The iShares MSCI Japan ETF (the "**Fund**") seeks to track the investment results of an index composed of Japanese equities.

The Fund seeks to track the investment results of the MSCI Japan Index (the "**Underlying Index**"), which consists of stocks traded primarily on the Tokyo Stock Exchange. The Underlying Index may include large-, mid- or small- capitalisation companies, and components primarily include consumer discretionary, financials and industrials companies. The components of the Underlying

the particular fund's holdings. Only certain institutional investors in the US ("**Authorized Participants**") who are able to settle complex baskets of securities can purchase or redeem shares directly with the fund. All other investors may purchase or sell shares only through Authorized Participants or on an exchange, including ASX. Transactions with Authorized Participants or on exchanges occur at prices established by the parties, which may differ from an iShares fund's most recent or next determined NAV.

1.1 About iShares funds

This Prospectus concerns a class of shares (known as the iShares MSCI Japan ETF) issued by iShares, Inc. (the "**Company**") which are quoted on the Australian Securities Exchange ("**ASX**") under the trading code "**JP**".

The Company and another entity called iShares Trust are listed on ASX, and have several of their iShares funds (classes of shares) trading on ASX. Both iShares entities are organised and operate under laws of the United States of America ("**US**") and specific states thereof, and are registered in Australia as foreign companies under the Corporations Act 2001 (the "**Act**").

An iShares fund is an exchange traded fund whose shares trade like other listed securities on ASX. The buying and selling (i.e. trading) of shares in an iShares fund on ASX is settled by way of CHESS Depositary Interests (or "**CDIs**"). CDIs are "securities" for the purposes of the Act.

As exchange traded funds, the shares of an iShares fund trade on a continuous basis at prevailing market prices on various exchanges, including ASX. Each fund issues (creates) and redeems shares at net asset value ("**NAV**") once each day, in large blocks of shares. Each block of shares is exchanged for a basket of securities and cash that generally reflects

1.2 Key features of iShares funds

Each iShares fund holds a portfolio of securities that is managed to generally correspond to the performance, before fees and expenses, of a particular index of stocks or bonds. The name of each fund generally refers to the relevant specific underlying index and the provider of that index, who is responsible for choosing the components of the index and the weight of each component in the index. Each index provider has agreed to license use of the index to the iShares fund.

BlackRock Fund Advisors ("BFA"), the investment adviser to each iShares fund, monitors any changes to the indices underlying the funds. BFA may, pursuant to applicable US rules and regulations governing each fund, recommend to the Company's board of Directors a change to the investment objective, underlying index and/or strategies of the funds in response to such changes.

Diversification: In contrast to a direct investment in a single company, an iShares fund provides exposure to the securities underlying the particular index the iShares fund seeks to track. iShares funds provide Australian investors with what can be an efficient way of gaining access to international markets.

Cost efficiency: As each iShares fund is passively managed and designed to follow a particular underlying index, the expense of managing an iShares fund is generally lower than that of actively managed investment funds.

Transparency of performance: Each iShares fund seeks investment results that correspond generally to the performance (before fees and expenses) of a particular index. iShares funds buy/sell securities in a manner that the fund's investment manager believes will help the fund achieve its investment objective, but do not necessarily hold all of the securities in the fund's underlying index or hold securities in the same weightings as the index.

Tradable: Unlike unlisted managed funds and unit trusts, which can permit trades (buy/sell) to be processed only at a closing price, iShares funds can provide much greater trading flexibility as they are

listed on ASX and can trade throughout the trading day.

1.3 Risk factors

All investors should be aware of the risks before making an investment decision. The principal risks of an investment in the Fund include the following, each of which is described in more detail in the US Prospectus (see the "Summary of Principal Risks" and "A Further Discussion of Principal Risks" sections):

1. Before you start

Australian specific risks

In addition to the principal risks mentioned above, there are Australian specific risks investors should be aware of.

ASX Listing: Admission by ASX of the Company to listing on ASX as a listed foreign company imposes various listing obligations with which the Company must comply on an ongoing basis. Whilst the Company will seek to comply with its listing obligations, there can be no assurance that the requirements necessary to maintain the listing of the Shares will continue to be met or will remain unchanged.

Market Trading Risks: Despite ASX listing, there can be no assurance that an active trading market for Shares or CDIs will develop or be maintained. Further, Shares of the Fund may trade on ASX at, above or below their NAV. Trading of Shares on ASX will be executed in Australian dollars ("A\$") whereas NAV is determined in US dollars ("US\$").

The per share NAV (in US\$) of the Fund will fluctuate with changes in the market value of the Fund's holdings. The trading prices in A\$ of the Shares in the Fund will fluctuate in accordance with changes in its NAV and changes in foreign exchange rates, as well as market supply and demand.

Foreign exchange risk: Trading of Shares (settled by way of CDIs) on ASX will be executed in A\$ whereas NAV is determined in US\$. Also, dividends or distributions will be determined in US\$ and then converted into A\$ prior to payment to holders of CDIs (refer to section 7.5 for further details).

The performance of an iShares fund (including the Fund) is not guaranteed by any foreign or Australian regulatory or depository institution, or any BlackRock or other entity.

There is no guarantee that any distributions in respect of an iShares fund will be declared in the future, or that if declared, the amount of any distribution will remain constant or increase at any time. Refer to section 7.5 for further information about the payment of distributions, if declared.

1.4 Fees and costs

If you own shares of an iShares fund, you will incur management fees that vary depending on the particular fund. In addition, you will also incur the cost of the "spread" – that is, the difference between what professional investors are willing to pay for fund shares (the "bid" price) and the price at which they are willing to sell fund shares (the "ask" price). Details of the fees and expenses are included in the US Prospectus for the Fund in the section entitled "Fees and Expenses".

You will also incur usual and customary brokerage commissions when buying or selling shares of a fund on ASX.

1.5 Tax

Information regarding tax matters for Australian investors is set out under section 6 of this Prospectus.

1.6 Financial reports

Copies of the Semi-Annual and Annual Reports of the Fund can be obtained electronically at au.iShares.com. An announcement will be made to ASX as these reports become available. The Fund's US financial statements (included in its Annual Report) will also be lodged with ASIC annually (see section 7.2). Refer to section 4.2 for financial information for the Fund.

1.7 Governance and compliance structure

The business activities of the Company and the iShares funds are governed by relevant US and Australian laws and regulations. An extensive corporate governance structure is in place. In Australia, BlackRock Investment Management (Australia) Limited (ABN 13 006 165 975, AFSL No. 230523) ("**BIMAL**") is primarily responsible for ongoing compliance and communications with Australian regulators and statutory bodies. Refer to section 4.4 for further information about BIMAL.

1.8 Registrar

Computershare Investor Services Pty Limited ("**Computershare**") has been engaged to maintain the Australian register of CDI holders and provide services to iShares investors (including facilitating payment of any distributions) in relation to their CDI holdings.

1.9 Other assistance and product information

Any general (non-financial advisory) assistance regarding iShares investment products can be obtained by calling Computershare on 1300 474 273. Further information on the different iShares funds listed on ASX (including prospectuses) is available from the Company's website at au.iShares.com or from your investment adviser

3. CDI and Share issues

This is a Prospectus relating to shares of common stock with a par value of US\$0.001 per share ("Shares") and relating to CDIs over such Shares of the Company issued in respect of the Fund.

The main purpose of this Prospectus is to enable secondary trading on ASX of:

- (a) to the extent it is Shares that are traded on ASX:
 - (i) Shares issued from time to time in the US outside the Offer and after the date of this Prospectus, but before the Offer closes; and
 - (ii) Shares issued in the US primary market in the 12 months up to the date of this Prospectus;
- (b) to the extent it is CDIs that are traded on ASX, CDIs issued after the date of this Prospectus but before the Offer closes.

Further details of the offers and issues of Shares and CDIs are set out in section 3 of this Prospectus and in the US Prospectus which is updated and filed with the Securities Exchange Commission at least annually. This Prospectus refers to and includes parts of the US Prospectus and parts of the SAI under subsection 712(3) of the Act. Please refer to section 5 of this Prospectus for further details of the US Prospectus and the SAI and how to obtain a copy of any of the Included Documents.

This Prospectus is dated 6 January 2015 and was lodged with the Australian Securities & Investments Commission ("ASIC") on 6 January 2015. ASIC takes no responsibility for the content of this Prospectus.

The CDIs are issued in Australia in reliance on a class order issued by ASIC, Class Order CO 14/827. ASIC has also issued an instrument of relief, INS 07/810 dated 8 October 2007, relating to offers for sale of CDIs on ASX.

The full text of this Prospectus (as well as the Included Documents) should be read, as the information contained in individual sections of this Prospectus is not intended to and does not provide a comprehensive review of the Fund or the Shares or CDIs to which this Prospectus relates.

Shares (or CDIs) commenced quotation on ASX on 10 October 2007.

ASX takes no responsibility for the content of this Prospectus. Admission by ASX of the Company and quotation of the Shares (or CDIs) on ASX is not an endorsement by ASX (or a related body of ASX) of the Company or the Fund.

Several expressions used throughout this Prospectus are defined in the Glossary in section 8.

2. About this Prospectus

3.1 iShares will be held as CDIs

The Company is required to have CDIs issued over ASX quoted Shares and so the Company has established a suitable CDI program.

Instead of holding Shares, Australian investors will hold CDIs which are Australian financial instruments designed to give the CDI holder rights and entitlements equivalent to holding the foreign Shares issued by the Company (CDIs are securities). A Depositary Nominee holds title on behalf of CDI holders as shown in the diagram below.

The Company has appointed a Depositary Nominee. Beneficial title to Shares that are to be held in the form of CDIs will be vested in the Depositary Nominee. There is no additional cost to the CDI holders for the provision of this service by the Depositary Nominee and any associated costs are paid by BFA or its affiliates from the management fee.

Provided below is a simplified diagram that does not show the DTC ownership arrangements behind the Depositary Nominee.

CDIs may be held in uncertificated form on either the Issuer Sponsored Subregister or the CHESSE Subregister, which together make up the Australian CDI Register (maintained by Computershare) for the Fund.

3.2 Rights attaching to CDIs

With the exception of voting arrangements (see below), CDI holders generally have rights equivalent to those of other investors in Shares (i.e. beneficial owners of Shares as shown on DTC records or DTC Participant records).

In relation to corporate actions such as bonus issues, rights issues and capital reconstructions, CDI holders will generally receive equal treatment to that of holders of Shares because under the ASX Settlement Operating Rules, all economic benefits such as dividends, bonus issues, rights issues or similar corporate actions must flow through to CDI holders as if they were the holders of the corresponding

Shares. The ratio of CDIs to corresponding Shares is one-to-one.

However, in some cases, marginal differences may exist between the resulting entitlements of CDI holders and the entitlements they would have accrued if they held Shares directly through DTC or a DTC Participant. This is because, for the purposes of certain corporate actions, the Depositary Nominee's holding of Shares is, for US legal reasons, treated as a single holding, rather than as a number of smaller separate holdings corresponding to the individual interests of CDI holders (thus, for example, CDI holders will not benefit to the same extent from the rounding up of fractional entitlements as if they held Shares directly). The Shares are not subject to corporate takeovers.

3. CDI and Share issues

Regarding voting, in accordance with the ASX Settlement Operating Rules, if a meeting of holders of Shares in the Fund is convened, each holder of a CDI over Shares in the Fund will be given notice of the meeting at the same time as notice is sent to holders of Shares via the DTC system. The notice will include a form permitting the CDI holder to direct the Depositary Nominee to cast, or authorise or arrange the casting of, proxy votes in accordance with the CDI holder's written directions. Only holders of Shares (being beneficial owners of Shares as shown on DTC records or DTC Participant records) or their proxies can attend and vote at meetings of holders of Shares.

The rest of this section 3 contains information primarily of interest to professional analysts or advisers or investors with similar specialist information needs, including potential

the Fund occur only in the US. Shares in the Fund trade on exchanges at market prices established by the parties to the transaction (which may differ from the Fund's most recent or next calculated NAV).

As with creations of Shares, redemption of Shares can be done only in Creation Units, principally "in-kind" (i.e. "in specie" or in exchange) for a portfolio of securities in the Underlying Index of the Fund and a specified amount of cash. Except when aggregated in Creation Units, Shares are not redeemable although they may still trade on the secondary market.

3.3 Nature of Shares

The Company's Shares are shares of common stock with a par value of US\$0.001 per share. Each Share issued by the Fund has a pro rata interest in the assets of the Fund.

Shares can be created only in a specified number of Shares called "Creation Units", which may be issued by the Fund at the end of each US trading day. The value of a Creation Unit varies but the approximate value of a Creation Unit as of 15 December 2014 was US\$6,812,517.

BlackRock Investments, LLC ("**BlackRock Investments**"), based in the US, is the "Distributor" of Creation Units for the Fund on an agency basis.

The Company has other shares on issue (in respect of other funds of the Company).

The Shares that trade in the secondary market are issued in the primary market at their NAV only to wholesale and sophisticated investors, such as market makers and large traders. Only Authorized Participants (all being participants in The Depositary Trust Company ("**DTC**") and having a specific contract with BlackRock Investments) are able to arrange the issue of Creation Units. Issues of Creation Units for

Shares are held in book-entry form with no certificates issued. DTC or its nominee (Cede & Co.) is the record owner of all outstanding (i.e. issued) Shares and is recognised as the record owner of all Shares for all purposes. Investors (except those holding via CDIs) are beneficial owners as shown on DTC records or DTC Participant records.

Also refer to the section headed "Shareholder Information" in the US Prospectus and the sections headed "Additional Information Concerning the Company" and "Creation and Redemption of Creation Units" in the SAI.

3.4 Custody agreement

Computershare Trust Company, N.A. is a DTC Participant and has entered into a Custody Agreement with the Depositary Nominee, such that the Depositary Nominee will become and remain a "beneficial owner" of Shares to facilitate and underpin the Company's required Australian CDI program. Further information on the DTC system is contained in section 7.11 of this Prospectus. BIMAL has agreed to facilitate certain obligations of the Company in connection with the Custody Agreement. See also section 4.4.

3.5 CDI issuance

The Fund's CDIs, issued under the arrangements as described above, are transferable in CHESS, with the Company acting as Principal Issuer. A CDI Register is maintained by the Company (through Computershare) in Australia.

CDIs are created and issued from time to time in accordance with the ASX Settlement Operating Rules (specifically section 13 of those Rules). Generally this occurs when the Company through Computershare records a person in the CDI Register as the holder of CDIs, in conjunction with causing appropriate title to the underlying Shares to be vested in the Depositary Nominee through the Custody Agreement mentioned in section 3.4 above. The Depositary Nominee has a very passive role and it will not actively offer CDIs for issue.

3.6 Conversion of CDIs into Shares/Shares into CDIs

As the Shares are designed to trade in high volumes the Company expects that there will be demand for conversion of Shares into CDIs (and vice versa), particularly to create a supply of Shares or CDIs for secondary trading on ASX. Those Shares being converted into CDIs will generally originate from DTC Participants in the US.

Persons interested in converting existing Shares held in the DTC system into CDIs or converting CDIs into Shares should contact Computershare on 1300 474 273.

4. Information about the Fund

3.7 Other issues of Shares

The Fund is designed to issue (create) and redeem Shares once each day and has issued and redeemed shares during the 12 months prior to the date of this Prospectus.

- (b) secondary trading on ASX of Shares issued in the US primary market in the 12 months up to the date of this Prospectus.

3.8 Terms and conditions of the Offer

The Company invites applications from Eligible Investors for the issue of Shares through the Offer. Applications for Shares (or CDIs over Shares) must be for a minimum quantity of Shares comprised in a Creation Unit or for multiples thereof, and must be made to the Company through an Authorized Participant.

The Offer opens on the date of this Prospectus and remains open for acceptance until the day of the Expiry Date.

However, the Company reserves the right to close the Offer early, vary any other date and time in this Prospectus, or to accept late Applications, without notice.

Shares to be issued under the Offer may, at the Australian holder's election, be held:

- (a) through DTC or a DTC Participant in the US;
- (b) on the Issuer Sponsored Subregister (uncertificated) in Australia by way of CDIs; or

- (c) on the CHESS Subregister (uncertificated) in Australia by way of CDIs.

The Issue Consideration for a Creation Unit of Shares is:

- (a) the Deposit Securities; and
- (b) the Cash Component.

Applicants will need to provide the applicable Issue Consideration before being issued a Creation Unit of Shares. Applicants will, through the Authorized Participant selected by the Applicant, be advised of the exact Issue Consideration (or the method for calculating the exact Issue Consideration) they are required to provide for Shares and how it is to be provided.

6. Tax considerations

6.1 General information only

The following is a general summary of the main Australian income tax implications of an investment in the iShares funds listed on ASX by an Australian investor holding CDIs over Shares.

The information in this summary is of a general nature only and cannot and does not address all of the tax issues which may be relevant to an investor. It is not legal, financial or tax advice. Australian taxation laws are complex and may change over time.

In addition, this section also provides limited and general information in respect of US estate tax and

Investors should consult their tax adviser to understand how any future reforms may affect their iShares investment.

Important: Investors must seek their own professional taxation advice regarding Australian and any US tax matters applicable to their own

6.2 Assumptions

The comments outlined in this summary assume that the investor:

- ▶ is an Australian resident for income tax purposes with an income year ending on 30 June;
- ▶ is an individual taxpayer or a complying superannuation fund;
- ▶ does not carry on a business of either trading or dealing in shares or otherwise hold investments on revenue account - any subsequent disposal of the investment in a fund will therefore be subject to the capital gains tax regime; and
- ▶ reports income (including dividend distributions from holding shares in the iShares funds) on a cash basis (and does not report income using an accruals basis).

This summary is based on the Australian taxation laws in force and the administrative practices of the Australian Taxation Office generally accepted as at the date of this Prospectus.

Taxation laws may change in the future without notice.

The government is currently reviewing the Australian tax system, including a review of anti-deferral rules.

6.3 Distributions

The investor's assessable distribution amount should be the dividend distribution received during the financial year gross of any US withholding tax deducted. The investor should be entitled to foreign income tax offsets for the US withholding tax, up to the amount of any Australian tax payable on the dividend distribution. Please note, foreign income tax offsets may only be used to offset the Australian tax arising from your dividend distribution or your other foreign income. This may therefore result in unutilised foreign income tax offsets.

The US withholding tax rate is typically 30% but is generally reduced to 15% under the Australia/US Double Tax Agreement. Investors may be required to complete US tax forms to allow access to the reduced rate.

From time to time, an iShares fund may return capital to investors. A return of capital is a return of part of the cost which was outlaid in making the original investment in the fund.

There is no guarantee that any distributions in respect of an iShares fund will be declared in the future, or that if declared, the amount of any distributions will remain at current levels or increase at any time.

6.4 Capital gains / losses

General

The sale or other disposal of Shares (or CDIs) will constitute a capital gains tax ("**CGT**") event for Australian tax purposes. A capital gain will be made if the capital proceeds received on the occurrence of the CGT event are greater than the cost base of the Shares or CDIs.

The capital gain may be able to be reduced if the investor claims the discounting concession which reduces the nominal capital gain by 50% for individuals and by 33 1/3% for complying superannuation funds. This applies where the CDIs were held for at least 12 months prior to the CGT event.

If the capital proceeds on the disposal of the CDIs are less than the investor's reduced cost base of the CDIs, the difference is treated as a capital loss. Such losses can be offset against capital gains arising in the current or future income years, but cannot be used to reduce tax payable on ordinary income (such as dividends).

Return of capital

For the purposes of calculating a capital gain/loss, an investor should reduce the cost base of their CDIs by any amounts that are characterised as a "return of capital". Where the total returns of capital exceed the cost base of the CDIs (i.e. the cost base has been reduced to zero), the excess is assessable as a capital gain, even if the investor has not sold their iShares investment.

4. Information about the Fund

6.5 Accruals taxation – CFC provisions

Foreign Investment Fund (“**FIF**”) accruals provisions do not apply to the investor’s CDIs as the FIF accrual provisions have been repealed for the 2010/2011 income year and later income years.

The Controlled Foreign Company (“**CFC**”) rules are unlikely to apply on the basis that each iShares fund is a large US listed fund and the requisite investor control tests should not be satisfied.

6.6 US estate tax

US tax laws seek to apply estate tax on US situated assets held by individuals worldwide (including shares in US companies). This means an investor (who is not a US citizen and is not domiciled in the US) may be subject to US estate tax if at the time of their death, they beneficially own Shares.

The amount of the estate tax is determined by reference to the value of the Shares held at death. However the amount of any such tax may be reduced pursuant to an Australian/US estate tax treaty. The reduction can include a credit of US\$13,000 for the first US\$60,000 of US situated assets (including Shares). Depending on the structure/vehicle that owns the US situated assets US estate tax may not apply.

In addition to the estate tax, an investor can also be subject to US generation-skipping transfer tax where they transfer the CDIs to a grandchild or a more remote descendant at death.

The estate tax and generation-skipping tax are levied on a self-assessment basis such that the estate is responsible for making the appropriate tax filings and where applicable, paying the taxes. Investors must obtain their own advice about the impact of these taxes to their specific circumstances.

7. Additional information

7.1 ASX listing

The Company has been a registered foreign company under the Act since 28 May 2007.

The Company was admitted to ASX's official list on 5 October 2007 as an ASX foreign exempt listing.

The Company acts as Principal Issuer in relation to CDIs issued or to be issued in respect of the Shares and those CDIs have been approved by ASX Settlement.

As the Company is an ASX foreign exempt entity under the ASX Listing Rules, its Shares (including the shares of its other listed funds) are deemed not to be ED (Enhanced Disclosure) securities. This means that the Company is not a disclosing entity for the purposes of the Act.

Under the ASX Listing Rules, the Company (in respect of the Fund) must immediately provide to ASX, in English, certain information that it provides to its overseas home exchange (i.e. NYSE Arca) that is, or is to be, made public and must continue to comply with the listing rules (or their equivalent) of its overseas home exchange.

7.2 Australian financial reporting requirements

Investors should note that the Chapter 2M financial reporting regime under the Act does not apply to the Company.

The Company will annually be lodging with ASIC US financial statements for the Fund (together with unaudited cash flow statements for the Fund prepared in accordance with the Act) in compliance with the conditions of an ASIC instrument granting the Company relief from section 601CK of the Act.

7.3 Capital structure

Shares in the Company are issued and redeemed at the end of each US trading day.

As at 31 August 2014 the Fund had 1,245,000,000 Shares on issue (audited). As at 15 December 2014 the Fund had 1,320,600,000 Shares on issue (unaudited).

However, given the daily issue and redemption process it is not possible to predict the number of

Shares which will be on issue at any time in the future. There is an unlimited number of Shares (or CDIs) being offered under the Offer.

7.4 Rights attaching to Shares

A description of the share capital of the Company and the rights attaching to Shares (together with dividend payment procedures) is set out in the US Prospectus (refer to the section headed "Shareholder Information") and the SAI (refer to the sections headed "Additional Information Concerning the Company" and "Creation and Redemption of Creation Units").

Shares are held in book-entry form with no certificates issued. DTC or its nominee (Cede & Co.) is the record owner of all outstanding (i.e. issued) Shares and is recognised as the owner of all Shares for all purposes. Investors (except those holding via CDIs) are beneficial owners as shown on DTC records or DTC Participant records.

7.5 Payment of distributions and details of any return of capital

The announcement by the Company of any distributions payable in respect of iShares funds quoted on ASX will be in US\$, and converted into A\$ prior to payment to holders of CDIs.

A declaration by the Company to pay a distribution will be announced to ASX. Investors holding CDIs in respect of shares in an iShares fund as of the record date for a distribution relating to those shares will be entitled to participate in the distribution.

CDI holders will generally receive distributions payments (to which they are entitled) 12 business days following the record date. The value of the A\$ distribution payment is dependent on the prevailing foreign exchange rate on the date that rate is struck (usually 8 days following the record date).

Payment of distributions will generally be made by direct credit into a nominated Australian bank account.

Distributions cannot be automatically reinvested into the Fund.

Investors will receive a payment advice detailing the components of any distribution paid by the Fund.

Details of distributions paid by the Fund are made available at au.iShares.com.

As soon as practical following the end of a financial year, au.iShares.com will be updated to show the breakdown between "dividends" paid and "return of capital" (if any) for any distributions paid during that financial year. Until such time as the breakdown is known, the website will show the cash amount paid without any breakdown.

7.6 Applications

Eligible Investors interested in making an Application should contact BIMAL for details of Application procedures and requirements (including the procedure for providing the Issue Consideration).

An Eligible Investor will be able to make an Application only through an Authorized Participant introduced to them (if required) by BIMAL.

Authorized Participants are the only persons who are authorised to place orders with BlackRock Investments and create a Creation Unit of Shares in the Fund. BIMAL will arrange for the provision of any services to Eligible Investors by Authorized Participants. Authorized Participants are not obliged to, and might not, agree to assist in the making of an Application by an Eligible Investor.

The Company reserves the right to reject any Application for any reason or to allocate any Applicant a lesser number of Shares than applied for.
