- Investment returns based on net asset backing (pre-tax) represent the investment returns prior to any provision for deferred tax liabilities or benefits, but are after the payment of current tax at company rates on income and on realised capital gains.
- Investment returns based on net asset backing (post-tax) represent investment returns after provision for deferred tax liabilities and benefits, including a provision for capital gains tax should the company's investments be realised in entirety.
- Returns After Individual Tax – Mid Rate represent the after tax investment return which would be achieved by an individual shareholder with a marginal tax rate of 34.5% (inclusive of Medicare levy). These returns take into account the effect of franking credits.
