Dear Sir/Madam

**TRADE ME GROUP LIMITED (TME)
INTERIM RESULT (FOR THE SIX MONTHS TO 31 DECEMBER 2014)**

Tonight we have lodged to ASX Trade Me's Results for announcement to the market (Appendix 4D) and Online Appendix 3A.1 (dividend).

Attached are the following associated documents:

1. Media release;
2. The company's Interim report for the six month period ended 31 December 2014;
3. The presentation to be given to analysts at 11 a.m. (NZ time) on 18 February 2015.

Yours faithfully

Sarah Hard
Company Secretary

Trade Me interim result: Good progress and record revenue

Highlights

- Revenue up 13% YoY to \$96.9m
- EBITDA¹ up 7% YoY to \$64.6m
- Net profit after tax up 1.1% YoY to \$38.4m
- Earnings per share for HY15 was 9.69 cents, up from 9.59 cents in HY14
- Fully imputed interim dividend of 7.7 cps to be paid on 24 March 2015
- Classifieds continue to underpin growth, General Items flat, Other segment grew well
- Significant retooling of the business complete, team strengthened with new senior hires
- Invested in Harmony and acquired Paystation and Viewing Tracker

Online marketplace and classified advertising business Trade Me Group Ltd (“Trade Me”) released its interim financial results for the 6 months to 31 December 2014 this morning.

Chairman David Kirk said the result demonstrated Trade Me was progressing well and performing in line with expectations. “Investors will be pleased to see record revenue, earnings and net profit numbers today. It’s no secret that we’re in the throes of an accelerated period of reinvestment, and we’re heartened to deliver good results as we continue to build a better business.”

The numbers

CEO Jon Macdonald said Trade Me’s revenue had “grown well” in the first half of FY15, up 13 per cent on a year ago to a record \$96.9m.

Expenses were up 28 per cent year-on-year and Mr Macdonald said this ramp-up in costs was reflected in net profit after tax of \$38.4m, up 1.1 per cent year-on-year. “We’re continuing to invest in people, product development and marketing, as well as ramping up our sales and account management capability. We are convinced this is the right approach and believe that investment now will result in stronger market positions and greater growth opportunities for Trade Me in the future.”

Earnings per share increased to 9.69 cents and a fully imputed interim dividend of 7.7 cents per share will be paid in March.

Performance by segment

Mr Macdonald said the **Classifieds** delivered another excellent result, with revenue up 24% on a year ago.

“This segment of the business continues to be the key driver of growth for Trade Me. Trade Me Motors enjoyed a revenue boost from the contribution of the MotorWeb vehicle data business acquired in December 2013, and Trade Me Jobs also delivered a great result, off the back of a buoyant job market and a lot of hard work by the team.

“Meanwhile, Trade Me Property has bolstered its account management and presence in several regions as it continues to regain support from agents under the revised pricing structure.”

¹ EBITDA (a non-GAAP measure) represents earnings before income taxes (a GAAP measure), excluding interest income, interest expense, depreciation and amortisation, as reported in the financial statements

In the **General Items** marketplace, sales remained subdued with revenue and EBITDA largely flat. “We've continued to improve the Trade Me experience for members including richer images across much of the site, an overhaul of the My Products seller tool and a revamp of our clothing category,” Mr Macdonald said.

Elsewhere, the **Other** segment delivered a solid revenue increase (up 18 per cent) with strong results from LifeDirect (insurance comparison), Pay Now (credit card payments) and the Travel businesses (Travelbug, Holiday Houses and BookIt).

Acquisitions & investments

In January, Trade Me announced a 15 per cent investment in the peer-to-peer lending platform, Harmony. Mr Macdonald said Harmony was “a great fit” for Trade Me as it was also about providing Kiwi consumers with a safe, trusted, scalable, efficient online platform to undertake a transaction.

Back in September, Trade Me acquired Paystation, a Wellington-based online credit card processing and payments gateway. Paystation’s expertise complements Trade Me’s core business and would help make trading on Trade Me faster and easier.

Outlook

Mr Macdonald said Trade Me had delivered a result consistent with guidance provided in August and October last year. “Looking ahead, we expect our full year results to deliver on the intentions we set out in August 2014 – with low double-digit revenue growth, continuing investment, and therefore subdued EBITDA growth.”

He said there was plenty to be optimistic about as Trade Me invested in disruptive models, new products, and site improvements.

Half Year Report

FOR THE SIX MONTHS
ENDED 31 DECEMBER 2014

Table of contents

Highlights	3
Commentary	4
Interim financial statements	5
Review report	13
Directory	14

Highlights

Revenue was up 13% year-on-year to a record \$96.9m, underpinned by strength in the Classifieds segment, where revenue was up 24% on HY14 to \$47.7m.

EBITDA* for HY15 was \$64.6m, up 7% year-on-year.

Earnings growth has continued with net profit after tax of \$38.4m for HY15, up 1.1% year-on-year.

Earnings per share for HY15 was 9.69 cents, up from 9.59 cents in HY14.

A fully imputed interim dividend of 7.7 cents per share will be paid on 24 March 2015.

We've invested in Harmoney (a peer-to-peer lending business) and acquired both Paystation Group and Viewing Tracker.

We've made two new appointments to our executive team: Trent Mankelow and Stuart McLean.

On track for low double-digit revenue growth for F15 full year, but with subdued EBITDA growth due to our investment in the business.

*EBITDA (a non-GAAP measure) represents earnings before income taxes (a GAAP measure), excluding interest income, interest expense, depreciation and amortisation, as reported in the financial statements.

Commentary from the Chairman and CEO

Dear shareholders,

Thank you for your support as an investor in Trade Me. The company is progressing well and our HY15 results reflect this.

The numbers

For the six months to 31 December 2014, Trade Me delivered record revenue of \$96.9m, up from \$85.7m a year ago (+13%).

The company's net profit after tax was \$38.4m, up 1.1 per cent on a year ago and reflecting the ongoing reinvestment.

Earnings per share increased to 9.69 cents, up from 9.59 cents a year ago.

We intend to pay a fully imputed interim dividend of 7.7 cents per share on 24 March 2015. The record date for the dividend is 13 March 2015.

Operating performance

Consistent with our guidance at our FY14 results and the shareholder meeting in October 2014, we are in the throes of an accelerated period of reinvestment in people, product development, marketing and sales/account management. We are building a better business and focused on delivering growth in the medium to long term.

Gross merchandise sales in our **General Items** marketplace has remained subdued and as a result both revenue (down 1.5%) and EBITDA (up 0.1%) have been largely flat. We've continued to improve the Trade Me experience for members including the release of a new image-heavy gallery across much of the site, an overhaul of the My Products seller tool and a revamp of our clothing category. We've also appointed Stuart McLean to run this business – he started at Trade Me last week having most recently been Xero's chief revenue officer.

The **Classifieds** businesses have delivered another excellent result, with revenue (up 24%) and EBITDA (up 14%) both growing strongly year-on-year. Trade Me Motors enjoyed a revenue boost from the contribution of the MotorWeb vehicle data business acquired in December 2013, and remains the most popular automotive website in New Zealand by a significant margin. Trade Me Jobs delivered a great result, off the back of a buoyant job market and a lot of hard work by the team. We recently saw Trade Me Jobs click past 90 per cent of its main competitor's listing inventory for the first time ever. Trade Me Property has bolstered its account management and presence in several regions as it continues to regain support from agents under the revised pricing structure.

In the unimaginatively titled **Other** category, we saw revenue increase substantially (up 18.2%) although EBITDA was unchanged. Revenue growth was underpinned by a strong six months for LifeDirect, Pay Now and our Travel businesses.

Our **expenses** were up 28 per cent year-on-year, reflecting our clearly signposted continued investment in Trade Me's future growth prospects. We are convinced this is the right approach and believe that investment now will result in stronger market positions and greater growth opportunities in the future.

Acquisitions and investments

In January 2015 we announced our investment in peer-to-peer lending platform, Harmony. We acquired a 15 per cent stake for \$7.7m. Harmony is currently the only licensed peer-to-peer lender in New Zealand. We see Harmony as a great fit for Trade Me, as it too is all about providing Kiwi consumers with a safe, trusted, scalable, efficient online platform to undertake a transaction.

In September 2014, we acquired Paystation Group, a Wellington-based online credit card processing and payments gateway founded in 2002. We see Paystation's expertise as complementary to Trade Me's core business and we think their nous can help us make trading on Trade Me faster and easier.

In December 2014 we acquired Viewing Tracker, a small Wellington company that minimises hassle for tenants and property managers making arrangements to view rental properties. Founder Aaron Clancy has joined the Trade Me Property team.

People

As at 1 February we had 424 staff (399 FTEs) at Trade Me. This is up from 355 staff (332 FTEs) six months ago. Our team in Auckland outgrew their Parnell premises and have now moved to a newly fitted out building in central Auckland.

We have two new faces on our Executive team. Trent Mankelov joined us as our inaugural chief product officer in October 2014. Trent is responsible for making sure we build the right things, and make them great. As noted above, Stuart McLean joined Trade Me in February 2015 and will run our marketplace business.

We have also reorganised our operations to position our product development teams within each of our business lines – a reflection of how important we view product development to Trade Me's future.

Outlook

We're pleased to deliver a result in line with our expectations, and consistent with our guidance in August and October 2014.

Looking ahead, we expect our full year results to deliver on the intentions we set in August 2014 – with low double-digit revenue growth, continuing investment, and therefore subdued EBITDA growth.

There is plenty to be optimistic about as we invest in disruptive models, new products, and site improvements. We are well-positioned as growth in mobile, the migration of advertising online and growth in ecommerce all evolve in our favour.

Notes to the financial statements for the six months ended 31 December 2014

1. General information

The interim consolidated financial statements presented are for Trade Me Group Limited (the "Company"), and its subsidiaries (together the "Group"), a company domiciled in New Zealand and registered under the Companies Act 1993.

The interim financial statements are for the six months ended 31 December 2014 and have been prepared in accordance with NZ GAAP. Trade Me Group Limited is a profit-oriented entity.

The nature of operations and principal activities of the Group are to provide online marketplaces that connect people to undertake a transaction or form a relationship. The Group's businesses include providing a new and used goods marketplace, classified advertising for motor vehicles, real estate and employment, online advertising services and other ancillary online businesses.

2. Basis of preparation and accounting policies

The accounting policies applied to the preparation of the consolidated interim financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 30 June 2014.

These general purpose consolidated interim financial statements for the six months ended 31 December 2014 have been prepared in accordance with NZ IAS 34 Interim Financial Reporting and IAS 34 Interim Financial Reporting.

These consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report and should be read in conjunction with the audited financial statements of the Group for the year ended 30 June 2014.

The financial statements are presented in New Zealand dollars and all values are rounded to the nearest thousand dollars (\$000's).

3. Segment reporting

(a) Identification of reportable segments

The Group has determined its operating segments based on the reports reviewed by the Group's Chief Executive Officer to assess performance, allocate resources and make strategic decisions. The reportable segments are based on aggregating operating segments based on the similarity of the services provided.

The Group's reportable segments are as follows:

General Items

The General Items segment is our online marketplace business. Revenue is generated from listing fees, premium fees and success fees and performance is driven by both the number of completed transactions and the total sales value of completed transactions.

Classifieds

The Classifieds segment represents advertising revenue from each of our three classified advertising sites: Motors, Property and Jobs. Revenue is generated primarily from basic and premium listing fees.

Other

The Other segment reflects all other businesses, including advertising, travel, online dating, Pay Now, payment gateway and online insurance comparison.

(b) Segment revenues, EBITDA and reconciliation to overall result

The following is an analysis of the Group's revenue and EBITDA from continuing operations by reportable segment.

Reporting segments	Revenue	Revenue	EBITDA*	EBITDA*
	31 December 2014 \$000's	31 December 2013 \$000's	31 December 2014 \$000's	31 December 2013 \$000's
General Items	32,144	32,629	24,511	24,478
Classifieds	47,660	38,563	32,780	28,643
Other	17,095	14,459	7,340	7,310
Total for continuing operations	96,899	85,651	64,631	60,431
Reconciliation to overall result				
Depreciation and amortisation			(7,435)	(5,339)
Finance income			1,151	1,052
Finance costs			(4,867)	(3,068)
Profit before Income Tax			53,480	53,076

*EBITDA (a non-GAAP measure) reflects earnings before interest, tax, depreciation and amortisation.

The accounting policies of the reportable segments are the same as the Group's accounting policies as outlined in the annual financial statements for the year ended 30 June 2014.

Segment revenue reported above represents revenue generated from external customers. Immaterial inter-segment revenues have been excluded from the above segment results (2013: Nil).

(c) Segment assets and liabilities

The assets and liabilities of the Group are reported to and reviewed by the Chief Executive Officer in total and are not allocated by operating segment. Therefore, operating segment assets and liabilities are not disclosed.

(d) Other information

Geographical

The Group operates almost entirely within New Zealand, and derived no material revenue from foreign countries for the six months ended 31 December 2014 (2013: Nil).

Information about major customers

No single customer contributed 10% or more to the Group's revenue for the six months ended 31 December 2014 (2013: Nil).

4. Earnings per share

The earnings and weighted average number of ordinary shares used in the calculation of basic and diluted earnings per share are as follows:

	Unaudited 31 December 2014	Unaudited 31 December 2013
Earnings used for the calculation of basic and diluted earnings (\$000's):	38,440	38,020
Weighted average number of shares on issue (000's)	396,730	396,434
Basic and diluted earnings per share (cents)	9.69	9.59

Basic earnings per share is calculated by dividing the Group profit for the six month period by the weighted average number of ordinary and restricted shares outstanding during the period. Diluted earnings per share equals basic earnings per share, since there are no potentially dilutive ordinary shares.

5. Dividends

	Unaudited 31 December 2014 \$000's	Unaudited 31 December 2013 \$000's
Fully imputed dividends: 8.4 cents per share (2013: 8.3 cents per share)	33,314	32,894
Dividends declared after reporting date, but not recorded as a liability in these financial statements: 7.7 cents per share (2013: 7.6 cents per share)	30,556	30,138

6. Business Combinations

The Group gained control over the following businesses during the six months ended 31 December 2014:

Business acquired	Principal activity	Acquisition date	Interest
Viewing Tracker	Online property management vacancy tracking system	15-Dec-14	100%
Face, Netspace Services & Paystation	Payment gateway, Colocation, Dedicated Servers, Managed Services, Web development and hosting	15-Sep-14	100%

The fair values of the identifiable assets and liabilities acquired for the acquisitions above, none of which were individually significant to the Group, were:

Assets and liabilities acquired at the date of acquisition:	\$000's
Software	452
Fixed assets	295
Other liabilities	(53)
Goodwill	1,612
Total identifiable net assets and liabilities attributable to the Company	2,306
Satisfied by	
Cash paid on acquisition date	2,000
Fair value of contingent consideration to be paid in September 2015 and 2016.	306
Fair value of consideration paid	2,306

Goodwill reflects the value of the business that can't be attributed to separately identifiable assets such as the staff who joined on acquisition and future growth opportunities. None of the goodwill is expected to be deductible for tax purposes.

The fair value of the provision for contingent consideration has been determined using the present value of a weighted average range of possible earn out payments based on the Group's assessment of the probability of achieving each of the targets within the range. The discount rate used is 4.86%. The effects on the fair value of risk and uncertainty in the future cash flows are dealt with by adjusting the estimated cash flows rather than adjusting the discount rate.

If the probabilities of reaching the revenue targets in the upper half of the range of possible payment hurdles were increased by 5% and those in the lower half decreased by 5%, or if the converse was applied there would be an immaterial change to contingent consideration. The provision has been reassessed at reporting date and no change has been made as a result.

The consolidated statement of comprehensive income includes immaterial revenue and net profit for the six months ended 31 December 2014, as a result of acquisitions of business combinations made during the reporting period. If the acquisitions had occurred at the beginning of the reporting period, the consolidated income statement would have had no material change to revenue and profit for the period.

Acquisition-related costs included in other expenses in the statement of comprehensive income were immaterial.

7. Interest bearing liabilities

Lender	Maturity Date	Unaudited 31 December 2014 \$000's	Audited 30 June 2014 \$000's
Commonwealth Bank of Australia	11 September 2016	116,000	116,000
Westpac Banking Corporation	11 September 2016	50,000	50,000
Loan establishment costs		(166)	(216)
Total interest bearing liabilities		165,834	165,784

The covenants entered into by the Group require specific calculations of the Group's net debt to EBITDA, and interest cover.

There have been no covenant breaches.

The facility incurs interest based on market floating rates that are re-set every 90 days.

8. Financial instruments

Financial instruments included in these financial statements include cash and cash equivalents, trade and other receivables, trade and other payables, interest bearing loans and borrowings and derivative financial instruments. The carrying amounts of these financial instruments are a reasonable approximation of their fair values.

Derivative financial instruments and the liability for contingent consideration outlined in note 6 are both classified as "fair value through profit or loss" and are categorised into one of three levels based on the quality of inputs used to determine fair value:

- Level 1 - quoted prices in active markets for identical assets or liabilities
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Derivative financial instruments are classified as level 2 and the liability for contingent consideration is classified as level 3.

The fair value of derivative financial instruments has been provided by the counterparty using observable market interest rate data as at balance date. The valuation of the liability for contingent consideration has been determined using the present value of a weighted average range of possible earn out payments.

9. Subsequent events

As outlined in note 5, on 17 February 2015, the directors declared a dividend of \$30,556,000, which is not recorded as a liability in these interim financial statements.

On 12 January 2015, the Group acquired a 15 per cent stake in lending platform Harmony (harmony.com), New Zealand's first peer-to-peer lending company, for \$7.7m of which \$2.0m was paid as a deposit prior to balance date.

Review Report to the Shareholders of Trade Me Group Limited (“the Company”) and its subsidiaries together (“the Group”)

We have reviewed the interim financial statements on pages 5 to 12, which comprise the statement of financial position of the Group as at 31 December 2014, and the statement of comprehensive income, statement of changes in equity and statement of cash flows of the Group for the period ended on that date, and a summary of significant accounting policies and other explanatory information

This report is made solely to the Company’s shareholders, as a body, in accordance with our engagement letter. Our review has been undertaken so that we might state to the Company’s shareholders those matters we are required to state to them in a review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company’s shareholders as a body, for our review work, for this report, or for our findings.

Directors’ Responsibilities

The directors are responsible for the preparation and fair presentation of interim financial statements which comply with generally accepted accounting practice in New Zealand as it relates to interim financial statements and for such internal control as the directors determine is necessary to enable the preparation and fair presentation of the interim financial statements that are free from material misstatement, whether due to fraud or error.

Reviewer’s Responsibilities

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with NZ SRE 2410 *Review of Financial Statements Performed by the Independent Auditor of the Entity*. NZ SRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects, in accordance with generally accepted accounting practice in New Zealand (“NZ GAAP”). As the auditor of the Trade Me Group Limited, NZ SRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial statements.

Basis of Statement

A review of interim financial statements in accordance with NZ SRE 2410 is a limited assurance engagement. The auditor performs procedures, primarily consisting of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

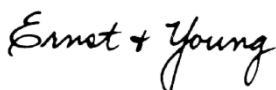

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing (New Zealand). Accordingly we do not express an audit opinion on those financial statements.

Other than in our capacity as assurance practitioner we have no relationship with, or interests in, the Group.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying interim financial statements, set out on pages 5 to 12, do not present fairly, in all material respects, the financial position of the Group as at 31 December 2014 and its financial performance and cash flows for the six month period ended on that date in accordance with generally accepted accounting practice in New Zealand as it relates to interim financial statements.

Our review was completed on 17 February 2015 and our findings are expressed as at that date.

Trade Me Half year results

For the 6 months ended 31 December 2014

Jon Macdonald

CEO

Jonathan Klouwens

CFO

Agenda

Overview	Jon Macdonald
Divisional performance	Jon Macdonald
Financials	Jonathan Klouwens
Trading and outlook	Jon Macdonald
Questions	Jon Macdonald and Jonathan Klouwens

Summary

- Revenue up 13% year-on-year to a record \$96.9m, underpinned by strength in Classifieds, where revenue was up 24% year-on-year to \$47.7m.
- EBITDA for H1 F15 was \$64.6m, up 7% year-on-year. Net profit after tax of \$38.4m for H1, up 1.1% year-on-year. Earnings per share of 9.69 cents, up from 9.59 cents last year.
- Good delivery on stated plans to invest in and strengthen the business.
- Significant retooling of the business completed. Jobs, Motors, Property and General Items marketplace are now more self-contained business units, with tech responsibility in each business.
- Executive team upsizing complete with two key appointments: Trent Mankelow (Product) and Stuart McLean (Marketplace). 65 other new hires in the year to January. 62 more hires expected by the end of F15.
- Motors and Jobs growing well. Property stable, with stronger team and products improving. General Items marketplace still flat. Smaller businesses growing and becoming more meaningful.
- Increased the options and opportunities with investment in Harmony (a peer-to-peer lending business) and acquisitions of the Paystation Group (payments) and Viewing Tracker (rentals management).
- On track for full year results to deliver on intentions set in August 2014 – low double-digit revenue growth, elevated expense growth, and therefore subdued EBITDA growth.
- Trade Me is growing stronger through this work and investment – with better products, improved sales and account management, and great future options via both organic and acquired means.

Overall results: Financials as per guidance

NZD \$'000	F15 H1	F14 H1	Prior year variance	
Revenue	96,899	85,651	11,248	13.1%
Expenses	32,268	25,220	7,048	27.9%
EBITDA	64,631	60,431	4,200	7.0%
<i>EBITDA margin</i>	<i>66.7%</i>	<i>70.6%</i>		
Depreciation	7,435	5,339	2,096	39.3%
EBIT	57,196	55,092	2,104	3.8%
<i>EBIT margin</i>	<i>59.0%</i>	<i>64.3%</i>		
Net interest cost	3,716	2,016	1,700	84.3%
Profit before tax	53,480	53,076	404	0.8%
Income tax	15,040	15,056	(16)	-0.1%
Net profit	38,440	38,020	420	1.1%
Earnings per share	9.69	9.59	0.1cps	1.0%

Interim dividend of 7.7cps, fully imputed, up 1.3% YoY.

All figures are derived from the statutory financial statements and should be read in conjunction with the accompanying notes

F15 H1 progress: Delivering on our plan

What we said we'd do	What we've achieved
A year of investment, principally in tech staff	<ul style="list-style-type: none"> • Headcount increased from 355 at June 2014 (332 FTE) to 424 at January 2015 (399 FTE). Tech staff increase from 134 to 189 FTEs by the end of January • Moved to a new purpose built environment with productivity benefit. Material improvement in measured engagement (IBM Kenexa); finalist in NZ Best Places To Work 2014
Improving the products we offer	<ul style="list-style-type: none"> • Created and filled a Chief Product Officer role (Trent Mankelow) reorganising tech squads around this key function. ~60 additional people focused on product; 50 more planned in H2 • Released product improvements: Supergrid released in 9 of 23 categories, Motors data and MotorWeb integration, Jobs Talent Chaser, Property agent leads prototypes
Strengthen our sales and account management capability	<ul style="list-style-type: none"> • Strategic review of Property sales force completed and hiring commenced. Now reviewing Motors and Jobs • Created 13 new sales/commercial roles in Property, doubling that part of the team
Use mobile as a platform for growth	<ul style="list-style-type: none"> • Mobile app focussed tech staff increased from 12 to 21 people • Development progress includes: iPhone app, iPad app, iOS property app upgraded for iOS8 and iPhone 6, Android navigation upgrades, and mobile shopping cart
Get into new businesses and grow new revenue streams	<ul style="list-style-type: none"> • Acquisition of Viewing Tracker, the Paystation Group and minority investment in Harmony (fast-growing P2P lender). • Nurturing LifeDirect with H1 revenue growth of 178% (~65% on a like-for-like basis)

Revenue: Pleasing total growth

NZD \$'000	F15 H1	F14 H1	Prior year variance	
General Items	32,144	32,629	(485)	(1.5%)
Classifieds	47,660	38,563	9,097	23.6%
Other	17,095	14,459	2,636	18.2%
Total	96,899	85,651	11,248	13.1%

H1 Revenue Growth (\$m)

- **General Items:** Declining slightly with revenue down \$485k (1.5%) on H1 F14.
- **Classifieds:** Strong YoY revenue growth of \$9.1m (23.6%) with all 3 businesses delivering growth. The result is driven by Motors with the inclusion of MotorWeb in F15 as well as strong growth in Jobs and the remainder of the Motors business.
- **Other:** YoY revenue growth of \$2.6m (18.2%), led by a full six months of LifeDirect (7.8% excluding LifeDirect).

H1 Revenue composition (\$m)

Expenses: Investing to build the business

NZD \$000's	F15 H1	F14 H1	Prior year variance	
Cost of sales	5,336	3,352	1,984	59.2%
Employee benefit expense	14,533	13,004	1,529	11.8%
Web infrastructure expense	2,019	1,608	411	25.6%
Promotion expense	4,085	3,206	879	27.4%
Other expenses	6,295	4,050	2,245	55.4%
Total	32,268	25,220	7,048	27.9%

- As signaled, over the past year we have continued to invest to build product development capability (mostly capitalised), our senior team, and to promote our businesses (note that \$2.3m of the increase is due to MotorWeb – 9%pts of the 28%).
- Filling in and strengthening leadership capability, tech capacity, product & design, and commercial resource – both capability and capacity.
- A similar increase (~\$7m) in absolute investment is planned for H2.
- Phasing of this investment will naturally have flow on implications to F16.

Jan YTD Headcount change (FTEs)

Divisional performance

General Items: Increased product delivery

Growth YoY	F15 H1	
Gross sales value	2.4%	But declined slightly (1%) when excluding one-off high value radio spectrum auctions
Items sold	0.1%	Items sold flat
Average sale price	(1.7%)	Mix shift to New goods with lower ASP
Watchlist adds	2.0%	Buyer intent continues to grow
Unique buyers	0.9%	Another 7,000 buyers on the site in the last 6 months
Revenue	(1.5%)	Revenue largely followed gross sales

Stuart McLean started in early February to lead this business – ex-head of ANZ Google Enterprise and Xero CRO

Product investment

- Improving buyer experience. Supergrid launched to nine (of 23) categories; the balance in H2.
 - Positive lift of ~2% in success fees; unique buyers and watch-listing up 2-3%, but with 12% drop in premium fees.
 - Results vary based on competitiveness of category and suitability for visual treatment.
 - Revenue slightly negative, but better engagement.
- Shopping Cart launched for all buyers, including product recommendations on cart page.
- Combined Shipping capability rolled out for buyers and sellers. Approx. 650 sellers offering combined shipping deals.
- New listing detail page increases focus on New Goods launched to mobile categories. Initial results show improved purchase conversion. Further roll-out now under way.

Sourcing supply

- Account managed supply generated \$1.6m in gross sales value in December. Up from \$1m in June 2014.

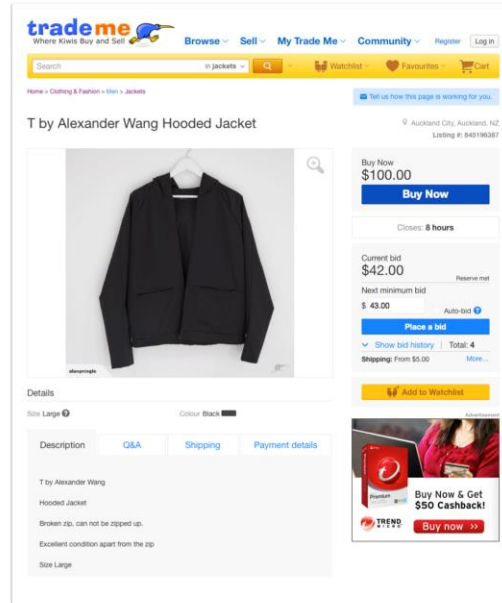

General Items: New listing pages

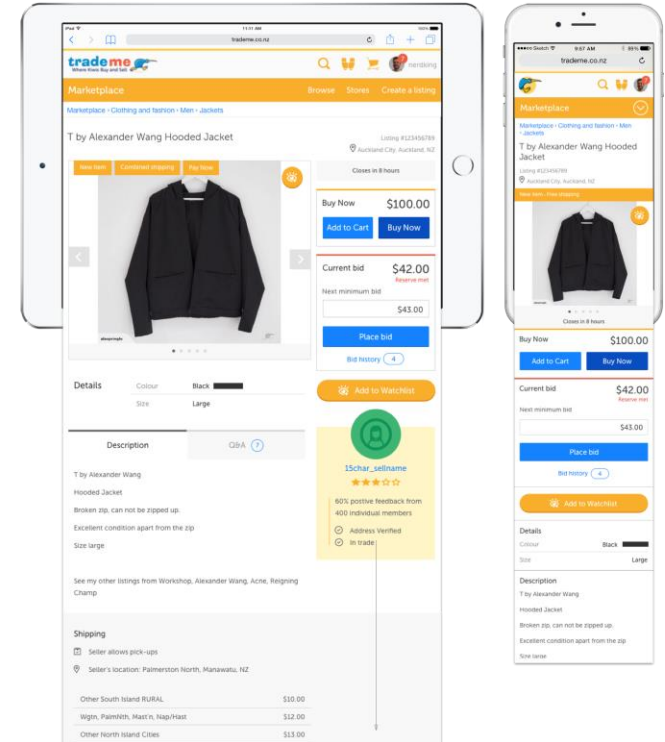

From the old...

to the new...

towards fully responsive.

- New listing pages have resulted in cleaner layouts, better aligned with the modern e-commerce experience.
- Purchase conversion has improved as a result – now being rolled out across the site.
- Future responsive design ensures the images and layout are optimised on all devices regardless of size or operating platform.

Classifieds: Property progress

- Revenue up 2.4% YoY – fewer homes for sale in NZ, and a dip in listings after the shift to pay-per-listing model
- Direct for-sale listings decreased 11.0% in H1 largely driven by market contraction. Direct 'for sale' revenue down 12.4%
- Agent revenue grew 11.5%. Volumes in 'for sale' decreased 26.5%, yield up 45%. Subscription is ~45% of total listings
- Agent rental revenue up 30.9%; yield up 36.1% and volumes down 3.9%
- Maintaining large audience lead: average daily UBs increasing; +3% vs H2 F14. January: 136k per day
- Product enhancements in the last 6 months: Agent Information Centre, Windows 8 App, For sale & For rent price index, and agent leads modelling and programme
- Viewing Tracker acquired to make it easier for our customers to manage their rental property inventory

We continue to have a huge audience advantage...

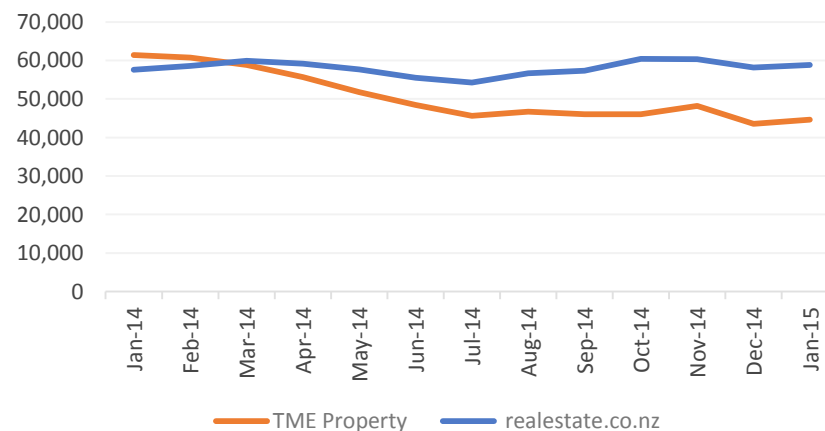

Property Average Daily UBs

...and have stabilised For Sale listings

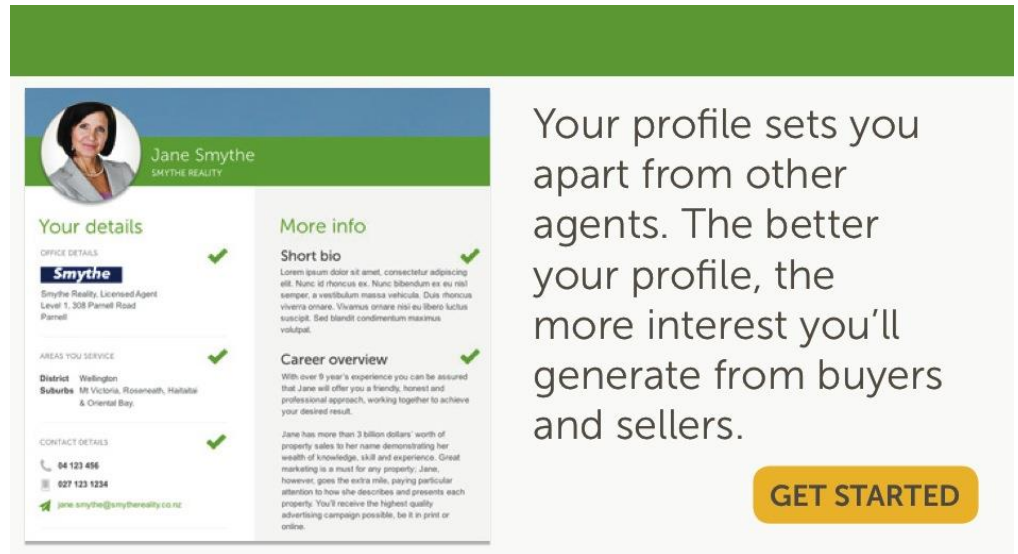

For Sale Live To Site Listings

Classifieds: Ongoing property priorities

- **Strategic review of sales team completed;** implemented with growing sales headcount (~50% during H1). New sales director from Spark started in February.
- **Working directly with Agents and Offices** – showing value of TMP to those who sell properties.
- **Ongoing Product and mobile improvements:** Increased Property tech head count by ~75%. Still filling roles in H2. New head of Product – Alistair Helm.
- **Targeted regional activity** – investing in under-resourced regions; slow going but worthwhile.
- Continue to think about the whole property value chain and where **we can add value** with our huge audience and product advantages.

Providing stronger links between agents and sellers

The image shows a digital profile for Jane Smythe, a real estate agent. The profile is displayed on a green and white background. At the top left is a circular profile picture of Jane Smythe. To her right, her name 'Jane Smythe' and 'SMYTHE REALTY' are listed. Below this, the profile is divided into three main sections: 'Your details', 'More info', and 'Career overview'. Each section has a green checkmark to its right, indicating it is complete or verified. The 'Your details' section includes 'OFFICE DETAILS' with the 'Smythe' logo and address: 'Smythe Realty, Licensed Agent, Level 1, 308 Parnell Road, Parnell'. The 'AREAS YOU SERVICE' section lists 'District: Wellington' and 'Suburbs: Mt Victoria, Roseneath, Hattala & Oriental Bay'. The 'CONTACT DETAILS' section provides a phone number '04 123 456', a mobile number '027 123 1234', and an email address 'jane.smythe@smytherealty.co.nz'. The 'More info' section has a 'Short bio' with placeholder text and a 'Career overview' section with a paragraph of placeholder text. At the bottom right of the profile, there is a prominent yellow button with the text 'GET STARTED'.

Your profile sets you apart from other agents. The better your profile, the more interest you'll generate from buyers and sellers.

[GET STARTED](#)

Classifieds: Motors strengthens its market position

- Revenue up 40.6% YoY, led by dealer revenue, premium uptake, & MotorWeb in F15 H1. (Excluding MotorWeb: revenue up 14.2%)
- Listings growth: directs +4.1%; dealer numbers (subs) +10.2%
- Yield also increasing in H1: directs +4.2%, dealers +10.6%
- Premium spend: dealer premiums and other services up 36% for H1
- MotorWeb: site redesign, pre-purchase packs, listing integration, bundle deals, and selling VIRs
- New functionality: Dealer product bundled offerings, VIR packages plus a number of new initiatives pending release

Motors grows both audience and listings advantage...

MotorWeb VIR Packs

Report 1 (Yellow car), Report 2 (Blue motorcycle), Report 3 (Red SUV). Any three reports for \$39. SAVE \$20.85. Buy the Pack. FOR A LIMITED TIME.

Classifieds: Jobs still rolling on

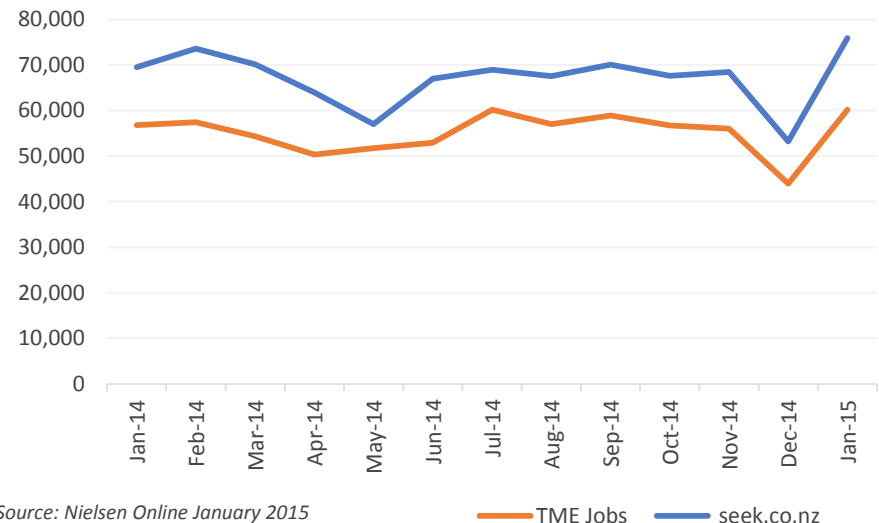

- Revenue up 17.8% YoY driven predominantly by listings growth.
- Listings: Total listing growth of 15.3% from F14 H1. Continue to gain on Seek with ~90% of its listings volume.
- Yield: Direct yields increased 6.1% whilst job packs and volume plan yield remained flat.
- New products: Talent Chaser (targeted ads to candidates using display inventory and member data) has been well received driving incremental trade interest.
- Accelerated product development will now be possible with a larger team – core product health, personalisation and connection opportunities.

Jobs Live To Site Listings

Jobs Average Daily UBs

Source: Nielsen Online January 2015

Acquisitions: Creating great growth opportunities

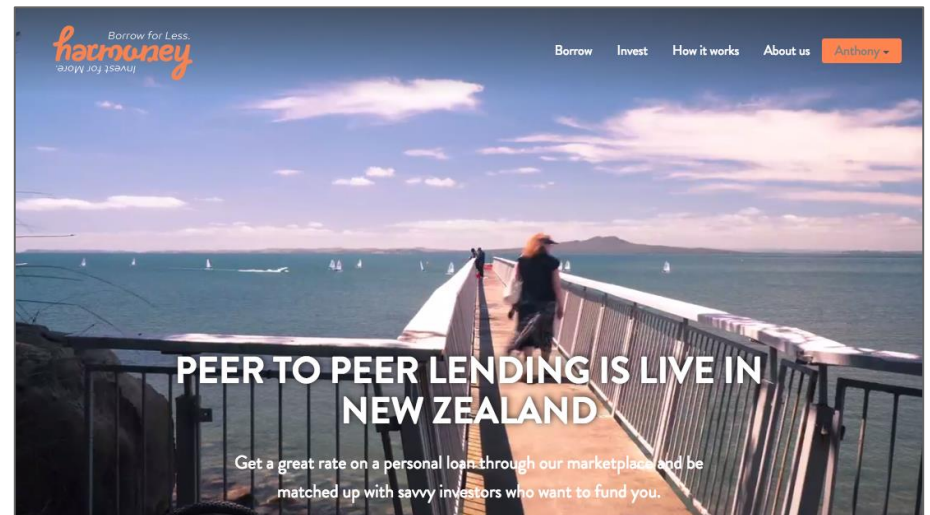

- Acquired Paystation Group in September 2014
- Modest revenue contribution since acquisition
- Significantly enhances our payments capability and improves resilience in our credit card processing
- Provides growth options for PayNow

- Acquired Viewing Tracker in December 2014
- Automated tenant booking software
- Significant product enhancement to our property rental classifieds business
- Part of overall plan to continue to expand TMP's reach in the property market and our members' real estate journeys

- Acquired 15% of peer-to-peer lending platform Harmony for \$7.7m in January 2015
- Commercial arrangement for promotion across Trade Me
- Strategically Harmony is highly aligned with our existing business, and has good future customer segmentation and acquisition opportunities
- Will be equity accounted

Acquisitions: Rationale

We look to make these acquisitions where:

- We can improve the performance or offerings of one of our existing businesses (e.g. AutoBase)
- There is natural market consolidation (e.g. Holiday Houses)
- There is a natural adjacency (e.g. MotorWeb extends Trade Me Motors)
- Our audience and data rapidly advances someone else's offering (e.g. LifeDirect and Harmony)
- We accelerate our capability to deliver faster product innovation (e.g. Playstation Group and Tradevine)
- It provides us with the opportunity to sensibly expand overseas. May be NZ-based businesses (NB: MotorWeb has an Australian offering) or offshore.

We'll continue to hunt for new, interesting or disruptive opportunities. Have invested in capability to do this with hiring of Alan Clark as corporate development manager.

Financials

Financials: H1 recap

NZD \$000's	F15 H1	F14 H1	YoY variance	
General Items	32,144	32,629	(485)	(1.5%)
Classifieds	47,660	38,563	9,097	23.6%
Other	17,095	14,459	2,636	18.2%
Total revenue	96,899	85,651	11,248	13.1%
Cost of sales	5,336	3,352	1,984	59.2%
Employee benefit expense	14,533	13,004	1,529	11.8%
Web infrastructure expense	2,019	1,608	411	25.6%
Promotion expense	4,085	3,206	879	27.4%
Other expenses	6,295	4,050	2,245	55.4%
Total expenses	32,268	25,220	7,048	27.9%
EBITDA	64,631	60,431	4,200	7.0%
Depreciation & amortisation	7,435	5,339	2,096	39.3%
EBIT	57,196	55,092	2,104	3.8%
Net finance costs	3,716	2,016	1,700	84.3%
Profit before tax	53,480	53,076	404	0.8%
Income tax expense	15,040	15,056	(16)	(0.1%)
Net profit	38,440	38,020	420	1.1%
Earnings per share	9.69	9.59	0.10	1.0%

Note: all figures are derived from the statutory financial statements and should be read in conjunction with the accompanying notes

Financials: Net finance costs

- Finance income: small increase due to favourable term deposit rates
- Finance costs: increase almost entirely due to swing in fair value of interest rate swaps: H1 F14 included a net gain on revaluing swaps of \$0.5m while H1 F15 includes a net loss on revaluing swaps of \$0.9m
- Net finance costs increased \$1.7m YoY
- Hedging coverage currently around 64% of net debt
- Excluding the fair value adjustment for interest rate swaps, profit before tax has increased 3.4% YoY

F15 Net Finance Costs

\$000's	Finance income	Finance costs	Net finance costs
F15 H1	1,151	4,867	3,716
F14 H1	1,052	3,068	2,016
\$ Variance	99	1,799	1,700
% variance	9%	59%	84%

Underlying profit excluding impact of swaps at reporting date

NZD \$000's

Profit before tax

Exclude impact of swaps fair value

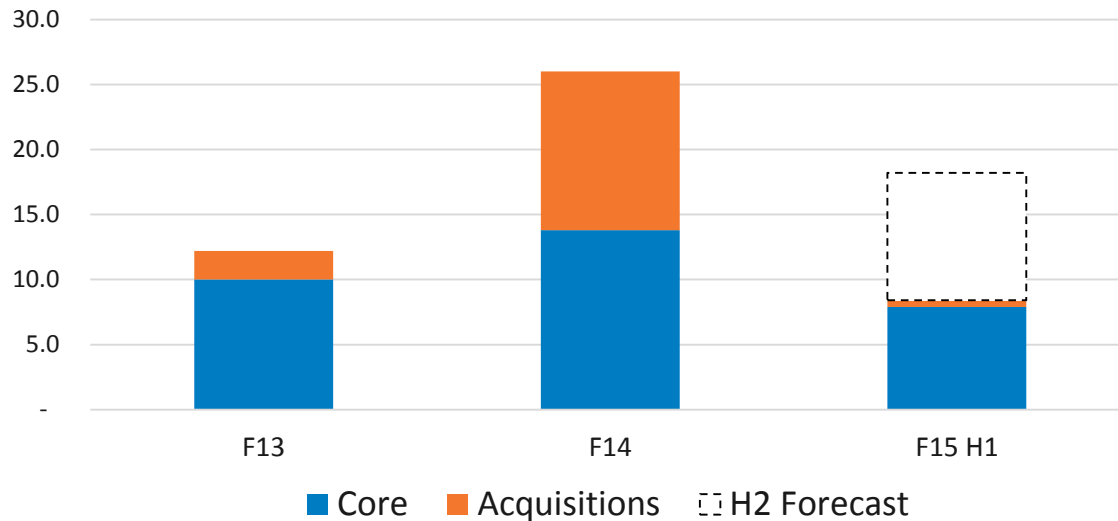

Profit before tax and fair value adjustments

	F15 H1	F14 H1	YoY variance	
	53,480	53,076	404	0.8%
	856	(550)	1,406	
	54,336	52,526	1,810	3.4%

Financials: Capex spend

- Total F15 H1 core capex (excluding software component of acquisitions) is \$7.9m, compared to F14 full year core capex of \$13.8m.
- Capitalised development (cap-dev) of \$5.6m continues to increase as we invest in our tech capacity for product development.
- Majority of cap-dev focused on improving functionality (especially in GI, Property and Motors) and mobile.
- F15 core capex likely to be below the \$20m-\$21m signaled at F14 results due to slightly slower than planned onboarding of new tech staff and lower than expected core hardware costs.
- Continue to investigate relevant acquisitions (note Harmony is not included in capex as it is an 'investment in associate')

Capex \$m

→ FY F15 forecast core capex expected to be approx. 28% growth on F14

→ First thinking of F16 capex expected to be increased on F15 forecast due to phasing of new dev heads, and increased productivity

Financials: Impact of acquisitions on depreciation & amortisation

- YoY increase in D&A of \$2.1m (39.3%) in H1, driven by increased investment in capital development
- Acquisitions all driving amortisation expense: LifeDirect, MotorWeb, AutoBase, Tradevine, Holiday Homes, Paystation Group
- Depreciation and amortisation tracking below full year estimate of \$17m

Depreciation & Amortisation (\$m)	H1 F14	H2 F14	F14	H1 F15	YoY % var
Core Capex D&A	\$2.6	\$3.5	\$6.1	\$4.7	80.8%
D&A on acquired businesses	\$2.7	\$3.5	\$6.2	\$2.7	0.0%
Total D&A	\$5.3	\$7.0	\$12.3	\$7.4	39.3%

Financials: Strong operating cash flow

- Operating cash flow (+16.4% vs pcip) increasing faster than profit before tax due to favourable working capital movements.
- \$4m spent on business acquisitions in H1 F15: Viewing Tracker, Paystation Group and Harmony (\$5.7m paid after reporting date).
- Cash held decreases slightly as increased operating cash flow is offset by increased capex and acquisitions.

	H1 F15	H1 F14	Var
Profit before tax	53,480	53,076	404
Adjustments to reconcile to net cash flows			
Depreciation and Amortisation	7,435	5,340	2,096
Share-based payment expense	(34)	462	(496)
Finance costs	4,867	3,068	1,799
Loss/(Gain) on disposal of property	(12)	29	(41)
Other	207	(572)	779
Working capital adjustments			
Decrease (inc) in trade and other receivables	1,042	(872)	1,914
Increase in trade and other payables	1,584	198	1,386
Income tax paid	(15,800)	(15,400)	(400)
Cash flows from operating	52,769	45,322	7,447
Purchase of property, plant and equipment	(1,827)	(1,010)	(817)
Payment for purchase of intangibles	(5,694)	(2,939)	(2,755)
Business acquisition	(2,000)	(23,500)	21,500
Receipts from loan	-	150	(150)
Investment	(2,000)	-	(2,000)
Cash flows used in investing	(11,521)	(27,299)	15,778
Dividends paid	(37,770)	(37,111)	(659)
Interest paid on borrowings	(3,924)	(3,784)	(140)
Cash flows used in financing	(41,694)	(40,895)	(799)
Net decrease in cash	(446)	(22,872)	22,426

Financials: Balance sheet remains strong

	31 Dec 14	30 Jun 14	Var
Cash & cash equivalents	41,207	41,653	(446)
Trade and other receivables	10,891	11,775	(884)
Property, plant & equipment	7,316	6,807	509
Goodwill & intangibles	806,743	804,515	2,228
Other assets	4,406	1,920	2,486
Total Assets	870,563	866,670	3,893
Trade and other payables	16,722	14,169	2,553
Long term debt	165,834	165,784	50
Other Liabilities	8,400	12,245	(3,845)
Total Liabilities	190,956	192,198	(1,242)
Net Assets	679,607	674,472	5,135

- Goodwill and intangibles increase with business acquisitions and capitalised development investment
- Other assets increase with Harmony acquisition deposit
- Trade and other payables increased with timing of GST payments
- Other liabilities decrease due to the timing of provisional tax payments
- Significant headroom in all three debt covenants (leverage, interest cover, and proportion of EBITDA in guaranteeing group)

Financials: Interim dividend

- Fully imputed interim dividend of 7.7cps (+1.3% on pcp)
- Supplementary dividend for non-residents of 1.3588cps
- Dividend record date: 5pm Friday 13 March 2015 and payment date of Tuesday 24 March 2015

Dividends paid CPS

Outlook

Outlook

- We expect our F15 full year results to be in line with the expectations we set in August 2014; low double-digit revenue growth, with continued investment in the business, and therefore subdued EBITDA growth.
- H2 will not have the same YoY revenue and expense growth rates due to the MotorWeb acquisition completed in December 2013.
- We are well-positioned for the long term, as growth in mobile, and the migration of advertising and commerce online all evolve in our favour.
