Company Announcement 19th March, 2015

SNARE new sales up 100%

Prophecy has continued its growth in SNARE sales, with YTD new sales to the end of Q3 increased by 100% compared to the same period last year.

This result shows continued improvement on our previously reported position of 85% growth as at the half year mark. Actions taken last year to build our sales resources and improve the sales process efficiency have combined to produce a set of very pleasing sales figures year to date. Our sales team has continued to work diligently and has further improved its output to be on target for a record year of sales.

The SNARE sales growth rate has continued to accelerate through Q3 and the expected full year sales position is now on target to hold the current 100% growth rate through to the end of Q4.

The SNARE product set is exceeding expectations for the year and is at the core of our full year expected results. It is very pleasing to see the high performance displayed at the half year continue and improve through Q3.

Ed Reynolds
Chairman
