Important Information

Disclaimer

This presentation may contain certain statements and projections provided by or on behalf of Orbis Gold Limited (Orbis) with respect to the anticipated future undertakings. These forward-looking statements reflect various assumptions by or on behalf of Orbis. Accordingly, these statements are subject to significant business, economic and competitive uncertainties and contingencies associated with exploration and/or mining which may be beyond the control of Orbis which could cause actual results or trends to differ materially, including but not limited to price fluctuations, exploration results, reserve and resource estimation, environmental risks, physical risks, legislative and regulatory changes, political risks, project delay or advancement, ability to meet funding requirements, factors relating to property title, native title and aboriginal heritage issues, dependence on key personnel, share price volatility, approvals and cost estimates. Accordingly, there can be no assurance that such statements and projections will be realised. Orbis makes no representations as to the accuracy or completeness of any such statement of projections or that any forecasts will be achieved.

Additionally, Orbis makes no representation or warranty, express or implied, in relation to, and no responsibility or liability is or will be accepted by Orbis or by any of their respective officers, directors, shareholders, partners, employees, or advisers as to or in relation to the accuracy or completeness of the information, statements, opinions or matters (express or implied) arising out of, contained in or derived from this presentation or any omission from this presentation or of any other written or oral information or opinions provided now or in the future to any interested party or its advisers. In furnishing this presentation, Orbis undertakes no obligation to provide any additional or updated information whether as a result of new information, future events or results or otherwise.

Nothing in this material should be construed as either an offer to sell or a solicitation of an offer to buy or sell securities. It does not include all available information and should not be used in isolation as a basis to invest in Orbis Gold Limited.

This presentation is not a prospectus and does not constitute or form part of any offer, invitation or recommendation in respect of securities, or an offer, invitation, recommendation to sell, or a solicitation of any offer to buy, securities in the United States or to, or for the account or benefit of, any person in the United States, or in any other jurisdiction in which, or to any person to whom, such an offer would be illegal. No action has been or will be taken to register, qualify or otherwise permit a public offering of the securities in any jurisdiction. New shares and options in Orbis Gold Limited have not been, nor will be, registered under the U.S. Securities Act of 1933 (U.S. Securities Act) or the securities laws of any state or other jurisdiction of the United States. Accordingly, new shares and options in Orbis Gold Limited may not be offered or sold, directly or indirectly, in the United States, unless they have been registered under the U.S. Securities Act, or are offered and sold in a transaction exempt from, or not subject to, the regulation requirements of the U.S. Securities Act and any other applicable securities laws. The distribution of this presentation outside Australia may be restricted by law and any such restrictions should be observed. This Presentation may not be publically released or distributed in the United States.

Orbis Gold: Primed for Growth

Multiple high grade gold projects in West Africa

- › Pre-development assets: Natougou and Nabanga
- › Advanced exploration targets: Bantou, Tankoro & Safia
- › Total Mineral Resources 2.6Mozs @ 4.1g/t ⁽¹⁾

Proven team building a project pipeline

- › Established Burkina Faso portfolio in 2010
- › Successful exploration campaigns / development studies advancing

Burkina Faso: a proven mining-friendly jurisdiction

- › Seven new gold mines in seven years: fast growing producer
- › Supportive Government with established Mining Code

Clear path to deliver shareholder returns

- › Natougou moving towards development phase
- › Opportunities for resource growth / new gold discoveries

Multiple High Grade Gold Projects

Natougou

- › Potential large-scale low cost gold mine
- › **2.0Mozs / 3.4g/t Au⁽¹⁾**
(Total Mineral Resource)
- › Development feasibility study in progress

Nabanga

- › High grade quartz lode deposit
- › **0.57Mozs / 10g/t Au⁽²⁾**
(Inferred Mineral Resource)
- › Internal scoping study in progress
(combined open pit and underground mine)

Exploration

- › ~2,700km² permit area
- › **Bantou discovery**
- 11m @ 11.73g/t Au
- 8m @ 80.32g/t
- › **Tankoro discovery**
(multiple new gold mineralised structures defined)

West Africa: A World Class Gold Province

West Africa remains a gold industry hotspot

- › +70 deposits over 1Mozs
- › Production +7Mozs pa
- › Significant representation of international companies
- › Recent M&A and corporate activity reflects ongoing interest in the region
- › Ampella Mining and Papillion Resources acquisitions

Burkina Faso: Mining-Friendly Jurisdiction

Burkina Faso is growing fast

- › Seven mines in seven years
- › 4th largest gold producer in Africa
- › Highly supportive Government
- › Modern transparent Mining Code
- › Clear tax/fiscal regime
- › Numerous precedents for mine permitting, financing and commissioning
- › Mining Journal 2012 “Country of the Year” Award

Corporate Overview

Capital Structure

> Managing Director	Peter Spiers
> Non-executive Director	Kevin Tomlinson
> Non-executive Director	Nicholas Mather
> Non-executive Director	Michele Muscillo

Multiple High Grade Gold Projects

Natougou: Priority Development Asset

Near-Surface, High Grade Gold Deposit

- › Total Mineral Resource - 2.0Mozs @ 3.4g/t Au ⁽¹⁾
- › Simple metallurgy (conventional CIL)
- › Simple shallow, open-pit operation

Potential Low Cost, High Margin Operation

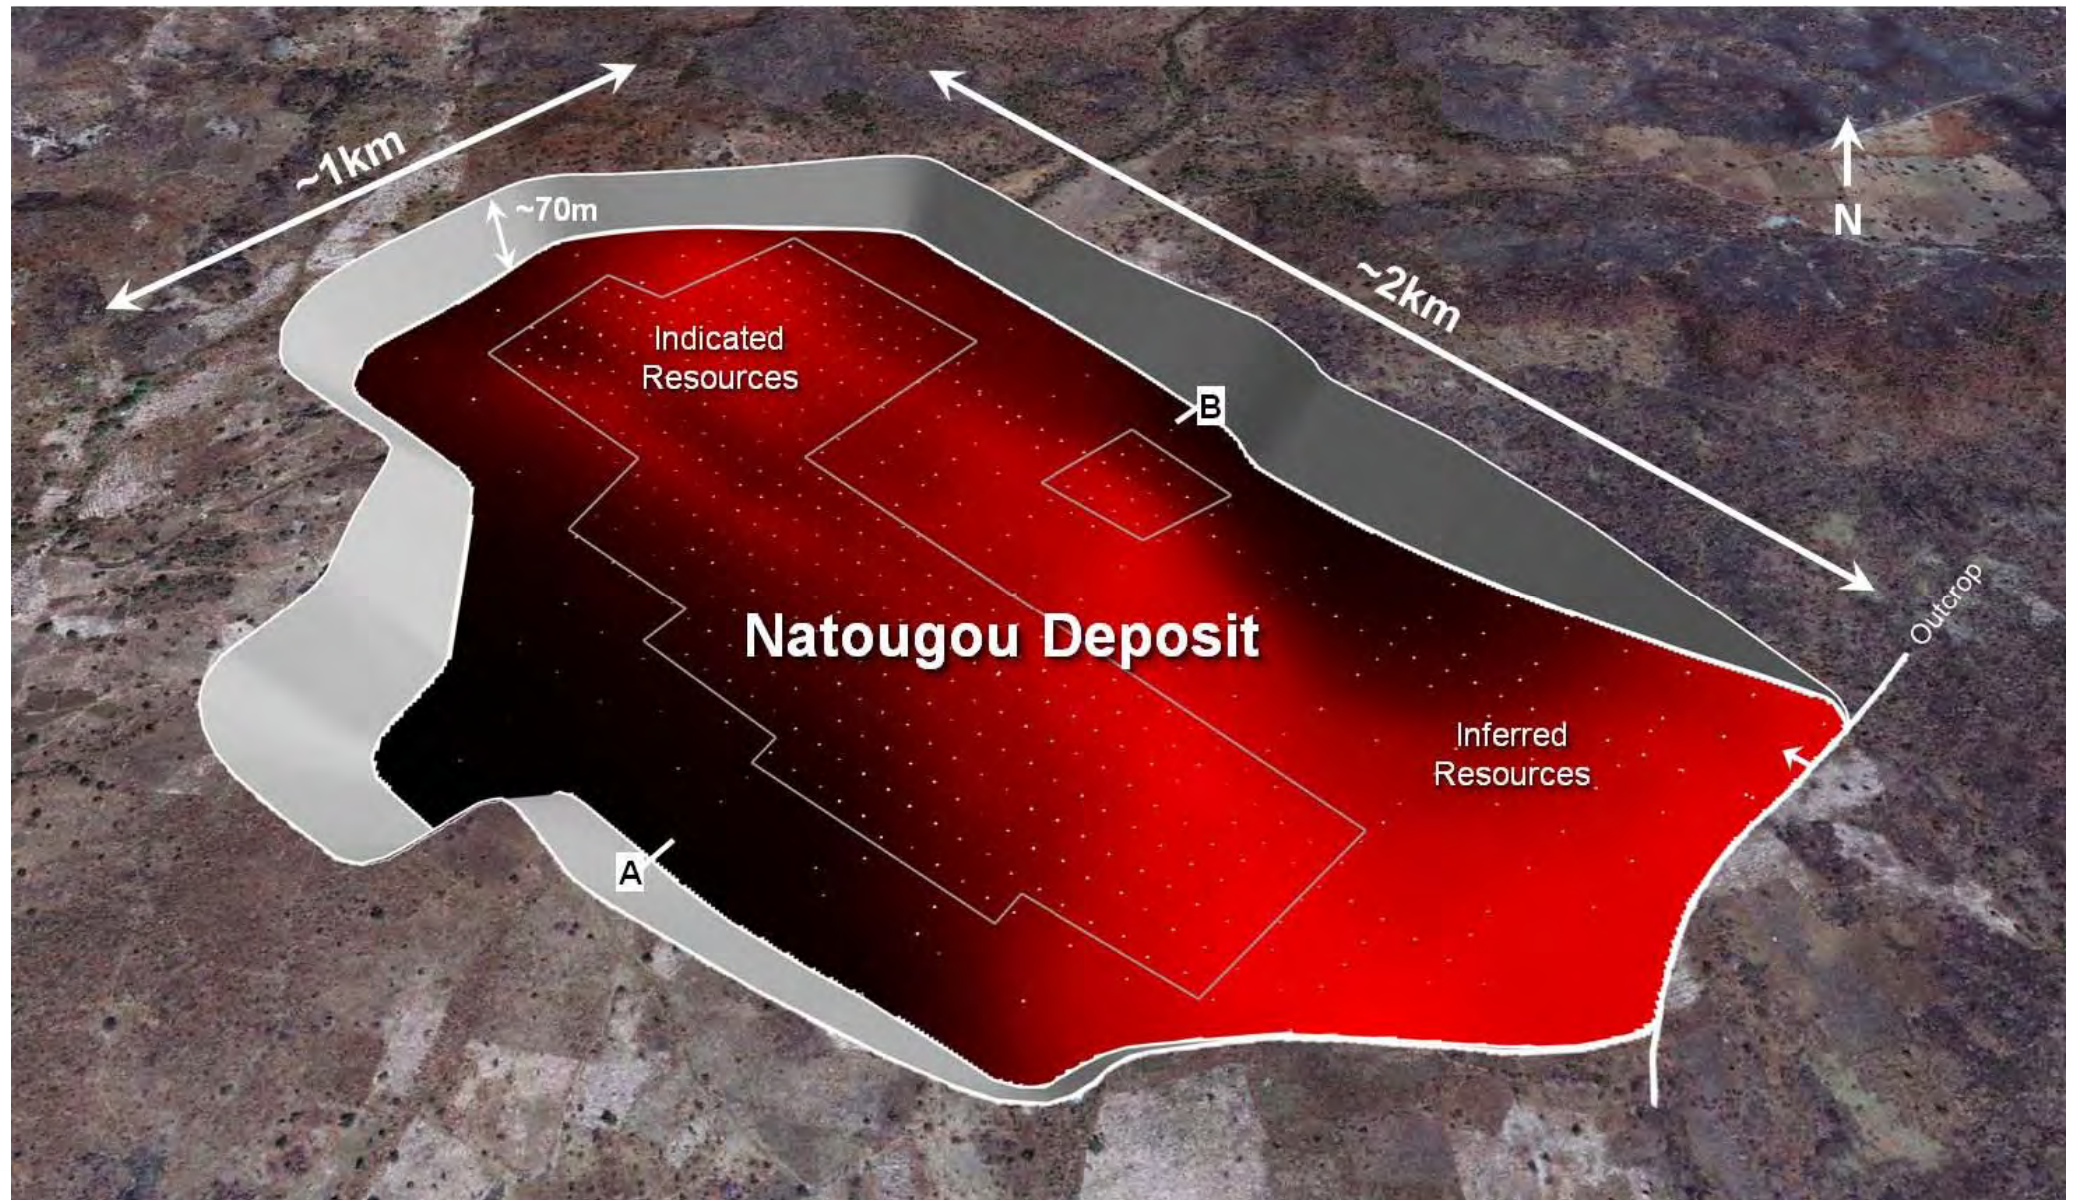

- › Scoping Study completed October 2013
 - › NPV₁₀ US\$356m / IRR 60%
 - › Production 213kozs pa
- › **Definitive Feasibility Study commenced**

Significant Exploration Potential

- › Step-out drill targets
- › Large-scale soil anomaly / 770km² permit area

Natougou: Large-scale near-surface gold deposit

Natougou: High Grade / Simple Geometry

Natougou Mineral Resource (updated August 2014)

Category	Tonnes	Grade	Ounces
Indicated ⁽¹⁾	7.1 Mt	5.1g/t Au	1.2 Mozs
Inferred ⁽¹⁾	11 Mt	2.3g/t Au	0.8 Mozs
Total⁽¹⁾	18 Mt	3.4g/t Au	2.0 Mozs

Natougou: Scoping Study Completed October 2013

Mining	
Total Mill Feed	12.5Mt @ 3.51g/t Au for 1.41Mozs gold
Strip Ratio	13.2 : 1 (11.8 : 1 after pre-strip)
Processing	
Flow Sheet	2Mtpa / Conventional CIL circuit
Gold Recovery	94%
Mine Life	6.2 yrs
Gold Production (LOM average)	213kozs pa

Natougou Financial KPI's (2Mtpa case / US\$1,300/oz gold price)	
Capex (pre-production)	US\$233m
Cash Operating Cost	US\$538/oz
All-in Sustaining Cash Cost ⁽²⁾	US\$634/oz
Payback	1.4 yrs
Total Free Cashflow (after tax / capex)	US\$560m

Natougou: Robust Economics

Sensitivity Analysis (2Mtpa Case)	Gold Price		
	US\$1,000/oz	US\$1,300/oz	US\$1,600/oz
Cashflow (after tax)	US\$246m	US\$560m	US\$857m
NPV₁₀ (after tax)	US\$125m	US\$356m	US\$574m
IRR (after tax)	29%	60%	87%

(Financial KPI's presented on an after tax after capex basis)

Cautionary Statement: Natougou Production Targets

The Company advises the Natougou Scoping Study results and production targets reflected in this presentation are preliminary in nature as conclusions are drawn partly from Indicated Mineral Resources and Inferred Mineral Resources.

The Natougou Scoping Study is based on lower level technical and economic assessments, and is insufficient to support estimation of Ore Reserves or to provide assurance of an economic development case at this stage, or to provide certainty that the conclusions of the Scoping Study will be realised.

There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production target itself will be realised.

Natougou: Definitive Feasibility Study (DFS)

DFS is being led by experienced Orbis staff with significant input from specialist consultants:

Andrew Skalski
Project Manager
(BSc Extractive Metallurgy)

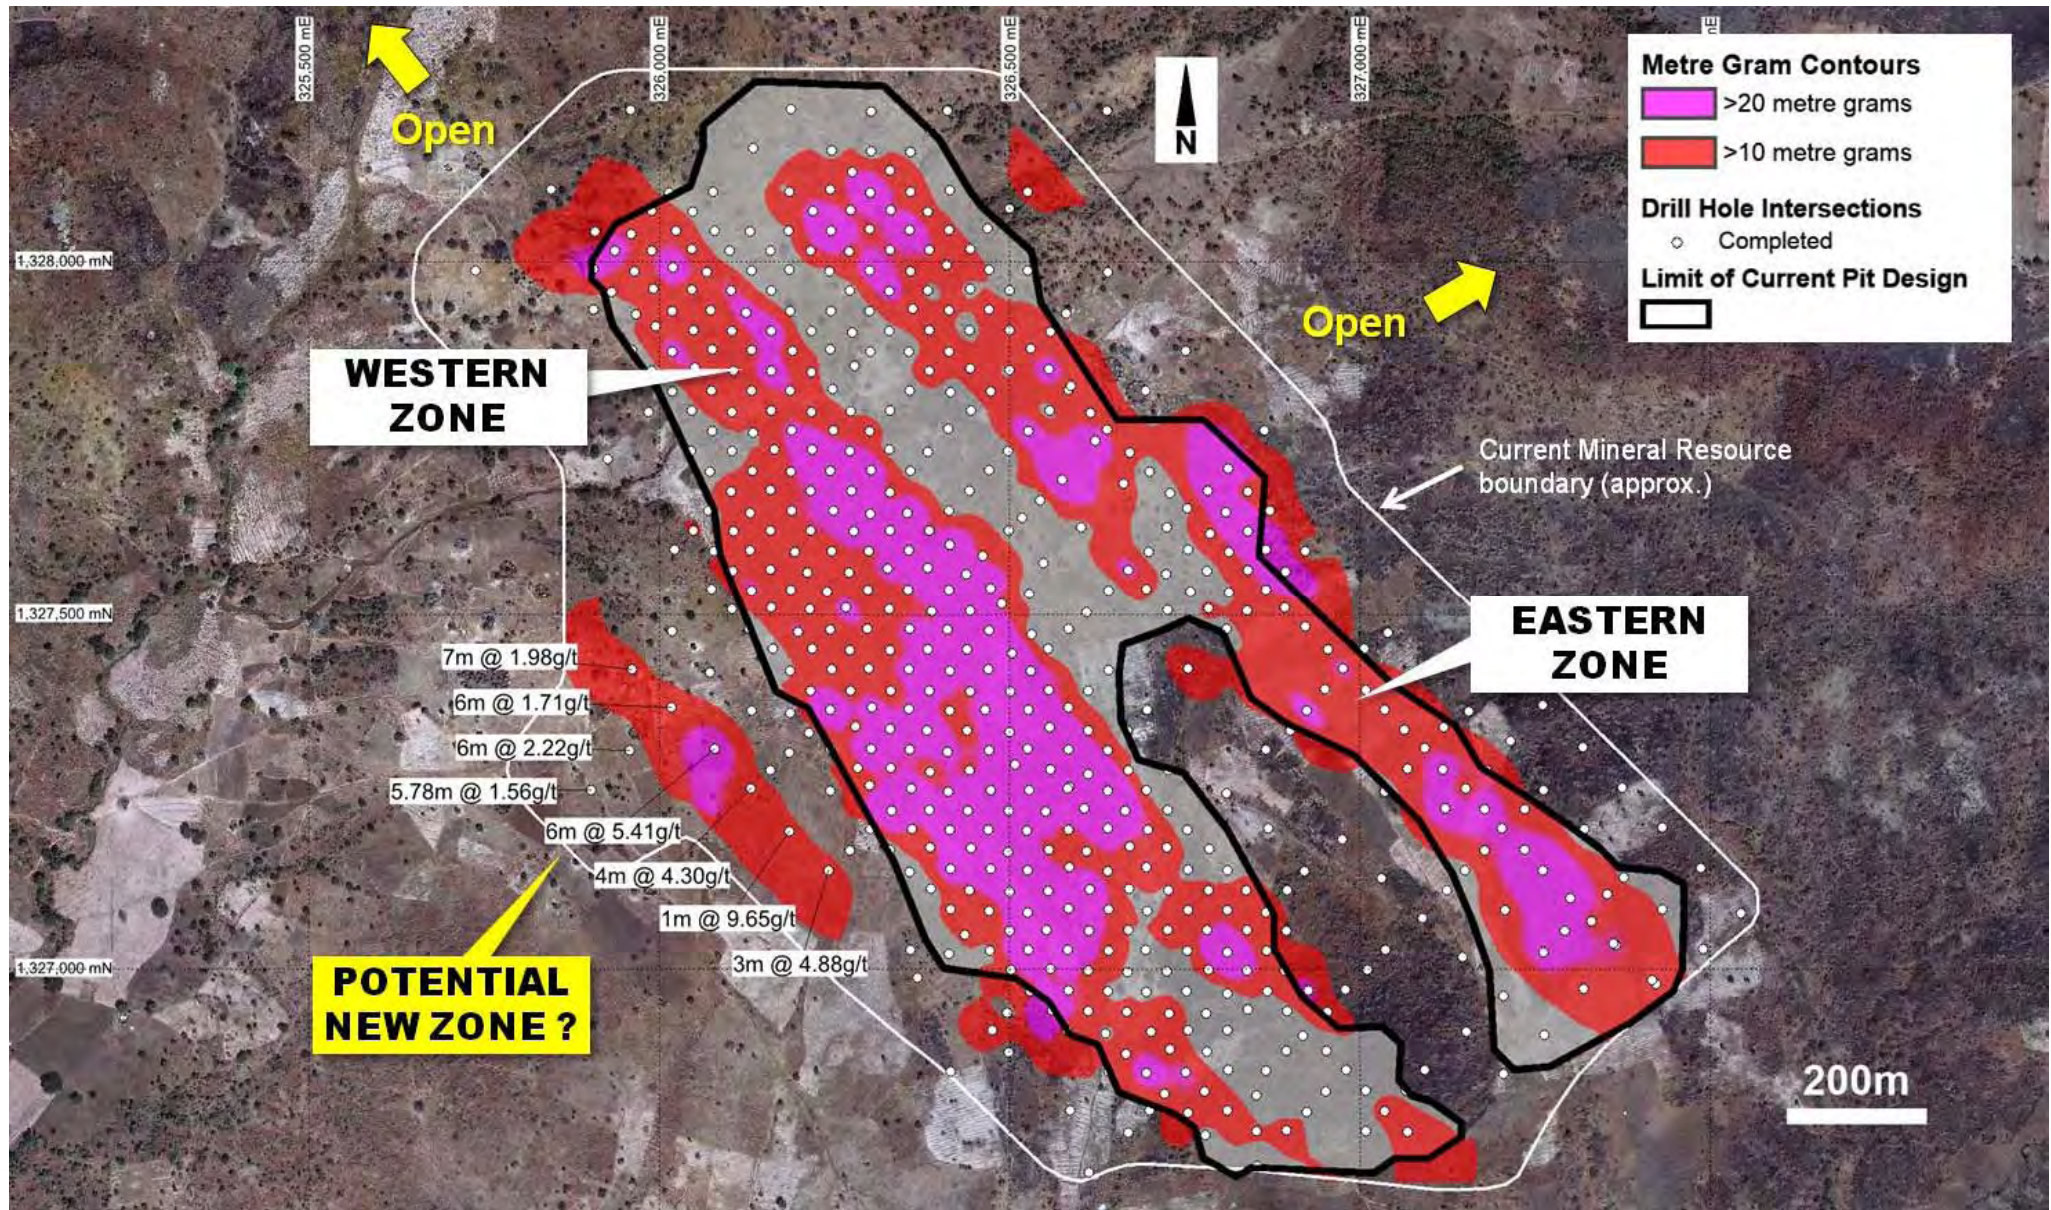

Jennifer Gunter
Sustainability Manager
(BSc Geol. / M. Env. Eng. Management)

Specialist Consultants:

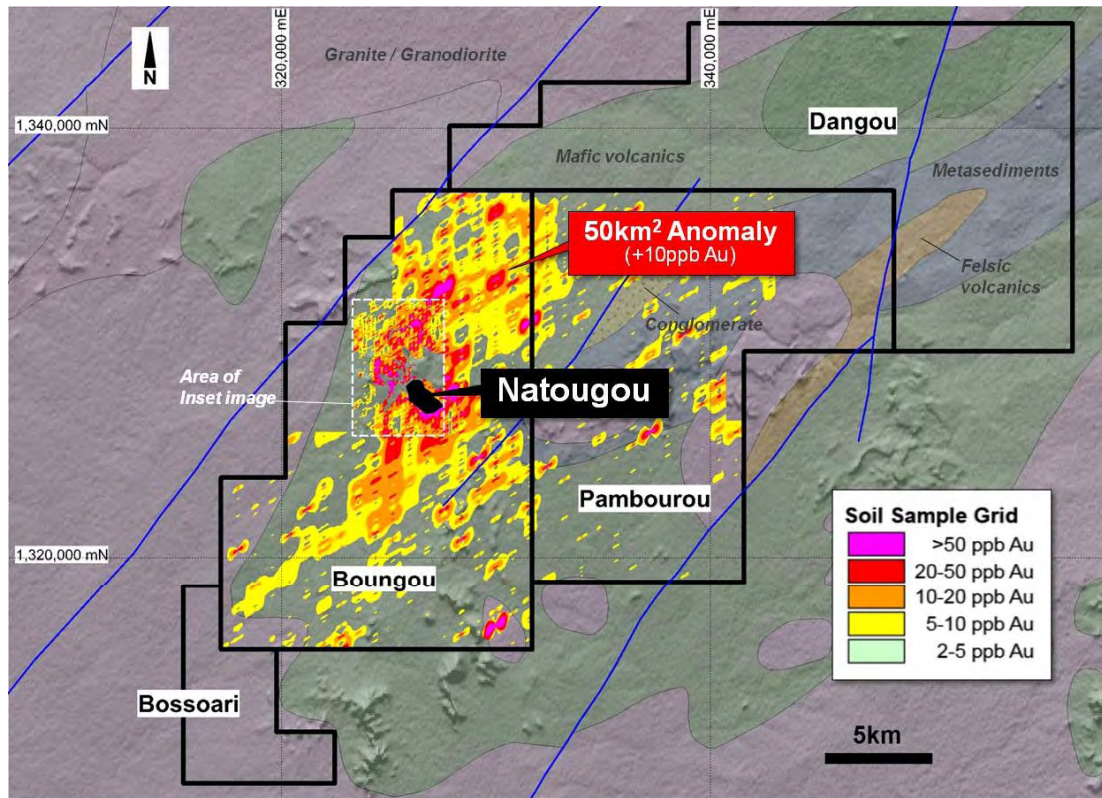

DFS scheduled for completion mid-2015

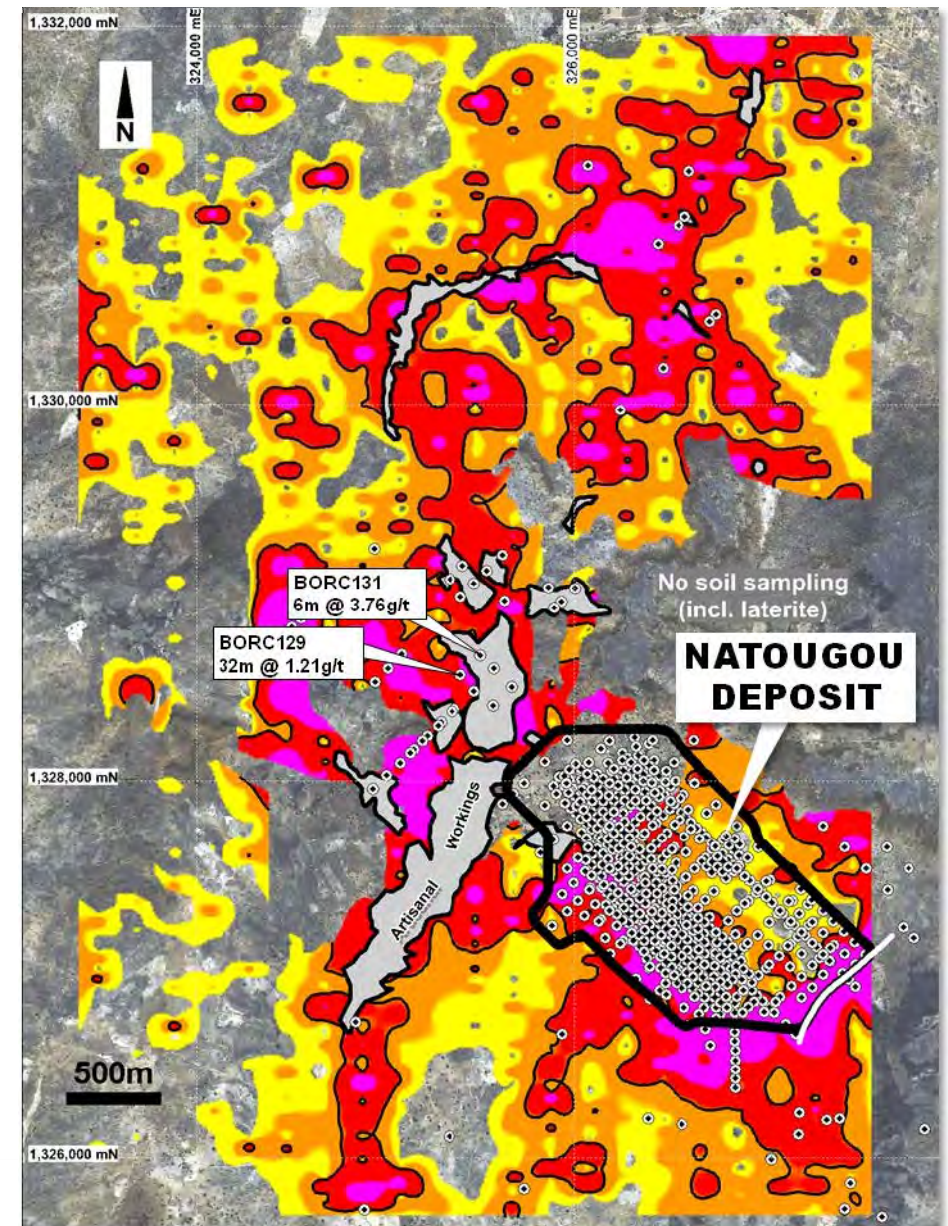

Natougou: Step-Out Targets / Potential New Zone

Natougou: Regional Exploration Targets

- › Extensive gold-in-soil anomalies (7km x up to 4km @ +20ppb Au)
- › Multiple gold “trends”
- › Multiple step-out drill targets
- › 770km² permit area

Multiple High Grade Gold Projects - Nabanga

Nabanga: Pre-Development Asset

- › **One of the highest grade gold deposits discovered to date in West Africa**
- › Total Mineral Resource: 0.57Moz @ 10g/t Au⁽¹⁾
- › Quartz vein-associated gold deposit
- › Internal scoping study in progress
- › Scoping study is assessing combined open pit and underground development project, targeting:
 - mill throughput: 0.2-0.3Mtpa
 - mine life: >10 years
 - gold production: 50 - 60kozs pa
 - cash costs: <US\$600/oz

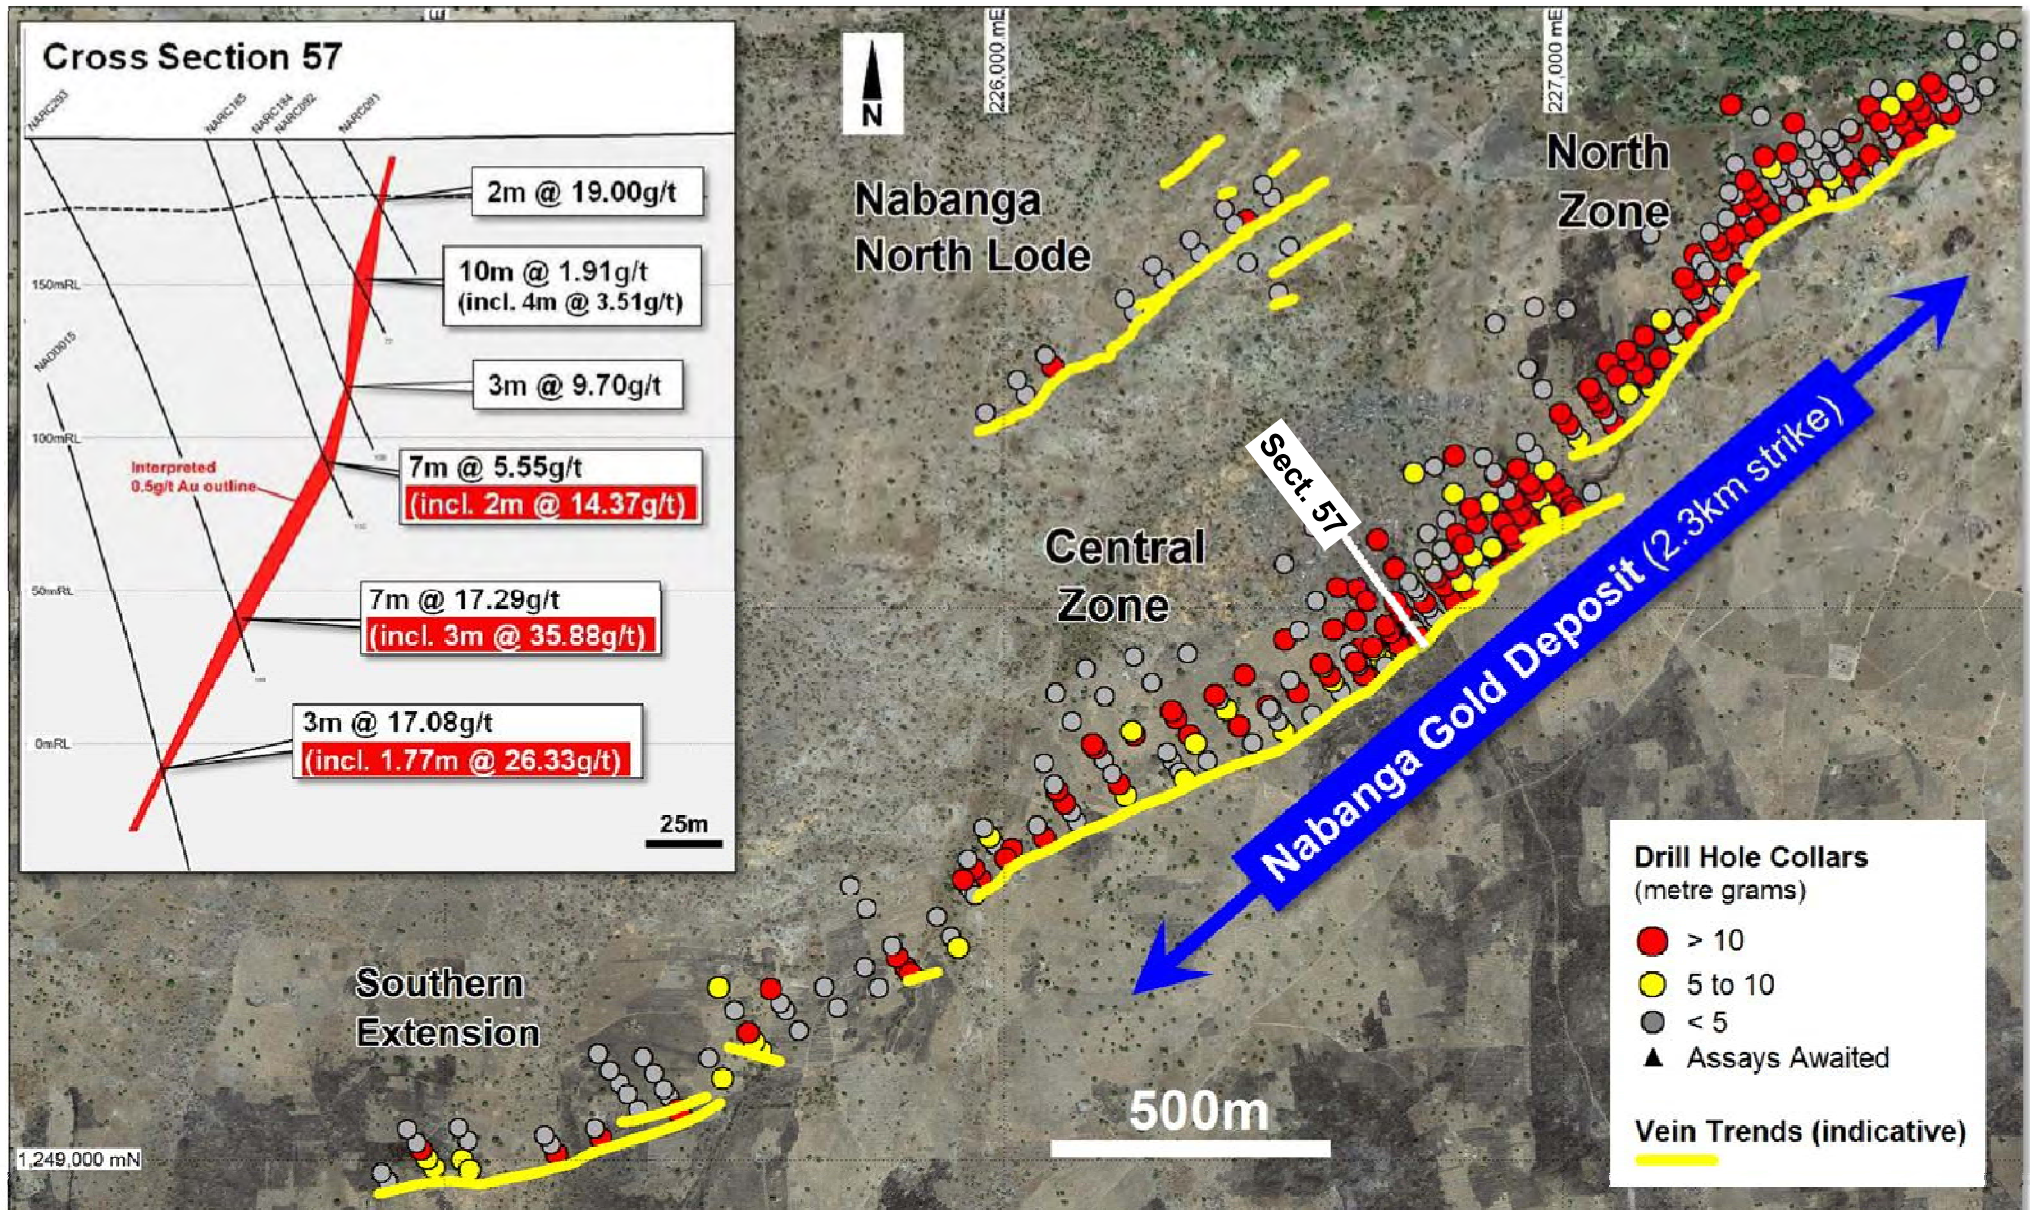

Nabanga: A High Grade Gold System

“Intrusion-related” gold deposit – granodiorite host and Au-Ag-Te +/- Bi assemblage

Hole ID	Intersections ⁽¹⁾	From (m)
NARC091	2m @ 19.00g/t	24
NARC100	3m @ 20.49g/t	72
NARC114	10m @ 17.70g/t	51

NARC254	6m @ 11.21g/t	145
NARC293	7m @ 17.29g/t	169
NARC300	11m @ 10.52g/t	114
NARC319	3m @ 22.65g/t	78
NARC323	8m @ 18.13g/t	116
NARC327	3m @ 34.75g/t	172
NARC330	10m @ 32.90g/t	167

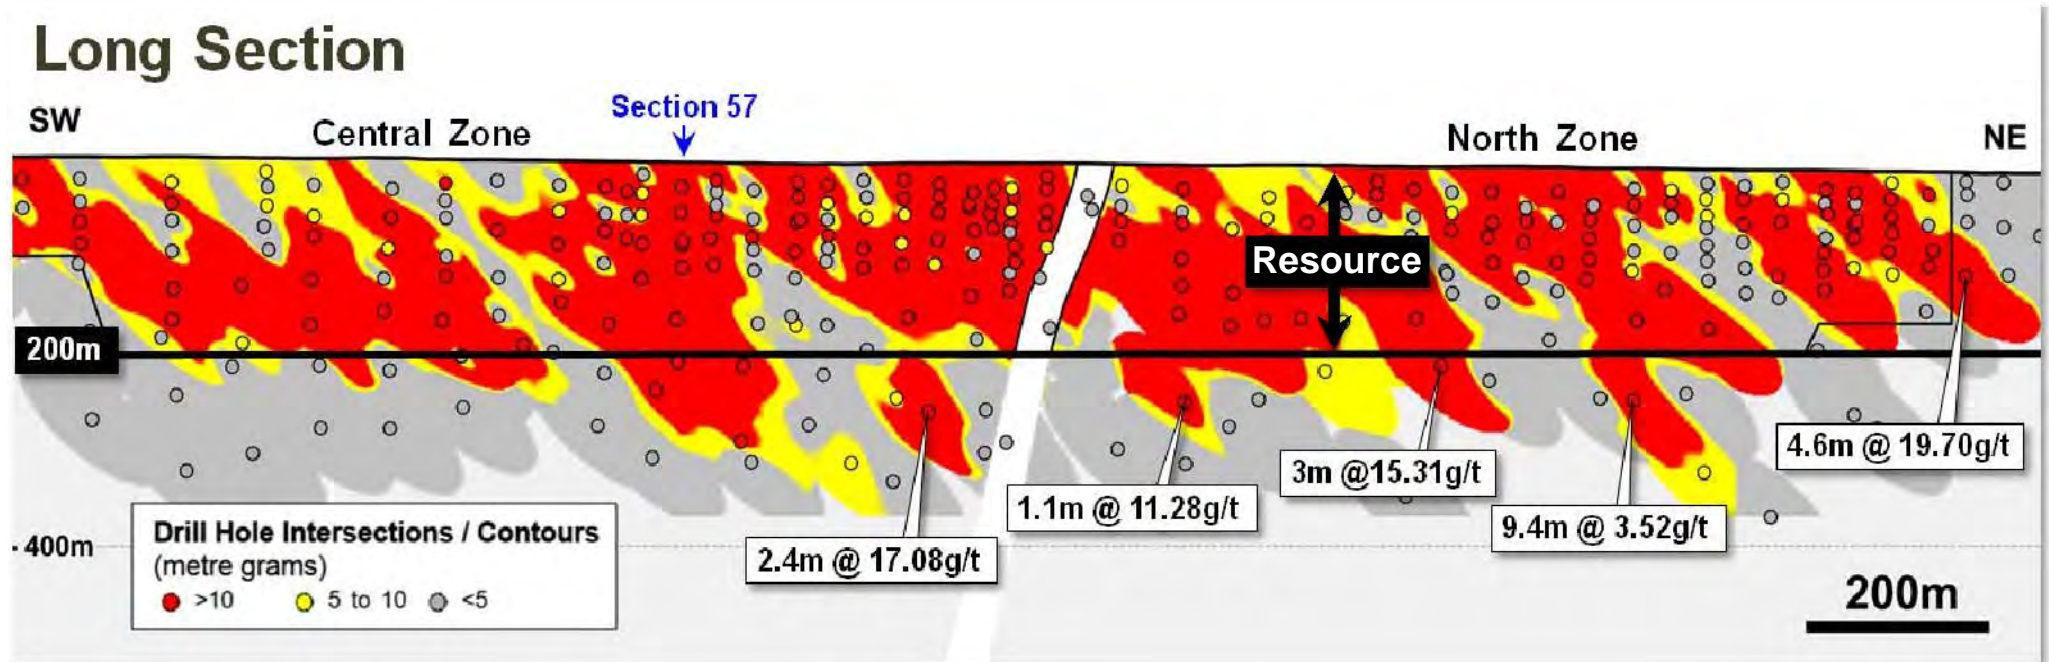

Nabanga: Drill Status Plot / Cross Section

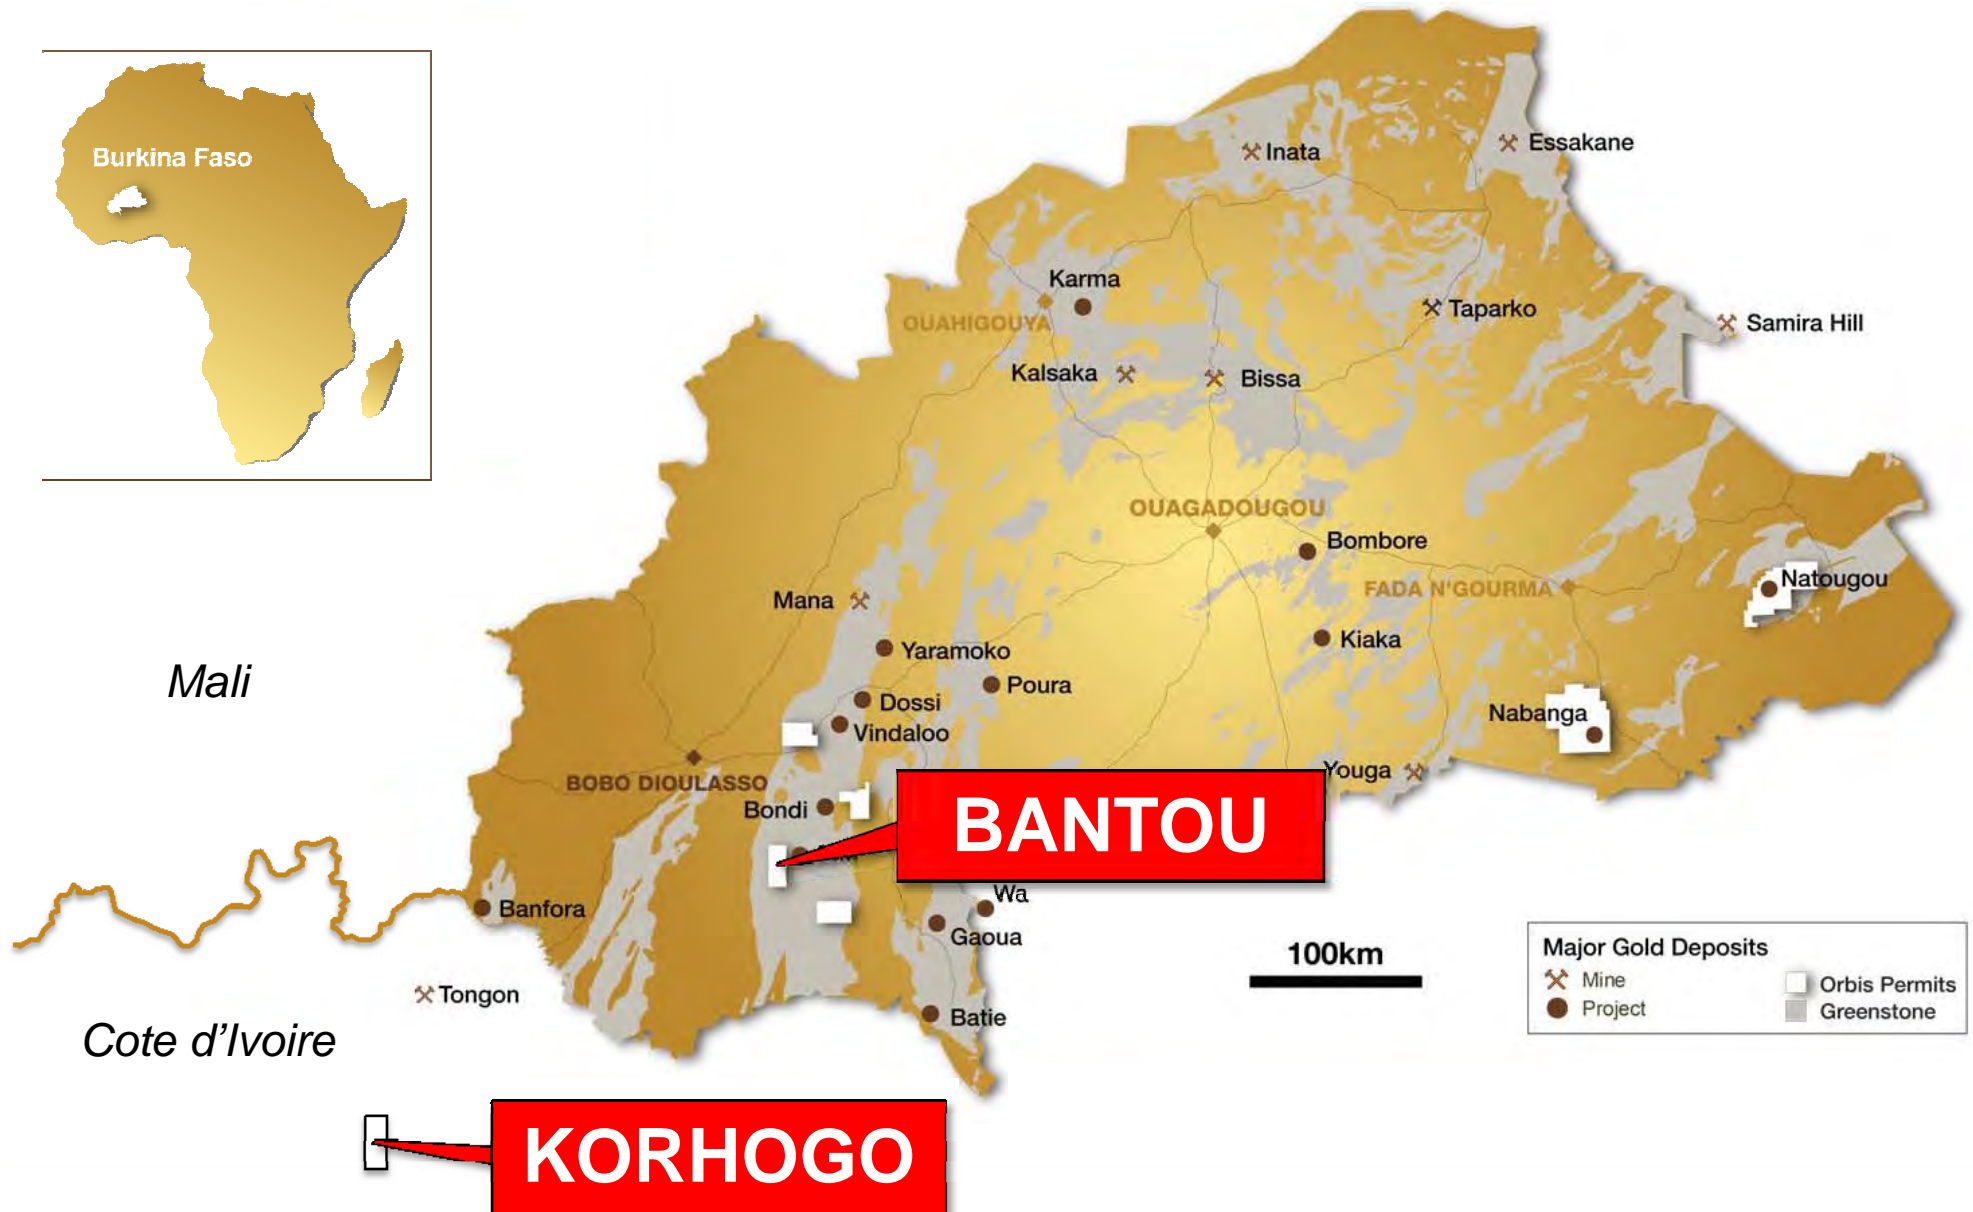

Nabanga: Maiden Resource Estimate

Nabanga – Inferred Mineral Resource⁽¹⁾

Cut-off Grade	Tonnes	Grade	Ounces
0.5g/t Au	3.2Mt	6.5g/t Au	660,000ozs
5.0g/t Au	1.8Mt	10.0g/t Au	573,000ozs

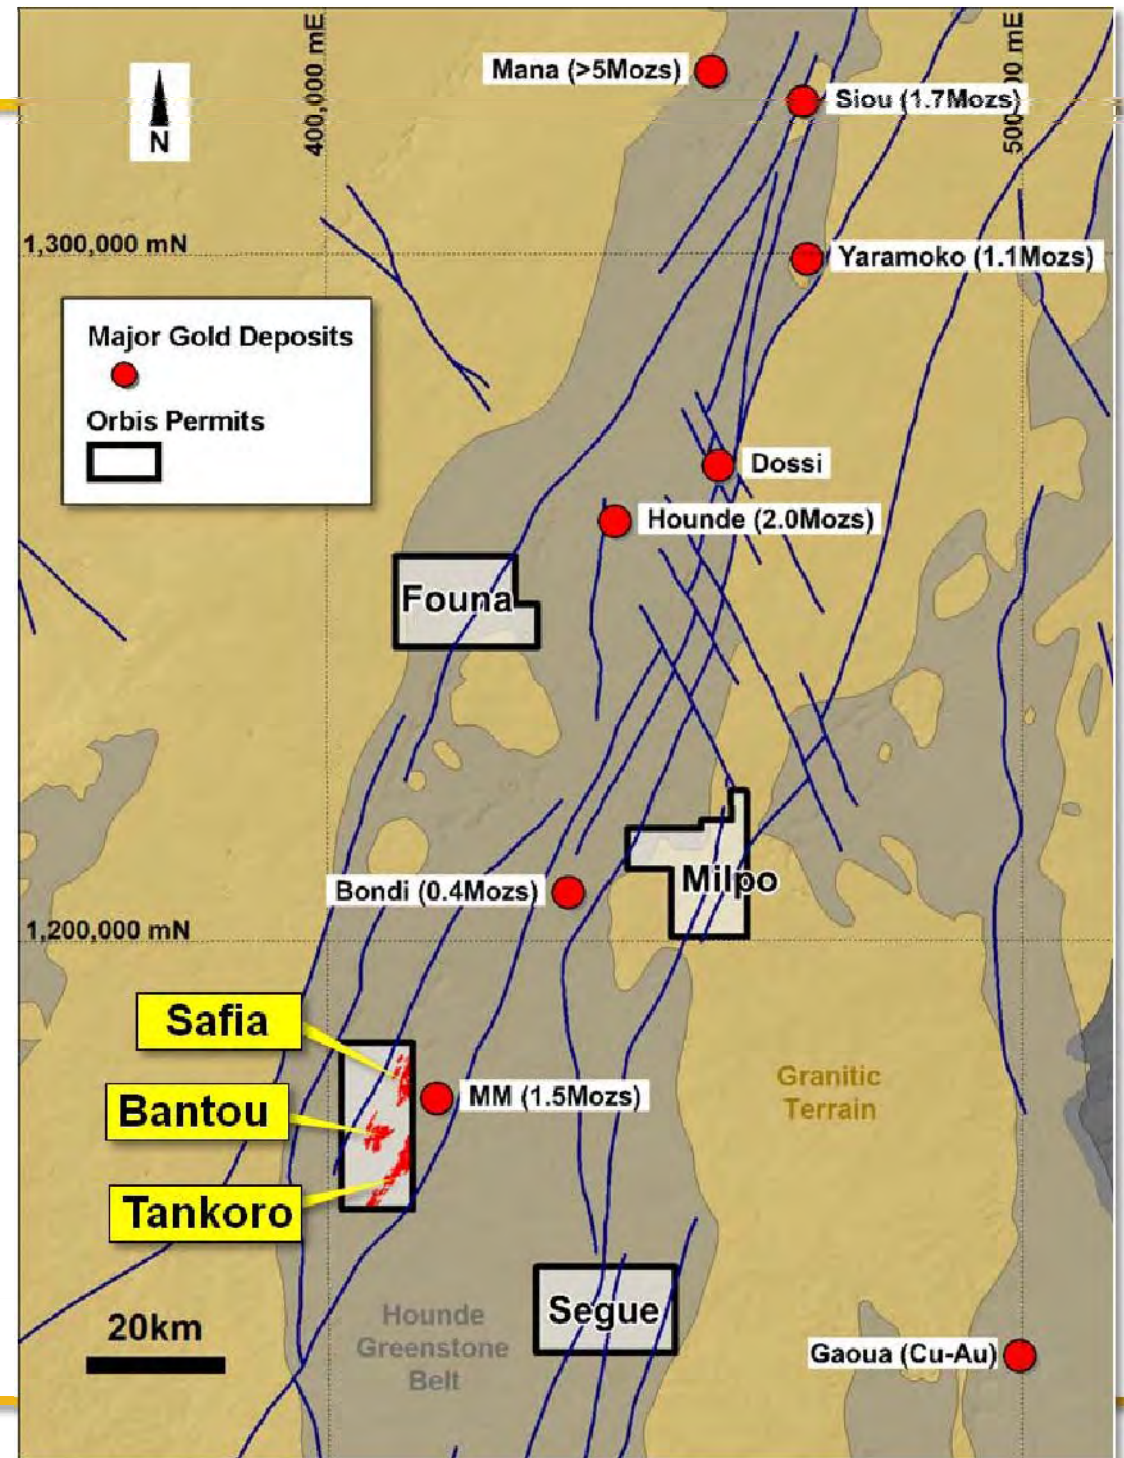

Multiple Gold Projects: Discovery Pipeline

Bantou Project

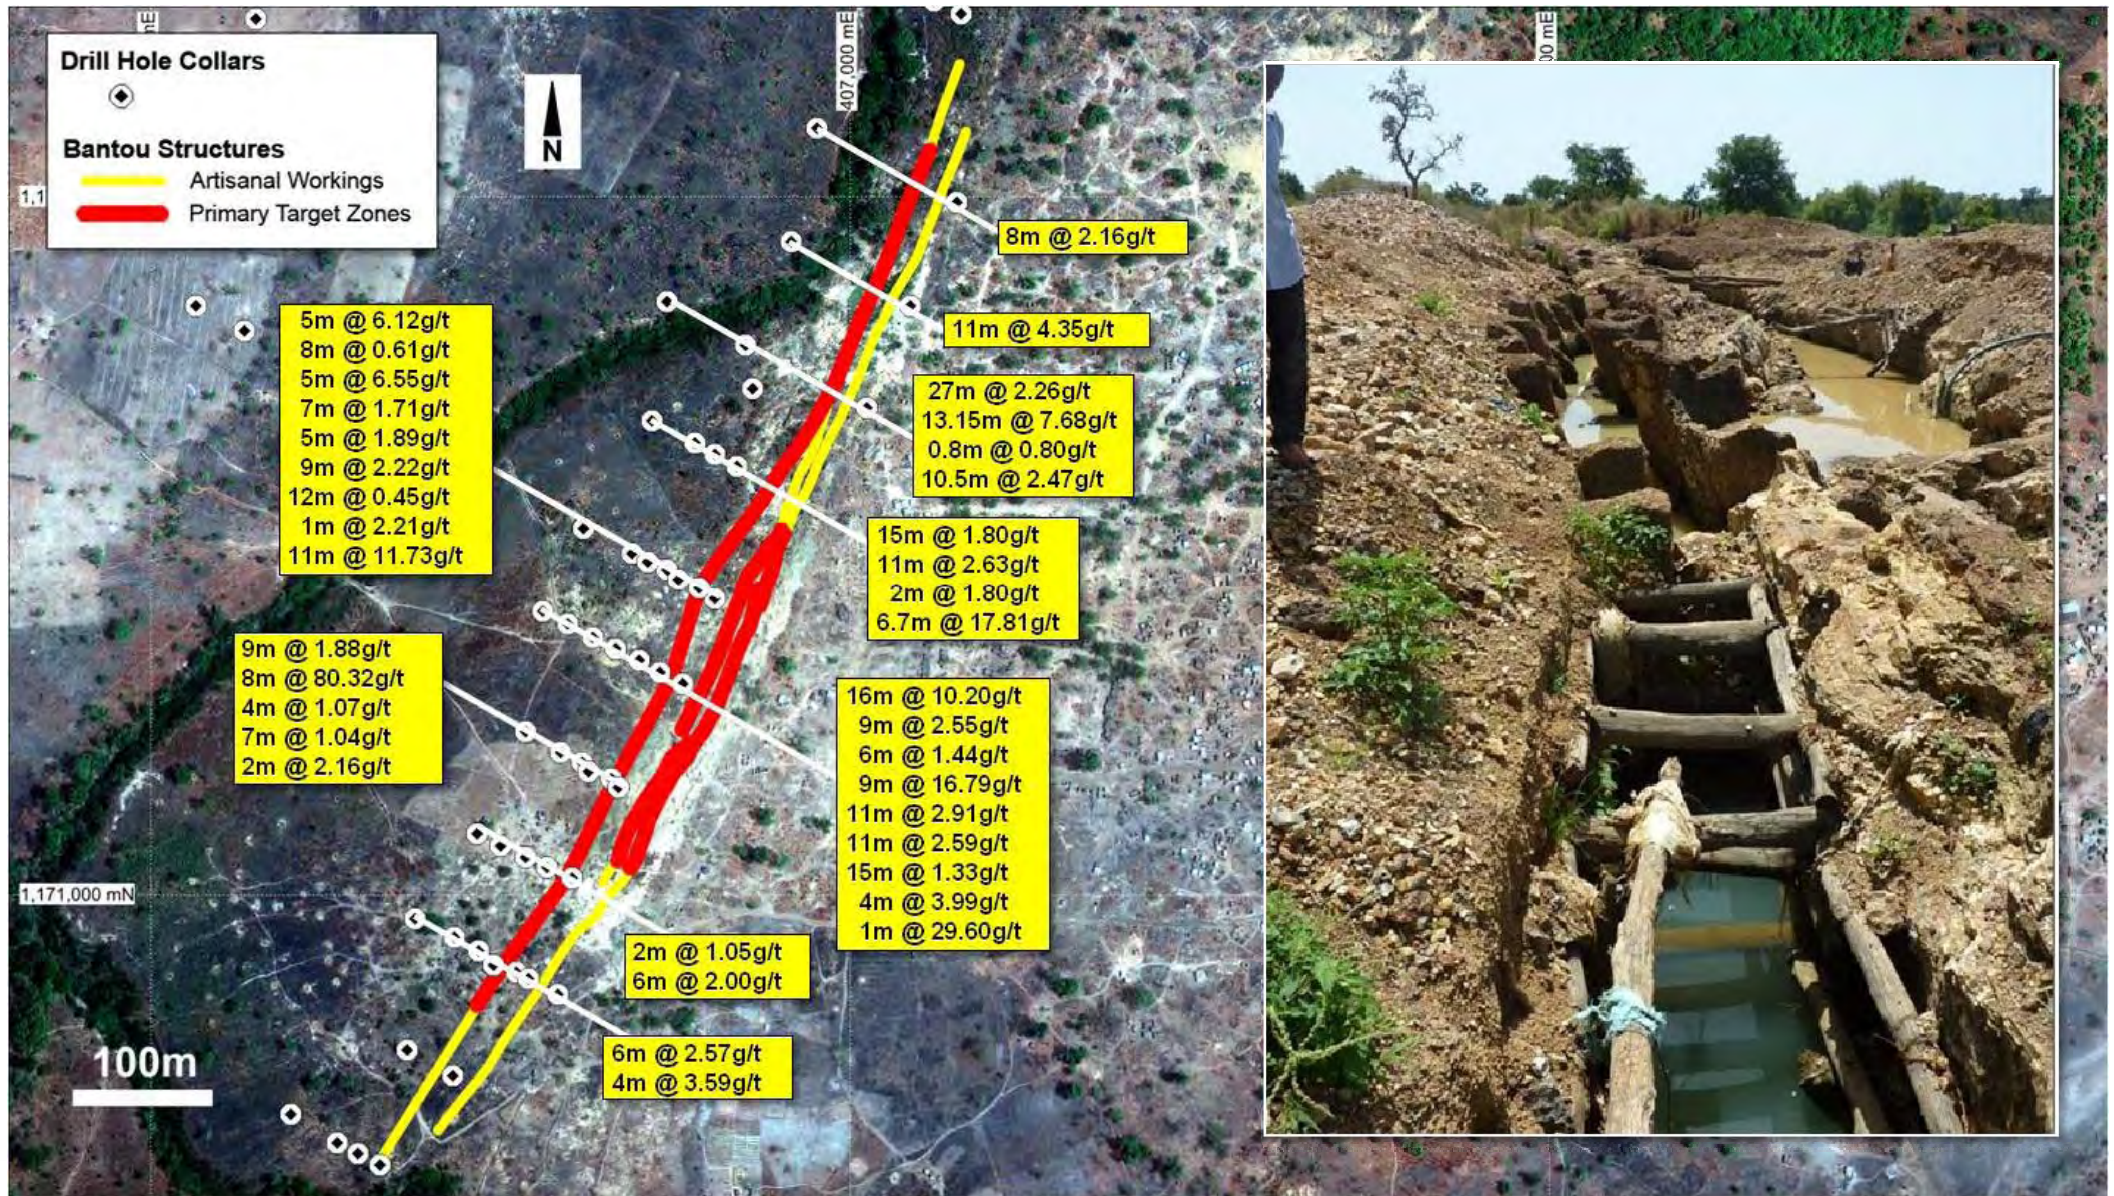

- › World-class Hounde gold belt (+10Mozs gold) ⁽¹⁾
- › ~1,000km² permit area
- › Three advanced-stage highly prospective gold targets:
 - Bantou
 - Tankoro
 - Safia

Bantou: Multiple Large Scale Gold Targets

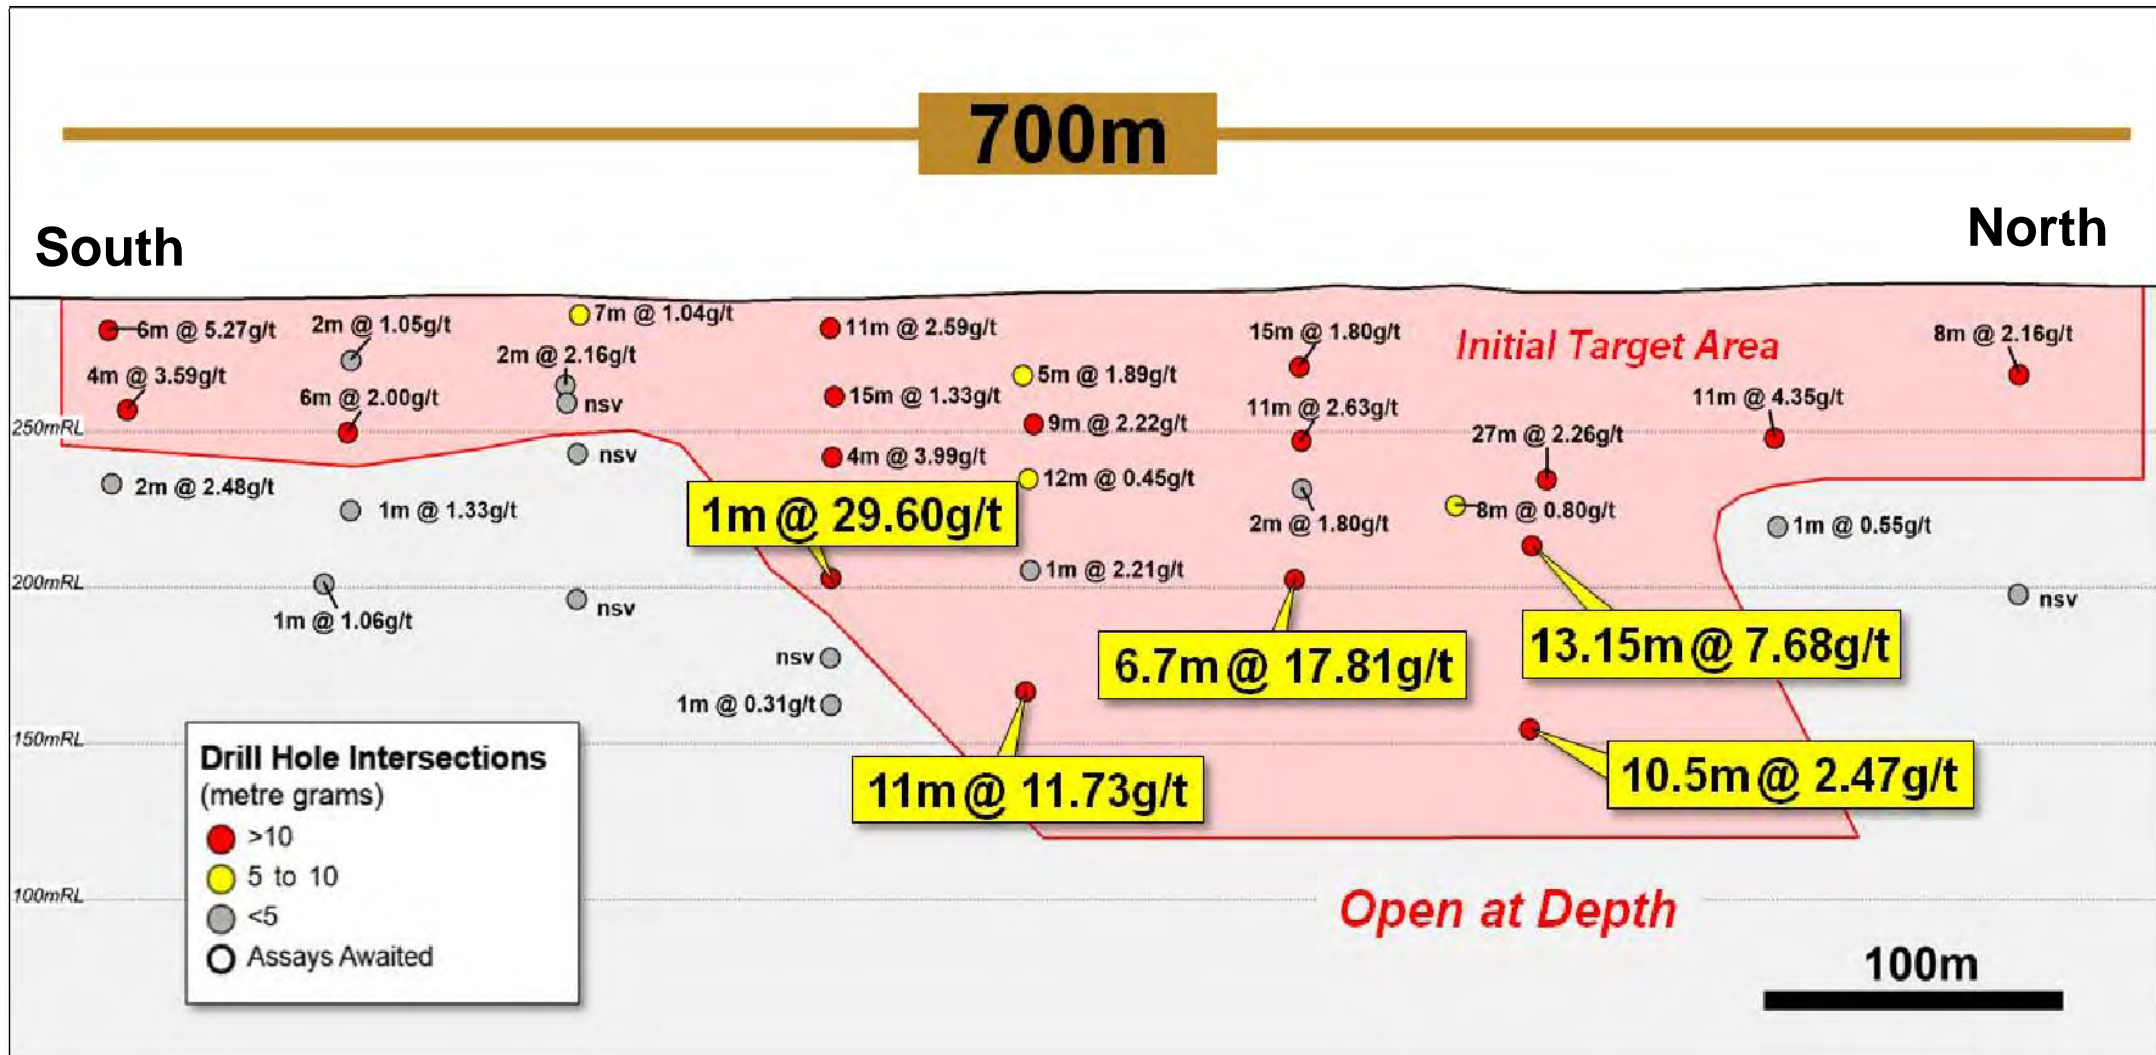

Bantou: High Grade Gold Structures from Surface

Bantou Long Section (Hangingwall Lode)

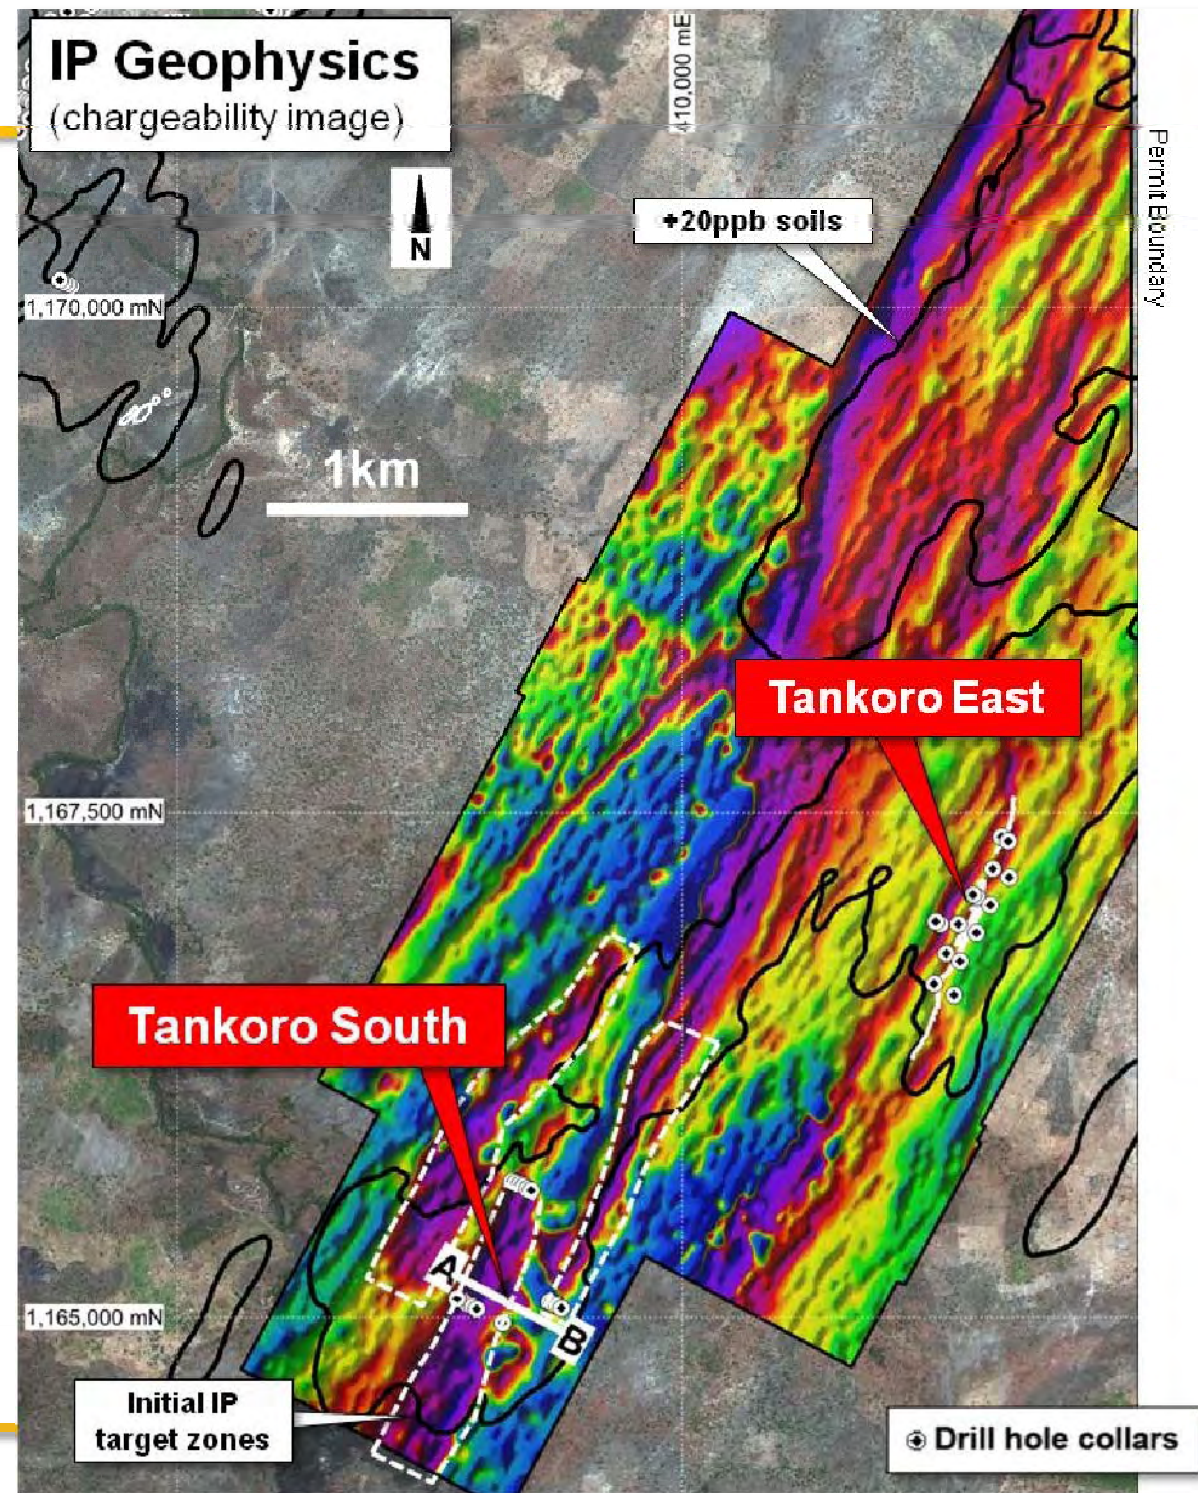

Gold mineralisation defined over a 700m strike length – High grade mineralisation open at depth

Bantou: Visible Gold in Diamond Core

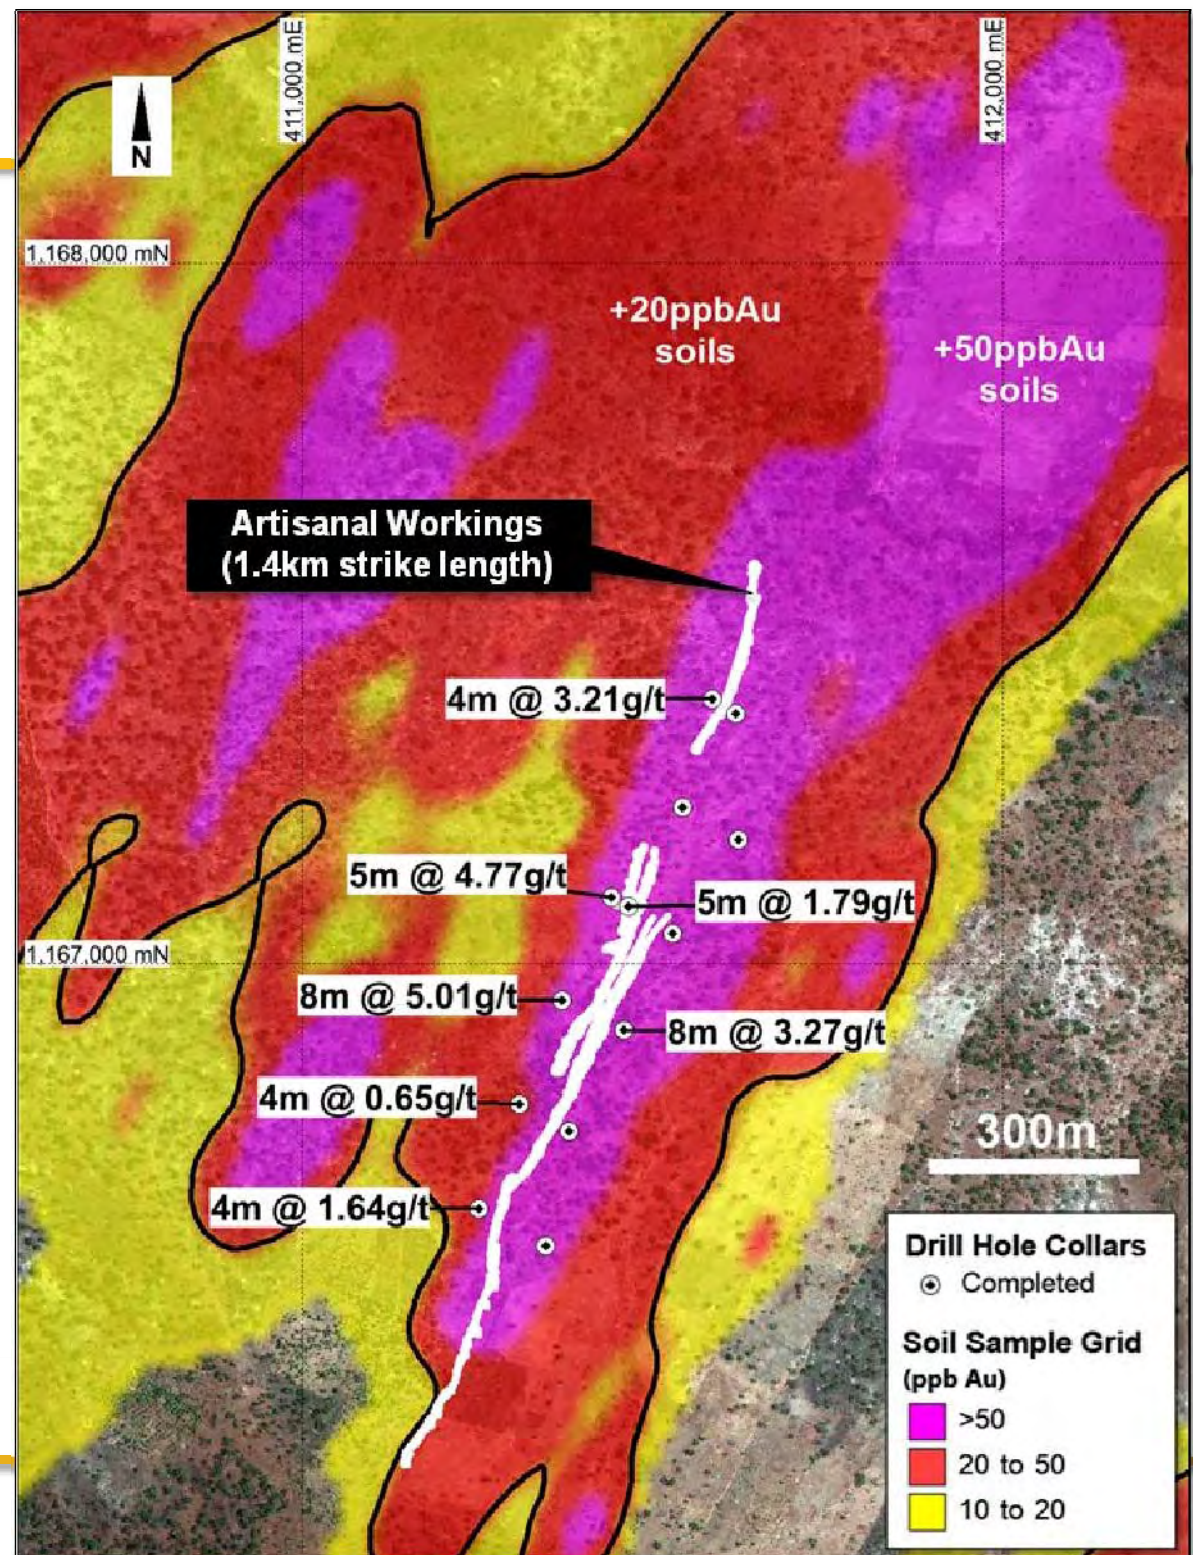

Tankoro Prospect

Tankoro East

Open-ended gold mineralisation defined over a 1.4km strike length by drilling and artisanal gold workings

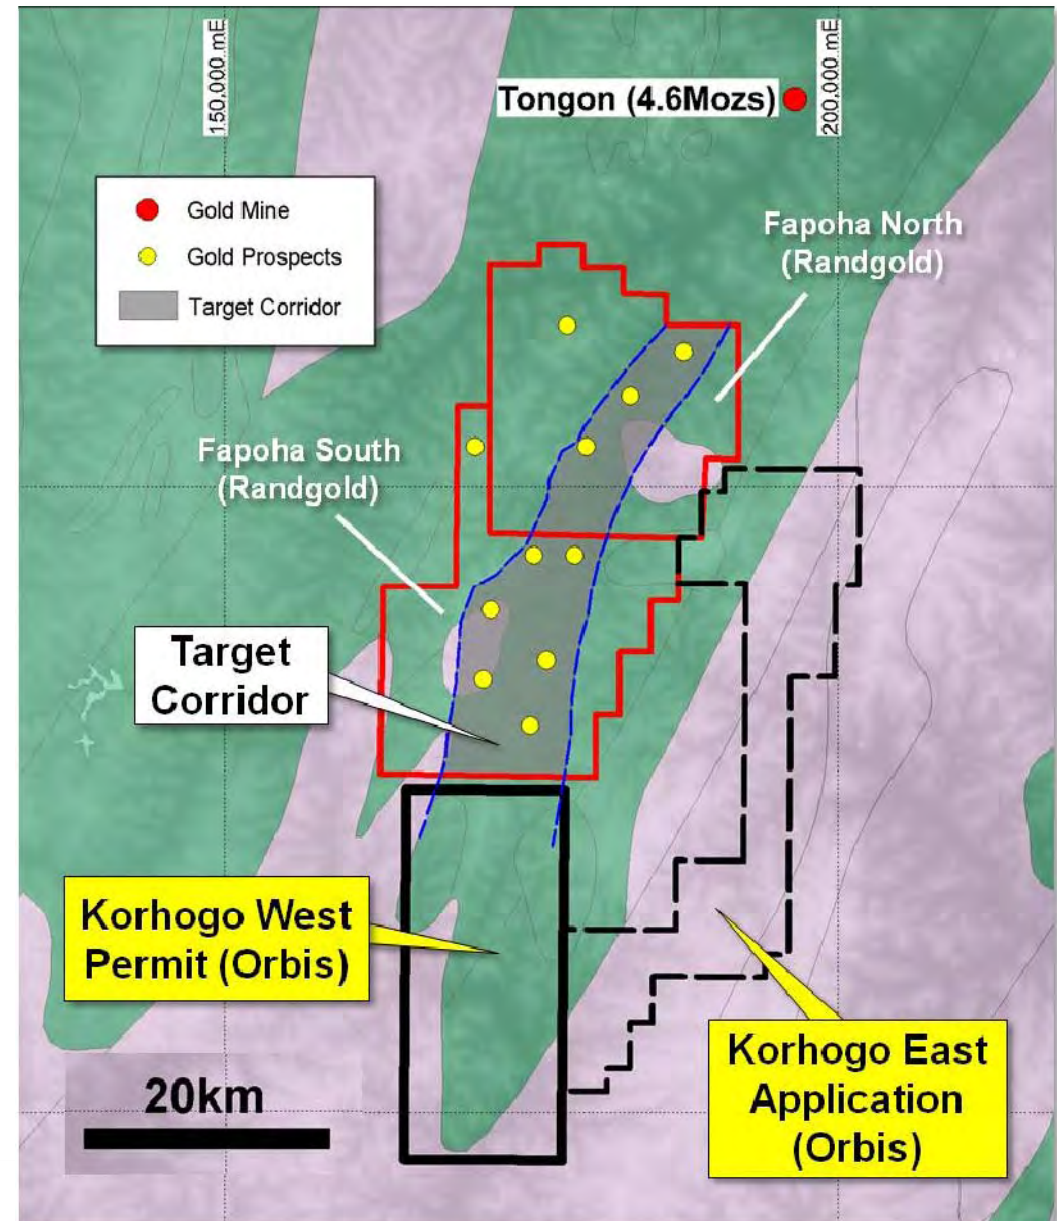

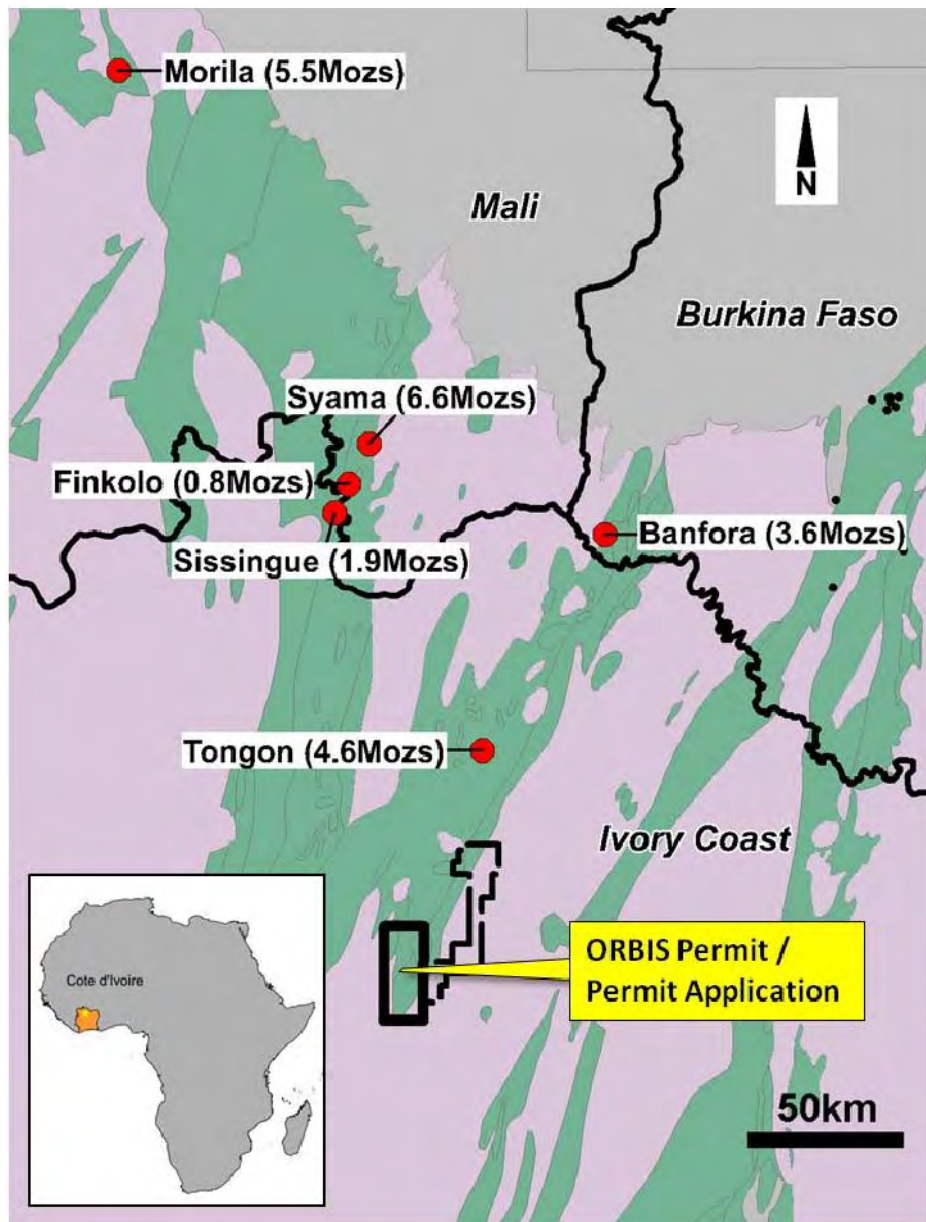

Tankoro South: Multiple New Structures

Multiple new gold mineralised structures discovered in first phase drilling in Tankoro South area

Cote d'Ivoire – Korhogo Gold Project

West African Producer / Developer Peer Group ⁽¹⁾

Upcoming Catalysts and Milestones

Clear path to deliver shareholder returns

- › Move Natougou into the development phase
- › Complete Nabanga Scoping Study
- › Grow existing resources through exploration on existing permits
- › New gold discoveries

Additional Information

Competent Persons Statement

The information in this report that relates to Exploration Results and Mineral Resources for the Nabanga Gold Project is based on information compiled by Mr Peter Spiers, a Competent Person who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Spiers is a full-time employee of the company. Mr Spiers has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Spiers consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information (in relation to the Nabanga Gold Project Mineral Resources) is extracted from the report entitled 'Nabanga Gold Project - Maiden Resource' created on 25 September 2012 and is available to view on www.asx.com.au.

The Nabanga Mineral Resource was reported with the guiding principles of the JORC Code 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'.

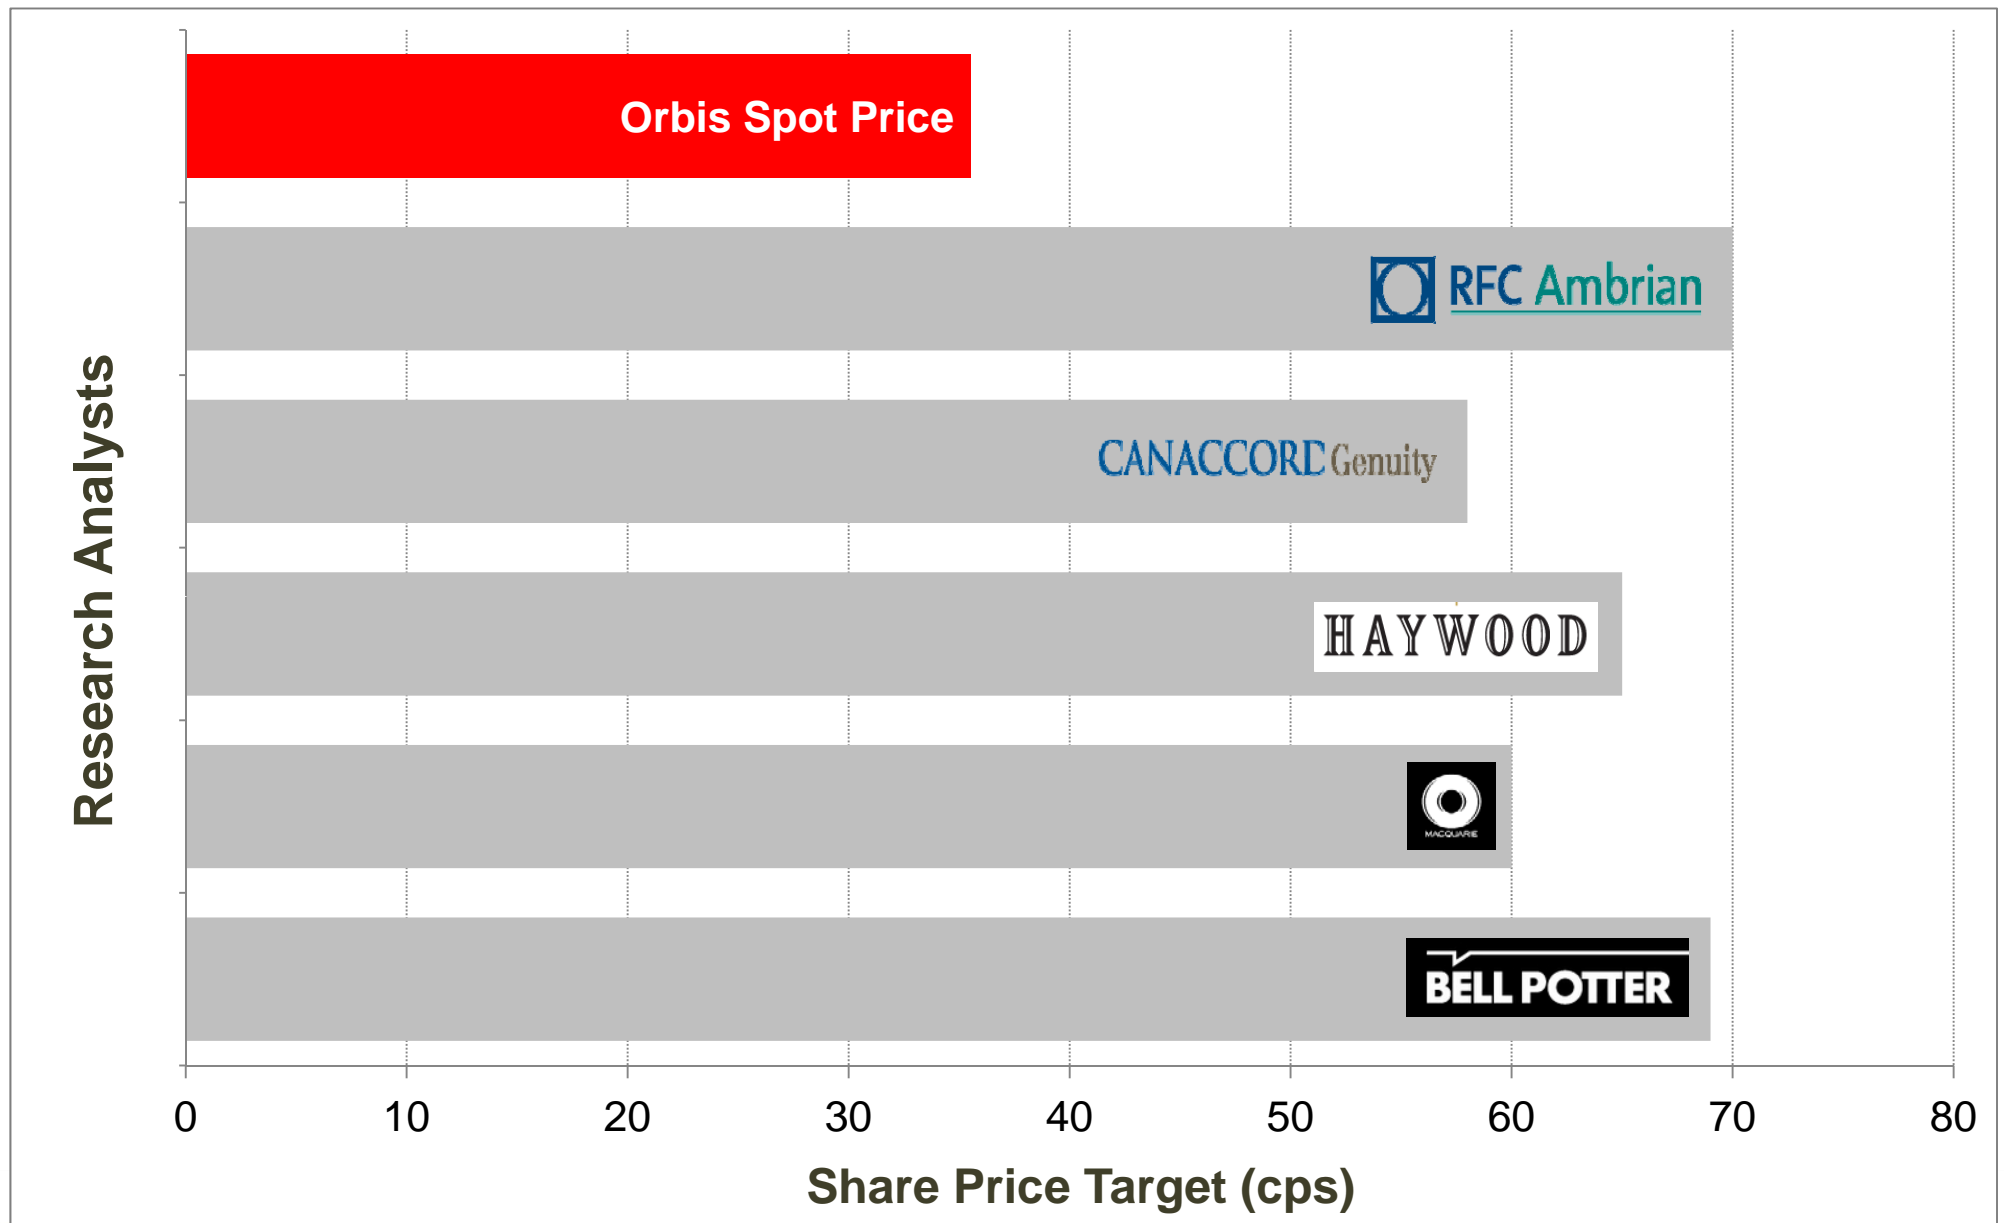

The information on Natougou is extracted from the report entitled 'Natougou Gold Project - Resource Expanded to 2.0Mozs @ 3.4gt Au' created on 4 August 2014 and is available to view on www.asx.com.au.

The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and, in the case of Mineral Resources or Ore Reserves, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Drill Hole Intersections

Drill hole intersections reported in this presentation represent down hole lengths and do not equate to true widths. The conversion from down hole lengths to true widths will be variable from hole to hole due to variability in the dip of the targeted structures and variability in the inclination (dip) of individual drill holes.

Research Coverage: Target Prices

Orbis Gold: Board of Directors

John Bovard – Non-Executive Chairman

Mr Bovard is a civil engineer with over 40 years experience in mining, heavy construction, project development and corporate management. His career has included roles as CEO of public companies and both executive and non-executive directorships. He holds a bachelor of civil engineering, is a fellow of the Australasian Institute of Mining and Metallurgy and a Fellow of the Australian Institute of Company Directors.

Peter Spiers – Managing Director

Mr Spiers is a qualified geologist with in excess of 25 years of experience in the resources industry. Peter has substantial operations and exploration experience having worked in a wide range of commodities and operating environments both within Australia and offshore. A significant proportion of his career to date was spent with WMC where he held numerous senior technical and commercial roles. More recently Peter held an executive position with ASX listed Atlas Group Holdings Limited where he was focused on the development of business-wide improvement initiatives and the definition of strategies for growth.

Nicholas Mather – Non-Executive Director

Mr Mather's special area of experience and expertise is the generation of and entry into undervalued or unrecognized resource exploration opportunities. He has been involved in the junior resource sector at all levels for more than 25 years. In that time he has been instrumental in the delivery of major resource projects that have delivered significant gains to shareholders.. He is currently CEO (and founder) of Solomon Gold plc (AIM), Managing Director (and founder) of D'Aguilar Gold Ltd (ASX), Non-Executive Director of Bow Energy Ltd (ASX) and Non-Executive Chairman (and founder) of Waratah Coal Inc (TSX-V).

Michele Muscillo – Non-Executive Director

Mr Muscillo is a Partner specialising in Corporate law with HopgoodGanim Lawyers. He was admitted as a Solicitor in 2004 and has a practice focusing almost exclusively in mergers and acquisitions and capital raising. Michele has a Bachelor of Laws from Queensland University of Technology and was the recipient of the QUT University Medal. In his role with HopgoodGanim Lawyers, Michele has acted on a variety of corporate transactions including initial public offerings, takeovers and other acquisitions. Michele's experience brings to the Board expertise on corporate regulation, governance and compliance matters.

Kevin Tomlinson – Non-Executive Director

Kevin Tomlinson is based in London in the UK and is currently a Director of Centamin Plc (London Main Board gold producer) in Egypt; Lead Independent Director and Deputy Chairman of Besra Gold (ASX and TSX gold producer) in Vietnam and Malaysia; and Director of Samco Gold (TSX gold explorer) in Argentina.

Orbis Gold: Senior Management

Peter Harding-Smith – Chief Financial Officer & Company Secretary

Mr Harding-Smith joins Orbis Gold with past senior financial management and company secretarial positions with listed and non-listed companies. Peter is a chartered accountant with over 20 years of business experience with a Bachelor of Business from Queensland University of Technology. Peter is a member of the Institute of Chartered Accountants of Australia and is a fellow of Chartered Secretaries Australia and the Financial Services Institute of Australia.

Ann Ledwidge, Exploration Manager – Africa

Ms. Ledwidge is a qualified geologist with over 20 years' experience in mineral exploration. She has worked in various commodities but has focussed primarily on gold and base metals projects holding managerial positions for both junior to major companies. She has worked in many differing geological terrains in Canada, Africa and Australia. Ann also previously worked as a mining inspector for the Canadian government, giving her insight into internationally approved codes and regulations for mining and water use. Ann has led the project teams responsible for Orbis' gold discoveries in Burkina Faso including the advancement of the projects to the resource estimation stage.

Andrew Skalski, Manager Projects

Andrew has enjoyed a 30 year career in the mining/minerals resource industry, during which he has gained extensive operational, corporate and project development experience whilst working for international and multinational companies. He has particular expertise in the management of multi-discipline and geographically spread teams for the preparation of feasibility studies for large copper, magnetite and gold projects in Australia, New Zealand, West and South Africa and Indonesia.

Jennifer Gunter, Sustainability Manager

Jennifer has over 15 years of experience in the minerals industry, with exposure to diverse operating environments, from junior explorers to large multi-commodity mining houses. Having held senior roles with Xstrata, Pan Australian Resources, and Placer Dome, Jennifer's project experience ranges from greenfields exploration to development and feasibility of major mining projects. Jennifer has managed major projects both in Australia and overseas, and has had involvement in mine closure planning, environmental management, and the implementation of social programs in developing countries. Having also worked on a range of mining and infrastructure-related projects, Jennifer's experience includes mine infrastructure design, civil construction, and strategic oversight of a billion dollar infrastructure program.

Peter Ledwidge, Business Development Manager

Mr Ledwidge is a qualified geologist with over 25 years of experience in the exploration and mining industry. His career has focussed primarily on gold exploration along with some base metals exploration. Peter also spent three years as a mine geologist, but then returned to his real passion, exploration. Prior to joining Mt Isa Metals in 2008 Peter worked in Canada, Africa and Australia for various junior explorers. During his time with Orbis Gold, Peter progressed from Senior Geologist, to Exploration Manager Africa, to his current role of Business Development Manager.

Orbis Gold : Mineral Resource Summary

Project	Category	Tonnes	Grade	Ounces
Natougou ⁽¹⁾	Indicated	7.1 Mt	5.1g/t Au	1.2 Mozs
	Inferred	11 Mt	2.3g/t Au	0.8 Mozs
Sub-Total		18 Mt	3.4g/t Au	2.0 Mozs
