**Chairman's letter**

7 January 2015

Dear Shareholder

On behalf of the Board of Tellus Resources Limited, I am pleased to invite you to participate in a renounceable Rights Issue to raise up to a total of approximately \$897,000.

The Rights Issue provides all Eligible Shareholders the opportunity to invest in 3 New Shares for every 2 Shares held at 7.00pm (Sydney time) on the Record Date (13 January 2015). The New Shares will be issued at \$0.002 per New Share.

In addition, Eligible Shareholders may apply for Additional Shares over and above their Entitlement at the same price of \$0.002 per Additional Share, if and to the extent there is any Shortfall.

The Prospectus was lodged with ASIC on 7 January 2015 and a copy will be sent to all Shareholders of the Company who are on the register of members as at 7.00pm (Sydney Time) on 13 January 2015 and who have registered addresses in Australia or New Zealand.

I encourage those Shareholders who may have smaller, perhaps unmarketable, parcels of Shares to apply for Additional Shares. This may particularly be the case for those Shareholders who acquired Shares through their shareholding in Caravel Energy Ltd. The Board intends to look favourably upon such applications.

Full details of the issue are contained in the Prospectus dated 7 January 2015 which is attached to this letter. Key Dates that shareholders should note are as follows:

- Record Date for Offer 13 January 2015
- Opening Date for Offer 16 January 2015
- Closing Date for Offer 28 January 2015
- Issue Date 4 February 2015

The funds to be raised from the Rights Issue will be used to fund the Company's ongoing working capital requirements, meet expenses associated with the Covenant Mondo joint venture and maintain its various tenements and other assets in good standing.

You are urged to read the Prospectus in full and to consult your stockbroker or financial advisor in relation thereto before deciding whether to accept the Offer.

The Company's Managing Director, Mr Carl Dorsch (through entities controlled by him), has underwritten up to \$200,000 of the Rights Issue.

The Company's other Directors have indicated that they intend to take up their Entitlements under the Rights Issue, subject to legal and other limitations imposed upon them and their associates.

On behalf of the Directors, I commend this Offer to you.

Yours sincerely

Robert Kennedy  
Chairman

## Defined terms and abbreviations

Terms and abbreviations used in this Prospectus are defined in the Glossary in Section 7.

## **1. DETAILS OF THE OFFER**

### **1.1 General**

This Prospectus invites Eligible Shareholders to participate in a pro-rata renounceable Rights Issue on the basis of 3 New Shares for every 2 Shares held on the Record Date at an issue price of \$0.002 per New Share.

If no Options are exercised or Performance Rights converted into Shares prior to the Record Date and all of the Shareholders take up their Entitlement in full, then:

- (1) 448,272,443 New Shares will be offered under the Rights Issue; and
- (2) the amount of \$896,545, before costs, will be raised by the Company from the Rights Issue.

If in the unlikely event that all Options are exercised and all Performance Rights converted into Shares prior to the Record Date, then an additional 80,574,999 New Shares will be offered under the Rights Issue, and an additional \$161,150 (before costs) may be raised.

### **1.2 Additional Shares**

Eligible Shareholders who take up their full Entitlement may also apply for Additional Shares. Applications for Additional Shares may be considered if not all of the Offer Shares are taken-up by the Eligible Shareholders under the Offer. Additional Shares will be issued at the discretion of the Directors and, as a result, there is no guarantee that you will receive Additional Shares. If available, Additional Shares will be issued under the Shortfall Offer referred to in Section 1.14.

In the event that Entitlements are not taken up in full, Eligible Shareholders who have taken up all of their Entitlement and have made an application for Additional Shares may be allocated Additional Shares as follows:

- (a) the number of Additional Shares allocated to an Eligible Shareholder who has applied for Additional Shares will be at the discretion of the Directors;
- (b) the Directors reserve the right to allocate Additional Shares to Eligible Shareholders in part or not at all; and
- (c) an Eligible Shareholder will not receive more Additional Shares than they have applied for.

There is no guarantee that Eligible Shareholders will be successful in being allocated any of the Additional Shares that they may apply for. If an application for Additional Shares is scaled back or the Directors decide not to issue Additional Shares to an Eligible Shareholder, then the Application Moneys for those Additional Shares which are not issued to the applicant will be returned to the applicant without any payment of interest.

### **1.3 Your Entitlement and trading of Entitlements**

Your Entitlement is shown in the accompanying Entitlement and Acceptance Form.

In the calculation of any Entitlement, fractions will be rounded up to the nearest whole number. The Rights Issue is being made on a renounceable basis, meaning that a Shareholders' Entitlement to participate in the Offer may have some value as it may be sold to a third party (who need not be an existing Shareholder). Entitlements may be traded on the ASX from 9 to 20 January 2015. There is no guarantee regarding the level of demand for the Rights or that there will be an active market for the Rights.

#### 1.4 Minimum Subscription

There is no minimum subscription for the Offer.

#### 1.5 Underwriting

Entities associated with the Managing Director, Mr Carl Dorsch, have signed underwriting agreements with the Company, under which they have agreed to apply for up to \$200,000 worth of Shares.

Each underwriting agreement is in the same terms, and is summarised as follows:

- (a) the underwriter's obligations only become binding if there is a Shortfall in the subscription for New Shares under the Rights Issue. If there is a Shortfall, Mr Dorsch (or his controlled or related entity, as the case may be) (**Underwriter**) must apply for the number of shares specified in Section 3.4 ;
- (b) the Underwriter must apply for and pay for the New Shares, and the Company must allot and issue the New Shares, within 15 business days after the Closing Date;
- (c) the issue price for the New Shares will be \$0.002 each, and the New Shares will otherwise be issued pursuant to this Prospectus;
- (d) a fee of \$100 is payable to the Underwriter for partially underwriting the Offer (As there are two underwriting agreements, a total fee of \$200 is payable to the Underwriters for partially underwriting the Offer);
- (e) the obligation of the Underwriter to underwrite the Rights Issue is subject to certain events of termination. The Underwriter may terminate its obligation under the agreement if:
  - (i) The Company does not lodge the Prospectus before 31 January 2015 or the Prospectus is lodged by that date and is thereafter withdrawn by the Company;
  - (ii) The Company fails to lodge an Appendix 3B in relation to the Shortfall Shares;
  - (iii) ASX has advised the Company that it will or may not grant official quotation to the Shortfall Shares;
  - (iv) The Company is prevented from issuing the Shortfall Shares within the time required by the agreement, the Corporations Act, or the Listing Rules;
  - (v) The Takeovers Panel makes a declaration that circumstances in relation to the affairs of the Company are unacceptable circumstances under Part 6.10 of the Corporations Act, or an application for such a declaration is made to the Takeovers Panel;
  - (vi) There is an outbreak of hostilities or a material escalation of hostilities (whether or not war has been declared) after the date of the agreement involving one or more of Australia, New Zealand, Indonesia, Japan, Russia, the United Kingdom, the United States of America, India, Pakistan, the People's Republic of China, Israel or any member of the European Union, or a terrorist act is perpetrated on any of those countries or any diplomatic, military, commercial or political establishment of any of those countries anywhere in the world, which in the reasonable opinion of the Underwriter has or is likely to have a material adverse effect on the Rights Issue;
  - (vii) Any authorisation which is material to anything referred to in the Prospectus is repealed, revoked, or terminated or expires, or is modified or amended in a manner unacceptable to the Underwriter acting reasonably;
  - (viii) An event of insolvency occurs in respect of the Company or any of its subsidiaries; or

(ix) A director or senior manager of the Company or any of its subsidiaries is charged with an indictable offence.

The Underwriters have notified the Company of their present intention not to acquire Shares prior to the Record Date. No assurance can be given that the Underwriter's intentions won't change.

The relevant interest of the Underwriter pre-Offer is disclosed in this Prospectus at Section 3.4.

#### 1.6 **Opening Date and Closing Date**

The Rights Issue will open on 16 January 2015 (**Opening Date**) and close at 5.00pm Adelaide time on 28 January 2015 (or such later date as the Directors, in their absolute discretion and subject to compliance with the Listing Rules, may determine) (**Closing Date**).

Completed Entitlement and Acceptance Forms must be received at the Company's Share Registry by 5.00pm (Adelaide time) on 28 January 2015, together with payment, in Australian dollars, for the amount of the application in accordance with the Entitlement and Acceptance Form.

If you wish to pay by BPAY®, you do not need to return the Entitlement and Acceptance Form, but you must ensure that funds submitted through BPAY® are received by no later than 5:00pm (Adelaide time) on 28 January 2015.

#### 1.7 **How to take up your Entitlement**

Under the Rights Issue, you may apply for 100% of your Entitlement or for a portion less than your Entitlement, by using the personalised Entitlement and Acceptance Form mailed to you with this Prospectus, or by making a payment by BPAY® in accordance with the instruction on the Entitlement and Acceptance Form.

Instructions on how to make payments are set out on the Entitlement and Acceptance Form and in Section 1.8 below.

The Entitlement and Acceptance Form details your Entitlement and should be completed in accordance with the instructions set out on the form.

You should allow sufficient time to ensure that your Entitlement and Acceptance Form reaches the Share Registry, or any payment of Application Monies by BPAY®, by the specified time of 5.00pm (Adelaide time) on the Closing Date, being 28 January 2015 unless extended by the Directors.

#### 1.8 **Payment and return of your Entitlement and Acceptance Form**

You may pay the Application Money by BPAY®, cheque, money order or bank draft.

Payment by BPAY®

If you elect to make payment using BPAY®, you must follow the instructions for BPAY® described in the Entitlement and Acceptance Form (which includes the biller code and your unique customer reference number). Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the personalised Entitlement and Acceptance Form but you are taken to make the statements on the form; and
- (b) if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Money.

If you have multiple holdings you will have multiple unique customer reference numbers.

You should be aware that your own financial institution may implement earlier cut off times with respect to electronic payment, and you should therefore take this into consideration when making payment. It is the responsibility of the applicant to ensure that funds submitted through BPAY® must be received by no later than 5.00pm (Adelaide time) on 28 January 2015.

**Payment by cheque, money order or bank draft**

Those who elect to pay by cheque, money order or bank draft must follow the instructions described in the Entitlement and Acceptance Form. You must ensure that:

- (a) your Entitlement and Acceptance Form is complete;
- (b) your cheque, money order or bank draft for the applicable amount of Application Money must be made in Australian currency, drawn on an Australian branch of a financial institution, be made payable to "Tellus Resources Limited" and crossed "Not Negotiable"; and
- (c) your completed Entitlement and Acceptance Form and cheque, money order or bank draft is received by the Company's Share Registry by no later than 5.00pm (Adelaide time) on 28 January 2015 at:

Computershare Investor Services Pty Ltd  
GPO BOX 2987  
Adelaide SA 5001

**1.9 Use of Funds**

The purpose of the Offer is to raise up to \$896,545. The gross proceeds of the Rights Issue are intended to be used for the purposes and in the amounts set out in the table in Section 3.1 of this Prospectus.

**1.10 Issue and Allotment of New Shares**

The New Shares are expected to be allotted by no later than 4 February 2015.

The New Shares will be issued fully paid and, from the date of issue, will rank equally in all respects with existing Shares.

By returning your Entitlement and Acceptance Form, or by payment of all or part of the Application Monies by BPAY®, you agree to comply with the Constitution in respect of the New Shares issued to you.

Until the issue and allotment of the Offer Shares the Application Monies will be held on trust until allotment takes place, in a separate bank account opened and maintained for that purpose only. Any interest earned on the Application Monies will be for the benefit of the Company and will be retained by it irrespective of whether allotment of the Offer Shares takes place. No allotment of Offer Shares will take place until the proceeds of the Rights Issue have been received and ASX grants permission to quote the New Shares.

**1.11 ASX Quotation**

On the same date as announcing the Prospectus, the Company applied to the ASX for the grant of official quotation of the New Shares to applicants.

Quotation of the New Shares, if granted by the ASX, will commence as soon as practicable after the issue of the New Shares.

If approval for official quotation is not granted by ASX within 3 months after the date of this Prospectus, the Company will not allot or issue any New Shares and will repay all application Monies (where applicable) within the time prescribed under the Corporations Act, without interest.

That the New Shares have been admitted to quotation on ASX is not to be taken in any way as an indication of the merits of the Company or the New Shares.

#### 1.12 **Overseas Shareholders**

The New Shares being offered under this Prospectus are being offered to Eligible Shareholders with registered addresses in New Zealand in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2002 (New Zealand)*.

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer.

The Company believes it is unreasonable to extend the Offer to Ineligible Shareholders. The Company has formed this view having considered:

- (a) the number and value of the securities that would be offered to those shareholders; and
- (b) the cost of complying with the legal requirements and requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, the Offer under this Prospectus is not made to Ineligible Shareholders (as defined in Section 7).

However, in order for the Offer to satisfy Listing Rule 7.7.1(c) in respect of a renounceable rights issue, the Company is required to do each of the following:

- (a) appoint a nominee (**Nominee**) to arrange for the sale of the entitlements that would have been given to the Ineligible Shareholders and to account to them for the net proceeds of the sale; and
- (b) advise each Ineligible Shareholder not given the entitlement that the Nominee will arrange for the sale of the entitlements and, if they are sold, for the net proceeds to be sent to the Ineligible Shareholder.

The Company has appointed Taycol Nominees Pty Ltd as the Nominee for Ineligible Shareholders to undertake the matters set out in paragraphs (a) and (b) above and also Section 9A of the Corporations Act.

The Company will advise the Ineligible Shareholders of the matters set out in Listing Rule 7.7.1(c) shortly after the date of this Prospectus.

#### 1.13 **Brokerage and stamp duty payable on subscription under Entitlement**

No brokerage or stamp duty will be payable by you in respect of a subscription for New Shares under your Entitlement.

#### 1.14 **Shortfall Offer**

The Directors reserve the right to issue any Shortfall in subscription for New Shares at their discretion after the close of the Offer. Offers of Shortfall are made as a separate offer under this Prospectus. Should the Directors decide to issue any Shortfall; the Shortfall Offer will remain open after the Closing Date. The issue price for each New Share to be issued under any Shortfall Offer will not be less than \$0.002.

Pursuant to Listing Rule 7.2 (exception 3), New Shares issued under the Shortfall Offer not later than three months after the close of the Offer do not detract from the Company's capacity to issue 15% of its issued capital without security holder approval in a 12 month period.

Allotment of Shortfall Shares under the Shortfall Offer may occur on a progressive basis at any time on or after the date of allotment of New Shares under the Offer.

### 1.15 Tax implications

The Company makes no representation and provides no advice in relation to the tax consequences for any Shareholder of taking up their Entitlement under the Offer. Shareholders should seek professional taxation advice about the tax consequences of taking up the Entitlement.

### 1.16 CHESS

The Company will apply to the ASX to participate in CHESS, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHESS will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing share certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of New Shares allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number (**HIN**) or Shareholder Reference Number (**SRN**) and explain, for future reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

### 1.17 The Company's regular reporting and disclosure requirements

This Prospectus is issued pursuant to section 713 of the Corporations Act as a prospectus for the offer of continuously quoted securities.

The Company is a "disclosing entity" for the purposes of the Corporations Act and as such is subject to regular reporting and disclosure obligations. Specifically, as a listed company, the Company is subject to the Listing Rules which require continuous disclosure to the market of any information the Company has which a reasonable person would expect to have a material effect on the price or value of the Company's Shares.

The ASX maintains files containing publicly disclosed information about all listed companies. The Company's file is available for inspection at the ASX during normal working hours or via the ASX website at [www.asx.com.au](http://www.asx.com.au). In addition, copies of documents lodged with the ASIC in relation to the Company may be obtained from, or inspected at, any regional ASIC office.

During the period that the Offer remains open, the Company will provide copies of the following to any person on request, free of charge:

- (a) the Company's annual financial report for the year ended 30 June 2014;
- (b) any continuous disclosure notices used to notify ASX of information relating to the Company between 30 September 2014 (being the date of lodgement with ASIC of the annual financial report referred to in paragraph (a) and the date of lodgement of this Prospectus. The documents listed in Schedule 1 to this Prospectus were lodged by the Company with ASX during this period.

All requests for copies of the above documents should be addressed to the Company Secretary.

## 2. COMPANY OVERVIEW

### 2.1 Summary of Key Assets

- Rights to earn up to a 25% working interest in certain leases collectively known as the Covenant Mondo joint venture, located in Utah, USA.
- An effective 25% working interest in a Production Sharing Contract (PSC) of ~10,000 km<sup>2</sup> in size, known as Block 3114, located onshore Madagascar. By funding certain work programs, the Company can earn up to an effective 80% interest in this PSC.
- 50% working interest in PRLs 108,109 and 110 (formerly PEL 105) in the Cooper Basin.
- 100% interest in a number of mineral exploration tenements located in Queensland and New South Wales.

#### **Covenant Mondo Joint Venture**

On 17 December 2013, the Company, through its wholly owned subsidiary PNC Aust Pty Ltd (PNC), announced that it had signed a Participation Agreement (PA) with a private U.S. company giving it certain rights to an onshore conventional oil-play called Covenant Mondo Joint Venture (CMJV), located in Sevier County, Utah, USA. The Operator of the CMJV is a private US company.

Covenant Mondo consists of two leases with a total area of approximately 3,900 acres held over private lands. The leases are located on the well-known "hingeline" overthrust structure in the Rocky Mountains which trends in a North Easterly direction from Arizona in the South right up into Canada.

The PA originally allowed PNC to earn up to a 41.67% interest (amended to 25% as at 16 July 2014) in the two leases through the payment of an upfront fee and then paying for up to 50% (amended to 30% as at 16 July 2014) of the costs of two exploration wells. The Company has paid 50% of costs incurred up to 15 July 2014 and 30% of costs from 16 July 2014.

Pursuant to the amended terms of the PA, PNC could be in default, among other things if it fails to pay, when due, any of the cash calls, costs and expenses of the wells.

A default may be remedied by taking appropriate action after receiving notification. If however a default is not cured then the PA terminates in its entirety and PNC has no further right to earn any further interest and PNC owes to the Operator US\$1,000,000 for each well not yet drilled and 'Completed'<sup>1</sup> as at the date of termination, if the PA terminates prior to the completion of the second well.

All of PNC's obligations under the PA are guaranteed by the Company. The Company indemnifies the Operator against any liability or loss and any costs it incurs arising from PNC not complying with an obligation it has under the PA.

The first well was recently drilled and was plugged and abandoned as a dry hole. The second well is expected to be drilled sometime in 2015. The Operator has yet to advise the date of this.

The Company is currently in dispute with the Operator of the CMJV – see Section 4.1.

---

<sup>1</sup> 'Completed', 'Completing' or 'Completion' means, with respect to each well running production casing; procuring and installing flow lines, wellheads, tanks and other production equipment.

### **Block 3114**

In June 2014, the Company announced that it had acquired an effective 25% interest (with the right to acquire up to an 80% interest) in a PSC of ~10,000 kms<sup>2</sup>, located off the south-east coast of Africa on the island of Madagascar.

Consideration for the asset was the issue of 89.5M Shares to the vendor, their creditors and promoters.

The Company can fund a multi-stage exploration program to earn further effective interests in the PSC and will progress said program in 2015.

### **PRLs 108,109,110**

The Company currently has a 50% working interest in these three long term retention licences in the Cooper Basin.

The Company has recently executed an Agreement with the Operator of these licences, Senex Energy Ltd (SXY) which has the effect of amending the prior Farmin Agreement between the parties as follows;

1. Instead of drilling a carried well, SXY will instead fully fund the acquisition, processing and interpretation of a 3D seismic program covering 42 square kilometres of the PRLs (and additional "tails" extending into neighbouring licences).
2. In return SXY will earn an additional 7% equity in the PRLs and the Company will have a 43% interest.
3. SXY intends to commence the seismic program in the first quarter of 2015. The Agreement has mechanisms to encourage the timely performance of this farm-in work.

A well, known as Pirie 1, was drilled in the permits in 2013. The well was cased and suspended in the Nappamerri formation and as a potential Birkhead oil producer.

### **Minerals Tenements**

The Company owns a 100% interest in a number of mineral exploration tenements in New South Wales and Queensland. Although these tenements are considered to be prospective for gold and copper in particular, they are currently viewed as non-core assets for the Company, given its primary focus on oil and gas exploration.

## **2.2 The Company's Board and Senior Management**

The Company's board and management have extensive experience in exploration, project development, resource operations and public company administration, with a unique suite of experience in the international oil and gas industry.

The Board comprises:

Robert Kennedy (Chairman).

Carl Dorsch (Managing Director).

Neil Young (Non-Executive Director).

Mr George Yatzis is the Company's Company Secretary.

### 2.3 Market Prices of the Company's Shares on ASX

The highest and lowest market sale price of the Company's shares on the ASX during the three months immediately preceding the date of this Prospectus, and the respective dates of those sales, and the last sale on the ASX trading day immediately preceding the date of this Prospectus were as follows:

	Price	Dates
Highest	\$0.030	8, 9 and 29 October 2014
Lowest	\$0.003	19 and 24 December 2014
Latest	\$0.004	6 January 2015

### 2.4 The Company's Share Capital

At the date of this Prospectus the Company had:

- (1) 298,848,295 Shares on issue.
- (2) 22,666,666 Vested Options which are capable of being exercised. The terms of these are summarised in Section 3.3 below.
- (3) 31,050,000 Performance Rights. The terms of these are summarised in Section 5.5 below.

### 3. PURPOSE AND EFFECT OF THE RIGHTS ISSUE ON THE COMPANY

#### 3.1 Purpose of the Rights Issue

The purpose of the Rights Issue is to raise up to \$896,545 before expenses<sup>2</sup>. Expenses related to the Offer are expected to be approximately \$77,000.

The gross proceeds to be raised from the Offer are planned to be used in accordance with the table set out below:

Use of proceeds if full amount raised	\$	%
Expenses related to the Rights Issue	\$77,000	9%
General working capital and administration expenses	\$100,000	11%
Expenses relating to the Covenant Mondo Joint Venture – US 82c conversion*	\$415,000	46%
Expenses relating to non-core mineral exploration tenements	\$100,000	11%
Expenses relating to Madagascar Block 3114	\$204,545	23%
Total	\$896,545	100%

\*Subject to foreign exchange risk between date of prospectus and payment in early 2015

There is no minimum subscription under the Offer and the Offer is partially underwritten for up to \$200,000. If less than 448,272,443 New Shares are issued pursuant to the Rights Issue, then the Company will raise less than \$896,545. In this case, it is intended that the gross proceeds of the Rights Issue will be used in accordance with the table set out below:

Use of proceeds if less than full amount raised	\$
Expenses related to the Rights Issue	The first \$77,000
General working capital and administration expenses	The next \$50,000
Expenses relating to the Covenant Mondo Joint Venture – US 82c conversion	The next \$415,000
Expenses relating to non-core mineral exploration tenements	The next \$100,000
Expenses relating to Madagascar Block 3114	The balance of proceeds raised

<sup>2</sup> This amount has been calculated on the assumption that none of the Options and Performance Rights are exercised or vested before the Record Date.

The above tables are a statement of current intentions as at the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the proceeds are ultimately applied. The Board reserves the right to alter the way proceeds are applied on this basis.

### 3.2 Principal effect of Rights Issue

If no Options or Performance Rights are exercised prior to the Record Date and if all of the Shareholders take up their Entitlement in full, then the principal effect of the Rights Issue on the Company will be that:

- (a) cash reserves and contributed equity of the Company will increase by approximately \$896,545 before deducting the expenses of the Rights Issue; and
- (b) the number of Shares on issue will increase by 448,272,443 from 298,848,295 shares to 747,120,738 shares.

If 100% of the Options are exercised prior to the Record Date and all Entitlements are taken up, then the principal effect of the Rights Issue on the Company will be that:

- (c) cash raised would be approximately \$3.06 million from the exercise of the Options and up to approximately \$964,545 from the Rights Issue before deducting the expenses of the Rights Issue; and
- (d) the number of Shares on issue will increase by 482,272,442 from 321,514,961 to 803,787,403.

### 3.3 Impact on capital structure

- (a) Undiluted

At the date of this Prospectus, the Company has 298,848,295 Shares on issue.

Assuming no Options are exercised prior to the Record Date and no Shares are issued prior to the Record Date, then if all of the Eligible Shareholders take up their entitlement in full the New Shares issued pursuant to this Prospectus will be 448,272,443 or 60% of the expanded issued capital, and the total Shares on issue after the Rights Issue will be 747,120,738.

- (b) Diluted

The Company has 22,666,666 Options on issue which have not been exercised at the date of this Prospectus. The details of Options on issue are:

**Table 1: Options on Issue**

Amount	Vested / Not Vested	Expiry	Exercise Price
7,500,000	Vested	31.12.16	\$0.093
5,000,000	Vested	17.09.17	\$0.20
6,666,666	Vested	31.12.15	\$0.10
2,000,000	Vested	05.03.18	\$0.20
1,500,000	Vested	17.09.17	\$0.20
<b>22,666,666</b>	<b>Total Vested</b>		

As noted in Section 1, only holders of Options who have exercised their Options and been issued Shares prior to the Record Date are entitled to participate in the Rights Issue.

If 100% of the Options are exercised prior to the Record Date, the number of fully paid ordinary Shares on issue will increase by 22,666,666 from 298,848,295 to 321,514,961 before the Rights Issue. If all Entitlements are taken up, the number of fully paid ordinary Shares on issue will increase by 482,272,442 from 321,514,961 to 803,787,403 after the Rights Issue.

The pro-forma capital structure of the Company following the Rights Issue on both an undiluted, and fully diluted basis for the 22,666,666 Options, is set out below:

**Table 2: Issued Capital Post Rights Issue**

<b>Issued Capital</b>	<b>Undiluted</b>	<b>100% Diluted (Options Only #)</b>
Existing Shares	298,848,295	321,514,961
New Shares to be issued pursuant to this Prospectus	448,272,443	482,272,442
Total Shares on issue following the Rights Issue	747,120,738	803,787,403
Options on issue*	22,666,666*	Nil if fully exercised*
Performance Rights on issue	31,050,000	31,050,000

# Options only, as Performance Rights which are not vested cannot be exercised.

\* Not including the potential issue to Adelaide Equity of 2,500,000 Options in the event that the entire Shortfall from the Offer is successfully placed. Refer to Section 5.6 for additional information.

### 3.4 Effect on control of Company

If all Eligible Shareholders take up their Entitlements, there will be no impact on control of the Company.

Based on publicly available information, the substantial Shareholders in the Company as at 6 January 2015 are set out below:

<b>Name</b>	<b>Number of shares held</b>	<b>Percentage of issued shares</b>
Mr Jason Peterson	25,000,000	8.37
Austin Exploration Ltd	19,776,020	6.62
Paragon Group Holdings Ltd	18,760,463	6.28
Susan Lockens	17,942,054	6.00
Mr Carl Dorsch and associates	17,753,694	5.94

Managing Director, Mr Carl Dorsch, and his associates, including Dorsch Consultants Pty Ltd, CNP Energy Pty Ltd and CW Dorsch Super Fund, have a combined voting power of 5.94% as at the date of this Prospectus. In addition, entities associated with Mr Dorsch have agreed to apply for \$200,000 worth of Shares pursuant to underwriting agreements as outlined in Section 1.5 above. Therefore, if Mr Dorsch and his associates take up their full Entitlement and \$200,000 worth of Shares pursuant to the underwriting agreements, the number of Shares in the Company issued to Mr Dorsch and his associates on completion of the Offer will be up to 144,384,235 as set out in the following table

Description of holding	Number of Shares held
Existing Shares	17,753,694
Shares issued pursuant to underwriting agreements	100,000,000
Entitlement	26,630,541
<b>Total</b>	<b>144,384,235</b>

The following table summarises the potential impact of the Offer on Mr Dorsch's voting power under different scenarios, as follows:

Event	Shares held by Mr Dorsch and associates	Total Shares	Voting power of Mr Dorsch and associates
Date of Prospectus	17,753,694	298,848,295	5.94%
Offer fully subscribed with no Shortfall	44,384,235	747,120,738	5.94%
Offer 50% subscribed with entities associated with Mr Dorsch underwriting	144,384,235	622,984,517	23.18%
Offer 25% subscribed with entities associated with Mr Dorsch underwriting	144,384,235	510,916,406	28.26%

This assumes that in each scenario Mr Dorsch and his associates participate to the full extent of their Entitlement to Shares under the Offer.

This also assumes that no Options are exercised or Performance Rights vest prior to the Record Date.

Section 606(1) of the Corporations Act prohibits the acquisition of a 'relevant interest' in issued voting shares in a company if the company is listed and the person acquiring the interest does so through a transaction in relation to securities entered into by or on behalf of the person; and because of the transaction, that person's or someone else's voting power in the company increases from 20% or below to more than 20% (or from a starting point that is above 20% and below 90%). However, that person may acquire the 'relevant interest' under one of the exceptions set out in section 611 of the Corporations Act. In particular, an acquisition that results from an issue under a disclosure document of securities in the company in which the acquisition is made, if the issue is to a person as underwriter to the issue and the disclosure document disclosed the effect that the acquisition would have on the person's voting power in the company, is an exempt acquisition. Included in this Prospectus at Section 3.4 are details of Mr Dorsch's acquisition of a 'relevant interest' and its effect on his voting power. Accordingly, Mr Dorsch and his associates will be able to increase their voting power without breaching the prohibition in section 606 of the Corporations Act.

The voting power of each substantial Shareholder (other than Mr Dorsch) will not increase above 20% as a result of their participation in the Offer even in the highly unlikely event that no other Eligible Shareholders take up their Entitlements.

### **3.5 Financial Effect of the Offer**

The effect of the Offer on the Company's financial position if all Eligible Shareholders take up their Entitlements in full (and none of the Options are exercised prior to the Record Date) will be to increase consolidated net assets and consolidated total equity by \$819,545 after payment of the cash expenses of the Rights Issue which are estimated to be \$77,000. It is intended that these funds will be applied as set out in Section 3.1 of this Prospectus.

If all of the Options are exercised prior to the Record Date and all of the Eligible Shareholders take up their Entitlement in full then the consolidated net assets and consolidated total equity will increase by \$964,545 before payment of the cash expenses of the Rights Issue which are estimated at \$77,000. An additional \$3,064,167 would be raised from the exercise of Options.

### **3.6 Pro-forma Statement of Financial Position**

Set out in this Section of the Prospectus is a pro forma consolidated statement of financial position of the Company taking into account the Rights Issue. It is based on consolidated financial statements for the year ended 30 June 2014. The pro forma consolidated statement of financial position illustrates the effect of the Rights Issue as if the Rights Issue had occurred on 30 June 2014, fully subscribed. This assumes no Options will be exercised.

2. Current Assets – Trade & other receivables – A material amount being \$1,431,659 of the \$1,560,959 has been received in August 2014 in relation to the 2013/14 R&D Refund from AusIndustry. This has not been subject to audit.
3. Current Liabilities - Loans as at 31 December 2014 is \$400,391. This has not been subject to audit.

#### 4. RISK FACTORS

The Company's activities are subject to a number of risks which may impact future financial performance and the market price at which New Shares trade. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, others are outside the Company's control and cannot be mitigated. Therefore, investors who acquire New Shares may be exposed to a number of risks. Broadly, these risks can be classified as risks that are general to investing in the share market and risks specific to an investment in Shares and the Company's underlying business.

*This Section sets out the identified major risks associated with investing in New Shares. This list is not exhaustive and investors should read this Prospectus in its entirety before making an investment decision. Investors should also have regard to their own investment objectives and financial circumstances, and should consider seeking appropriate independent investment advice before deciding whether to invest in the New Shares.*

##### 4.1 Key risks

###### **Going Concern**

The Company's auditor, Grant Thornton Audit Pty Ltd noted in respect of the Annual financial report as at 30 June 2014 the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern and therefore, the Company may be unable to realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the annual financial report.

###### **Future capital needs and additional funding**

The future capital requirements of the Company will depend on many factors. There can be no guarantee that the Company will be able to raise additional capital to meet future funding requirements.

Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

As noted in Section 2.1, the Participation Agreement (as amended from time to time) which the Company has in relation to the CMJV requires it to fund 50% of costs incurred up to 15 July 2014 and 30% of costs from 16 July 2014. The second well is expected to be drilled sometime in 2015, although the date has not yet been set. The Company will need to finance its share of this second well. This may be sourced in a number of ways, including equity raising and sale of assets.

The Company's other primary current oil and gas focus area in Madagascar is also likely to require further capital in order to progress material exploration activities. That may be sourced in a number of ways, including farm-out, equity raising, sale, etc.

###### **Litigation and material disputes**

###### *Covenant Mondo Joint Venture*

As announced on 20 and 27 November 2014, the Company and the Operator of the CMJV are in formal dispute over various matters. These include but are not limited to: the timely provision of data; the general performance and competence of the Operator; and, costs allegedly still due in connection with the recently drilled well. (Further detail regarding the Participation Agreement in relation to the CMJV is set out in Section 2.1.)

The Operator has served the Company with a notice which purports to be a default notice in connection with alleged unpaid amounts.

As provided for under the relevant agreement between the parties, an arbitration process has been initiated to resolve the matters under dispute. To date, each party has appointed an arbitrator and those two parties will shortly select a third arbitrator. The arbitration process will be conducted in the US (likely in Colorado) and is expected to deliver its verdict in February 2015. That verdict will be final and binding on the parties.

The outcome of the arbitration is outside the Company's control and may be unfavourable to it.

In parallel to this arbitration process, the Company is engaged in commercial dialogue with the Operator in an effort to resolve the disputed matters through negotiation.

#### *Minerals Tenements*

The Company previously entered into an agreement with respect to the potential sale of certain of its minerals tenements. A deposit of \$50,000 was paid upon execution of that agreement. The agreement was ultimately not completed and the parties thereto are currently in discussions regarding whether the deposit paid is refundable or not.

#### **Exploration and development**

Prospective investors should understand that mineral and petroleum exploration, development and production are high-risk enterprises, only occasionally providing high rewards. In addition to the normal competition for prospective ground, and the high average costs of discovery of an economic resource, factors such as demand for commodities, stock market fluctuations affecting access to new capital, sovereign risk, environmental issues, labour disruption, project financing difficulties, foreign currency fluctuations and technical problems all affect the ability of a company to profit from any discovery.

There is no assurance that exploration of the oil and gas and mineral interests currently held by the Company, or in any other exploration interest the Company may subsequently acquire, will result in the discovery of an economically viable resource. Even if an apparently viable resource is identified, there is no guarantee that it can be profitably exploited.

#### **4.2 Risks specific to an investment in the Company**

Specific risks relating to the Company include, but are not limited to the following:

##### **Operating Risks**

The operations in which the Company is currently participating are generally considered high-risk undertakings and are subject to a number of risks and hazards typically associated with such operations, each of which could result in substantial damage to facilities, other property and the environment or in personal injury and/or death and/or interruption of operations.

The operations of the Company may be affected by a range of factors, including operational and technical difficulties encountered in drilling; difficulties in commissioning and operating plant and equipment; mechanical failure or plant breakdown; unanticipated drilling problems which may affect production costs; adverse weather conditions; industrial and environmental accidents; industrial disputes; and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

It should be noted that the Board has significant experience in oil and gas exploration, but no assurances can be given that the Company will achieve commercial viability through successful production operations in any oil and gas project.

### **Title of tenements**

The Company's title to its exploration interests in Australia, the USA and Madagascar, are governed by the respective petroleum and mining laws of those countries and are typically evidenced by the granting of leases, licences or permits. Each lease, licence or permit is typically for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to, or its interest in, these assets if licence conditions are not met or if insufficient funds are available to meet expenditure commitments.

### **Licences and permits**

The Company's exploration activities are dependent upon the maintenance of appropriate licences, concessions, leases, tenements, permits and regulatory consents which may be withdrawn or made subject to limitations. Maintaining tenements, obtaining renewals, or getting tenements granted, often depends on the Company being successful in obtaining the required statutory approvals for its proposed activities and that the licences, concessions, leases, permits or consents it holds will be renewed as and when required. There is no assurance that such renewals will be given as a matter of course and there is no assurance that new conditions will not be imposed in connection therewith.

### **Reliance on key management**

The responsibility of overseeing the day to day operations and strategic management of the Company depends substantially on its senior management and its key personnel. There may be a detrimental impact on the Company if one or more of the key employees cease their employment with it.

### **Termination of Underwriting Agreements**

The underwriting agreements include various termination events upon the occurrence of which the Underwriters may elect, in their discretion, to terminate the underwriting agreements. For further details of the underwriting agreements, refer to Section 1.5 of this Prospectus.

### **Risks associated with operations in foreign jurisdictions**

The Company has oil and gas assets in the USA and Madagascar.

Accordingly, the Company is subject to the risks associated with operating in countries that may not have the same degree of political, financial and economic stability as enjoyed in Australia. Accordingly, the Company may be subject to various levels of political, economic and other risks and uncertainties, including, but not limited to, terrorism, hostage taking, military repression, extreme fluctuations in currency exchange rates, high rates of inflation, labour unrest, the risks of war or civil unrest, expropriation and nationalization, renegotiation or nullification of existing concessions, licences, permits and contracts, changes in taxation policies, restrictions on foreign exchange and repatriation and changing political conditions, currency controls and governmental regulations that favour or require the awarding of contracts to local contractors or require foreign contractors to employ citizens of, or purchase supplies from, a particular jurisdiction, etc.

The Company's operations may be affected in varying degrees by government regulations with respect to, but not limited to, restrictions on production, price controls, export controls, foreign currency remittance, income taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people, water use and safety issues.

Failure to comply strictly with applicable laws, regulations and local practices relating to petroleum rights, could result in loss, reduction or expropriation of entitlements, or the imposition of additional local or foreign parties as joint venture partners with carried or other interests.

The occurrence of these various factors and uncertainties cannot be accurately predicted and could have an adverse effect on the operations or profitability of the Company.

#### **Investments may not be Wholly Owned**

Resource investments (oil and gas and minerals) are often structured through joint ventures. There is a risk that development/production activities could be disrupted in situations where there is a disagreement on development/production programs or other issues between the Company and the other parties in such joint ventures. Should such disagreements occur, this might have a deleterious impact on the Company's operations and performance generally.

### **4.3 Risks specific to the offer**

#### **Dilution Risk**

If you decide to take up only part of your Entitlement or not to accept any of your Entitlement, your Entitlement will lapse and your ownership of the Company will be diluted to that extent.

#### **Market for the Rights**

There is no guarantee regarding the level of demand for the Rights or that there will be an active market for the Rights.

### **4.4 General investment and economic risks**

A number of factors which are outside of the Company's control may significantly impact on the Company, its performance and the price of New Shares. These factors include:

#### **Investment and Economic Risk**

Economic factors both in Australia and internationally beyond the control of the Company, such as changes in commodity prices, interest rates, inflation, exchange rates, taxation, changes in government policy and legislation, may negatively impact on the operational performance of the Company.

The Company's revenues, expenses and cash flows could be negatively affected by any of these factors, which in turn may affect the price of New Shares.

No assurances can be made that the Company's performance will not be adversely affected by any such market fluctuations or factors. None of the Company or its Directors or any other person guarantees the performance of the Company or the market price at which its shares trade.

The New Shares are to be quoted on ASX where their price may rise or fall.

The New Shares issued under the Rights Issue carry no guarantee in respect of profitability, dividends, return of capital or the price at which they may trade on ASX. The value of the New Shares will be determined by the share market and will be subject to a range of factors beyond the control of the Company and its Directors including the demand and availability of Shares.

There can be no guarantee that an active market in New Shares will develop or the market price of the shares will not decline.

An investment in New Shares should be considered speculative.

**Government policy**

The Company's capacity to explore for and extract petroleum or minerals, as well as industry profitability generally, can be affected by changes in government policy which may be beyond the control of the Company.

**Commodity price risk**

The demand for and price of commodities is highly dependent on a variety of factors, including, the level of forward selling by producers, costs of production, general economic conditions, inflation levels, interest rates and exchange rates.

These factors may adversely impact on the Company's ability to fund its operations, exploration, evaluation and development activities.

**Taxation risk**

Variations in the taxation laws of Australia and other countries in which the Company operates could impact the Company's financial performance. Interpretation of taxation law could also change, leading to a change in taxation treatment of investments or activities.

**Changes in regulatory environment**

Changes to laws and regulations or accounting standards which apply to the Company from time to time could adversely impact the operating and financial performance and cash flows of the Company.

## 5. ADDITIONAL INFORMATION

### 5.1 Rights and liabilities attaching to Shares

The New Shares will be of the same class and will, once issued, rank equally in all respects with existing Shares (including equal voting rights and equal rights to dividends, profits and capital). The rights and liabilities attaching to the New Shares are identical in all material respects to the terms of the existing Shares. The following is a summary of the principal rights of the holders of Shares. This summary is not exhaustive nor does it constitute a definitive statement of the rights and liabilities of Shareholders under the Constitution.

The Constitution may be inspected free of charge by appointment between 9.00am and 5.00pm (Adelaide time) on normal business days from the Opening Date up to and including the Closing Date at the registered office of the Company at Level 7, 28 Grenfell Street, Adelaide, SA 5000.

#### ***Meetings of Shareholders and notices***

Each Shareholder is entitled to receive notice of, attend and vote at general meetings of the Company and receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution, the Corporations Act or the Listing Rules.

#### ***Voting***

At a general meeting, every Shareholder present in person or by proxy, attorney or representative has one vote on a show of hands (irrespective of the number of Shares they hold) and one vote for each Share held on a poll. Where there are two or more joint holders of a Share and more than one joint holder tenders a vote, the vote of the holder named first in the register who tenders the vote will be accepted to the exclusion of the votes of the other joint holders.

Voting at any meeting of Shareholders is by a show of hands unless a poll is demanded. A poll may be demanded by:

- (i) at least five Shareholders entitled to vote on the resolution;
- (ii) Shareholders with at least 5% of the votes that may be cast on the resolution; or
- (iii) the Chairman.

If the votes are equal on a proposed resolution, the Chairman has a casting vote on a show of hands.

#### ***Dividends***

The Directors may from time to time pay dividends to Shareholders out of the profits of the Company. The Directors may pay any interim and final dividends as, in their judgement, the financial position of the Company justifies. The Directors may fix the amount and the method of payment of the dividends. The payment of a dividend does not require any confirmation by a general meeting.

Subject to any special rights or restrictions attaching to any shares, dividends must be paid equally on all shares and in proportion to the number of, and the amounts paid on, the shares held.

#### ***Issues of Shares***

Subject to the restrictions on the issue of shares imposed by the Constitution, the Listing Rules and the Corporations Act, the Directors may issue, grant options in respect of, or otherwise dispose of further shares to any person on such terms and conditions (including preferential, deferred or special rights, privileges or conditions, or restrictions) as they see fit.

### ***Variation of class rights***

Subject to the Corporations Act and their terms of issue, the rights attached to a class of shares may be varied with the consent in writing of the holders of at least three quarters of the issued shares in the particular class, or by a special resolution passed at a separate meeting of the holders of shares in that class. In either case, the holders of not less than 10% of the votes in the class of shares whose rights have been varied or cancelled may apply to a court of competent jurisdiction to exercise its discretion to set aside such variation or cancellation.

The creation or issue of further shares ranking equally with a class of shares already on issue is not a variation of class rights.

### ***Transfer of Shares***

Shareholders may transfer Shares by a written transfer instrument in the usual form or any form approved by the Directors or, while the Company is listed on ASX, Shares can be transferred electronically in accordance with the ASX Settlement Operating Rules and ASX requirements. All transfers must comply with the Constitution, the Corporations Act, the Listing Rules and the ASX Settlement Operating Rules. The Directors may refuse to register a transfer of Shares, including in circumstances where the transfer is not in registrable form, or the refusal to register the transfer is permitted by the Listing Rules or the Corporations Act. The Directors must refuse to register a transfer of Shares where required to do so by the Listing Rules. The Directors may suspend the registration of a transfer at any time, and for any period, as permitted by the ASX Settlement Operating Rules. Subject to the Listing Rules, Shares are freely transferable.

### ***Sale of non-marketable parcels***

The Directors may cause the Company to sell a Shareholder's Shares if that Shareholder holds less than a marketable parcel of Shares, provided that the procedures set out in the Constitution are followed. A non-marketable parcel of Shares is defined in the Listing Rules and is, generally, a holding of Shares with a market value of less than \$500.

### ***Winding up***

Subject to the Constitution and any special resolution or rights or restrictions attaching to any class or classes of shares, Shareholders will be entitled on a winding up to a share in any surplus assets of the Company in proportion to the shares held by them.

### ***Directors – appointment and removal***

The minimum number of Directors is three and the maximum is fixed by the Directors but may not be more than 11, unless the Shareholders pass a resolution varying that number. Directors are elected at annual general meetings of the Company.

The Directors may also appoint a Director to fill a casual vacancy on the Board or in addition to the existing Directors, who will then hold office until the next annual general meeting of the Company.

Retirement will occur on a rotational basis so that no Director (excluding the Managing Director) may hold office beyond the third annual general meeting following the meeting at which they were last elected or re-elected (whichever is later) without Shareholders approving their reappointment.

### ***Directors – voting***

Questions arising at a meeting of Directors will be decided by a majority of votes of the Directors present at the meeting and entitled to vote on the matter. In the case of a tied vote, the Chairman has a second or casting vote, unless there are only two Directors present or qualified to vote, in which case the proposed resolution is taken as having been lost.

### ***Directors' and officers' indemnities***

The Company, on a full indemnity basis and to the full extent permitted by law, indemnifies each person who is or has been an executive officer of the Company or a Director, and such other officers or former officers of the Company or its related bodies corporate as the Directors in each case determine (each an Officer), against any liability (including costs and expenses) incurred by that person as an Officer or a related body corporate of the Company to the extent permitted by law.

The Company, to the extent permitted by law, may insure an Officer against a liability incurred by the Officer as an officer of the Company or any of its related bodies corporate including, but not limited to, a liability for negligence or for reasonable costs or expenses incurred in defending proceedings whether civil or criminal and whatever the outcome.

The Company has entered into deeds of access, indemnity and insurance with each Director which confirm the Directors' right of access to Board papers and require the Company to indemnify the Director for a liability incurred as an officer of the Company or any of its related bodies corporate, subject to the restrictions imposed by the Corporations Act and the Constitution.

### ***Variation of the Constitution***

The Constitution may be amended only by a special resolution passed by at least 75% of the votes cast by Shareholders present and entitled to vote on the resolution. At least 28 days' written notice specifying the intention to propose the resolution must be given to Shareholders.

## **5.2 Remuneration**

The Constitution provides that the non-executive Directors may be paid for their services as Directors, a sum not exceeding such fixed sum per annum as may be determined by the Company in general meeting, where notice of the amount of the suggested increase and the maximum sum that may be paid shall have been given to shareholders in the notice convening the meeting. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$250,000 per annum.

The remuneration of executive Directors is decided by the Board, without the affected executive Director participating in that decision-making process and may be paid by way of fixed salary or commission.

In the last two years, \$1,064,873 (\$398,967 in 2013 and \$665,906 in 2014) in cash has been paid by the Company by way of remuneration for services provided by the Directors, companies associated with the Directors or their associates, in their capacity as directors. Directors, companies associated with the Directors or their associates, are also reimbursed for all reasonable expenses incurred in the course of conducting their duties which include, but are not in any way limited to, out of pocket expenses, travelling expenses, disbursements made on behalf of the Company and other miscellaneous expenses.

The table below sets out the cash portion of remuneration provided to the Directors of the Company and their associated companies during the last financial year prior to the date of this Prospectus and the remuneration received in the current financial year to the date of this Prospectus.
