iCandy Gains Additional New 600,000 Gamers onto its Network in December 2015

Southeast Asia's leading mobile games studio group, iCandy Interactive Limited (ASX:ICI) is pleased to announce that one of its current top-downloaded games, Mobfish Hunter, has added more than 600,000 new gamers in the month of December 2015. This is among the strongest monthly growth of additional new gamers for a single game-title within iCandy's network of game studios.

With more than 2 million downloads since the launch, Mobfish Hunter is a retro-futuristic fishing game that is updated with a daily quest system and 60 levels of game-play. This game spawns a new and unique concept that employs weapons to fish for strange deep-sea creatures in a futuristic world.

iCandy is planning to introduce up to two new major mobile-games titles in the next three months. Management is highly confident this will continue to fuel the growth of the number of gamers on iCandy's network.
