Norwood Releases 2016 Half Year Results

Achievements during the Half Year

- **World Phone** App successfully launched on both the iOS and Android platforms
- 2.7 million **World Phone** downloads in the period, active users in more than 200 countries and 5100 cities
- Establishment of dual revenue streams, with first **World Phone** and **CORONA** sales recorded during the period
- Continued development of the **World Phone** App and **CORONA** platform
- Implementation of growth strategy including several top-level management appointments to strengthen the Group's corporate and consumer go-to-market teams
- Marketing costs are trending downwards and are now under \$1 per acquired user
- Established strategic partnerships with Booking.com, Stripe and Peppermint Innovation
- Completed two oversubscribed capital raisings, securing a total of \$7.1 million to assist in future growth
- Strong cash position of A\$6.5 million

"Sharing Economy" telecommunications pioneer Norwood Systems Ltd ("Norwood" or "the Company") (ASX: NOR) is pleased to announce its maiden interim financial result for the six months ended 31 December 2015. During this period the Company has made excellent progress on its growth plans, particularly the successful launch of World Phone, the establishment of dual revenue streams, reduction of customer acquisition costs and a strong cash position.

The launch of **World Phone** has been highly successful with 2.7 million **World Phone** downloads recorded at 31 December 2015, with the download trend continuing into the second half. **World Phone** was launched on iOS in July 2015 and Android in November 2015 and since then has active users in more than 200 countries and 5100 cities. World Phone has delivered solid revenue growth for the period and pleasingly Norwood has been reducing its marketing costs, so the cost of acquiring a user is now less than \$1.

CORONA has also been a focus for the Company and a number of enhancements for the platform are already underway. **CORONA** forms an important part of Norwood's growth plans and there is significant upside expected to be delivered by platform enhancements and an invigorated relationship building campaign being led by VP of Sales, Mr Steve Tot, formerly a senior executive with Telstra.

Norwood Systems' CEO and Founder, Paul Ostergaard, commented:

"I am very pleased to present our first interim result as a listed company, after what has been an intense ramp up and growth period for Norwood. The Company has made strong progress on all fronts during this period and is very well positioned to continue this growth into the next reporting period."

Norwood will be releasing a further update on World Phone downloads and revenues this quarter tomorrow on 19 February and on approximately 25 March, after which the Company will move in line with the market standard of quarterly updates for revenue reporting, as per ASX Listing Rule requirements.

The Company also held an online Q&A with shareholders on 17 February, the full transcript of which is available at <http://norwoodsystems.com/investor/ceo-chat/>

Background

Individual travellers, businesses and governments globally are incurring significant international call roaming charges. Informa Telecom estimates that mobile operators today bill more than US\$55 billion annually in roaming charges*, which is forecast to grow to more than \$80 billion by 2018 (source: *Juniper Research report on the Mobile Roaming Market, 2014*).

Norwood Systems' patent-pending cloud service platforms integrate the international fixed phone network with short-haul Voice over Internet Protocol (VoIP) technologies to optimise roaming business travellers' telephony experiences.

Australian businesses and individual business travellers are using Norwood's services today on multiple continents. The Company has built up a significant pipeline of prospects, including global players in the areas of aviation, professional services, banking, telecommunications, engineering and legal services.

About Norwood Systems

Norwood Systems Ltd (ASX: **NOR**) is revolutionizing the 'Sharing Economy' delivery of high-quality telecommunications services for individual business travellers and organisations on a worldwide basis. The Company listed on the ASX on 16 June 2015.

ABOUT NORWOOD SYSTEMS

Norwood Systems Ltd (ASX: NOR) is revolutionising the 'Sharing Economy' delivery of high-quality telecommunications services for individual business travellers and organisations on a worldwide basis. The Company listed on the ASX on 16 June 2015.

Norwood Systems was founded in 2011 to develop and supply the best possible global mobility and roaming solutions using Over the Top (OTT) voice technologies. The Company's breakthrough offerings, **CORONA™** and **World Phone™**, deliver the world's most advanced international fixed-line roaming solutions addressing a broad spectrum of customers, from individual business travellers all the way through to large enterprise and government clients.

CORONA is an award-winning, enterprise-class cloud services platform that integrates compatible mobile devices securely and seamlessly with the organisation's existing Unified Communication or PBX networks, independent of their location.

World Phone was officially launched by the Company in July 2015 and is an award-winning, revolutionary new communications App, delivering effortless "shared economy" consumer access to leading fixed-line network service providers around the world, providing unparalleled local access to high-quality voice networks in more than 90 countries. **World Phone** provides business travellers with lower-cost per-minute calling, clearer audio and novel features such as a frictionless calling experience and easy in-app provisioning of local numbers when travelling.

PRINCIPAL ACTIVITIES

The principal activities during the period included:

- Launch of the World Phone App on both the iOS and Android platforms;
- Continued development of the **World Phone** App and **CORONA** platform;
- Implementation of growth strategy including several top-level management appointments to strengthen the Group's corporate and consumer go-to-market teams; and
- Establishment of dual revenue streams, with first **World Phone** and **CORONA** sales recorded during the period.

REVIEW OF OPERATIONS

Operations - Telecommunications

The half year ended 31 December 2015 has been a period of great progress for Norwood. During this period, the Company launched its **World Phone** App, has grown downloads, increased revenue, strengthened its balance sheet and advanced other product offerings such as the **CORONA** platform.

World Phone was officially launched on the iOS platform in July 2015 and the Android platform in November 2015. By 31 December 2015 cumulative downloads totalled 2.7 million, represented by 1.6 million on the iOS platform and 1.1 million on the Android platform, with active users in more than 200 countries and 5100 cities.

Norwood earns revenue from the portion of the installed **World Phone** user base that converts into making purchases. These may be 'one-off' in nature such as additional calling minutes inside **World Phone** and Booking.com commissions, or subscription revenue – which is primarily comprised of leasing local numbers and plans, such as the ultimate flat rate monthly plan.

Having proven **World Phone** market adoption during the half year, Norwood is now focusing on the following strategic priorities:

- Creating a multi-service App portfolio through the release of two new Apps: **World Message** and **World Wi-Fi**, to support diverse end-user communication needs beyond just voice services;
- Integrating the Company's corporate and end user platforms, **CORONA** and the **World Apps**, to support a true continuum of use cases; from individual use through to SMBs; through to Enterprises; through to Carriers;
- Building a flexible and powerful credit management and monetisation framework to maximise the economic potential of both of the initiatives and Norwood's ongoing services; and
- Considering White Label carrier licensing as a pathway to scale.

Norwood is investing heavily in enhancing its Apps and Services portfolios, as well as setting up new channels to market by:

- Enhancing **CORONA**;
- Expanding the go-to-market focus; and
- Augmenting Telephony service offerings to include Messaging and Data services.

For the coming period, Norwood will also be focused on driving increased revenue generation from the **World Phone** customer base, whilst managing down the acquisition cost of new customers.

Operations - Exploration

At 31 December 2015 the Company continues to hold four permits in Burkina Faso which are under agreement with SEMAFO Inc which grants a working right and option to purchase the permits to a subsidiary of SEMAFO in return for exploration funding and cash payments.

Remaining payments due under the option agreements with SEMAFO are \$US55,000 on 19 March 2016, \$US30,000 on 8 May 2016 and \$US70,000 on 19 March 2017, in addition to exploration spend by SEMAFO on the Burkina permits.

All other Burkina Faso involvements were terminated as at 30 June 2015, allowing the Company to focus on the growth and development of its telecommunications business.

RESULTS

Following the launch of **World Phone** in July, **World Phone** downloads have translated to cumulative revenue of \$270,471 at 31 December 2015. Steady revenue growth was achieved by the Company during the reporting period, which has continued subsequent to period end.

NORWOOD SYSTEMS LTD
ABN 15 062 959 540

The net loss attributable to members of the Group for the half year ended 31 December 2015 amounted to \$9,966,384 (2014: \$675,710). Of the net loss incurred at 31 December 2015:

- Non-cash, share based payment expenses of \$4,366,813 relate to equity instruments issued to employees, directors and advisors of the Company as described in Note 16;
- Sales and marketing expenses of \$2,956,575 relate to overall Company promotion as well as marketing of the Company's products and customer acquisition costs; and
- Research and development expense of \$900,477 relates to **World Phone** and **CORONA** development and enhancements.

At 31 December 2015 Norwood had on hand \$6,503,687 in cash, making the Company well placed to continue expansion activities in 2016.

DIVIDENDS

There were no dividends paid or declared during the year.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Apart from as set out above there have been no significant changes in the state of affairs of the Group that occurred during the financial year not otherwise disclosed in this report or the financial statements.

LIKELY DEVELOPMENTS & EXPECTED RESULTS OF OPERATIONS

Other than as disclosed elsewhere in this report, there are no likely developments in the operations of the Group that were not finalised at the date of this report.

MATTERS SUBSEQUENT TO THE END OF THE PERIOD

No matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Signed in accordance with a resolution of the Directors.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 31 December 2015

NOTE 1: BASIS OF PREPARATION

The half-year financial report is a general purpose financial report prepared in accordance with AASB 134 'Interim Financial Reporting' and the *Corporations Act 2001*.

The half-year financial report does not included all the notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity. The half-year financial report should be read in conjunction with the annual financial report of Norwood Systems Ltd as at 30 June 2015 which was prepared in accordance with the requirements of the *Corporations Act 2001* and applicable Australian Accounting Standards. It is also recommended that the half-year financial report be considered together with any public announcements made by the Company during the period 1 July 2015 to the date of this report in accordance with the continuous disclosure obligations of the ASX Listing Rules.

The financial report is presented in Australian currency.

Going Concern

For the half year ended 31 December 2015 the Group recorded a loss of \$9,966,384 and had net cash outflows from operating activities of \$4,749,721.

While the Group has cash on hand of \$6,503,687 at 31 December 2015, the Group's cashflow forecast for the period ended 31 December 2016 reflects that the Group will require additional working capital through equity over that period in order to meet the Group's stated strategic objectives.

The Directors are satisfied they will be able to raise additional working capital as required and thus it is appropriate to prepare the financial statements on a going concern basis. In arriving at this position the Directors have considered the following matters:

- The completion of an over-subscribed placement to professional and sophisticated investors during the half year to raise \$5,600,000;
- The completion of an over-subscribed Share Purchase Plan prospectus offer during the half year to raise \$1,500,000; and
- The successful launch of the Group's **World Phone** Application during the half year.

In the event the Group is unable to raise additional funds to meet the Group's ongoing working capital requirements, there is a material uncertainty that may cast significant doubt as to whether the Group will be able to meet its debts as and when they fall due and thus continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, nor to the amounts or classification of liabilities that might be necessary should the Group not be able to continue as a going concern.

NOTE 2: BASIS OF ACCOUNTING

The half-year financial report has been prepared on the basis of historical cost, except where stated. For the purpose of preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

The half-year financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

Reverse Acquisition

On 8 June 2015 Norwood Systems Limited acquired 100% of the share capital of Norwood Systems (Aust) Pty Ltd. Under the Australian Accounting Standards Norwood Systems (Aust) Pty Ltd was deemed to be the accounting acquirer in this transaction. The acquisition has been accounted for as a share based payment by which Norwood Systems (Aust) Pty Ltd acquired the net assets and listing status of Norwood Systems Ltd.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 31 December 2015

NOTE 2: BASIS OF ACCOUNTING (CONTINUED)

Accordingly the consolidated financial statements of Norwood Systems Ltd have been prepared as a continuation of the business and operations of Norwood Systems (Aust) Pty Ltd. As the deemed acquirer Norwood Systems (Aust) Pty Ltd has accounted for the acquisition of Norwood Systems Ltd from 8 June 2015.

The implications of the acquisition on the interim financial statements are as follows:

Statement of Profit or Loss and Other Comprehensive Income

- The 31 December 2015 Consolidated Statement of Profit or Loss and Other Comprehensive Income reflects the total comprehensive loss of Norwood Systems Ltd and the total comprehensive loss of Norwood Systems (Aust) Pty Ltd for the period 1 July – 31 December 2015.
- The 31 December 2014 Statement of Profit or Loss and Other Comprehensive Income reflects only the total comprehensive loss of Norwood Systems (Aust) Pty Ltd for the six months ended 31 December 2014.

Statement of Financial Position

NOTE 2: BASIS OF PREPARATION (CONTINUED)

The 31 December 2014 comparatives reflect the equity structure of only Norwood Systems (Aust) Pty Ltd.

Earnings Per Share

The weighted average number of shares outstanding for the six ended 31 December 2015 is based on the weighted average number of shares of Norwood Systems Ltd that are outstanding from 1 July – 31 December 2015.

The 31 December 2014 comparative weighted average number of shares is based on Norwood Systems (Aust) Pty Ltd's historical weighted average number of shares multiplied by the exchange ratio.

Significant Judgements and Key Assumptions

The preparation of financial statements in conformity with AASBs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

Note 16: Share Based Payments

Goods or services received or acquired in a share-based payment transaction are recognised as an increase in equity if the goods or services were received in an equity-settled share-based payment transaction or as a liability if the goods and services were acquired in a cash settled share-based payment transaction.

For equity-settled share-based transactions, goods or services received are measured directly at the fair value of the goods or services received provided this can be estimated reliably. If a reliable estimate cannot be made the value of the goods or services is determined indirectly by reference to the fair value of the equity instrument granted using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

Transactions with employees and others providing similar service are measured by reference to the fair value at grant date of the equity instrument granted using a Black-Scholes option pricing model.

NOTE 3: ADOPTION OF ACCOUNTING POLICIES

Apart from as set out below, the accounting policies applied by the Group in this consolidated interim financial report are the same as those applied by the Group in its consolidated financial report as at and for the year ended 30 June 2015.

Following significant growth and development of the Company and its operations during the six months ended 31 December 2015 the Group has adopted the following accounting policies for the first time during the period:

(a) Foreign Currency Translation

The consolidated financial statements are presented in Australian dollars, which is the functional and presentation currency for Norwood Systems Limited and each of its controlled entities.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 31 December 2015

NOTE 3: ADOPTION OF ACCOUNTING POLICIES (CONTINUED)

(b) Trade and Other Receivables

Trade accounts and other receivables represent the principal amounts due at reporting date less, where applicable, any allowances for doubtful accounts.

Trade receivables are generally due for settlement within 45 days.

(c) Revenue Recognition

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and any criteria specific to the type of sale have been met as set out below. The Group bases its estimates on historical results, the type of transaction, agents' reports, and internal estimates.

Revenue is measured at the fair value of consideration received or receivable.

(i) World Phone Revenue

Revenue from the sale of the Group's **World Phone** Application is recognised in the period in which the services are rendered.

Advance billings to customers give rise to provisions for unearned revenue in respect of services which have not been rendered as at the end of the reporting period. Expenses directly attributable to the unearned revenue are deferred until the revenue is recognised.

Where services are provided by the Group over a fixed period, revenue and corresponding expenses are recognised pro-rata over the service period.

(ii) Advertising Revenue

The Group generates advertising revenue through the promotion of third party services within the World Phone application.

Advertising revenue is recognised in the period in which advertising services are rendered by the Group, to the extent that revenue can be reliably measured and it is probable that future economic benefits will flow to the entity.

(iii) Interest Revenue

Interest revenue is recognised using the effective interest method. It includes the amortisation of any discount or premium.

(iv) Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs for which it is intended to compensate are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

(d) Promotional Minutes

The Group incentivises customers through the issue of promotional minutes.

Promotional minutes issued to customers for downloading or sharing the World Phone application are recognised by the Group as a sales and marketing expense as there is no direct link between promotional minutes issued and revenue generated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 31 December 2015

NOTE 3: ADOPTION OF ACCOUNTING POLICIES (CONTINUED)

Promotional minutes issued to customers for utilising third party services advertised within the World Phone application are recognised by the Group as a cost of sale as these minutes result in the generation of advertising revenue.

Promotional minute expenses are recognised at the time of customer consumption.

NOTE 4: ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

In the half-year ended 31 December 2015, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2015.

It has been determined by the Directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies as a result of the adoption of new and revised accounting standards.

The Directors have reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2015. The Directors have decided against early adoption of any new Standards and Interpretations. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on its business and, therefore, no change is necessary to Group accounting policies as a result of accounting standards issued not yet effective.

NOTE 19: EVENTS OCCURRING AFTER THE REPORTING PERIOD

No matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

NOTE 20: CONTINGENT LIABILITIES

The Group has a contingent liability in respect of promotional minutes issued to and unconsumed by customers as at the reporting date. If the full balance of promotional minutes on issue were to be consumed by customers, the maximum cost to the Group is estimated to be \$210,987. The ultimate cost that will be incurred by the Group, if any, is dependent upon a variety of factors including customer consumption, consumption timing, prevailing USD:AUD exchange rates, and supply agreements.

The Directors are not aware of any other contingent liabilities that may arise from the Group's operations as at 31 December 2015.

DIRECTORS' DECLARATION

The directors of the Group declare that:

- (a) the financial statements comprising the statement of profit or loss and other comprehensive income, statement of financial position, statement of cash flows, statement of changes in equity and accompanying notes, are in accordance with the *Corporations Act 2001* and:
 - i. comply with Accounting Standard AASB 134 Interim Financial Reporting, the Corporations Regulations 2001, and other mandatory professional reporting requirements; and
 - ii. give a true and fair view of the Group's financial position as at 31 December 2015 and of its performance of the half year ended on that date.
- (b) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Norwood Systems Ltd

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Norwood Systems Ltd, which comprises the consolidated statement of financial position as at 31 December 2015, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, notes comprising a statement of accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Norwood Systems Ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Norwood Systems Ltd, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Norwood Systems Ltd is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*

Emphasis of matter

Without modifying our conclusion, we draw attention to Note 1 in the half-year financial report, which indicates that the ability of the consolidated entity to continue as a going concern is dependent upon the future successful raising of necessary funding through equity. These conditions, along with other matters as set out in Note 1, indicate the existence of a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business.
