

## **ASX ANNOUNCEMENT**

**8 December 2014**

### **Metro Mining new ticker code MMI**

Following the change in company name from MetroCoal Limited to Metro Mining Limited (Metro Mining), the company has adopted a new ticker code being MMI, which is effective today. This ticker code reinforces the new direction of the company following the successful takeover of Cape Alumina.

The focus of the combined group is the development of bauxite projects in Cape York, commencing with the Bauxite Hills project, which is targeting first production in 2016. As at 30 September 2014, the companies had a combined cash balance of over \$6.6 million.

The group also has a large number of coal tenements, which are planned for development once the coal price has improved and an infrastructure solution has been advanced.
