Urbanise signs HSA with Networked Solutions

Urbanise.com Limited (Urbanise) (ASX:UBN) announced today that it has entered into an Hosted Services Agreement (HSA) with integrated accommodation management company Networked Solutions Ltd (NSL). The HSA offers scope to complete a series of 15-year deals with NSL in Qatar.

Under the agreement, Networked Solutions will use the Urbanise platform to deliver a range of services for worker communities - currently under plan in Qatar. Urbanise's critical asset monitoring technology will be deployed across multiple sites. The worker communities are being developed to support the delivery of key infrastructure projects including the FIFA World Cup 2022 and the Qatar National Vision 2030.

Commenting on the announcement, Networked Solutions Managing Director Daniel Pilmore said, *"We are excited to be partnering with Urbanise to deploy such leading edge technology throughout these worker communities in Qatar. Together, we are positioned to offer deliver a unique solution to the challenges historically associated with the provision of services to such large-scale accommodations. In addition to critical asset and energy monitoring, the Urbanise platform provides us with a customer focused view of the transactional activity associated with the delivery of both hard and soft facilities services – which is really quite unique."*

Urbanise CEO Ben Churchill added, *"NSL is widely recognised as the leading provider of Facilities Management and Property Management services to worker communities throughout the Middle East and we are thrilled that our technology has selected facilitate service delivery on such a large scale. This will be a significant deployment of Urbanise's critical asset and energy monitoring sensors and meters – which will support operators in not only providing a cost effective and responsive service, but maintaining the integrity of the communities to the highest standard."*
