$$U_3 = \left(\frac{3S}{2} \right) \left[\frac{0.4(p - y) + 0.5(q - p)}{R - y} \right]$$

If an Exit by way of IPO occurs on or before 30 June 2013 in connection with which the Option Holder and its Affiliates are required to retain any of their securities in the Company, then the number of Ordinary Shares to be transferred to the holders of the B units on the Exit is calculated:

- (a) as per paragraph 12 above but only in respect of that proportion of the Option Holder's Shares retained by the Option Holder; and
- (b) as per paragraph 12 above in respect of that proportion of the Option Holder's Shares transferred to the transferee(s) except on the basis that:

$$U_3 = \left(\frac{3S}{2} \right) \left[\frac{0.4(p - y) + 0.5(q - p)}{R - y} \right]$$

If the Option Holder disposes of some (but not all) of its Shares before the Escrow Release Date then the number of Ordinary Shares to be transferred to the holder of the B units on the Escrow Release Date is calculated:

- (a) as per paragraph 12 above but only in respect of that proportion of the Option Holder's Shares retained by the Option Holder; and
- (b) as per paragraph 12 above in respect of that proportion of the Option Holder's Shares transferred to the transferee(s) except on the basis that:

$$U_3 = \left(\frac{3S}{2} \right) \left[\frac{0.4(p - y) + 0.5(q - p)}{R - y} \right]$$

14. If any Rescue Financing has been carried out in accordance with the terms of the Shareholders Deed and the Option Holder does not participate in that Rescue Financing pro rata to its holding of Ordinary Shares at the time of the Rescue Financing then the number of Ordinary Shares to be distributed to the holder of the B units on the Escrow Release Date is the number calculated as per paragraph 12 or 13 above multiplied by the fraction equal to the percentage of Ordinary Shares held by the Option Holder following the Rescue Financing divided by 40%.
15. The number of Ordinary Shares to be transferred to the holder of A units following the Escrow Release Date is

$$\left(\frac{S}{2} \right) - U$$

- where *U* is equal to the number of Ordinary Shares transferred to the holder of B Units in accordance with paragraph 5 plus the number of Ordinary Shares to be transferred to the holder of B Units in accordance with paragraph 11 and each other variable has the same definition as that set out in paragraph 12 above.
16. For the purposes of paragraph 12, Total Proceeds must be determined in accordance with paragraph 2 of Schedule 2 of the Call Option Deed.
17. If EV Holdco is required to enter into an escrow arrangement in respect of any of its shares in the Company in an Exit by way of IPO, the Shares held as part of the trust property following completion of the IPO can be the subject of that escrow arrangement.
18. UBS and EV Holdco to share fees and expenses of Trustee 50/50.
- B. Terms of Warrants**
1. Exercisable immediately prior to completion of the Exit.
2. On exercise, the Company must issue to the Trustee 0.55 Ordinary Shares, where 5 is the aggregate number of shares which are held by the Investor and the Option Holder immediately before the Exit, to be held by the Trustee subject to the terms of the Trust.
3. All accretions, rights or benefits (including distributions and dividends or rights to subscribe for securities) of whatever kind attaching to the Ordinary Shares held by the Trustee subject to the terms of the Trust will be held subject to the terms of the Trust and distributed among holders of A units and B units following the Escrow Release Date in the same proportion as the Ordinary Shares are distributed to holders of A units and B units following the Escrow Release Date. If the Trustee holds such accretions, rights and benefits as at 30 June in any year then the holders of A units and the holders of B units will be taken to be presently entitled to those accretions, rights and benefits in the proportions that they would have been entitled had the Trustee distributed all property subject to the Trust on that date in accordance with paragraph 11 and based on the Total Proceeds that would have been calculated had the Escrow Release Date been that date.
4. If in connection with any Exit, EV Holdco exchanges Ordinary Shares in the Company for securities in any related body corporate of the Company or any special purpose vehicle established for the purpose of an IPO of all or substantially all of the Group's business, then the parties must cause the relevant company to issue warrants on equivalent terms as set out in this Schedule 5 so that the parties achieve the same economic outcome as would have been achieved under this Schedule 5 had such reorganisation not taken place.
5. To include other mechanical provisions customary for options/warrants over unissued shares.
