## **PROGRESS AT ANSONGO PROJECT MALI**

Callabonna reports progress has been made towards carrying out the planned drilling program at the Ansongo project.

Permits to import drilling equipment have been granted and preparations to go on site are expected to be finalised soon.

Callabonna also notes that the Mali Government recently appointed a new cabinet. The incumbent Minister of Mines remains in office and is being kept informed of progress at Ansongo. He will brief the new ministers about the Ansongo Project.

In February 2015 Mining Indaba, the largest mining investment show in Africa, the Mali Ministry for Mines will showcase the "Investing in Mali Mining Forum". Representatives from Callabonna Resources will highlight the Ansongo Project as part of this forum.
