

ASX ANNOUNCEMENT

Cynata Receives \$930k R&D Tax Incentive Refund

Melbourne, Australia; 16 February 2016: Australian stem cell and regenerative medicine company, Cynata Therapeutics Ltd (ASX: CYP), is pleased to announce that the Company has received an R&D Tax Incentive refund of \$932,580.65 for the 2014/2015 financial year.

“The R&D Tax Incentive is an important program and this refund provides a very useful addition to the Company’s balance sheet and extends our operating runway at a time when we plan to soon commence the clinical trial of our first proprietary Cymerus™ mesenchymal stem cell (MSC) product, CYP-001”, said Dr Ross Macdonald, Cynata’s Chief Executive Officer.

The R&D Tax Incentive is an Australian Government program under which companies receive cash refunds of 45% of eligible expenditure on research and development.

About Cynata Therapeutics (ASX: CYP)

Cynata Therapeutics Limited (ASX: CYP) is an Australian stem cell and regenerative medicine company that is developing a therapeutic stem cell platform technology, Cymerus™, originating from the University of Wisconsin-Madison, a world leader in stem cell research. The proprietary Cymerus™ technology addresses a critical shortcoming in existing methods of production of mesenchymal stem cells (MSCs) for therapeutic use, which is the ability to achieve economic manufacture at commercial scale. Cymerus™ does so through the production of a particular type of MSC precursor, called a mesenchymoangioblast (MCA). The Cymerus™ MCA platform provides a source of MSCs that is independent of donor limitations and provides a potential “off-the-shelf” stem cell platform for therapeutic product use, with a pharmaceutical business model and economies of scale. This has the potential to create a new standard in the emergent arena of stem cell therapeutics and provides both a unique differentiator and an important competitive position.
