## Half Year Results

26 February 2015

*This presentation is for information purposes only and is a summary only. It should be read in conjunction with the most recent financial report and the Operating and Financial Review document. The content of this presentation is provided as at the date of this presentation (unless otherwise stated). Reliance should not be placed on information or opinions contained in this presentation and, subject only to any legal obligation to do so Transfield Services Limited ('Transfield Services') does not have any obligation to correct or update content.*

*This presentation does not and does not purport to contain all information necessary to an investment decision, is not intended as investment or financial advice and must not be relied upon as such. Any decision to buy or sell securities or other products should be made only after seeking appropriate financial advice. This presentation is of a general nature and does not take into consideration the investment objectives, financial situation or particular needs of any particular investor.*

*Any investment decision should be made solely on the basis of your own enquiries. Before making an investment in Transfield Services, you should consider whether such an investment is appropriate to your particular investment objectives, financial situation or needs.*

*To the maximum extent permitted by law, Transfield Services disclaims all liability (including, without limitation, any liability arising from fault, negligence or negligent misstatement) for any loss arising from this presentation or reliance on anything contained in or omitted from it or otherwise arising in connection with this.*

*All amounts are in Australian Dollars, unless otherwise stated. Certain statements in this presentation relate to the future, including forward looking statements relating to Transfield Services' financial position and strategy. These forward looking statements involve known and unknown risks, uncertainties, assumptions and other important factors that could cause the actual results, performance or achievements of Transfield Services to be materially different from the future results, performance or achievements expressed or implied by such statements.*

*Throughout this document non-IFRS financial indicators are included to assist with understanding Transfield Services' performance. The primary non-IFRS information is proportionately consolidated financial information, underlying EBITDA, underlying EBIT and underlying NPAT.*

*Management believes proportionately consolidated information is an accurate reflection of operational results due to the materiality of joint venture arrangements in place. Proportionately consolidated results include Transfield Services' share of joint venture revenues and earnings. Management believes underlying EBITDA, underlying EBIT and underlying NPAT are appropriate indications of the on-going operational earnings of the business and its segments because these measures do not include one-off significant items (both positive and negative) that relate to disposed or discontinued operations, pre-acquisition legal settlement costs, costs incurred to restructure the business in the current period or costs associated with a take-over defence. A reconciliation of non-IFRS to IFRS information is included where these metrics are used. This document has not been subject to review or audit by Transfield Services' external auditors.*

*All comparisons are to the previous corresponding period of H1 FY2014 – the 6 months ended 31 December 2013, unless otherwise indicated. Certain figures provided in this document have been rounded. In some cases, totals and percentages have been calculated from information that has not been rounded, hence some columns in tables may not add exactly.*

## H1 FY2015 Underlying EBITDA by Sector

AUDm

	Underlying EBITDA as reported	%	Underlying EBITDA excluding contract provisions	%
Infrastructure	11.8	7.6	26.1	16.0
Defence, Social & Property	131.9	85.0	121.6	74.6
Resources & Industrial	11.4	7.4	15.2	9.3
<b>ANZ TOTAL</b>	<b>155.1</b>	<b>100.0</b>	<b>162.9</b>	<b>100.0</b>
Americas	(16.1)		0.9	
Corporate	(26.8)		(18.0)	
<b>TOTAL</b>	<b>112.2</b>		<b>145.8</b>	

Increase in Underlying EBITDA in H1 FY2015 influenced by:

- ▶ Strong performance in the Defence, Social & Property contracts across all sub-sectors
- ▶ Higher Infrastructure volumes on NBN and NZ UFB contracts
- ▶ Improved Infrastructure margins in the Rail and Road sub-sectors following reduction in cost base

Offset by

- ▶ Weakness in Resources & Industrial's Oil and Gas sub-sector, margins impacted due to deferral of work
- ▶ Americas infrastructure - road contracts now on path to recovery with some WIP impaired
- ▶ Americas R&E - legacy debtor issues in Oil & Gas resolved after legal dispute; FTS joint venture under pressure, but core US R&E business performing well
- ▶ Corporate impacted by reversal of STI accrual in prior period, movement in provisions and consulting costs

## Australia

- ▶ Exposed primarily to operations & maintenance and production (non-discretionary spend) where long term gas off-take agreements already contracted
- ▶ Some near term deferrals in rig utilisation. Where possible, rigs are being redeployed
- ▶ Delivering operational improvements and efficiencies to clients, and ensuring our volumes and market shares are maintained. Well positioned with clients for recovery
- ▶ Work-over rig demand expected to increase in FY2016 as delayed production investments in LNG restart and production ramps up
- ▶ Cost saving initiatives taken: 200+ headcount reduction in Camp Management and Energy

## Americas

- ▶ Global energy oversupply will impact US markets, predominantly in upstream Oil and Gas. Our upstream footprint is small, but focused on low cost producers.
- ▶ Majority of our US business is downstream – not expected to be materially affected. Potential for growth in the Gulf Coast being actively pursued

Nov 2014

- ▶ Limited due diligence material made available to Ferrovial in November 2014

Dec 2014

- ▶ Ceased discussions with Ferrovial in December 2014
- ▶ Board's view on valuation based on a 'through the cycle' view
- ▶ Board maintains \$2.00 per share does not reflect the underlying value of the Company's shares

Feb 2015

- ▶ Standstill expires 28<sup>th</sup> February 2015, after the Company's H1 FY2015 results announcement – market now fully informed

Underlying NPAT <sup>3</sup>	18.1	2.8	646%			
Statutory NPAT	8.4	4.8	75%			

- ▶ Significant increase in Underlying EBITDA compared to prior comparative period
- ▶ Result includes conservative and appropriate level of legacy provisioning
- ▶ First half record for EBITDA and Underlying EBITDA margins are the highest for several years
- ▶ More balanced earnings skew between first and second halves due to increase in facilities management work
- ▶ Strong Underlying NPAT result compared to prior comparative period
- ▶ \$13.9 million of non-recurring items booked below Underlying NPAT line

<sup>1</sup> Proportionately consolidated results include the Company's share of joint venture revenues and earnings

<sup>2</sup> Underlying EBITDA and EBIT excludes the following non-recurring items: restructuring costs and settlement of pre-acquisition legal claim

<sup>3</sup> Underlying NPAT excludes after-tax non-recurring items – refer reconciliation in Appendix

## Infrastructure

- Return of volumes and margins in Telecommunications, Road and Rail
- Legacy provisions for challenges in Public Transport and New Zealand optical fibre roll-out
- Loss of volume in Electrical Services and Water sub-sectors
- ACTIONS: maintain volumes in NBN; seeking to partner for operations and maintenance with new owners of infrastructure

Separate measures are not to scale

## Defence, Social & Property

- Strong performance in Immigration reflecting full six months of earnings
- Defence expansion mobilised well in Q2 FY2015
- Reversal of prior period accrual favourably impacted H1 FY2015
- ACTIONS: expand into complementary sub-sectors, review delivery models and immigration contract renewal

Separate measures are not to scale

## Resources & Industrial

- ▶ Decline in oil & gas prices has led to decrease in volumes as clients tighten spending
- ▶ All LNG facilities in Queensland expected to be operational by December 2015, resulting in increase in well servicing in FY2016 & beyond
- ▶ Commodity price weakness remains
- ▶ Small contract provision taken in this Sector
- ▶ ACTIONS: Working with clients to take a 'through the cycle' view; further cost cuts commenced

*Separate measures are not to scale*

## The Americas

- ▶ Oil & gas in the US performed to expectations
- ▶ Flint Transfield Services joint venture suffering from slow down in oil sands due to oil price
- ▶ Chilean business at cyclical low due to falling copper price and tight client spending
- ▶ Roads contracts restructured, performance now improved; provisions taken
- ▶ ACTIONS: Upstream headcount reduction commenced; in roads, targeting higher margin technical work

*Separate measures are not to scale*

## Debtor Days

## Debtors ageing profile improving

(ageing profile of total trade debtors)

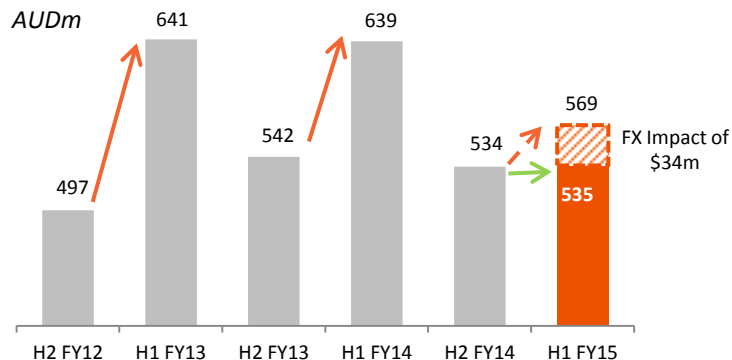

- ▶ Debtor Days within target range of 45 days, with the proportion of current debtors higher period on period

## WIP Days

- ▶ Small increase in WIP days period on period
- ▶ Americas WIP reduced following ongoing remediation of Roads contracts
- ▶ Offset by higher WIP in processing of NBN contract claims – timing issue
- ▶ No WIP in Resources & Industrial contracts

## Net Debt

## Net Debt Reconciliation AUDm

## Managing Director and Chief Executive Officer

## FY2013A (Revenue)<sup>1</sup>

(Sector revenue / total TSE revenue)

- Strong Utilities performance, State governments expenditure on Water and Electrical Services
- Strong Mining and Well servicing performance in Easternwell, plus conventional Oil surface work
- Defence and Infrastructure solid contribution but low volumes in outsourcing
- Americas overhead reductions

## FY2014A (Revenue)<sup>1</sup>

(Sector revenue / total TSE revenue)

- Good contribution from new Immigration contract
- Telecommunications impacted by deferral of NBN roll-out
- Strong Property performance due to major project delivery
- Solid Oil & Gas contribution from early project works prior to operations
- Americas impacted by legacy contract issues in Roads business

## FY2015 Est (Revenue)<sup>1</sup>

(Sector revenue / total TSE revenue)

- New national Defence contract and full year of Immigration contribution
- Capital freezes and deferral of maintenance spend impacts Infrastructure
- Oil & Gas underweight due to project delays
- Americas impacted by lower volumes in FTS JV and legacy issues with Road contracts
- Good contribution from Telecommunications

## Expected Pipeline (Revenue)<sup>1</sup>

Leads and Opportunities

(Sector revenue / total TSE revenue)

- Well balanced pipeline reflecting changes in cycle
- Significant tendering in Infrastructure (PPPs, privatisations and asset recycling)
- Immigration reduces but Defence and Commonwealth outsourcing upside
- Benefits of State outsourcing of Welfare, Health and Justice
- America recovery in volumes from US Upstream Oil & Gas and growth in Downstream market

<sup>1</sup> Excludes Corporate, Discontinued / Other Revenue

## Complete pipeline (opportunities + leads)

- ▶ Leads and Opportunities relate to headline contract values and do not include leverage work or organic growth
- ▶ Traditionally on larger contracts expect to see range of 20 to 30 per cent extra revenue from leverage work
- ▶ Americas grouped as stand alone sector – in reality Americas pipeline funnel split between Infrastructure and Resources and Industrial. If Americas business is reflected in new operating model, pipeline mix would be evenly distributed between three sectors

- ▶ Approx 50 percent of people in the top three levels of management have turned over in last 18-24 months
- ▶ 20 percent of top 80 roles less than two years with the Company
- ▶ Numbers of positions reduced by 30 per cent, standardised remuneration, job titles and definitions
- ▶ Executive positions filled, and now have an Extended Leadership Team; regular meetings focus on leading change, enterprise thinking, commercial acumen, continuous improvement
- ▶ Focus on developing bench strength with talent and succession planning underway

- ▶ Expecting margin improvement across contract book through structured intervention approach to contract optimisation and business improvement
- ▶ Harvesting benefits from implementation of Operating Model
  - ▶ Consolidated finance and administration teams work flexibly to respond to fluctuating workload at sites - significant productivity improvement
- ▶ Rollout of mobile solutions improving productivity, approvals, receipting invoicing and scheduling processes
- ▶ Clients are responding to our innovation based approach
- ▶ Current headwinds are market-driven, not business driven

# Outlook and guidance

Work in hand and leverage work underpins the second half

**Underlying EBITDA<sup>1</sup> for FY15 reaffirmed to be within \$260 million to \$280 million range**

## Outlook

- ▶ Project deferrals expected in Oil and Gas, and Minerals sub- sectors over Calendar Year 2015
- ▶ Offset by near term completion of LNG facilities in Queensland with subsequent increase in production activities (such as well servicing) expected
- ▶ Fibre optic cable roll-outs in Australia and New Zealand continue to grow
- ▶ Increasing interest in outsourcing of social services - health, education, welfare and justice
- ▶ Asset privatisations and outsourcing expected to provide opportunities

<sup>1</sup> Underlying EBITDA does not include restructuring costs, settlement of pre-acquisition legal claims, gains or losses on sale of businesses and investments and other significant non-recurring items

A woman with short brown hair, wearing a blue long-sleeved shirt and pink gloves, is cleaning a window. She is holding a blue spray bottle in her right hand and a white cloth in her left hand. The window is set into a dark blue corrugated metal wall. The floor is made of wooden planks. In the background, there is a white metal railing and some greenery.
