## **Announcement**

**23 October 2014, Sydney, Australia:** Real Energy Corporation Limited (ASX: RLE)

### **Placement Cleansing Notice**

Real Energy Corporation Limited ('company') provides the following Cleansing Notice ('Notice') under section 708A of the Corporations Act ('Act') concerning its recently completed placement of 16,129,033 fully paid ordinary shares ('placement shares') at \$0.31 per share, raising \$5 million additional capital before costs.

The placement shares are part of a class of securities quoted on the Australian Securities Exchange Limited.

The company gives this Notice pursuant to section 708A (5) (e) of the Act. The placement shares were issued without disclosure to the various parties under Part 6D.2 of the Act, in reliance on section 708A (5) of the Act.

As at the date of this notice, the company has complied with:

- (a) The provisions of Chapter 2M of the Act; and
- (b) Section 674 of the Act.

As at the date of this Notice, there is no excluded information for the purpose of sections 708A (7) and (8) of the Act.

## **About Real Energy Corporation**

Real Energy is an oil and gas exploration and development company with a focus on the Cooper Basin, Australia's most prolific onshore producing petroleum basin. Real Energy has 100% ownership in 3 large permits in Queensland – ATP 917P, ATP 927P and ATP 1161PA. These permits cover 8,314 km<sup>2</sup> (2,054,435 acres).

Real Energy is focusing initially on the Toolachee and Patchawarra formations. These formations are well-known throughout the basin for holding and producing gas. Seismic interpretation in conjunction with existing petroleum well data has determined that the Toolachee and Patchawarra formations are significant across much of our acreage. Third-party geological analysis has assessed Real Energy's areas to contain a mean gross estimated petroleum initially-in-place of 10.2 Tcf of gas in the Toolachee and Patchawarra formations.
