Brambles' first-quarter trading update: solid sales revenue growth; FY15 guidance¹ updated for Ferguson acquisition

Brambles today reported sales revenue of US\$1,370.8 million for the three months ended September 2014², up 6% (7% in constant currency³) on the prior corresponding period. The performance primarily reflected continued solid growth in the Pallets segment, strong momentum in Reusable Produce Crates (RPCs) and the contribution of acquired businesses⁴ in Containers.

Brambles' Chief Executive Officer, Tom Gorman, said: "Notwithstanding increased economic uncertainty during the period, we are pleased with our trading result for the first quarter of the 2015 financial year, which reflected a resilient underlying performance as we continue to execute our growth strategy.

"We remain confident of stronger sales revenue growth for the Group in the second half, reflecting our expectation of a continued strong performance in the Pallets and RPCs operations and, in Containers, the contribution of recent contract wins and acquisitions."
