AGL regains 'AGL' ASX ticker code

20 November 2014

AGL Energy Limited (AGL) today announced that it will regain the 'AGL' Australian Securities Exchange (ASX) ticker code from the opening of trade on 24 November 2014.

AGL's origins are from The Australian Gas Light Company which was listed, firstly on the then Sydney Stock Exchange and then on ASX, under the ticker 'AGL' since 1871.

Since its demerger transaction in 2006, AGL has traded on ASX under the code 'AGK'.

Managing Director and CEO, Michael Fraser, said it was an historic moment to return to the ticker code that represents a large part of the company's heritage.

"AGL has changed beyond recognition over the past 177 years as it has adapted to the many changes in technologies and community needs over that time. So it is very satisfying that some things can remain the same," said Mr Fraser.

Elmer Funke Kupper, Managing Director and CEO, ASX Limited, said: "ASX is pleased to confirm the return of the 'AGL' ticker code. The company has traded on the exchange for over 140 years. We are delighted we can play our part in returning the AGL ticker to its historic home."

The change in ticker code will extend to AGL Energy Subordinated Notes which will trade as 'AGLHA', also from 24 November 2014.
