

Net Tangible Assets & Monthly Investment Report 31 August 2015

NET TANGIBLE ASSET BACKING PER ORDINARY SHARE (all figures are unaudited)	JULY	AUGUST	CHANGE
NTA before tax on unrealised gains, but after tax accrual on realised gains	\$1.2322	\$1.1921	-3.26%
NTA after tax	\$1.1728	\$1.1472	-2.18%

NTA Disclosure

As at 31 August 2015, the NTA before tax accrual was \$1.2122 per share. After the accrual of tax on realised gains (but before tax on any unrealised gains), the NTA was \$1.1921 per share as shown in the table above.

Month in Review

Performance this month was impacted by the repercussions across the global equity markets from the slowing Chinese economy. The Chinese central bank introduced measures to try and alleviate their slowing economy by announcing a widening of their currency band, effectively depreciating their currency and cutting their interest rates.

Google, one of our top ten holdings announced that the company was creating a new operating entity called Alphabet. The new company structure will separate into core Google, which includes search, YouTube, Android and new ventures. Overall, the changes should provide greater transparency into the underlying profitability of Google's core businesses and better disclosure on project losses in their non-core businesses.

During the month the Company took advantage of the general market correction to increase the net invested equity position. Notable changes to the portfolio included trimming of European REIT holdings and increasing positions in US Housing, Macau Casinos and global beverage exposure.

The Company continues to maintain its predominant offshore currency exposures.

SUGGESTED INVESTMENT TIME	Seven years plus
INVESTOR PROFILE	PGF may be appropriate for investors seeking long term capital growth over a seven year plus investment horizon, through investment in a concentrated portfolio of global (including Australian) equities and other investment securities

PORTFOLIO COMPOSITION

^The Company has no exposure to the Chinese A-Share market listed on the Shanghai Exchange

Company Profile

PM Capital Global Opportunities Fund Limited (PGF or the Company) provides investors with an opportunity to invest in a concentrated portfolio of listed securities that are diversified across global equity markets (including Australia). The aim is to provide investors with an opportunity to invest in an actively managed portfolio that does not replicate standard industry benchmarks.

Who manages the Company's portfolio?

The Chief Investment Officer of PM CAPITAL, Paul Moore, who has over 29 years experience in successfully managing global investment funds. The portfolio manager, Ashley Pittard, who has over 17 years industry experience. Paul and Ashley are supported by a team of investment analysts.

Manager Profile

PM CAPITAL Limited, founded in 1998, is a Sydney based specialist equity and income fund manager that manages over \$2.3 billion on behalf of private clients, institutional investors and the clients of financial advisers. PM CAPITAL provides its clients with an opportunity to invest alongside its investment team, investing in businesses that it believes are currently trading below their long-term intrinsic value, but will return to full value over time.

PGF's investment mandate is based on the guidelines of the unlisted PM CAPITAL Global Companies Fund (GCF) and will generally invest in the same investments as the GCF once the portfolio has been established (although there may be differences in portfolio positioning from time to time). PGF's investment objective is to provide long-term capital growth over a seven-year plus investment horizon through investment in a concentrated portfolio of global equities and other investment securities.

Investment Philosophy

PGF's investment portfolio is managed by PM CAPITAL, which uses the same investment philosophy and process they utilise for their unlisted retail funds. This philosophy is a belief that:

"the best way to preserve and enhance your wealth is to buy a good business at a good price."

This investment philosophy has been successfully executed by PM CAPITAL's Chief Investment Officer, Paul Moore, for 29 years, and has been applied at PM CAPITAL since its inception in 1998. The philosophy involves taking a business owner's approach to investing by looking to understand how the business works, management's philosophy in managing the business and those parts of the business that determine its intrinsic value.

PM CAPITAL then asks, "What would a rational business owner pay for the business?" Because in the end, the Manager believes that if a company's intrinsic valuation is not recognised by the stock market, it will eventually be recognised by a business owner.
