

31 July 2015

MITCHELL SERVICES LIMITED (ASX: MSV)

Appendix 4C Quarterly Report and Investor Update

Dear Shareholder,

Mitchell Services Limited (MSV) is pleased to provide the following Investor Update for the quarter ended 30 June 2015. The quarter was an exciting and busy one for MSV, with a number of key transactions and activities undertaken. These activities include:

Mobilisation and commencement of drilling activities at Anglo American

The mobilisation process was both safe and efficient over a phased rollout that lasted more than three months. Revenue from this job has steadily increased over the rollout period with further increases anticipated in July. The rollout did require significant 'ramp up spend' during the three months ended 30 June 2015. This one off upfront expenditure facilitates a three year contract with Anglo and has had a negative cash flow impact of approximately \$1.8m for the quarter ended 30 June 2015.

Nitro Acquisition and associated capital raising

MSV successfully completed the acquisition of 25 drill rigs and ancillary equipment from the receivers of Nitro Drilling Pty Ltd on 6 July 2015. Cash flows from investing activities for the quarter ended 30 June 2015 include a \$1.5m deposit that was paid on 9 June 2015 as part of the Nitro acquisition. The deposit was funded from short term available cash and was effectively recovered after 30 June 2015 following settlement of the share issue and drawdown of the debt facilities that took place on 6 July 2015.

The acquisition has consolidated MSV's position as a leading provider in the Eastern States drilling market and has increased our fleet of "Tier 1" drill rigs from 23 to 43.

The acquisition was funded through a combination of:

- \$8.42 million fully underwritten non-renounceable Entitlement Offer of 4 shares for 7 existing shares at an offer price of \$0.017 and
- \$8.5 million debt facility provided by major shareholders, Mitchell Group and Washington H. Soul Pattinson & Company. Interest payments for the first two years are payable in shares.

With the Nitro asset integration process now well underway, management and board are focused on identifying appropriate surplus assets that could potentially be sold to deliver on our strategy of reducing debt levels following the successful Nitro acquisition.

Thank you to all shareholders who took part in the recent rights issue. With a fleet that has significantly improved in both quality and size, we are well positioned to take advantage of our strong position in the drilling services market. We look forward to keeping investors informed with our progress over coming months.

Yours Faithfully

Andrew Elf

Chief Executive Officer

Andrewley

Notes

- 1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2. The definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report except for any additional disclosure requirements requested by AASB 107 that are not already itemised in this report.
- 3. **Accounting Standards.** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

⁺ See chapter 19 for defined terms.
