Urbanise signs HSA with Brookfield Multiplex Services (Middle East)

Urbanise.com Limited (Urbanise) (ASX:UBN) announced today that it has entered into a hosted services agreement with leading international contractor Brookfield Multiplex Services Middle East (Brookfield Multiplex).

Under the agreement, the Brookfield Multiplex Services division will use the Urbanise platform to enhance its current service offering to the commercial property, retail, residential and infrastructure markets in the Middle East region.

Commenting on the announcement, Urbanise CEO Ben Churchill said, *“Brookfield Multiplex’s commitment to service is second to none. We are delighted the Urbanise platform has been selected to further enhance Brookfield Multiplex’s client solution and add value to the range of services offered to their commercial tenants, schools networks and residents in large managed developments.”*

Brookfield Multiplex Services Director & General Manager Stephen Thomas added, *“We are always looking for new and innovative solutions that differentiate our service offering and meet the ever growing needs of our clients. The Urbanise platform enables us to build a whole new range of value-added services into our current and future projects. Remote asset monitoring and energy metering alone will provide our clients with a new level of transparency in relation to operational costs, while the platform’s self service portal and mobile workforce features will deliver the “on demand” services that customers increasingly expect today.”*

Following a short trial to review the breadth of capabilities of the Urbanise platform, Brookfield Multiplex will initially rollout the solution across a number of projects in the UAE.
