

AUSTRALIAN BAUXITE LIMITED
ASX:ABX

ASX ANNOUNCEMENT
30 September 2014

About Australian Bauxite Limited
ASX Code ABX

Australian Bauxite Limited (ABx) is establishing its first mine in Tasmania and holds the core of the Eastern Australian Bauxite Province. ABx's 37 bauxite tenements in Queensland, New South Wales & Tasmania covering 5,029km² were rigorously selected for (1) good quality bauxite; (2) near infrastructure connected to export ports; & (3) free of socio-environmental constraints.

All tenements are 100% owned, unencumbered & free of 3rd party royalties.

ABx's discovery rate is increasing as its technology & expertise grows.

The Company's bauxite is gibbsite trihydrate bauxite with low silica contamination & can be processed into alumina at low temperature – the type in short supply globally.

ABx has declared Mineral Resources at Inverell & Guyra in northern NSW, Taralga in southern NSW, Binjour in central QLD & in Tasmania confirming that ABx has discovered significant bauxite deposits including some of outstandingly high quality.

The Company's first bauxite mine at Bald Hill, Tasmania is targeted for production in late 2014.

ABx aspires to identify large bauxite resources in the Eastern Australian Bauxite Province, which is emerging as a globally significant bauxite province. ABx has created significant bauxite developments in 3 states - Queensland, New South Wales & Tasmania. Its bauxite deposits are favourably located for direct shipping of bauxite to both local & export customers.

ABx endorses best practices on agricultural land, strives to leave land & environment better than we find it.

We only operate where welcomed.

CEO Presentation at Resources Rising Stars

In accordance with the requirements of Listing Rule 3.1 we submit the attached material being presented today at the Resources Rising Stars Gold Coast conference.

Mr Ian Levy, CEO is making the presentation.

For further information please contact

ABX's OPPORTUNITY IS NOW

Forward Looking Statement

Whilst based on information from sources considered reliable, Australian Bauxite Limited (**ABx**), its directors, employees and consultants do not represent, warrant or guarantee, expressly or impliedly, that the information in this document and presentation is complete or accurate. To the maximum extent permitted by law, ABx disclaims any responsibility to inform any recipient of this document and presentation of any matter that subsequently comes to its notice, which may affect any of the information contained in this document and presentation.

Competent Person Statement

Information herein relating to Exploration Results, Mineral Resources and Exploration Targets is based on information compiled by Ian Levy BSc, MSc, who is a Fellow of the Australasian Institute of Mining and Metallurgy and a Fellow of the Australian Institute of Geoscientists. Mr Levy is employed by ABx as Chief Executive Officer. Mr Levy has more than five years experience relevant to the style of mineralisation and type of deposit being reported and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the JORC Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. This report is issued with the prior written consent of the Competent Person as to the form and context in which it appears.

The information in this report relating to Mineral Resources was prepared and first disclosed under the JORC Code 2004. It has not been updated since to comply with the JORC Code 2012 on the basis that the information has not materially changed since it was last reported.

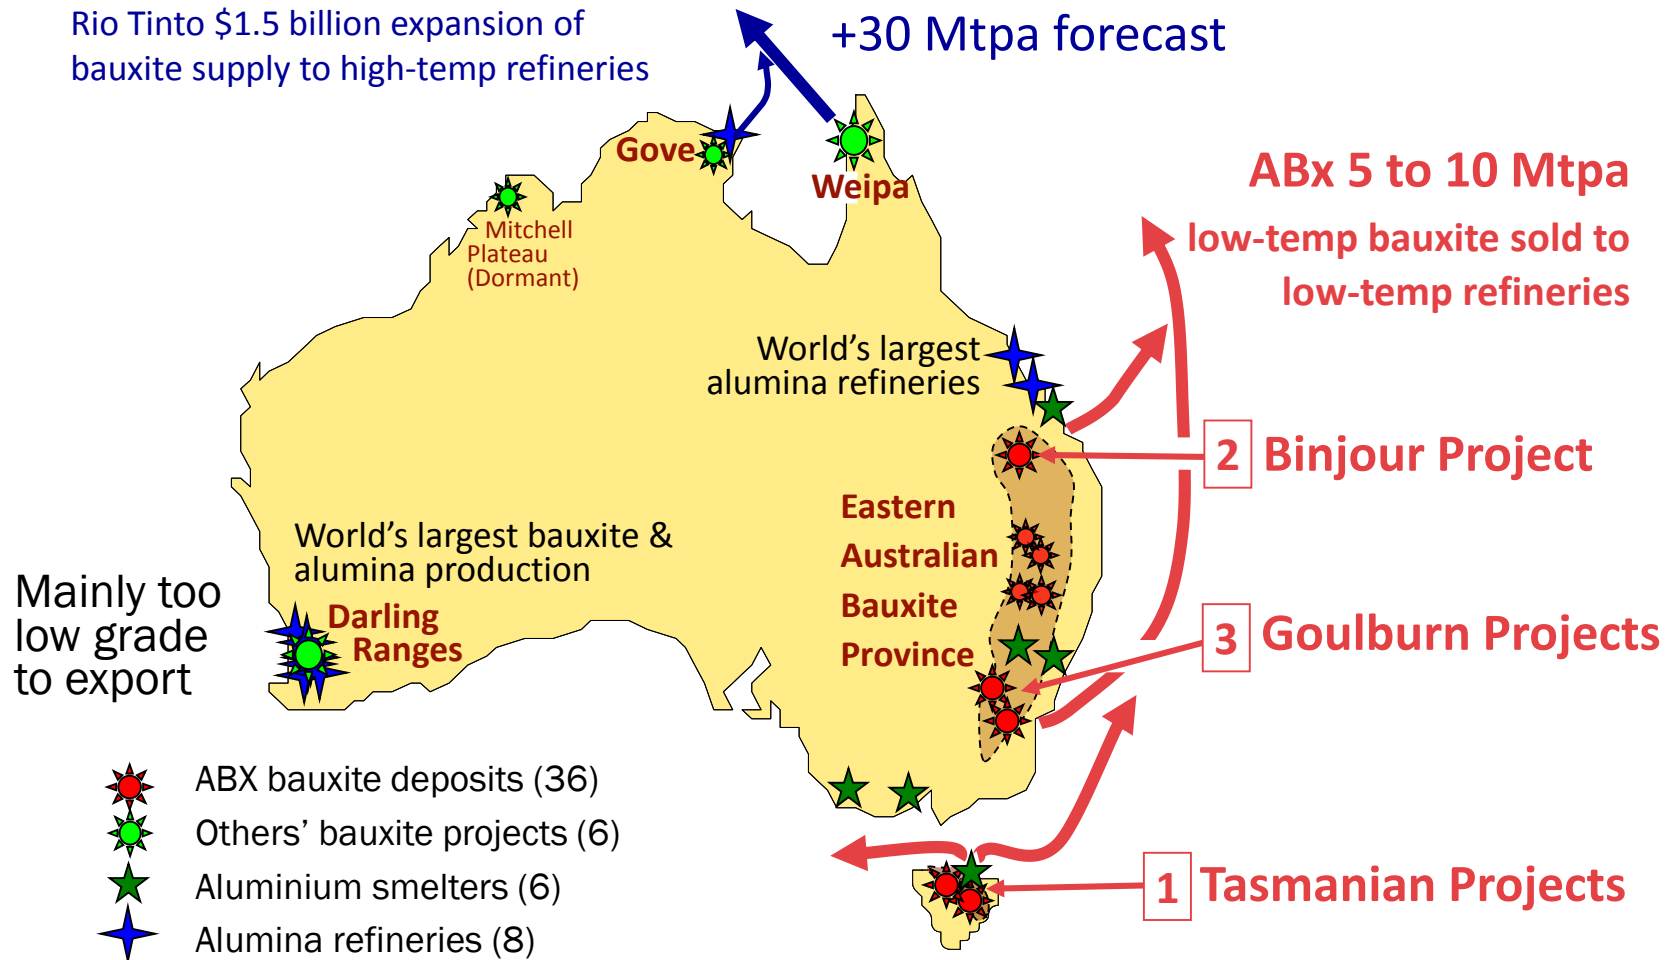

Direct Shipping Ore

In this presentation all references to direct shipping ore (DSO) refers to the company's exploration objective of defining DSO grade mineralisation. The potential quantity and grade of exploration targets is conceptual in nature, there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the determination of a Mineral Resource.

ABx Investment Highlights

- ✓ First Mine Lease Granted – at Bald Hill, Tasmania
- ✓ Production & cash flow within 6 months
- ✓ Quality bauxite projects, close to infrastructure, with no socio-economic impediments
- ✓ Track record of quality bauxite discoveries
- ✓ Substantial exploration and development potential in:
 - **Tasmania (first mines)**
 - **Queensland (largest projects)**
 - **New South Wales (large projects – thickest bauxite)**

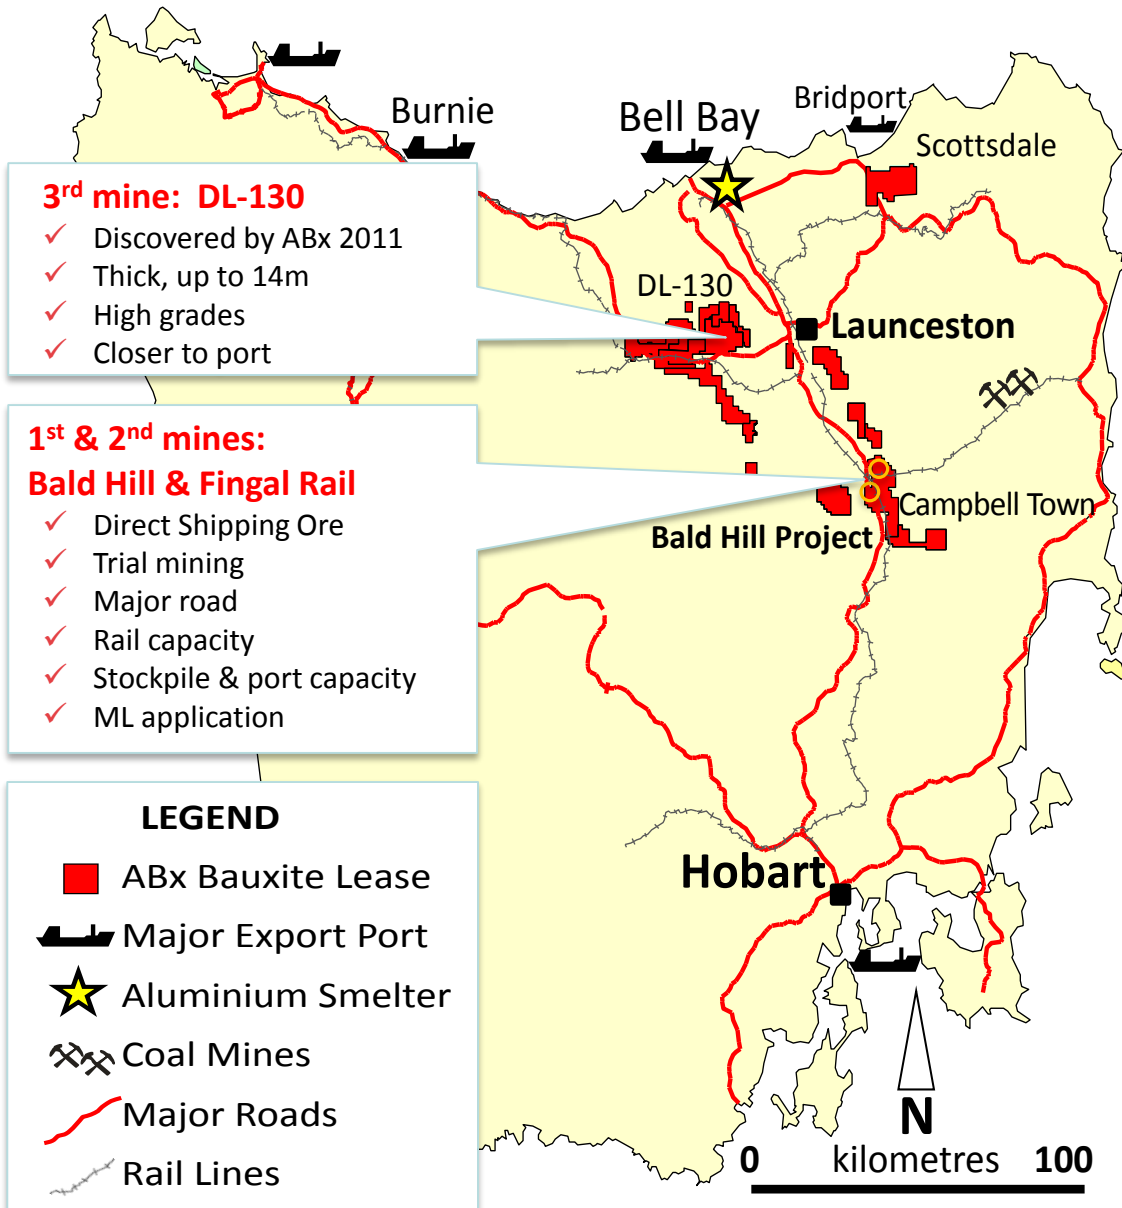

Australia Increasing Bauxite Exports

Rio exports high temperature bauxite to China's high temp refineries

ABX will supply low temperature bauxite to low temperature refineries

Projects Location & Infrastructure in Tasmania

100km by Road or Rail

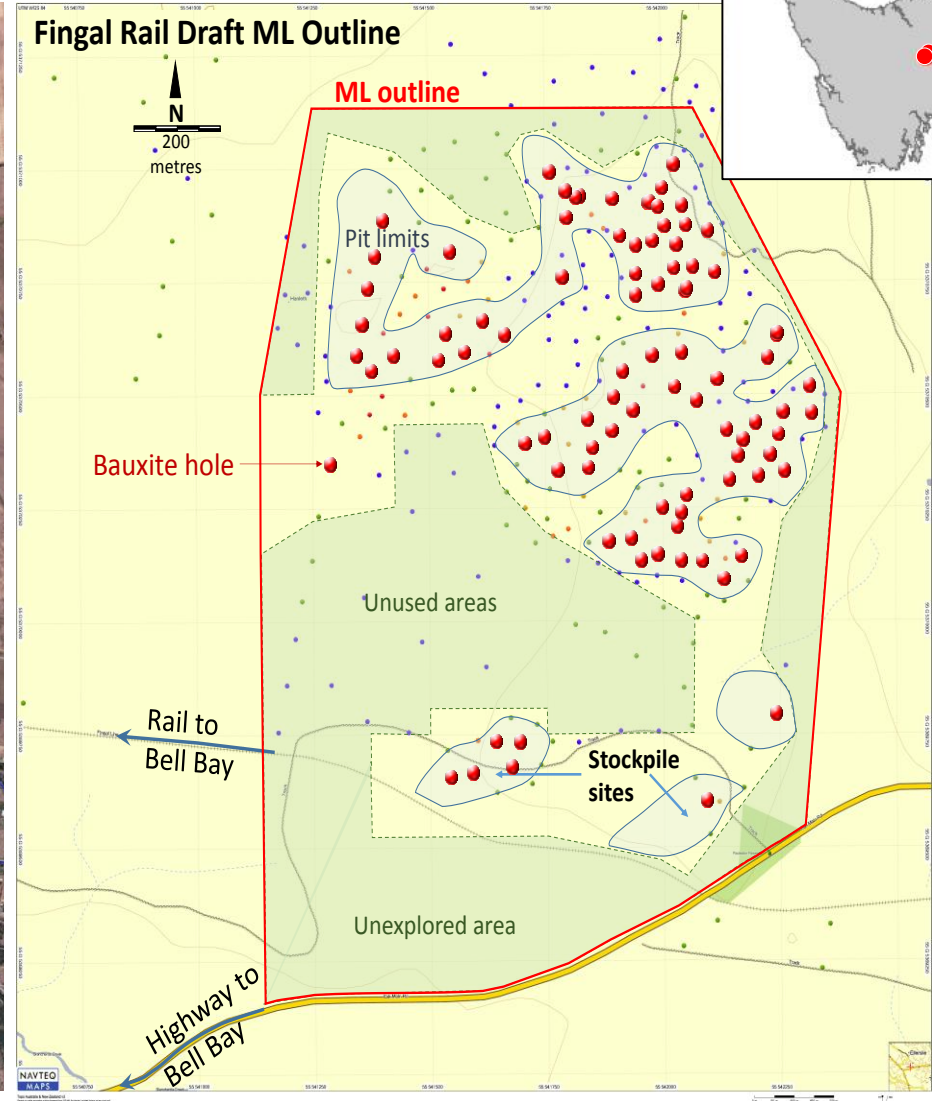

First 2 Mining Leases defined in Tasmania

Bald Hill ML 1961

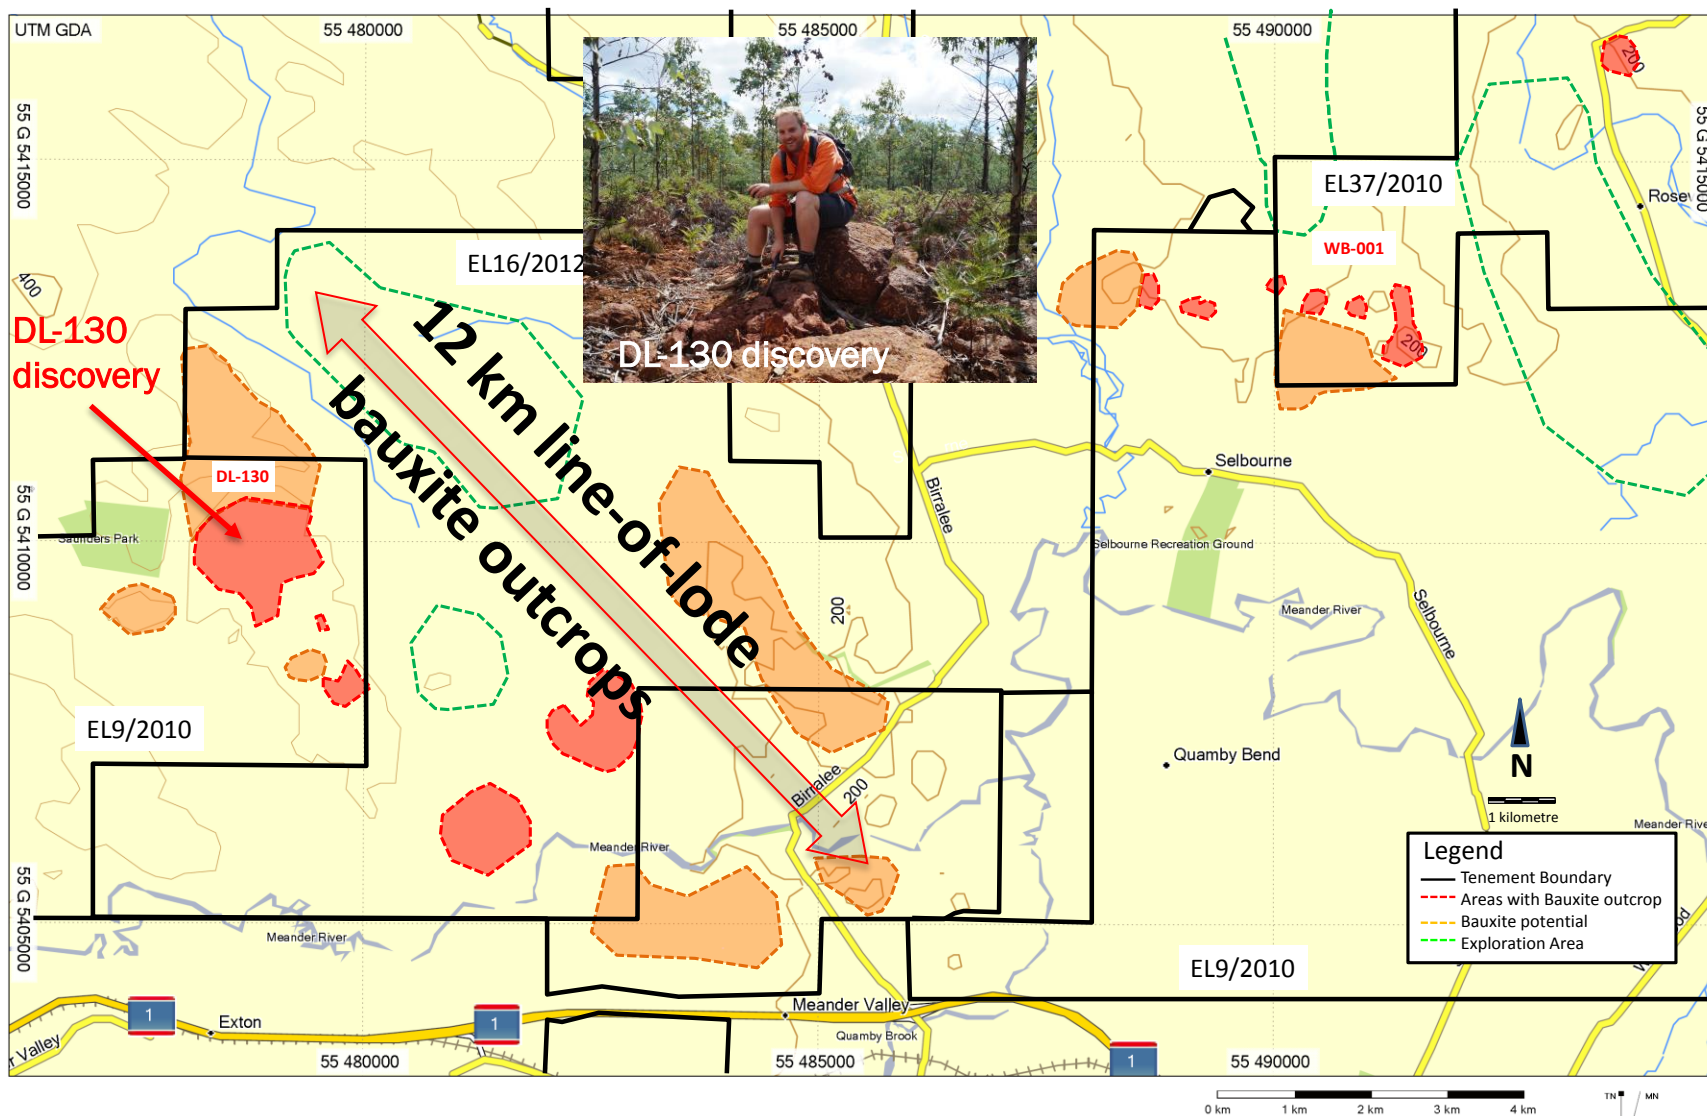

Fingal Rail ML

Third Mining Lease Target at DL-130

Thickest high-grade bauxite in Tasmania, up to 14 metres thick

Testing Bauxite Projects in Tasmania

Bulk test pits

Dry screening bulk samples

Bald Hill bauxite product

Fingal Rail bauxite product

Bald Hill Bauxite as Mined

Fingal Rail Bauxite as Mined

Excellent rehabilitation

Bulk samples sent to customers

Capital & Operating Costs

Free dig in places

Grade control during surface mining

Bulk shipping all year round

Item	Amount
Site mobilisation	\$1.5 m
Net site establishment	\$2.0 m
Road upgrade	\$1.0 m
Contingency (10-15%)	\$0.5 m
Initial capital	\$5.0 m
Working capital	\$1.0 m
Later Expansion	\$7.5 m
Shiploader in 2016 (can be hired)	

Item	A\$/t FOB
Mining & screening	\$6.00/t
Administration	\$1.50/t
State royalty	\$0.50/t
Road haul	\$12.60/t
Port costs	\$7.00–\$8.50/t
Total FOB	A\$28–A\$30/t
Shipping	US\$19–US\$22/t

Surface miners (can be hired)

Mobile shiploaders (can be hired)

**A\$10–A\$20/t margin
based on current
bauxite prices**

CBIX Index = US\$74.50/t

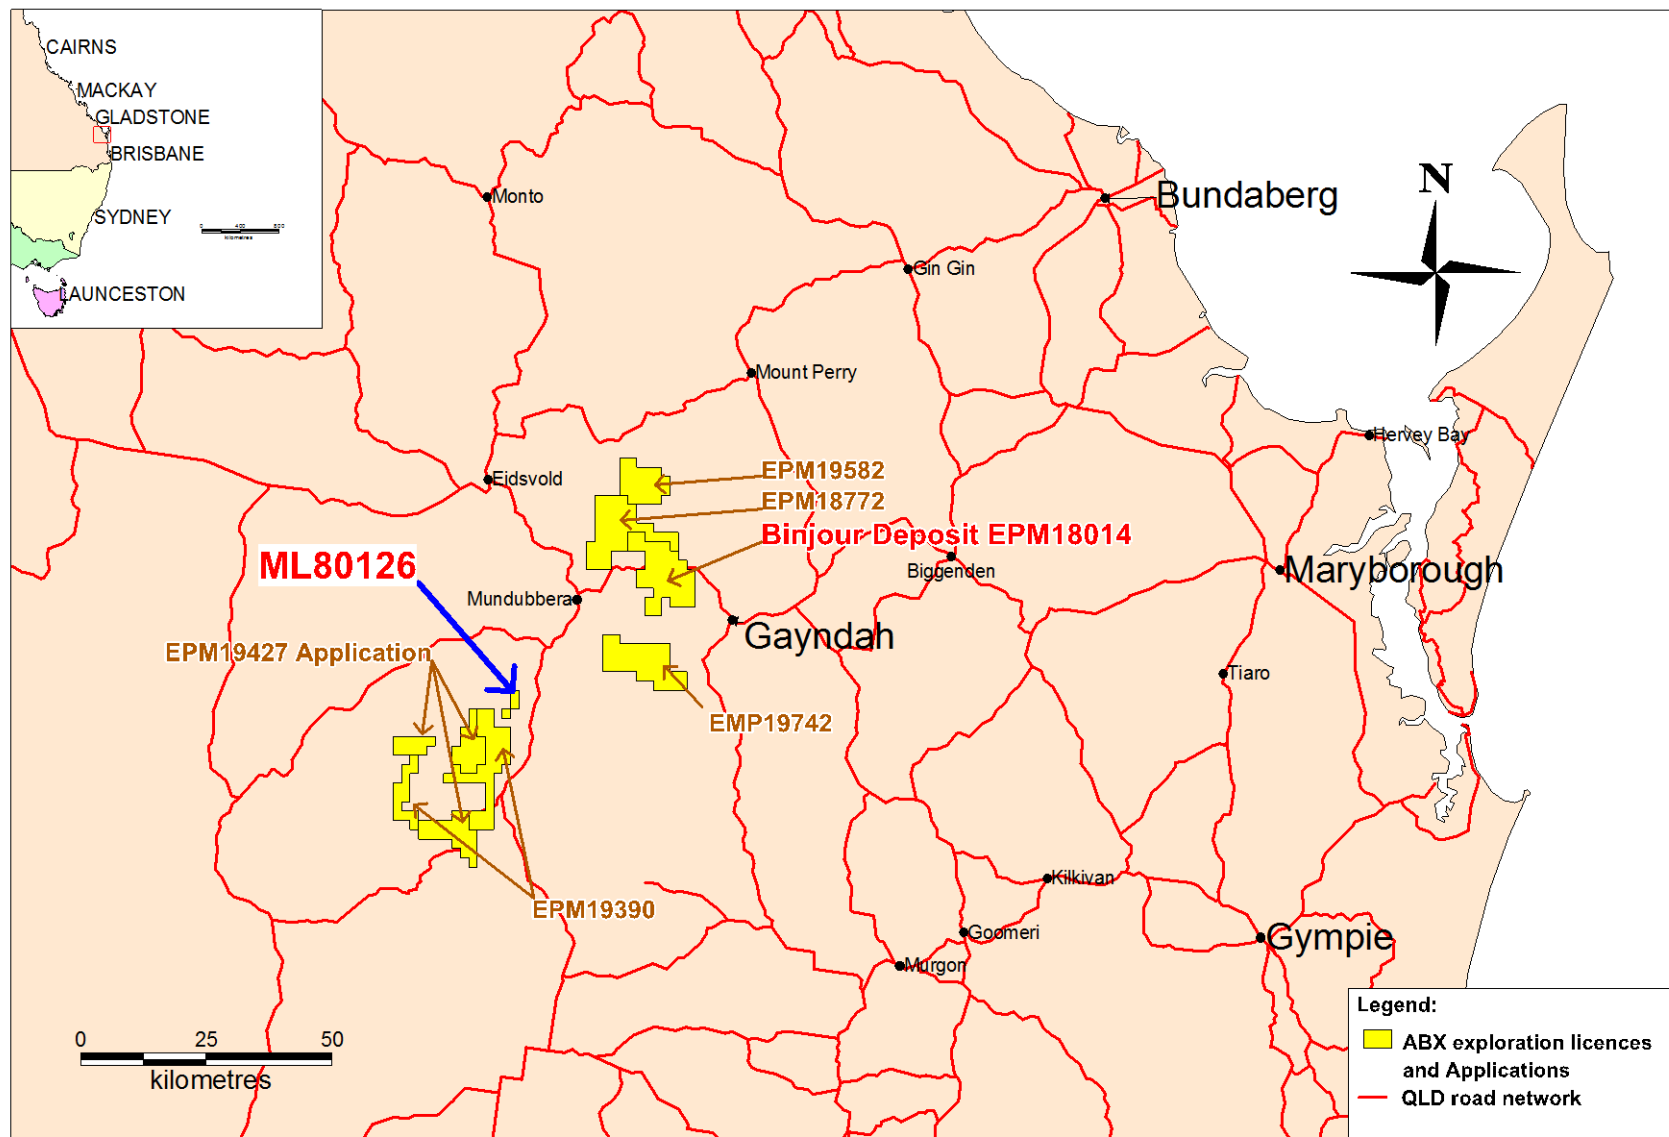

**Indian Bx = US\$64/t
CIF China**

ABx Development Path

- TASMANIA
 - 1st Mining Lease Granted
 - 2nd Mining Lease is underway
 - 3rd mine target identified – with 12 km line-of-lode potential
 - Starting production at 0.5 Mtpa, increasing to 2 Mtpa over 2 years
 - Port stockpile ready at Bell Bay. Can take +60kt Post Panamax
 - Initial capital costs less than A\$6 million
 - Operating costs less than A\$32/tonne FOB & decreases Yrs 2-3
 - Project starts Dec'14 using expert mine, truck, rail contractors
- BINJOUR, QUEENSLAND
 - Major flagship project. Best bauxite play in Pacific Basin?
 - Infrastructure studies awaits QLD Elections
- NEW SOUTH WALES
 - Goulburn project ready to go when Port Kembla is ready in 2018

Binjour Bauxite Project, Queensland

Thick, large, highest grade new trihydrate gibbsite bauxite project in Pacific Basin

Opportunity for Australian Bauxite

Chinese bauxite imports fell 70% after Jan 2014
Indonesian export bans – like in 2012

Bauxite imports into China

million tonnes per month

Source: C&M, China Customs, Bloomberg

Indonesian supply ended 12 Jan'14 & export tax increased from 20% to 50%

ABX's OPPORTUNITY IS NOW

Chinese Bauxite Prices Rising Strongly

China currently buys bauxite from “exotic” suppliers* at prices up to US\$90/t (averaging US\$71/t)

Average Price of Chinese Bauxite Imports

US\$/tonne CIF China

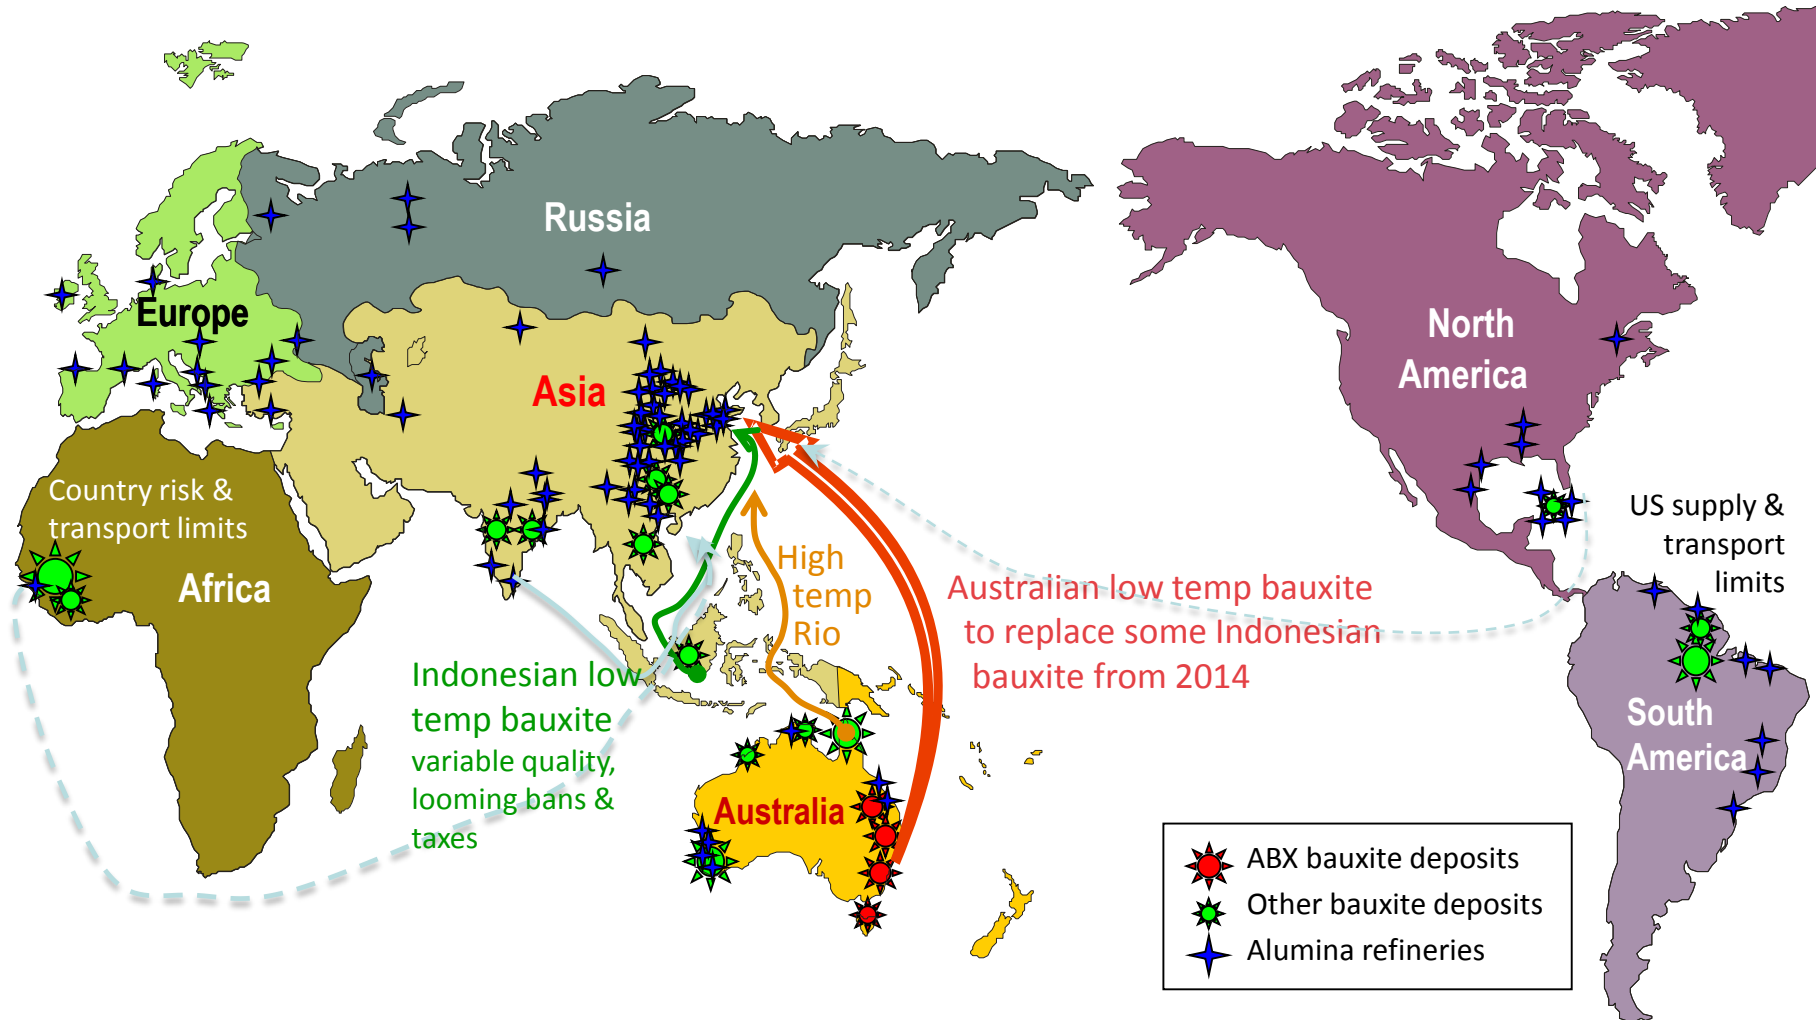

* eg. Brazil, Dominica, Fiji, Ghana, Guinea - all with punitive transport costs

Source: C&M, China Customs, Bloomberg

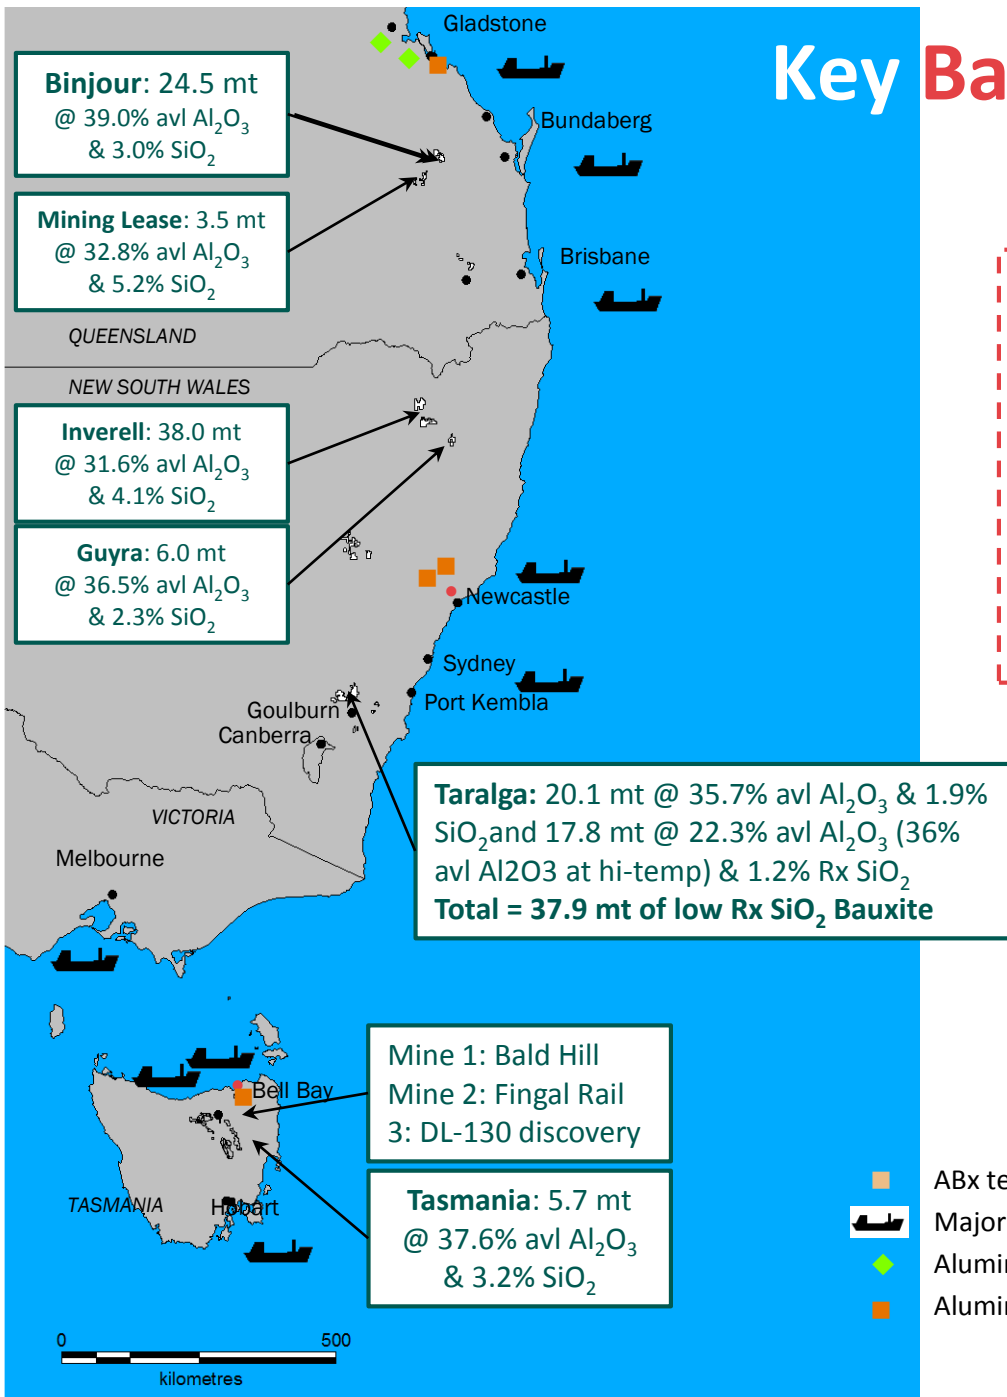

ABX's OPPORTUNITY IS NOW

China's Bauxite Demand & Feed Sources

China's huge alumina capacity **needs to import 50-70 Mtpa of bauxite**. Indonesian export ban since Jan 2014 means Australia can supply more to China's 38 large refineries. **India is now also importing bauxite.**

Key Bauxite Projects Details

- Low temperature bauxite
- 116 mt total mineral resources
- Near surface, easily mined
- Thickest bauxite in Australia
- Ideal infrastructure & socio-economic setting

- ABx tenement/project
- Major port
- ◆ Alumina refinery
- Aluminium smelter

ABx Bauxite Quality

- 116 million tonnes Mineral Resources
- Surface, easily mined, thickest bauxite in Australia
- Low temperature type
- Trihydrate gibbsite bauxite with very low silica

42% Al_2O_3 3% SiO_2 23% LOI

- **ABx bauxite** \approx Indonesian bauxite

Penrose NSW – old quarry, 14 December 2011

Corporate Overview

ASX code	ABX
