

28 January 2016

Cleansing Notice

88 Energy Limited ("88 Energy", "the Company") (ASX, AIM: 88E) advises that it has issued 10,000,000 listed options (exercisable at \$0.02 per option on or before 2 March 2018) to the General Manager of Operations in Alaska. The Options were issued upon the satisifaction of milestones as approved by shareholders at a General Meeting held 30 October 2015. The options are part of a class of securities quoted on ASX and may be subject to a subsequent offer for sale.

The Directors of 88 Energy provide a notice for the purposes of section 708A(5)(e) of the Corporations Act 2001.

The Company issued the Listed Options above without a disclosure document to investors under Part 6D.2 of the Corporations Act.

The Company, as at the date of this notice, has complied with:

- (a) the provisions of Chapter 2M of the Corporations Act; and
- (b) section 674 of the Corporations Act.

There is no excluded information, as defined in sections 708A(7) and 708A(8) of the Corporations Act, as at the date of this notice. An Appendix 3B, in respect to the options issued is attached.

Yours faithfully

Dave Wall Managing Director 88 Energy Ltd

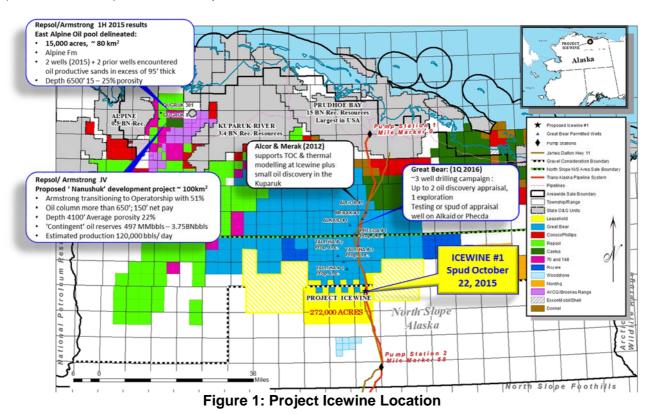

Project Icewine Highlights

In November 2014, the Company entered into a binding agreement with Burgundy Xploration (**BEX**) to acquire a significant working interest (87.5%, reducing to 78% on spud of the first well on the project) in a large acreage position on a multiple objective, liquids rich exploration opportunity onshore Alaska, North America, referred to as Project Icewine. In November 2015, the gross acreage position was expanded by 174,240 acres (to be awarded in due process by the State of Alaska)..

88 Energy has a 272,422 gross contiguous acre position with 212,489 acres net to the Company, located on an all year operational access road with both conventional and unconventional oil potential. The primary term for the State leases is 10 years with no mandatory relinquishment and a low 16.5% royalty.

The unconventional oil play will be evaluated based on core obtained in the recently completed (December 2015) Icewine #1 exploration well.

Generous exploration incentives are provided by the State of Alaska with up to 85% of exploration expenditure in 2015 cash refundable, dropping to 75% mid 2016 and thereafter 35%.

The primary objective is an untested, unconventional liquids-rich shale play in a prolific source rock, the HRZ shale, (Brookian Sequence), that co-sourced the largest oil field in North America; the giant Prudhoe Bay Oil Field Complex. Internal modelling and analysis indicates that Project Icewine is located in a high liquids vapour phase sweetspot analogous to those encountered in other Tier 1 shale plays e.g. the Eagle Ford, Texas.

www. 88energy.com ABN 80 072 964 179

Conventional play potential can be found at Project Icewine within the same Brookian petroleum system and shallow to the HRZ shale and includes high porosity channel and deep water turbiditic sands. The Brookian conventional play is proven on the North Slope; the USGS (2013) estimate the remaining oil potential to be 2.1 billion barrels just within the Brookian sequence. Additional conventional potential exists in the deeper Kuparuk sands and the Ivashuk Formation.

Drilling, (2012), in the adjacent acreage to the north confirmed that the HRZ shales, along with the underlying Kingak & Shublik shales, were all within the oil window which is extremely encouraging for the unconventional potential at Project Icewine. In addition, a conventional oil discovery was reported in the Kuparuk sandstones.

A Prospective Resources Report by DeGolyer and MacNaughton, was commissioned by 88 Energy to evaluate the unconventional resource potential of Project Icewine in early December 2014 and was released to the market on 19 January 2015.

About 88 Energy: 88 Energy has a 78% working interest and operatorship in ~272,000 acres (~174,000 acres subject to formal award) onshore the prolific North Slope of Alaska ("Project Icewine"). The North Slope is the host for the 15 billion barrel Prudhoe Bay oilfield complex, the largest conventional oil pool in North America. The Company, with its Joint Venture partner Burgundy Xploration, has identified three highly prospective play types that are likely to exist on the Project Icewine acreage – two conventional and one unconventional. The large resource potential of Project Icewine was independently verified by leading international petroleum resource consultant DeGolyer and MacNaughton. In addition to the interpreted high prospectivity, the project is strategically located on a year-round operational access road and only 35 miles south of Pump Station 1 where Prudhoe Bay feeds into the TransAlaska Pipeline System. The Company plans to progress drilling and seismic acquisition in the near term to take advantage of the globally unique fiscal system in Alaska, which allows for up to 85% of CY2015 exploration expenditure to be rebated in cash.

Quotation agreement

- ⁺Quotation of our additional ⁺securities is in ASX's absolute discretion. ASX may quote the ⁺securities on any conditions it decides.
- 2 We warrant the following to ASX.
 - The issue of the +securities to be quoted complies with the law and is not for an illegal purpose.
 - There is no reason why those *securities should not be granted *quotation.
 - An offer of the *securities for sale within 12 months after their issue will not require disclosure under section 707(3) or section 1012C(6) of the Corporations Act.

Note: An entity may need to obtain appropriate warranties from subscribers for the securities in order to be able to give this warranty

- Section 724 or section 1016E of the Corporations Act does not apply to any applications received by us in relation to any *securities to be quoted and that no-one has any right to return any *securities to be quoted under sections 737, 738 or 1016F of the Corporations Act at the time that we request that the *securities be quoted.
- If we are a trust, we warrant that no person has the right to return the *securities to be quoted under section 1019B of the Corporations Act at the time that we request that the *securities be quoted.
- We will indemnify ASX to the fullest extent permitted by law in respect of any claim, action or expense arising from or connected with any breach of the warranties in this agreement.
- We give ASX the information and documents required by this form. If any information or document is not available now, we will give it to ASX before 'quotation of the 'securities begins. We acknowledge that ASX is relying on the information and documents. We warrant that they are (will be) true and complete.

Appendix 3B – Annexure 1

Calculation of placement capacity under rule 7.1 and rule 7.1A for eligible entities

Introduced 01/08/12 Amended 04/03/13

Part 1

Rule 7.1 – Issues exceeding 15% of capital		
Step 1: Calculate "A", the base figure from which the placement capacity is calculated		
Insert number of fully paid +ordinary securities on issue 12 months before the +issue date or date of agreement to issue	452,026,723	
Add the following:		
Number of fully paid +ordinary securities	691,319,300 issued 2 March 2015	
issued in that 12 month period under an exception in rule 7.2	2,000,000 issued 17 March 2015	
	170,000,000 issued 30 July 2015	
Number of fully paid +ordinary securities	1,030,000,000 issued 27 August 2015	
issued in that 12 month period with shareholder approval	300,000,000 issued 30 November 2015	
chareneder approval	442,834,800 issued 18 December 2015	
Number of partly paid +ordinary securities that became fully paid in that 12 month period		
Note:		
Include only ordinary securities here – other classes of equity securities cannot		
be addedInclude here (if applicable) the		
securities the subject of the Appendix 3B to which this form is annexed		

⁺ See chapter 19 for defined terms.

Appendix 3B Page 10 04/03/2013

It may be useful to set out issues of securities on different dates as separate line items	
Subtract the number of fully paid +ordinary	5,500,000
securities cancelled during that 12 month period	540,000
"A"	3,082,140,823

⁺ See chapter 19 for defined terms.

Step 2: Calculate 15% of "A"		
"B"	0.15	
	[Note: this value cannot be changed]	
Multiply "A" by 0.15	462,321,123	
Step 3: Calculate "C", the amount of placement capacity under rule 7.1 that has already been used		
Insert number of +equity securities issued or agreed to be issued in that 12 month period not counting those issued:		
 Under an exception in rule 7.2 		
Under rule 7.1A		
 With security holder approval under rule 7.1 or rule 7.4 		
 Note: This applies to equity securities, unless specifically excluded – not just ordinary securities Include here (if applicable) the securities the subject of the Appendix 3B to which this form is annexed It may be useful to set out issues of securities on different dates as separate line items 		
"C"	-	
Step 4: Subtract "C" from ["A" x "B"] to calculate remaining placement capacity under rule 7.1		
"A" x 0.15	462,321,123	
Note: number must be same as shown in Step 2		
Subtract "C"	-	
Note: number must be same as shown in Step 3		
69	462,321,123 [Note: this is the remaining placement capacity under rule 7.1]	

Appendix 3B Page 12 04/03/2013

⁺ See chapter 19 for defined terms.

Part 2

Rule 7.1A – Additional placement capacity for eligible entities		
Step 1: Calculate "A", the base figure from which the placement capacity is calculated		
"A"	3,082,140,823	
Note: number must be same as shown in Step 1 of Part 1		
Step 2: Calculate 10% of "A"		
" D " 0.10		
	Note: this value cannot be changed	
Multiply "A" by 0.10	308,214,082	
Step 3: Calculate "E", the amount of placement capacity under rule 7.1A that has already been used		
Insert number of +equity securities issued or agreed to be issued in that 12 month period under rule 7.1A	nil	
Notes: • This applies to equity securities – not just ordinary securities • Include here – if applicable – the securities the subject of the Appendix 3B to which this form is annexed • Do not include equity securities issued under rule 7.1 (they must be dealt with in Part 1), or for which specific security holder approval has been obtained • It may be useful to set out issues of securities on different dates as separate line items		
"E"	nil	

⁺ See chapter 19 for defined terms.

Step 4: Subtract "E" from ["A" x "D"] to calculate remaining placement capacity under rule 7.1A	
"A" x 0.10	308,214,082
Note: number must be same as shown in Step 2	
Subtract "E"	nil
Note: number must be same as shown in Step 3	
<i>Total</i> ["A" x 0.10] – "E"	308,214,082 Note: this is the remaining placement capacity under rule 7.1A

Appendix 3B Page 14 04/03/2013

⁺ See chapter 19 for defined terms.
