

ASX Announcement

18/01/2016

ABN: 45 116 153 514

ASX: TMX

Quarterly Activities Report: December 2015

HIGHLIGHTS

- **\$200,000 Received on Expiry of Convertible Note**
 - All obligations & dealing with SR Mining now finalised
 - Great Western (GW) high grade gold project & the Bundarra tenements now fully independent of each other.
 - All options to monetise the project currently being reviewed
- **Rembrandt Gold Project**
 - Terrain has elected to exercise the option to acquire 100% of Rembrandt
 - Several other high grade drill targets currently being assessed
- **Drilling Results at Monet (Rembrandt Project)**
 - High grade gold intersection along strike at Monet
 - Confirms presence of high grade near surface gold mineralisation
 - Geological assessment underway
- **Great Western Strategic Acquisition**
 - Immediate tenure surrounding Great Western purchased from Wildviper Pty Ltd
 - The new area is a highly prospective holding & extends along the strike extents of GW & greatly adds flexibility for site planning
- **Gimlet – Southern Fraser Range**
 - The Gimlet Project area covers a total land area of 469km² directly adjacent to Mt Ridley Mines (ASX:MRD)
 - Geophysical targeting has commenced
- **Corporate Update**
 - Successful completion of \$300,000 placement
 - All resolutions passed at the Annual General Meeting
 - Office relocation completed

On behalf of the Board

Justin Virgin Executive Director

Address: 108 Outram Street, West Perth WA 6005 **Postal:** PO Box 79, West Perth, WA 6872

T: +61 8 9381 5558 **E:** terrain@terrainminerals.com.au **W:** www.terrainminerals.com.au

\$200,000 Received - Expiry of Convertible Note

This Convertible Note relates back to the original Bundarra tenement sale package to SR Mining, and subsequent agreements. All dealings on this matter have now concluded and the board is pleased to now be able to move forward with certainty regarding Great Western as 100% owned deposit, fully separate of the Bundarra land area.

Rembrandt Gold Project

- Terrain has elected to acquire 100% of the Rembrandt Gold Project
- Low cost acquisition represents significant value for Terrain
- Planning of further exploration underway

Figure 1: Rembrandt Project Location Plan

Acquisition Terms

Terrain has elected to proceed with the acquisition of Rembrandt Mining Pty Ltd ("Rembrandt") for \$1.00 consideration. Rembrandt Mining Pty Ltd and/or its nominee is to receive a free carried profit share from any mining operations across the Project area. Profit share structure:

- 25% Free carried profit share to Rembrandt for up to 15,000 ounces of gold produced
- 15% Free carried profit share to Rembrandt for in excess of 15,000 ounces of gold produced
- 1% Net Smelter Royalty will apply to all material mined other than gold
- Both parties to maintain a mutual first right of refusal over each respective party's interest in the Project
- Rembrandt to retain prospecting rights

Drilling results at Monet (Rembrandt Project)

High grade gold intercepted in drilling at Monet Prospect

- Multiple high grade drill results including:
 - TMXMRC016: 1m @ 17.9g/t Au from 26m & 2m @ 1.9g/t Au from 30m
 - TMXMRC018: 1m @ 6.5g/t Au from 46m
 - TMXMRC030: 1m @ 80.4g/t Au from 43m
 - TMXMRC039: 1m @ 18.85g/t Au from 11m
 - TMXMRC041: 1m @ 2.7g/t Au from 32m & 3m @ 1.7g/t Au from 39m
 - TMXMRC063: 1m @ 20g/t Au from 16m
 - TMXMRC064: 1m @ 10.3g/t Au from 28m
 - TMXMRC065: 2m @ 3.54 g/t Au from 36m
 - TMXMRC066: 2m @ 1.8g/t Au from 46m
- Mineralisation open at depth
- Confirms presence of high grade near surface gold mineralisation

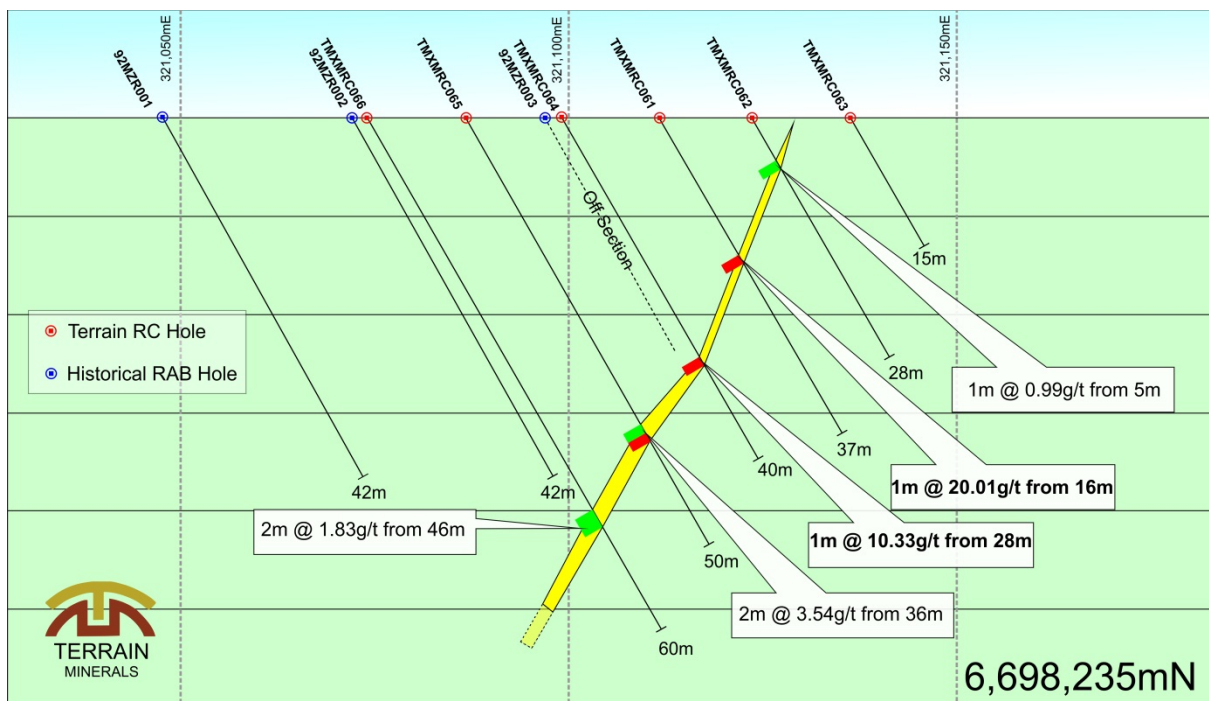

Figure 2: Monet Cross Section 6,698,235mN

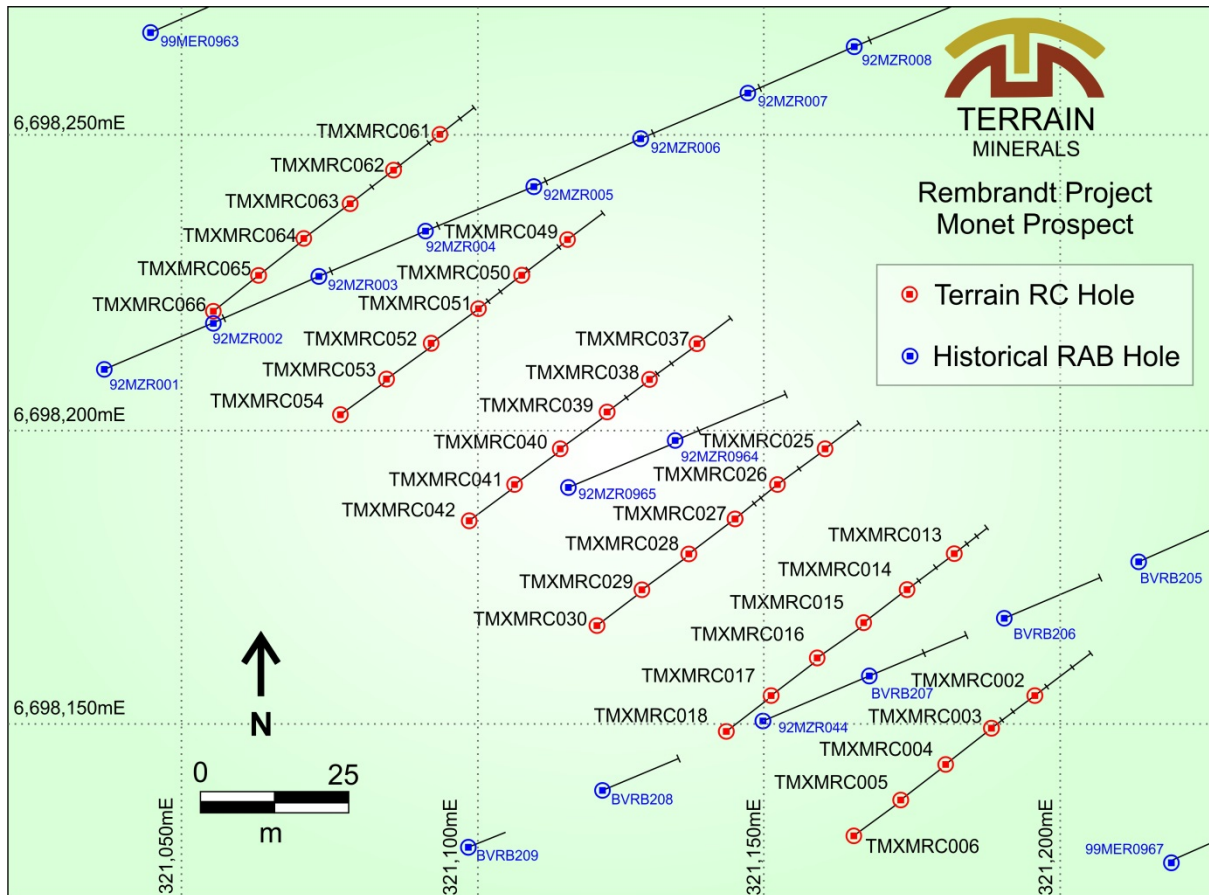

Figure 3: Monet Prospect Drill Collar Plan

Exploration Summary

A total of five aircore (AC) drill holes for 214m and thirty reverse circulation (RC) drill holes for 1,104m were completed across the Monet Prospect. Drilling intersected high-grade shallow gold mineralisation similar to that intersected in historical RAB drilling (further details available within ASX Announcement *Option Agreement on High Grade Gold Asset*, 16/09/2015).

Mineralisation is hosted within a shear zone in a fine grained Mafic (Basalt) unit. The mineralised zone is defined by sericite (+minor fuchsite) alteration and associated pyrite. The mineralised shear zone is overlain by a very shallow weathering zone with fresh rock generally encountered in drilling <5m from the surface.

A review of the results received is currently underway to determine any further exploration required across the Monet Prospect as well as of additional targets within the Rembrandt Project.

Strategic Acquisition for Great Western Project

Terrain finalised an agreement to Purchase E37/1214 from Wildviper Pty Ltd.

This area is highly prospective and increases the existing strike extent of Great Western and the possibilities of other occurrences, within the tenement area. The acquisition greatly adds to the flexibility for planning such as location of key infrastructure, overburden storage and gives the project direct on tenure access to the Goldfields Highway and the gazetted Darlot mine access road.

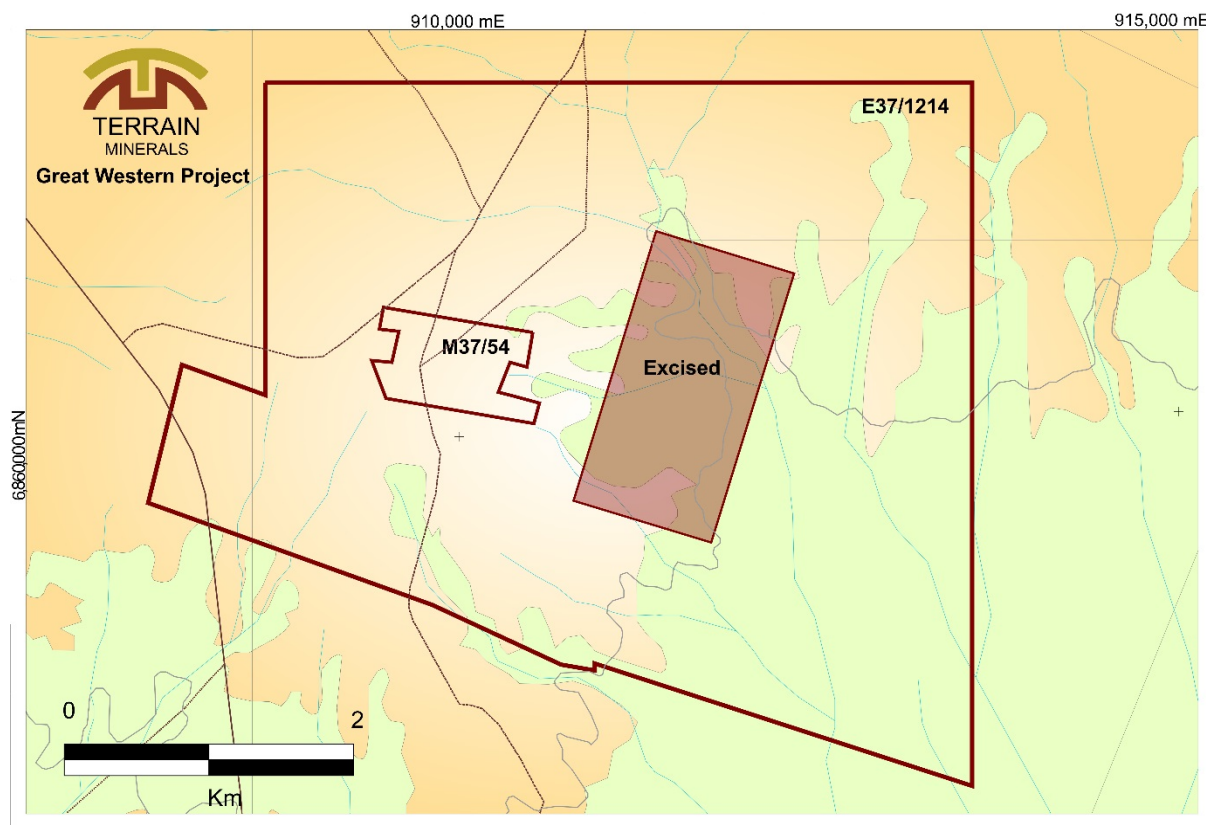

Figure 4: Newly Acquired E37/1214 that surrounds the Great Western Project M37/54

Acquisition Terms

Terrain has purchased the area for single cash payment of \$5,000.00 from Wildviper Pty Ltd, which maintains the exploration rights over the area to a depth of two meters and these prospecting rights are not transferable.

About Great Western

Located 68km north of Leonora and 1km from the Goldfields Highway on Weebo pastoral leases and forms part of the historic Wilsons Patch mining area. Great Western (GW) is owned 100% and free of any royalties.

Terrain has previously held this project and considers it as an advanced and near term mine opportunity, which is possibly still open down plunge and along strike. Further exploration has the potential to expand the mine life of the current mining plan.

Scoping study has been delayed as additional geological work is being carried out to the block model and wire frames and the data on this new acquisition is examined.

Gimlet E63/1740 - Southern Fraser Range

- Gimlet (E63/1740) Project granted covering a total of 469km²
- Located adjacent to Mt Ridley Mines (ASX:MRD) in the Fraser Range Province
- Geophysical reprocessing of available surveys across the Gimlet Project now completed and all available geological information has been added
- Geophysical target identification process is underway

Corporate

Capital Raising

On the 13 October 2015 Terrain usefully finalised a capital raising for \$300,000 priced at 0.5c (half a cent) and sixty million (60,000,000) Fully Paid Ordinary shares were issued. A placement fee of 6% was paid to participating stockbrokers and their support is greatly appreciated.

Annual General Meeting (AGM)

The AGM was held on the 24 November 2015 and was well attended by Directors, support staff, guests and shareholders. All resolutions were passed on a show of hands.

Office Relocation

In December Terrain relocated to new offices situated at 108 Outram Street West Perth (all other contact details remain unchanged). The relocation was due to the expiry of the existing lease. The new facilities are better equipped and modest cost savings have also been achieved.

Other Business

Terrain Minerals is currently searching and assessing potential company making projects in Australia, Africa, South America and other regions, looking at all economic commodities including but not limited to Gold, Copper, Nickel and other metals. Terrain has recently been examining small high grade low cost near term cash flow opportunities in WA to assist with future funding as it searches for larger opportunities.

Competent Person Statement

The information in this Announcement that relates to Exploration Results was compiled by Mr Robert Jewson, who is a member of the Australian Institute of Geoscientists, and a consultant to Terrain Minerals limited. Mr Jewson has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Minerals Resources and Ore Reserves'. Mr Jewson consents to the inclusion in the Report of the matters based on his information in the form and context in which it appears.

- *Mr Jewson is a shareholder and a director of Rembrandt Mining Pty Ltd.*

DISCLAIMER

Information included in this release constitutes forward looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "continue" and "guidance" or other similar words, and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the company's actual results, performance and achievements to differ materially from any future results, performance or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licences and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the company operates or may in the future operate environmental conditions including extreme weather conditions, staffing and litigation

Forward looking statements are based on the company and its management's assumptions made in good faith relating to the financial, market, regulatory and other relevant environments that exist and effect the company's business operations in the future. Readers are cautioned not to place undue reliance on forward looking statements.

Forward looking statements are only current and relevant for the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, in providing this information the company does not undertake any obligation to publicly update or revise any of the forward looking statements or advise of any change in events, conditions or circumstances on which such statement is based.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
