## **JUNE 2014 QUARTERLY ACTIVITIES REPORT**

### **HIGHLIGHTS**

- **Work continues on compiling results from previous exploration at Yeuralba.**
- **Another site visit completed with several interested parties and negotiations continue with several parties interested in investment in OUM and the Company's projects**

During the quarter ending 30<sup>th</sup> June 2014 the following work was commenced, continued or carried out:-

**1. YEURALBA REPORT DATA GATHERING CONTINUES**

Advances have been made in obtaining, reading and compiling some of the voluminous data from previous exploration programmes that were carried out in the Yeuralba area. While not all available reports have yet been obtained, work is proceeding and further announcements are contemplated.

**2. INVESTORS INTERESTED IN OUM**

Discussions continued with a number of parties interested in investing in the Company and/or its encouraging projects, either by providing funds for exploration, or by purchase of some or all of the Company's assets or similar. Further site visits are planned by interested parties to OUM's projects soon.

In addition, OUM continues to look for and assess new mineral acquisition opportunities with the aim of acquisition by OUM.

**3. CAPITAL RAISING**

Preparation of documents commenced during the period for a capital raising. This capital raising is important to OUM so the Company can continue with its activities going forward.

**4. SHAREHOLDER AND INVESTOR CONTACT DETAILS**

The Company asks for all shareholders and other parties interested in the Company to provide it with their current contact details, in particular contact telephone numbers and email addresses. Provision of an email address will enable shareholders to receive ASX releases and important Company updates automatically and Company information expediently and assist the Company to make cost savings.
