AstiVita Annual Report Correction

The Company lodged its audited 2015 annual report with the ASX on 31 August 2015. Subsequent to the lodgement of the annual report the company has identified there is a discrepancy in the allocation of Total Revenue in Note 2 (page 27) of the Annual Report between the revenue categories in that note.

Please note Kitchen Appliances revenue should have been \$971,000 and Bathroom Products \$3,055,000.

The revenue allocation does not in any way affect total revenue or the trading loss for the 2015 financial year.
