Factors to Consider in Assessing the Company's Cash Position

There are a number of factors that should be taken into account in assessing the Company's cash position, the main factors being:

Destination Management Business and Operating Cost Base

The Company's destination management business has suffered as a result of the global financial crisis. Accordingly, we have adjusted our operating cost base, to ensure that we can effectively continue to deliver services, and are well positioned to benefit from anticipated growth.

PYOTravel and Recurring Revenues

The Company is progressively increasing its recurring revenue base from PYOTravel, which has now become the Company's primary focus. World.Net is confident that the transaction business will realise improved booking volumes.

Continued Financial Support from Directors and Major Shareholders

Over the past few years, the Company's directors and major shareholders have continued to fund anticipated cash shortfalls. The directors and major shareholders have undertaken to continue to provide financial support to the Company if required.

In taking the above factors into consideration, the Company is confident that it will have sufficient cash to fund its business activities going forward.
