Explanation of Investment income/(loss) *(Appendix 4E item 2.6)*

The Fund maintains its investment strategy in S&P/ASX 200 Resources Index, and the investment policy of the Fund continues to be that detailed in the current Product Disclosure Statement and in accordance with the provisions of the governing documents of the Fund.

The Fund earns revenue predominantly from the following elements:

- Net gains/(losses) on financial instruments held at fair value through profit or loss, and
- Investment income such as dividend and interest.

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all year presented.

SPDR S&P/ASX 200 Resources Fund
Year ended 30 June 2014
(Previous corresponding year ended 30 June 2013)
(continued)

(i) Classification

The Fund's investments are categorised as at fair value through profit or loss. They comprise:

- Financial instruments held for trading
These include derivative financial instruments including futures. The Fund does not designate any derivatives as hedges in a hedging relationship.
- Financial instruments designated at fair value through profit or loss upon initial recognition
These include financial assets that are not held for trading purposes and which may be sold. These are investments in exchange traded equity instruments.

Financial instruments designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Responsible Entity to evaluate the information about these financial instruments on a fair value basis together with other related financial information.

(ii) Recognition/derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

(iii) Measurement

The carrying amounts of the Fund's assets and liabilities at the end of the reporting period approximate their fair value.

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit and loss are expensed immediately. Subsequent to initial recognition, all instruments held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in profit or loss.

The fair value of financial assets and liabilities traded in active markets is subsequently based on their quoted market prices at the end of reporting period without any deduction for estimated future selling costs. The quoted market price used for financial assets held by the Fund is the current bid price and the quoted market price for financial liabilities is the current asking price.

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense.

(iv) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Explanation of Operating profit/(loss) *(Appendix 4E item 2.6)*

Explanation of Profit/(loss) *(Appendix 4E item 2.6)*

Given the adoption of AASB 132 and the recognition of net assets attributable to unitholders as a liability, the (increase)/decrease in net assets attributable to unitholders and distributions to unitholders are reflected as a financing cost.

Explanation of Distributions *(Appendix 4E item 2.6)*

In accordance with the Fund Constitution, the Fund fully distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestment. Distributable income is determined by reference to the taxable income of the Fund. Commentary on results *(Appendix 4E item 14)*

Operating loss per unit attributable to unitholders

Operating loss per unit was 139.90 cents per unit.

The Fund allocates net operating profit to unitholders on a daily basis for the purpose of determining daily unit prices. Net operating profit per unit is represented by the movement in the Fund's daily unit redemption price for the year plus distributions per unit.

Because net operating profit has been allocated to unitholders on a daily basis, the actual daily number of units on issue has been used in the calculation of earnings per unit. This approach does not require the calculation of a weighted average number of units on issue for the year.

Returns to unitholders

In accordance with the Fund Constitution, the Fund distributes income adjusted for amounts determined by the Responsible Entity, to unitholders by cash or reinvestments. Distributable income is determined by reference to the taxable income of the Fund. The distributions are payable at the end of June and December each year.
