Launch of Homes by Dixon

Dixon Advisory, as responsible entity of the US Masters Residential Property Fund (Fund), is pleased to announce the launch of its quarterly publication, Homes by Dixon.

Alan Dixon, CEO, Dixon Advisory USA, said the publication is an original collection of stories showcasing the beautiful neighbourhoods, historic properties and diverse people who make the New York City area one of the most exciting place in the world to call home.

“This area's real estate world is about more than just sales figures, rental yields and new skyscrapers. It is a place built on centuries of history. A place where people from around the world come to fall in love with new neighbourhoods, to find their favourite block, and for a lucky few to build their lives in the historic brownstones and townhomes that have already played such an outsized role in history,” Mr Dixon said. “It's a place where old-school artisans and crafty creators restore those homes carefully and diligently, respecting their legacy while bringing them back to life.”

Each quarter, this publication will look behind the sales reports to spotlight original stories about the very people and properties who make the NYC metro area unlike anywhere else on earth.
