well.

While the testing is undertaken at Warro-6, the completion rig will move to Warro-5 to run tubing and prepare that well for testing.

For and on behalf of the Board.

STEPHEN KEENIHAN

Managing Director
