Strategy

Ramsay Health Care Managing Director Christopher Rex said the Company had delivered another outstanding result driven by a solid operating performance in all its geographic segments as well as positive contributions from its most recent acquisitions.

"Our operations around the world are all performing solidly with volume growth at our existing facilities and growth through acquisition having a positive impact," Mr Rex said.

"In completing our purchase of a controlling stake in Générale de Santé in October 2014, we are now a market leader in France as well as Australia and are thus very well-positioned to cater for the increasing demand for health care in these regions.

"At the same time, we continue to explore opportunities in existing and new markets and given the experience we have gained in hospital operations across the world over many years, we are confident that our management model can continue to be applied in more settings."

Operations

During the half year, Ramsay's Australian and Asian business achieved revenue growth of 8.8% and EBIT growth of 12.6% on the back of strong admissions growth.

Ramsay's UK business continues to grow well. NHS admissions increased by 12% and EBIT increased 9.1% to £15.5 million. Strong operating margins (EBITDAR) continue to be achieved in the UK.

Ramsay's French business (Ramsay Santé and GdS combined) grew as a result of organic growth and positive contributions from Medipsy and Générale de Santé. Overall, EBITDAR increased by 596% and EBITDAR margins increased from 15.5% to 20.0%.

Ramsay Santé had an excellent half year with EBITDA increasing by 128.1% to €27.6 million due to the continued improvement of the existing operations coupled with the positive contribution from the Medipsy psychiatric facilities (acquired mid December 2013).

Admissions at Ramsay Santé's medical/surgical hospitals were up 4% while psychiatric bed days were up 5% (on a like-for-like basis) showing demand in the French market is growing.

In its first three months Générale de Santé performed as anticipated, confirming due diligence expectations. We look forward to the value that this business will add to our French operations.

Brownfields Capacity Expansion

Ramsay continued to focus on its capacity expansion programme, completing \$175M worth of brownfield expansions in Australia in the first half including the \$58.2 million expansion of Warringal Private in Heidelberg, Melbourne and the \$53.3 million expansion of Pindara Private on the Gold Coast, both of which were commissioned late in the reporting period.

A further \$190M brownfield developments were approved during the half with an ongoing pipeline of developments due to come on stream over the next few years.

"We anticipate ongoing growth in demand will continue to drive substantial capital investment in these facilities well into the future," Mr Rex said.

Acquisitions

During the half year Ramsay Health Care completed the acquisition of a controlling stake in Générale de Santé (GdS) and its 75 facilities (61 hospitals), bringing Ramsay's total portfolio in France to 115 facilities (101 hospitals), and making it the market leader in that country.

"The completion of the GdS acquisition makes Ramsay the leading private hospital operator in a country that has a well-respected health care system, an ageing demographic and a growing demand for health care services," Mr Rex said.

The Company, through its joint venture partnership with Sime Darby, has also recently announced it has signed a non-binding term sheet, with Chinese healthcare company Jinxin, to jointly operate five hospitals in the city of Chengdu, China.

The proposed joint venture involves four hospitals that Jinxin currently operates in Chengdu and a further 500 bed women's health hospital due to open in March 2015. With 2,300 beds these are premier hospitals in the region with a focus on women's health, mental health, general medical and traditional Chinese medicine.

Balance Sheet and Cash Flow

Continuing strong and consistent operating cash flow and effective working capital management delivered a high cash conversion rate for the Group of 100% of operating profit (EBITDA) to gross operating cash flow. Ramsay's robust balance sheet and strong cash flow generation continues to provides us with the flexibility to fund the increasing demand for brownfield capacity expansion, future acquisitions and ongoing working capital needs.

Outlook

"Our operations around the world are all performing solidly and the global demand for healthcare remains high due to population growth; increasing consumer wealth; government programs to expand access to healthcare and an ageing population (the global population over 60 is forecast to triple by 2050)," Mr Rex said.

"Ramsay is focused on ensuring that we are capable of meeting this demand through our capacity expansion program in our existing hospitals, and by acquiring strategically located hospitals in new and existing markets.

"The integration of Générale de Santé, growing this business, and achieving synergies and efficiencies, will be a major focus.

"I would like to thank all our staff and doctors for their ongoing contribution to our success and the excellent service they provide to our patients."

Based on the strength of the first half results and the continuation of robust growth across all our operations, and barring unforeseen circumstances, Ramsay is targeting Core NPAT and Core EPS growth of 18% to 20% for FY2015 (previously 14% to 16%) including nine months of Générale de Santé.

1. CORPORATE INFORMATION

The financial report of Ramsay Health Care Limited and controlled entities (the 'Group') for the half year ended 31 December 2014 was authorised for issue in accordance with a resolution of the directors on the 26 February 2015.

Ramsay Health Care Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian stock exchange.

The nature of operations of the Group is described in the Directors' Report.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The half year financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standards including AASB 134 "*Interim Financial Reporting*" and other authoritative pronouncements of the Australian Accounting Standards Board. It does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial report.

The half year financial report should be read in conjunction with the annual financial report of Ramsay Health Care Limited as at 30 June 2014.

It is also recommended that the half year financial report be considered together with any public announcements made by Ramsay Health Care Limited and its controlled entities during the half year ended 31 December 2014 in accordance with the continuous disclosure obligations arising under the ASX listing rules.

The half year financial report has been prepared on a historical cost basis, except for derivative financial instruments that have been measured at fair value. The accounting policies and methods of computation are the same as those adopted in the most recent annual financial report.

For the purpose of preparing the half year financial report, the half year has been treated as a discrete reporting period.

The financial report is presented in Australian dollars and all values are rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the Company under ASIC Class Order 98/0100. This is an entity to which the Class Order applies.

The Directors believe that the core profit (segment result) after tax from continuing operations, and the core earnings per share from continuing operations measures, provide additional useful information which is used for internal segment reporting and therefore would be useful for shareholders.

6. BUSINESS COMBINATIONS

Générale de Santé 2015

On 1st October 2014, Ramsay acquired a controlling interest in Générale de Santé, a leading private hospital operator and healthcare services group in France listed on the Euronext Paris Eurolist, thereby significantly enlarging and enhancing its operations in that geographic segment.

The primary reason for the business combination is the acquisition of a controlling interest in Générale de Santé. Ramsay has entered into a shareholders' agreement with Predica in order to organise their future relationships as shareholders of Générale de Santé of which they together hold 83.43% of the shares and 75.72% of the theoretical voting rights upon completion of the acquisition transaction. The shareholders' agreement provides for the composition of the board of directors and other corporate governance undertakings. Ramsay has obtained control of Générale de Santé by virtue of the provisions of the shareholders' agreement entered into with Predica, together with the acquisition of 47.55% of the share capital and 43.16% of the theoretical voting rights of Générale de Santé.

Assets acquired and liabilities assumed

The Group has provisionally recognised the fair values of the identifiable assets and liabilities of Générale de Santé based upon the best information available as of the reporting date. Due to the timing of the acquisition and the extent of diligence underpinning this accounting, the amounts recognised for the Générale de Santé business combination in the financial statements for the half year ended 31 December 2014 have been determined on a provisional basis only. This applies in particular, but not exclusively, to amounts recognised for property, plant and equipment. Ramsay shall until the end of the measurement period obtain and consider the information necessary about facts and circumstances that existed as of the acquisition date and, if known, would have affected the recognition and measurement of the amounts recognised as of that date for the Générale de Santé business combination, in order to retrospectively adjust the provisional amounts recognised.

The provisional fair values of the identifiable assets and liabilities of Générale de Santé as at the date of acquisition are as follows:

	\$000
Accounts receivable	341,959
Inventory	54,809

6. BUSINESS COMBINATIONS (continued)

Générale de Santé 2015 (continued)

The goodwill of \$714,850,000 comprises the value of synergies expected to be achieved as a result of combining Générale de Santé with the rest of the Group, as well as intangible assets that do not qualify for separate recognition. This acquisition provides a number of strategic benefits consistent with Ramsay's growth strategy and enables the Group to become the leader in private hospitals in France with significant market share. None of the goodwill recognised is expected to be deductible for income tax purposes. The goodwill balance represents goodwill attributable to the parent only.

The Group has elected to measure the non-controlling interests in the acquiree at their proportionate share in the recognised amounts of the acquiree's identifiable net liabilities. The non-controlling interests in the acquiree at the time of the business combination represent 52.42% of the share capital of Générale de Santé.

The fair value of the acquired receivables amounts to \$341,959,000. The gross contractual amount receivable is \$383,463,000, however only the fair value amount of \$341,959,000 is expected to be collected.

From the date of acquisition, Générale de Santé has contributed \$655,448,000 of revenue and \$22,884,000 to the Group profit before income tax from continuing operations. If Générale de Santé had been acquired at the beginning of the financial year on 1 July 2014, the revenue for the Group would have been \$3,889,492,000 and the profit before income tax from continuing operations for the Group would not have been significantly different to the Group profit before tax as reported.

Acquisition of additional interest in Générale de Santé

On 7 and 13 of November 2014, the Group acquired a total additional 1.24% interest in the voting shares of Générale de Santé, increasing its ownership interest to 48.80%. Cash consideration of \$16,049,000 was paid to non-controlling shareholders.

The value of the non-controlling interest was recorded at the fair value as at the acquisition date.

The primary reason for the business combination is the acquisition of an existing business.

Key factors contributing to the \$168,396,000 of goodwill are the synergies existing within the acquired business and the synergies expected to be achieved as a result of combining the Medipsy facilities with the rest of the Group. The goodwill balance represents goodwill attributed to both the parent and the non-controlling interest. This acquisition provides a number of benefits for the Group.

The results of Medipsy from acquisition to 31 December 2013 are not material and therefore have not been disclosed separately.

The revenue and results of the total Ramsay Group, for the half year ended 31 December 2013, as though Medipsy was acquired on 1 July 2013, would not be significantly different to the Group results as reported.

7. SEGMENT INFORMATION

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Managing Director and the Board of Directors (the chief operating decision makers) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the region in which the service is provided, as this is the Group's major risk and has the most effect on the rate of return, due to differing health care systems in the respective countries. The group has three reportable operating segments being Asia Pacific, UK and France.

Discrete financial information about each of these operating businesses is reported to the Managing Director and his management team on at least a monthly basis.

Types of services

The reportable operating segments derive their revenue primarily from providing health care services to both public and private patients in the community.

Accounting policies and inter-segment transactions

Transfer prices between operating segments are on an arm's length basis. Segment revenue, segment expense and segment results include transfers between the segments. These transfers are eliminated on consolidation.

The accounting policies used by the Group in reporting segments are the same as those contained in Note 2 to the accounts.

ii) Segment net profit after tax reconciliation to Income Statement

The executive management committee meets on a monthly basis to assess the performance of each segment by analysing the segment's core net profit after tax. A segment's core net profit after tax excludes income and expenses from non-core items. Refer to note 2(a) for the reconciliation of net profit attributable to owners of the parent to core profit (segment result) after tax.

8. EARNINGS PER SHARE

Basic earnings per share amounts are calculated by dividing net profit for the period attributable to ordinary equity holders of the parent (after deducting the CARES dividend) by the weighted average number of ordinary shares outstanding during the period.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the parent (after deducting the CARES dividend) by the weighted average number of ordinary shares outstanding during the period plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

9. INVESTMENT IN JOINT VENTURE

On 1 July 2013, Ramsay acquired a 50% equity ownership in a joint venture with Sime Darby Berhad (a Malaysian listed company), through the contribution of the Group's Indonesian assets and cash payments to Sime Darby Berhad of approximately \$120 million over 3 years. The new joint venture combined Sime Darby Berhad's portfolio of health care assets in Malaysia (three hospitals and a nursing and health science college) with Ramsay's three Indonesian hospitals under the new jointly-owned company, Ramsay Sime Darby Health Care Sdn Bhd.

The joint venture provides a platform for expansion and further acquisitions in the Asian health care sector.

The investment in the joint venture is accounted for using the equity method and comprises the following:

	\$000
Investment in joint venture at 30 June 2014:	192,815
Share of profit of joint venture	6,298
Foreign currency translation	12,017
Investment in joint venture at 31 December 2014:	211,130

10. FAIR VALUES

Unless disclosed below, the carrying amount of the Group's financial assets and liabilities approximate their fair value. The fair values have been calculated by discounting the expected future cash flows at prevailing market interest rates depending on the type of borrowings. At reporting date, the market interest rates vary from 2.64% to 2.77% (June 2014: 2.71% to 2.74%) for Australia, 0.55% to 0.61% (June 2014: 0.49% to 0.55%) for UK, and 0.018% to 0.078% (June 2014: 0.21% to 0.29%) for France respectively.

Instruments used by the Group

Derivative financial instruments are used by the Group in the normal course of business in order to hedge exposure to fluctuations in interest and foreign exchange rates.

Fair value

The Group has available to it various methods in estimating the fair value of a derivative financial instrument. The methods comprise:

Level 1 the fair value is calculated	ted using quoted prices in active markets.
--------------------------------------	--

Level 2 the fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 the fair value is estimated using inputs for the asset or liability that are not based on observable market data.

The fair value of the financial instruments was estimated using the level 2 method valuation technique and is summarised in the table below.

	As at 31/12/2014 \$000	As at 30/06/2014 \$000
Financial assets		
Forward exchange contracts – cash flow hedges	87	-
Derivative instruments – interest rate swaps	 _	536
	87	536
Financial liabilities		
Derivative instruments – interest rate swaps	(23,049)	(12,996)
Forward exchange contracts – cash flow hedges	(578)	(3,443)
	(23,627)	(16,439)

The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships.

Transfer between categories

There were no transfers between Level 1 and Level 2 or between Level 2 and Level 3 during the period.

12. BORROWINGS

Details of a new debt facility executed during the 6 months ended 31 December 2014 are detailed below:

Générale de Santé (GdS) and its controlled entities executed a term and revolving facilities agreement on 1 October 2014 to:

- Refinance existing GdS debt and overdraft facilities;
- Provide the Group with additional liquidity to support its capital requirements;
- Fund the special dividend paid on 4 December 2014;
- Refinance Ramsay Santé's existing indebtedness upon the merger of Ramsay Santé and GdS. The merger is subject to shareholder and regulatory approval;
- Fund future working capital requirements; and
- Fund future capital requirements and acquisitions.

The debt facility was underwritten by three French trading banks and two international investment banks and was subsequently fully syndicated.

The debt facility's limits total €1,075,000,000 comprising:

- (i) term Loan B facilities totalling €900,000,000;
- (ii) a revolving working capital facility of €100,000,000; and
- (iii) a capex / acquisition facility of €75,000,000.

The total amount drawn under the debt facilities as at 31 December 2014 was €660,000,000 (2013: nil).

The debt facilities have a maturity of six years and are repayable as a bullet on maturity. The debt facilities are secured by first ranking pledges over certain GdS controlled entities. Guarantees have also been provided by GdS and certain GdS controlled entities.

To the members of Ramsay Health Care Limited Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Ramsay Health Care Limited, which comprises the consolidated statement of financial position as at 31 December 2014, the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Ramsay Health Care Limited and the entities it controlled during the half-year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Ramsay Health Care Limited is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.
