Notes to the Consolidated Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Corporate information

The financial report of Sterling Plantations Limited for the period ended 31 December 2015 was authorised for issue in accordance with a resolution of the directors on the date of approval of the Directors' Report.

Sterling Plantations Limited is a company limited by shares, incorporated in Australia, whose shares are publicly traded on the Australian Stock Exchange.

The nature of the operations and principal activities of the Group are described in the Directors' Report.

Basis of preparation

This interim condensed financial report for the half-year ended 31 December 2015 has been prepared in accordance with AASB 134 "Interim Financial Reporting" and the Corporations Act 2001.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial report.

It is recommended that the half-year financial report be read in conjunction with the annual financial report of Sterling Plantations Limited as at 30 June 2015 and considered together with any public announcements made by Sterling Plantations Limited during the half-year ended 31 December 2015 in accordance with the continuous disclosure obligations of the ASX listing rules.

The preparation of the interim financial report requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this consolidated interim financial report the significant judgments made by management in applying the Group's accounting policies and the sources of estimation and uncertainty were the same as those that applied to the consolidated financial report as at the year ended 30 June 2015.

The accounting policies applied by the economic consolidated entity in this consolidated financial report are the same as those applied by the economic consolidated entity in its consolidated financial report as at and for the year ended 30 June 2015.

New and amended accounting standards and interpretations

Since 1 July 2015, the Group has adopted all accounting standards and interpretations, mandatory for financial reporting periods beginning on or after 1 July 2015. Adoption of these Standards and Interpretations did not have any material effect on the financial position or performance of the Group.

The Group has not elected to early adopt any new standards or amendments.

The same accounting policies and methods of computation have generally been followed in these halfyear financial statements as compared with the most recent annual financial statements.

Going Concern

During the half-year ended 31 December 2015, the Group incurred a consolidated loss after income tax of \$6.248 million and a net cash outflow from operation of \$1.909 million, and cash on hand of \$1.047 million.

The half-year financial report has been prepared on the basis the Group will continue to meet their commitments and can therefore continue normal business activities and realise assets and settle of liabilities in the ordinary course of business.

In arriving at this position, the directors are reviewing various funding alternatives including:

- equity raising
- debt raising; and
- sale of selected non-core assets

The directors believe that at the date of signing the financial report there are reasonable grounds to believe that having regard to matters set out above, the Group will be able to raise sufficient funds to meet its obligations as and when they fall due.

Should the Group not raise the necessary funding through debt or equity, sale of selected non-core assets and achieve positive operating cashflows as the plantation matures, there would be material uncertainty that casts significant doubt as to whether the consolidated entity would be able to meet its debts as and when they fall due and thus continue as a going concern.

These consolidated financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount of liabilities that might result should the group be unable to continue as a going concern.

13. FAIR VALUES

The methods for estimating fair value are outlined below. The fair value of other financial assets and liabilities approximate their carrying values as disclosed in the financial statements.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 : quoted (unadjusted) prices in active markets for identical assets and liabilities.
- Level 2 : other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3 : techniques that use inputs that have significant effect on the recorded fair value that are not based on observable market data.
- a) Fair Value Measurement

The following table sets out the group's assets and liabilities that are measured and recognised at fair value at 30 June 2015 as required by AASB 13.93 (a) and (b).

31 December 2015	Level 1	Level 2	Level 3	Total
Recurring fair value measurements Financial assets: Investment in shares and others Non-financial assets: Biological assets	13	-	- 25,110	13 25,110

Financial liabilities: Growers Scheme Liability - Current Growers Scheme Liability - Non Current	-	-	25,110 6,386 59,032	25,123 6,386 59,032
Total financial liabilities	-	-	65,418	65,418

Recurring fair value measurements Financial assets: Investment in shares and others Non-financial assets:		Level 2 - -	Level 3	Total 468
Recurring fair value measurements Financial assets: Investment in shares and others Non-financial assets: Biological assets	468	Level 2 - - -	Level 3 - 28,951	Total 468 28,951

There have been no transfers between Level 1 and Level 2 recurring fair value measurements during the year.

The group's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred.

13. FAIR VALUES (CONT'D)

a) Fair Value Measurement (cont'd)

Valuation processes applied by the Group for Level 3 fair values

(i) Growers Scheme Liability

The liability represents the amount received from growers under the Golden Palm Growers Scheme ("the Scheme") for which a subsidiary is obligated to pay an annual net yield over the duration of the Scheme. During the First Phase (being the first 6 years), the guaranteed yield is 6% per annum. During the Second Phase (years 7 - 23), the yield will be the higher of plantation profit attributable to a quarter acre of the plantation and a specified amount (maximum 9% of the grower's fee) calculated with reference to the crude palm oil price.

The subsidiary has certain obligations to repurchase grower plots at the request of the grower. This repurchase obligation is subject to certain provisions as provided in the agreement with a grower (refer <u>www.sterlingplantations.com</u>) which includes inter-alia requirement for submission of proper repurchase documents, annual repurchase limits, timing of payment, repurchase price etc.

At the closure or expiry of the Scheme, the subsidiary is required to refund a grower its proportionate share of the net sale proceeds of the concession in accordance with terms as stated in the relevant agreement with growers.

These terms include amongst others, minimum notice period to growers, conditions for voluntary closure of the scheme, timing and procedures for the sale as well as timing of payment of net proceeds received from sale.

In the event of the refund to a grower of its proportionate share of net sale proceeds of the concession, the subsidiary will not be required to repay the growers fees.

b) Reconciliation: Level 3 recurring fair value measurements

Growers Scheme Liability

	31 December 2015 \$'000	30 June 2015 \$'000
Carrying amount at beginning of year	70,599	67,740
Growers fees received	-	80
Change in fair value	1	(12)
Effect of foreign exchange	(5,182)	2,791
Carrying amount at end of year	65,418	70,599

The Group recorded gains and losses in the statement of profit and loss and other comprehensive income with respect to Level 3 financial instruments.

The valuation techniques and significant unobservable inputs used in determining the fair value measurement of Level 3 financial instruments as well as the relationship between key unobservable inputs and fair value, is detailed in the table below.

13. FAIR VALUES (CONT'D)

c) Valuation techniques

Financial instrument	Valuation technique used	Significant unobservable inputs		Inter-relationship between key unobservable inputs and fair value
<u>Non-Financial</u> <u>assets</u> Biological assets	Discounted cash flows method and cost comparison method.	(a)	Discount rate (9%);	The higher the discount rate, the lower the fair value of the biological assets would be.
		(b)	Average FFB production ranges from a minimum yield of 6 metric tonnes per hectare to a maximum of 28 metric tonnes per hectare;	The higher the palm oil yield, the higher the fair value.
		(c)	Average price of FFB at AUD160 per metric tonne;	The higher the market price, the higher the fair value.

In addition, the following underlying assumptions were used to measure the Company's biological assets:

- (i) No new replanting or replanting activities are assumed; and
- (ii) Oil palm trees have an average life of 25 years.

Financial instrument	Valuation technique used	Significant unobservable inputs		Inter-relationship between key unobservable inputs and fair value
Financial liabilities Growers fees	Discounted cash flows method	(i)	Net yield of 6% (first phase)	The higher the net yield interest rate, the higher the fair value of growers fees would be.
		(ii)	Net yield of 9% (second phase)	

In addition, the following underlying assumption was used to determine the fair value of the growers fees:

(i) Net sales proceeds at the end of the Scheme amounts to the initial contribution made by the growers.

14. DIVIDENDS PAID AND PROPOSED

The Company did not declare a dividend during the half-year ended 31 December 2015 (2014: nil).

15. OPERATING SEGMENTS

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the executive management team (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the nature of the business, product to be produced and type of land development. Discrete financial information about each of these operating businesses is reported to management.

The reportable segments are based on aggregated operating segments determined by the similarity of the products produced and sold and/or the services provided, as these are the sources of the Group's major risks and have the most effect on the rates of return.

Types of products and services

Oil palm

Oil palm business is a producer and supplier of fresh fruit bunches (FFB) for palm oil industrial markets. The oil palm business has been determined as both an operating segment and reportable segment.

Accounting policies and inter-segment transactions

The accounting policies used by the Group in reporting segments internally are the same as those contained in note 1 to the accounts and in the prior period.

It is the Group's policy that if items of revenue and expense are not allocated to operating segments then any associated assets and liabilities are also not allocated to the segments. This is to avoid asymmetrical allocations within segments which management believe would be inconsistent.

Corporate charges such as head office expenses and interest are not allocated to operating segments as they are not considered part of the core operations of any segment:

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Sterling Plantations Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Sterling Plantations Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Sterling Plantations Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations Regulations 2001.

Emphasis of matter

Without modifying our conclusion, we draw attention to Note 1 in the half-year financial report, which describes the principle conditions that raise doubt about the consolidated entity's ability to continue as a going concern. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business.
