## **Q1 2015 Update**

The Board of Dicker Data (ASX: DDR) advises that the results for Q1 are ahead of our monthly management projections that formed the basis for the annual projections provided in our guidance for FY 2015.

Revenue for the quarter was \$263m, 17% higher than projected. With such a strong start on the revenue side we are confident we will exceed 1b in revenue for this year. Our monthly average sales for the first 6 months of the combined entity is almost 100m.

We have exceeded our projections for the quarter as follows:

Revenue	- 17% higher
EBITDA	- 30% higher
Operating profit	- 48% higher
Net profit after integration costs	- 6% higher

The integration of Express Data into Dicker Data is basically complete and the company is operating well, as is our new Management team.

Traditionally the second half of our FY is stronger and as each month goes by costs from the integration drop off and synergies add to performance, so I am very confident that we are on track to reach the full year results provided in our guidance.

For and on behalf of the Board.

David Dicker  
Chairman and CEO
