

ASX Release

NEXTDC's Sydney (S1) and Melbourne (M1) achieve ISO 27001: 2005 certification

BRISBANE, Aust. – July 7, 2014. NEXTDC Limited (ASX:NXT) ("NEXTDC" or "the Company") is pleased to announce that the Company has achieved ISO 27001: 2005 information security management system certification for the operations and maintenance of its Sydney (S1) and Melbourne (M1) data centres as supported by the Brisbane head office.

The certification confirms that NEXTDC has implemented an information security management system that provides a systematic approach to risk management and the protection of sensitive company information.

Craig Scroggie, CEO, said, "This is a great achievement for a young business and required a substantial commitment over the last 18 months to achieve this global best practice certification. The certification demonstrates our commitment to continuous improvement and standards that meet the contractual requirements of both domestic and international customers who demand the highest global information security standards."
