

# ASX ANNOUNCEMENT

## December 2015 Quarterly Activities Report

Rumble Resources Ltd (ASX: RTR) ("Rumble" or "the Company") is pleased to provide an update of the Company's activities during the December 2015 quarter.

### Technical Review

During the December quarter the Company's highly experienced Technical Advisory Board continued its entire project portfolio review which will encompass project prioritisation, consideration of expenditure commitments (with a view to rationalise costs) and providing next stage implementation strategies. There were no on-ground exploration activities completed during the quarter.

BM Geological Services Pty Ltd (BMGS) and Dr Jon Hronsky have formed the Technical Advisory Board.

BM Geological Services Pty Ltd (BMGS) is a Western Australian based company servicing the global minerals industry. BMGS commenced business in 2003 filling a niche market servicing the junior mining houses who had acquired nickel properties from WMC Resources within the Kambalda district. These companies included Titan Resources, Donegal Mining/View Resources, Panoramic Resources, Goldfields Mine Management and Lightning Nickel; and later servicing WMC/BHP Billiton at the Perseverance Deeps Project at Leinster Nickel Operations, and Lionore at the Black Swan and Avalon Nickel Projects. BMGS is a partnership between Mr Darryl Mapleson and Mr Andrew Bewsher

Dr Jon Hronsky is a consultant with more than 30 years of experience in the mineral exploration industry, primarily focused on project generation, technical innovation and exploration strategy development. Jon has worked across a diverse range of commodities and has particular expertise in targeting for nickel sulphide and gold deposits. His targeting work led to the discovery of the West Musgrave nickel sulphide province in Western Australia. Jon is currently Chairman of the Board of the Centre for Exploration Targeting in Western Australia and was the 2009 Society of Economic Geology Distinguished Lecturer. Jon is one of the Principals at geological consultancy Western Mining Services (Aust) Pty Ltd. Prior to joining WMS, Jon was Manager-Strategy & Generative Services for BHP Billiton Mineral Exploration and before that, Global Geoscience Leader for WMC Resources Ltd.

### Market Opportunities

In light of the ongoing uncertainty surrounding global commodity markets, and nickel in particular, the Company continues to seek out potential acquisition opportunities to complement the Company's existing projects and activities as well as opportunities in other sectors with the objective of increasing shareholder value. Each opportunity is being judged on its own merits, with the Board being careful in its assessment of the options available.

### Corporate Update

The Company has completed its R&D (Research and Development) submission documents during the quarter and is expecting a \$206,000 refund in the March 2016 quarter.

During the quarter Mr Bruno Seneque resigned from his position as company secretary. Mr Seneque was replaced with the appointment of Mr Steven Wood as Company Secretary of the Company effective 1 December 2015. Steven is a Chartered Accountant who has experience providing company secretarial and financial management services to ASX, unlisted public and private companies.

On 24 November Rumble announced that their Share Purchase Plan (SPP) closed with \$218,000 raised at \$1.8c resulting in the issue of 12,111,102 new shares in the Company. Rumble's Directors contributed \$50,000 showing support for the direction of the company.

Non-Executive Mr Matthew Banks committed to taking shares in lieu of directors fees in a sign of support for direction of company.

## Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
