NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2009

This financial report includes the consolidated financial statements and notes of Commsecure Limited (now trading as Welcome Stranger Mining Limited) and controlled entities ('Consolidated Group', 'Consolidated Entity' or 'Group').

1. Statement of Significant Accounting Policies

Basis of Preparation

These general purpose financial statements for the interim half-year reporting period ended 31 December 2009 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standards including AASB 134: Interim Financial Reporting. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Commsecure Limited and its Controlled Entities). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2009, together with any public announcements made during the half-year.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements except for the adoption of the following new and revised Accounting Standards.

Accounting Standards not Previously Applied

The Group has adopted the following new and revised Australian Accounting Standards issued by the AASB which are mandatory to apply to the current interim period. Disclosures required by these Standards that are deemed material have been included in this financial report on the basis that they represent a significant change in information from that previously made available.

Presentation of Financial Statements

AASB 101 prescribes the contents and structure of the financial statements. Changes reflected in this financial report include:

- the replacement of Income Statement with Statement of Comprehensive Income. Items of income and expense not recognised in profit or loss are now disclosed as components of 'other comprehensive income'. In this regard, such items are no longer reflected as equity movements in the Statement of Changes in Equity;
- the adoption of the separate income statement/single statement approach to the presentation of the Statement of Comprehensive Income;
- other financial statements are renamed in accordance with the Standard; and
- presentation of a third Statement of Financial Position as at the beginning of a comparative financial year where relevant amounts have been affected by a retrospective change in accounting policy or material reclassification of items.

Operating Segments

From 1 January 2009, operating segments are identified and segment information disclosed on the basis of internal reports that are regularly provided to, or reviewed by, the group's chief operating decision maker which, for the Group, is the board of directors. In this regard, such information is provided using different measures to those used in preparing the Statement of Comprehensive Income and Statement of Financial Position. Reconciliations of such management information to the statutory information contained in the interim financial report have been included.

As a result of the adoption of the revised AASB 8, certain cash generating units have been redefined having regard to the requirements in AASB 136: Impairment of Assets.

Business Combinations and Consolidation Procedures

Revised AASB 3 is applicable prospectively from 1 July 2008. Changes introduced by this Standard, or as a consequence of amendments to other Standards relating to business combinations which are expected to affect the Group, include the following:

- All business combinations, including those involving entities under common control, are accounted for by applying the acquisition method which prohibits the recognition of contingent liabilities of the acquiree at acquisition date that do not meet the definition of a liability. Costs incurred that relate to the business combination are expensed instead of comprising part of the goodwill acquired on consolidation. Changes in the fair value of contingent consideration payable are not regarded as measurement period adjustments and are recognised through profit or loss unless the change relates to circumstances which existed at acquisition date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2009

Note 1: Basis of Preparation (continued)

- Unrecognised deferred tax assets of the acquiree may be subsequently realised within 12 months of acquisition date on the basis of facts and circumstances existing at acquisition date with a consequential reduction in goodwill. All other deferred tax assets subsequently recognised are accounted for through profit or loss.
- The proportionate interest in losses attributable to non-controlling interests is assigned to non-controlling interests irrespective of whether this results in a deficit balance. Previously, losses causing a deficit to non-controlling interests were allocated to the parent entity.
- Where control of a subsidiary is lost, the balance of the remaining investment account shall be remeasured to fair value at the date that control is lost.

a. Going concern

The financial statements have been prepared on a going-concern basis notwithstanding that the Consolidated Entity incurred an operating loss after income tax of \$ 72,906 as at 31 December 2009.

The Consolidated Entity is currently in the final process of recapitalising its operations. Accordingly, the Directors are of the opinion that the Company will be able to meet its current trade and other payables, as well as repay its debts as and when they fall due. Therefore, the Directors are of the opinion that the financial statements be prepared on a going-concern basis.

The stated purpose of the Company on exit from liquidation is to recapitalise and to seek opportunities to enable the reinstatement of its securities to official quotation on the ASX. The Company intends to expand its royalties and tenement as well as seeking other business opportunities within the gold mining sector and other investments that will add shareholder value.

In the event that the Consolidated Entity is unable to realise its object of obtaining profitable opportunities or complete any further capital raisings it will be required to realise its assets and extinguish its liabilities in a manner other than in the normal course of business such as voluntarily administration. The financial report does not include any adjustments relating to the recoverability or classification of recorded asset amounts or classification of liabilities that might be necessary should the Consolidated Entity not be able to continue as a going concern.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 DECEMBER 2009

NOTE 2: OPERATING SEGMENT

Primary Reporting — Business Segments

During the year the Company was predominately dormant. The Company was placed in voluntary administration in June 2009 and all the key management and employees left the Company in the first half of the year. Only limited information is available and it is not possible to accurately report results, assets and liabilities by Business Segment.

Historically the Company had operated two segments – Technology and Exploration and in two geographical segments - Australia and Hong Kong. Segment revenues and expenses were directly attributable to the segments and included any joint revenue and expenses where a reasonable basis of allocation existed. Segment assets included all assets used by a segment. While most assets were directly attributed to individual segments, the carrying amount of certain assets used jointly by two or more segments is allocated to the segments on a reasonable basis. Segment liabilities consist principally of payables, employee benefits, accrued expenses, provisions and borrowings. Segment assets and liabilities do not include deferred income taxes.

Segment revenues, expenses and results included transfers between segments. The prices charged on intersegment transactions are the same as those charged for similar goods to parties outside of the Consolidated Group at an arm's length. These transfers are eliminated on consolidation.

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with AASB 134 Interim Financial Reporting including: giving a true and fair view of the consolidated entities financial position as at 31 December 2009 and its performance for the half-year ended on that date and complying with AASB 134: Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Commsecure Limited ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Commsecure Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Basis for Adverse Conclusion

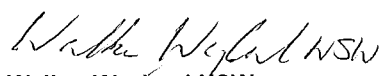

Commsecure Limited was placed into liquidation on 2 July 2009. The company was removed from liquidation on 29 October 2010. A number of records have been misplaced and this may lead to the financial report being materially misstated.

Adverse Conclusion

Our review indicates, that due to the loss of records as described in the previous paragraph the half-year financial report of Commsecure Limited does not give a true and fair view of the company financial position as at 31 December 2009 and of its performance for the half-year ended on that date in accordance with the Corporations Act 2001.

Material Uncertainty Regarding Going Concern

Without qualifying our conclusion, we draw attention to Note 1 in the financial report which states that in the event that the Group is unable to realise its object of obtaining profitable opportunities or complete any further capital raisings it will be required to realise its assets and extinguish its liabilities in a manner other than in the normal course of business.
