Transmetro awards construction contract for new wing of Perth hotel

Transmetro Corporation Limited, owner of the Metro Hospitality Group which operates the Metro Hotels chain, has awarded a building contract to Perth builders Cooper & Loxley to construct a new wing for its Metro Hotel Perth.

The new development, for which preliminary works were completed last year, will house 53 rooms and new functions and conferences facilities. The increased room inventory will expand the hotel by nearly 60%.

Transmetro Corporation has owned the Perth hotel for 26 years, having acquired it in 1988. Cooper & Oxley are mobilising for a start of the construction of the new wing, a conventional build, which will commence next week, and is expected to be completed prior to the end of 2015.

The contract was awarded to the Perth-based firm after a tender involving 7 medium sized Perth builders was conducted by Transmetro Corporation's project managers TotalPM.

Yours faithfully

Jakin Agus
