Invigor joins Ruckus Ecosystem Partner Program in boost for Insights Visitor platform

- Enables seamless integration and operation of the Insights Visitor platform with Ruckus Smart Wi-Fi products and technology
- Investigating potential joint opportunities
- Ruckus - a global supplier of advanced wireless systems for the rapidly expanding mobile Internet infrastructure market

Leading big data solutions company Invigor Group Limited (ASX: IVO) ("Invigor") has become a member of the Ruckus Ecosystem Partner Program, expanding the capability of its Insights Visitor platform.

This relationship will enable the seamless integration and operation of the cloud based Insights Visitor platform with Ruckus Smart Wi-Fi products and technology. This will expand the Insights customer base to new shopping centres, hospitality, outdoor media groups, local governments and other locations.

The unique combination of Invigor's Insights platform together with the Ruckus SPoT™ Location-based Service creates a powerful location based contextual analysis platform.

Invigor's Executive Chairman Mr Gary Cohen said: "With visibility to Ruckus' channel and customer base, this is a significant opportunity to expand the range of retail properties, local governments, hotels and venues to which Invigor's mobile analytics products can provide deep visitor insights."

New York Stock Exchange-listed Ruckus is a rapidly growing WiFi vendor, and has approximately 52,000 end-customers worldwide. This relationship will boost the value proposition of Invigor's applications and creates an excellent new opportunity for existing and prospective clients.

About Invigor Group Limited

Invigor Group is a leading information technology and digital solutions company. It specialises in innovative business intelligence, big data solutions for businesses and consumers which are supported by strategic consulting, development and marketing services. Invigor delivers its cloud based solutions to a broad range of clients including: retailers, brands, mobile network providers, local and state governments, advertising and media agencies.

About RUCKUS WIRELESS

Headquartered in Sunnyvale, CA, Ruckus Wireless, Inc. (NYSE: RKUS) is a global supplier of advanced wireless systems for the rapidly expanding mobile Internet infrastructure market. The company offers a wide range of indoor and outdoor “Smart WiFi” products to mobile carriers, broadband service providers, and corporate enterprises, and has approximately 52,000 end-customers worldwide. Ruckus technology addresses WiFi capacity and coverage challenges caused by the ever-increasing amount of traffic on wireless networks due to accelerated adoption of mobile devices such as smartphones and tablets. Ruckus invented and has patented state-of-the-art wireless voice, video, and data technology innovations, such as adaptive antenna arrays that extend signal range, increase client data rates, and avoid interference, providing consistent and reliable distribution of delay-sensitive multimedia content and services over standard 802.11 WiFi.
