## VEECO TO EVALUATE BLUGLASS' RPCVD p-GaN – BRR WEBCAST

BLUGLASS LIMITED (ASX: BLG) has released a webcast with the following details:

### **Veeco to evaluate BluGlass' RPCVD p-GaN**

*Speaker:* Mr Giles Bourne

*Live date:* Tue, 28 Apr 2015 9:30am AEST

*Access this webcast at* [www.brrmedia.com/event/137450](http://www.brrmedia.com/event/137450)

*Access other BLG webcasts at* [www.brrmedia.com/asx/BLG](http://www.brrmedia.com/asx/BLG)

-Ends-

### **About BluGlass:**

BluGlass Limited (winner of the 2013 Australian Cleantech Competition) is an Australian green technology company formed to commercialise a breakthrough in the Semiconductor Industry. BluGlass has invented a new process using Remote Plasma Chemical Vapour Deposition (RPCVD) to grow semiconductor materials such as gallium nitride (GaN) and indium gallium nitride (InGaN), crucial to the production of high efficiency devices such as next generation lighting technology Light Emitting Diodes (LEDs) with advanced low cost potential.

The RPCVD technology, because of its low temperature and highly flexible nature, offers many potential benefits over existing technologies including higher efficiency, lower cost and greater scalability.
