IMPORTANT NOTICES

Defined terms used in these important notices have the meaning given in this Retail Offer Booklet. These words and expressions are capitalised and are defined in the Glossary.

NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES.

The Retail Entitlement Offer is being made in Australia pursuant to section 708AA of the Corporations Act (as notionally modified by ASIC Class Order 08/35 and relief obtained from ASIC), which allows entitlement offers to be made without a prospectus. The Retail Entitlement Offer is also being made to Eligible Retail Shareholders with registered addresses in New Zealand in reliance on the Securities Act (Overseas Companies) Exemption Notice 2013 (New Zealand), allowing the Retail Offer Booklet to be prepared in compliance with Australian law and not requiring an investment statement, prospectus or product disclosure statement under New Zealand law.

As a result, this Retail Entitlement Offer is not being made under a prospectus, investment statement or product disclosure statement and it is important for Eligible Retail Shareholders to read carefully and understand this Retail Offer Booklet and the information about Origin and the Retail Entitlement Offer made publicly available, prior to deciding whether to take up all or part of their Entitlement, sell or transfer all or part of their Entitlement or do nothing in respect of their Entitlement. In particular, please refer to the enclosed materials and Announcements, Origin's annual and interim reports and other announcements made available at www.originenergy.com.au or www.asx.com.au (including Origin's annual report for the year ended 30 June 2015) and announcements which may be made by Origin after publication of this Retail Offer Booklet.

This Retail Offer Booklet (other than the Announcements) is dated Wednesday, 7 October 2015.

This information is important and requires your immediate attention. You should read this Retail Offer Booklet carefully in its entirety before deciding whether to invest in New Shares. In particular, you should consider the risk factors outlined in Section 5 of this Retail Offer Booklet.

Status of New Shares

Investments in securities such as New Shares are subject to risks which could affect their performance, including loss of investment and income. Origin does not guarantee the market price of New Shares or any particular rate of return.

Information about the risks of investing in New Shares is detailed in Section 6.4 "Risks associated with participation in the Entitlement Offer".

Future performance and forward-looking statements

This Retail Offer Booklet contains forward looking statements, including statements of current intention, statements of opinion, guidance and predictions as to possible future events. Forward looking statements can generally be identified by the use of words such as "project", "foresee", "plan", "expect", "aim", "intend", "anticipate", "believe", "estimate", "may", "should", "will" or other similar expressions. Such statements are not statements of fact and there can be no assurance or certainty of outcome in relation to the matters to which the statements relate. These forward looking statements involve known and unknown risks, uncertainties, assumptions, contingencies and other important factors that could cause the actual outcomes to be materially different from the future events or results expressed or implied by such statements.

Those risks, uncertainties, assumptions, contingencies and other important factors are not all within the control of Origin and cannot be predicted by Origin and include changes in circumstances or events that may cause objectives to change as well as risks, circumstances and events specific to the industry, countries and markets in which Origin and its related bodies corporate, joint ventures and associated undertakings operate. They also include general economic conditions, exchange rates, interest rates, regulatory environments, competitive pressures, selling price, market demand and conditions in the financial markets which may cause objectives to change or may cause outcomes not to be realised. Investors should refer to the "Key Risks" section of the Origin Investor Presentation for a non-exhaustive list of other factors that could cause actual results or performance to differ materially from any forward looking statements.

None of Origin nor any of its respective subsidiaries, affiliates and associated companies (or any of their respective officers, employees or agents) or any other person (including the underwriter and its affiliates and related bodies corporate and each of their directors, officers, partners, employees, advisers and agents (**Beneficiaries**)) (the **Relevant Persons**) makes any representation, warranty, assurance or guarantee as to the accuracy or completeness of all or part of this Retail Offer Booklet, or any constituent or associated Retail Offer Booklet, information or material, or the accuracy or likelihood of fulfilment of any forward looking statement (or any outcomes expressed or implied in any forward looking statements), forecast, prospect or return contained in or implied by the information in this Retail Offer Booklet or any part of it. The forward looking statements in this Retail Offer Booklet reflect views held only at the date of this Retail Offer Booklet.

IMPORTANT NOTICES

Statements about past performance are not necessarily indicative of future performance.

Except as required by applicable law, regulation or the ASX Listing Rules, the Relevant Persons disclaim any obligation or undertaking to publicly update any forward looking statements, whether as a result of new information or future events or otherwise.

Neither the Underwriter or any of their respective related bodies corporate and affiliates, nor any of their respective directors, officers, partners, employees, representatives or agents have authorised or caused the issue of this Retail Offer Booklet and they do not take any responsibility for this Retail Offer Booklet or any action taken by you on the basis of the information in this Retail Offer Booklet.

Determination of eligibility of investors for the purposes of the Retail Entitlement Offer is determined by reference to a number of matters, including at the discretion of the Underwriter. The Underwriter and the other Beneficiaries disclaim any liability in respect of the exercise or otherwise of that discretion, to the maximum extent permitted by law.

Past performance

Investors should note that any past performance information given in this Retail Offer Booklet is provided for illustrative purposes only and should not be relied upon as, and is not, an indication of future Origin performance, including future share price performance.

United States restrictions

This Retail Offer Booklet, and any accompanying Origin Investor Presentation and ASX announcements and the Entitlement and Acceptance Form, do not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States. Neither this Retail Offer Booklet nor the Entitlement and Acceptance Form may be distributed or released in the United States. Neither the Entitlements nor the New Shares have been, nor will be, registered under the U.S. Securities Act of 1933, as amended (the **U.S. Securities Act**) or the securities laws of any state or other jurisdiction of the United States. Entitlements may not be purchased, traded, taken up or exercised by persons in the United States or by persons who are acting for the account or benefit of a person in the United States. Neither the Entitlements nor the New Shares may be offered, sold or resold in the United States or to persons acting for the account or benefit of a person in the United States except in a transaction exempt from, or not subject to, the registration requirements of the U.S. Securities Act and the applicable securities laws of any state or other jurisdiction in the United States. The Entitlements and the New Shares in the Retail Entitlement Offer will be sold only in 'offshore transactions' (as defined in Rule 902(h) under the U.S. Securities Act) in reliance on Regulation S under the U.S. Securities Act.

Withholding tax

This Retail Offer Booklet refers to the potential payment of a Retail Premium to certain investors. Origin may be required to withhold Australian tax in relation to any Retail Premium that is paid to those investors under applicable laws. References to the payment of the Retail Premium in this Retail Offer Booklet should be read as payments net of any applicable withholding taxes. If you are an Australian tax resident shareholder, and you have not previously provided your Tax File Number (**TFN**) or Australian Business Number (**ABN**) to Origin, you may wish to do so prior to the close of the retail offer described in this Retail Offer Booklet (Retail Entitlement Offer) to ensure that any withholding tax is not deducted from any proceeds payable to you at the current rate of 49 per cent. You are able to provide your TFN or ABN online with the Origin Share Registry at www.investorserve.com.au.

Stamping fees

A stamping fee of 0.75 per cent (including GST) of the amount payable by an Eligible Retail Shareholder in respect of a valid Entitlement and Acceptance Form will be paid to brokers, with the minimum amount per valid Entitlement and Acceptance Form being A\$50 and the maximum amount being A\$250.

The total amount of stamping fees payable by Origin is A\$1.5 million (including GST) (**Stamping Fee Cap**), which amount may be increased by Origin in its absolute discretion. If Origin receives valid Entitlement and Acceptance Forms from Eligible Retail Shareholders which would, in aggregate, require Origin to pay stamping fees in excess of that cap, the amount of the stamping fee payable to brokers by Origin will be adjusted pro rata.

Stamping fees will only be paid by Origin where a Broker Stamping Fee Claim Form and schedule is submitted to the Registry no later than 5.00pm (Sydney time) on Monday, 26 October 2015. The Broker Stamping Fee Claim Form and schedule can be obtained from the offer website at originoffer.boardroomlimited.com.au and selecting 'Broker Forms' from the top menu.

LETTER FROM THE CHAIRMAN

Wednesday, 7 October 2015

Fellow shareholder,

On 30 September 2015, Origin announced a suite of capital initiatives totalling \$4.7 billion to strengthen the Company's balance sheet and maintain headroom for Origin's investment grade credit rating. These initiatives comprise a \$2.5 billion fully underwritten pro rata renounceable entitlement offer ("Entitlement Offer"), \$1 billion planned reduction in capital expenditure and working capital requirements across FY2016 and FY2017, lower dividend payments preserving \$420 million in cash over FY2016 and FY2017 and up to \$800 million in asset sales by FY2017.

The Entitlement Offer comprises an institutional component and a retail component. The institutional component was successfully completed on October 2, raising \$1.35 billion.

I am now pleased to invite you to participate in Entitlement Offer, details of which are outlined in this Retail Offer Booklet. The Entitlement Offer gives shareholders the right to subscribe for four New Shares for each seven existing Origin ordinary shares held on the Record Date of 7.00pm (Sydney time) on 6 October 2015. The offer price is \$4.00 per New Share.

We are in the final stages of funding our share of the APLNG project. The first train of this project is due to commence production in November 2015 with the second train scheduled to commence about six months later. Completion of this project will be a major milestone in the development of Origin.

Shareholders will be aware that since last November oil prices have fallen significantly and are now at the lowest level seen for many years. While the fall in oil prices is not having an overly material impact on the earnings from our existing businesses, the price received for LNG production is linked to oil price and therefore based on the current low oil price, should these conditions persist for some time, we expect the contribution from APLNG to be commensurately reduced.

Given the prospect of lower contributions from APLNG to Origin in the current low oil price environment we have decided to reduce the dividend guidance to 20 cents per share for FY2016 and 2017. We believe these dividends are sustainably supported by the earnings from our existing Energy Markets and Upstream businesses. Should oil prices rise materially above current levels the Board will review the level of dividend payments.

The Origin Board considers it prudent to implement the capital initiatives we have announced and believe they strike an appropriate balance which is in the best interests of all shareholders. The implementation of the full suite of capital initiatives we have announced will reduce the Company's debt level and, when we have completed our share of funding of the APLNG project, the Company's cash flow is expected to be able to meet all planned capital expenditure, interest obligations and dividends without relying on distributions from APLNG.

The Origin Board encourages you to read the Retail Offer Booklet carefully (in particular, the "Key Risks" section of the Origin Investor Presentation which contains a summary of key risks associated with an investment in Origin) and to discuss it with your stockbroker, accountant or other professional adviser. The Booklet contains important information about the Retail Entitlement Offer and Origin's business. Your package also includes details of your Entitlement and Acceptance Form.

Your Entitlement may have value and it is important that you determine whether to take up, sell or do nothing in respect of your Entitlement.

For further information, shareholders can also call the Origin Offer Information Line between 8.15am and 5.30pm (Sydney time), Monday to Friday on:

- 1300 664 446 (within Australia)
- +61 2 8016 2896 (outside Australia).

The Origin Board is pleased to offer this opportunity to you and thank you for your ongoing support of Origin.

Sincerely,

Gordon Cairns
Chairman

Refer to Section 6.1 for further details.

SECTION TWO

SUMMARY OF OPTIONS AVAILABLE TO YOU

2. SUMMARY OF OPTIONS AVAILABLE TO YOU

If you are an Eligible Retail Shareholder (as defined in Section 1), you may take any one, or a combination, of the following actions:

- (a) Take up all or part of your Entitlement; or
- (b) Sell all or part of your Entitlement:
 - (1) on ASX; or
 - (2) by transferring it directly to another person; or
- (c) Do nothing and let all or part of your Entitlement be sold into the Retail Shortfall Bookbuild.

If you are a retail Shareholder who is not an Eligible Retail Shareholder, you are an Ineligible Retail Shareholder. Origin reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder or an Ineligible Retail Shareholder. Ineligible Retail Shareholders will receive the Retail Premium (if any), less any applicable withholding tax, for the sale of Entitlements for their benefit through the Retail Shortfall Bookbuild.

Options available to you	Key considerations
1 Take up all or part of your Entitlement	<ul style="list-style-type: none"> You may elect to purchase New Shares at the Offer Price (see Section 3.5.1 for instructions on how to take up your Entitlement). The New Shares will be fully paid and rank equally in all respects with existing Shares and will be entitled to dividends on the same basis as existing Shares. The Retail Entitlement Offer closes at 5.00pm (Sydney time) on Monday, 26 October 2015. If you only take up part of your Entitlement, you may choose to sell or transfer the balance (see Option 2 below) or you may do nothing and let that part be sold in the Retail Shortfall Bookbuild for your benefit (see Option 3 below). Eligible Retail Shareholders are not able to apply for New Shares in excess of their Entitlement as shown on their personalised Entitlement and Acceptance Form.
2 Sell or transfer all or part of your Entitlement	<ul style="list-style-type: none"> If you do not wish to take up all of your Entitlement, you may be able to sell all or part of your Entitlement on ASX through your broker (see Section 3.5.2) or transfer your Entitlement directly to another person (see Section 3.5.3). Retail Entitlements may be traded on ASX from Tuesday, 6 October 2015 (on a deferred basis) and Tuesday, 13 October 2015 (on a normal basis) to Monday, 19 October 2015 (ASX code: ORGR). Trading is expected to end on Monday, 19 October 2015. You may incur brokerage costs if you sell all or part of your Entitlement through your broker. For Eligible Retail Shareholders who hold their existing Shares on capital account, the proceeds of any sale of your Entitlement should be treated as capital gains for Australian tax purposes (see Section 4.2). If you sell your Entitlement during the Retail Entitlement trading period, you may receive a higher or lower amount than a Shareholder who sells their Entitlement at a different time during the Retail Entitlement trading period or through the Retail Shortfall Bookbuild. Your percentage shareholding in Origin will also be diluted. If you only sell or transfer part of your Entitlement, you may choose to take up the remainder (see Option 1 above) or you may do nothing and let that part be sold in the Retail Shortfall Bookbuild (see Option 3 below).

2. SUMMARY OF OPTIONS AVAILABLE TO YOU

Options available to you	Key considerations
3 Do nothing and let all or part of your Entitlement be sold through the Retail Shortfall Bookbuild	<ul style="list-style-type: none"> • To the extent you do not take up or do not sell all of your Entitlement on ASX (or via direct transfer), your Entitlement will be sold through the Retail Shortfall Bookbuild on Wednesday, 28 October 2015 and you will receive any Retail Premium in respect of these Entitlements (see Section 3.5.4). There is no guarantee that there will be any Retail Premium. • The ATO has stated in Taxation Ruling TR 2012/1 that in certain circumstances retail premiums will be taxed either as unfranked dividends (which may be subject to dividend withholding tax if you are not an Australian resident shareholder) or as ordinary income (and not as capital gains). • Despite the Entitlements being tradeable on the ASX, it is possible the ATO could seek to apply the tax treatment specified in Taxation Ruling TR 2012/1 to Entitlements sold via the Retail Shortfall Bookbuild. • Accordingly, Eligible Retail Shareholders who propose to allow their Entitlements to be sold into the Retail Shortfall Bookbuild should consider instead selling their Entitlements on ASX, the tax treatment for which is more certain (see Section 4.2). • You will not incur brokerage costs on any Retail Premium received from the Retail Shortfall Bookbuild. • By letting your Entitlement be sold through the Retail Shortfall Bookbuild, you will forgo any exposure to increases or decreases in the value of New Shares (or any value for that Entitlement which may have been achieved through its sale on ASX or otherwise). Your percentage shareholding in Origin will also be diluted. • Origin may be required to withhold tax, if you are an Australian tax resident shareholder, and you have not previously provided your TFN or ABN to Origin. Accordingly, you may wish to do so prior to the close of the Retail Entitlement Offer to ensure that withholding tax is not deducted from any Retail Premium at the current rate of 49 per cent. You are able to provide your TFN or ABN to the Origin Share Registry online at www.investorserve.com.au.

SECTION THREE

HOW TO APPLY

3. HOW TO APPLY

3.1 Overview of the Entitlement Offer

Under the Entitlement Offer Eligible Shareholders are being offered the opportunity to purchase 4 New Share for every 7 existing Shares held as at 7.00pm (Sydney time) on Tuesday, 6 October 2015, at the Offer Price of \$4.00 per New Share. The Entitlement Offer is comprised of four components:

- (a) Institutional Entitlement Offer – Eligible Institutional Shareholders were given the opportunity to take up all or part of their Entitlement. Institutional Entitlements were renounceable and were not able to be traded on ASX. Approximately 92 per cent of Eligible Institutional Shareholders took up their Entitlement and this process was completed on Thursday, 1 October 2015.
- (b) Institutional Shortfall Bookbuild – Institutional Entitlements not taken up and Entitlements of Ineligible Institutional Shareholders were sold through a bookbuild process on Friday, 2 October 2015. The premium paid in respect of those Entitlements was announced to ASX by Origin on Tuesday, 6 October 2015. Eligible Institutional Shareholders who elected not to take up all or part of their Institutional Entitlements, and Ineligible Institutional Shareholders, will receive the Institutional Premium for each Entitlement that was not taken up and that was sold into the Institutional Shortfall Bookbuild.
- (c) Retail Entitlement Offer – Eligible Retail Shareholders will be allotted Retail Entitlements under the Retail Entitlement Offer which can be taken up in whole or in part, or traded on ASX (or transferred directly to another person) in whole or in part. This means that if you do not wish to take up all or part of your Entitlement you may sell on ASX, or transfer, all or part of your Entitlement in order to realise value from your Entitlement. You may incur brokerage costs if you sell your Entitlement on ASX.
- (d) Retail Shortfall Bookbuild – Retail Entitlements which are not taken up by the close of the Retail Entitlement Offer and Entitlements of Ineligible Retail Shareholders will be sold through the Retail Shortfall Bookbuild. Any Retail Premium will be remitted proportionally to holders of those Retail Entitlements at the close of the Retail Entitlement Offer, and to Ineligible Retail Shareholders. The Retail Premium, if any, is expected to be paid on or about Monday, 9 November 2015.

You have a number of decisions to make in respect of your Entitlement. These decisions may materially affect the value (if any) that may be received in respect of your Entitlement. You should read this Retail Offer Booklet carefully before making any decisions in relation to your Entitlement.

The Entitlement Offer is underwritten. More information on the management of the Entitlement Offer by the Underwriter is set out in Section 6.15 below.

Further details about the Retail Entitlement Offer and Retail Shortfall Bookbuild are set out below.

Please refer to the Announcements set out in Section 5 for information on the purpose of the Entitlement Offer, the application of the proceeds of the Entitlement Offer and for information on Origin's business, performance and strategy. You should also consider other publicly available information about Origin, including information available at www.asx.com.au and www.originenergy.com.au (including Origin's annual report for the year ended 30 June 2015) and announcements which may be made by Origin after publication of this Retail Offer Booklet.

3.2 The Retail Entitlement Offer

Under the Retail Entitlement Offer, Eligible Retail Shareholders are invited to apply for 4 New Share for every 7 existing Shares held as at the Record Date at the Offer Price of \$4.00 per New Share.

The offer ratio and Offer Price under the Retail Entitlement Offer are the same as for the Institutional Entitlement Offer.

The Retail Entitlement Offer opens at 9.00am (Sydney time) Tuesday, 13 October 2015 and will close at 5.00pm (Sydney time) on Monday, 26 October.

3.3 Your Entitlement

Your Entitlement is set out on the accompanying personalised Entitlement and Acceptance Form and has been calculated as 4 New Share for every 7 existing Shares you held as at the Record Date. If the result is not a whole number, your Entitlement will be rounded up to the nearest whole number of New Shares.

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have a separate Entitlement for each separate holding.

Please note that you can also view details of your Entitlement and Acceptance Form online at originoffer.boardroomlimited.com.au.

New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally in all respects with existing Shares and will be entitled to dividends on the same basis as existing Shares.

See Sections 6.1 and 6.14 for information on restrictions on participation.

3. HOW TO APPLY

3.4 Consider the Retail Entitlement Offer carefully in light of your particular investment objectives and circumstances

The Retail Entitlement Offer is being made pursuant to provisions of the Corporations Act which allow entitlement offers to be made without a prospectus. This Retail Offer Booklet does not contain all of the information which may be required in order to make an informed decision regarding an application for New Shares offered under the Retail Entitlement Offer. As a result, it is important for you to read carefully and understand this Retail Offer Booklet and the information on Origin and the Retail Entitlement Offer made publicly available, prior to deciding whether to take up all or part of your Entitlement, sell or transfer all or part of your Entitlement or do nothing in respect of your Entitlement. In particular, please refer to:

- the enclosed Announcements in Section 5;
- the announcements made available at www.originenergy.com.au or www.asx.com.au (including Origin's annual report for the year ended 30 June 2015); and
- any announcements which may be made by Origin after publication of this Retail Offer Booklet.

Please consult with your financial adviser or other professional adviser if you have any queries or are uncertain about any aspect of the Retail Entitlement Offer. You should also refer to the 'Risks associated with participation in the Entitlement Offer' included in Section 5 of this Retail Offer Booklet.

3.5 Options available to you

If you are an Eligible Retail Shareholder, you may take any of the following actions, or a combination of them. Each of these options may have a materially different outcome on any value you receive in respect of your Entitlement.

- Take up all or part of your Entitlement (see Section 3.5.1);
- Sell all or part of your Entitlement to persons meeting certain eligibility criteria either:
 - on ASX through your broker (see Section 3.5.2); or
 - by transferring it directly to another person (see Section 3.5.3); or
- Do nothing and let your Entitlement be sold through the Retail Shortfall Bookbuild (see Section 3.5.4).

3.5.1 If you wish to take up all or part of your Entitlement

If you wish to take up all or part of your Entitlement, please either:

- (1) complete and return the personalised Entitlement and Acceptance Form with the requisite Application Monies; or
- (2) pay your Application Monies via BPAY by following the instructions set out on the personalised Entitlement and Acceptance Form,

in each case, by no later than 5.00pm (Sydney time) on Monday, 26 October 2015. You should be aware that your financial institution may implement earlier cut off times with regards to electronic payments. You should take this into consideration when making payment.

If you take up and pay for all or part of your Entitlement before the close of the Retail Entitlement Offer, it is expected that you will be issued New Shares on Wednesday, 4 November 2015.

Origin reserves the right (in its absolute discretion) to reduce the number of New Shares issued (or any Retail Premium paid to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders), if Origin believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to Origin's satisfaction (see Section 6.6). Origin's decision on the number of New Shares to be issued to you will be final.

Eligible Retail Shareholders are not able to apply for New Shares in excess of their Entitlement as set out in their personalised Entitlement and Acceptance Form.

3.5.2 If you wish to sell all or part of your Entitlement on ASX

If you wish to sell your Entitlement on ASX, you can do so through your broker (see this Section below).

It is expected that trading of Retail Entitlements on ASX will:

- commence at 10.00am (Sydney time) on Tuesday, 6 October 2015 on a deferred settlement basis until 4.00pm (Sydney time) on Monday, 12 October 2015; and
- resume from 10.00am (Sydney time) on Tuesday, 13 October 2015 until 4.00pm (Sydney time) on Monday, 19 October 2015 on a normal settlement basis.

3. HOW TO APPLY

There is no guarantee that there will be a liquid market in traded Entitlements. A lack of liquidity may impact your ability to sell your Entitlement on ASX and the price you may be able to achieve.

This Retail Offer Booklet, along with your personalised Entitlement and Acceptance Form, will be despatched to you on Monday, 12 October 2015.

Origin and the Underwriter will have no responsibility and disclaim all liability (to the maximum extent permitted by law) to you if you trade your Entitlement before the Retail Entitlements are allotted, or before you receive your personalised Entitlement and Acceptance Form, whether on the basis of confirmation of the allocation provided by Origin or the Origin Share Registry or failure to maintain your updated details on the Origin Share Registry or otherwise.

If you wish to sell part of your Entitlement on ASX and let the balance be sold into the Retail Shortfall Bookbuild, you can only do so through your broker – follow the procedures in this Section below in respect of the part of your Entitlement you wish to sell on ASX, and do nothing in respect of the balance. You will receive the Retail Premium (if any) in respect of those Entitlements sold through the Retail Shortfall Bookbuild.

Prices obtainable for Retail Entitlements may rise and fall over the Retail Entitlement trading period and will depend on many factors including the demand for and supply of Entitlements on ASX and the value of Origin existing Shares relative to the Offer Price. If you sell your Entitlement during the Retail Entitlement trading period, you may receive a higher or lower amount than a shareholder who sells their Entitlements at a different time during the Retail Entitlement trading period or through the Retail Shortfall Bookbuild. Up to date information about the current price of Entitlements on ASX can be obtained from www.asx.com.au (ASX code: ORGR).

If you sell your Entitlement, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up that Entitlement. Your percentage shareholding in Origin will also be diluted.

Sale on ASX through your broker

If you wish to sell all or part of your Entitlement on ASX through your broker, you should instruct your stockbroker and provide details as requested from your personalised Entitlement and Acceptance Form.

Please note that you can also view your Entitlement and Acceptance Form online at originoffer.boardroomlimited.com.au.

Allow sufficient time for your instructions to be carried out by your stockbroker. Please note that you may incur brokerage costs if you choose to sell your Entitlement through your broker.

3.5.3 If you wish to transfer all or part of your Entitlement other than on ASX

For issuer sponsored Eligible Shareholders only, if you wish to transfer all or part of your Entitlement other than on ASX, you must forward a completed Renunciation and Transfer Form to the Registry in relation to the part of your Entitlement that you wish to transfer. If the transferee wishes to take up all or part of the Entitlement transferred to them, they must send their Application Monies together with the Entitlement and Acceptance Form related to the Entitlement transferred to them to the Registry.

You can obtain a Renunciation and Transfer Form online at originoffer.boardroomlimited.com.au. The Renunciation and Transfer Form as well as the transferee's Application Monies and the Entitlement and Acceptance Form related to the Entitlement transferred to them must be received by the Origin Share Registry at the mail delivery address set out in Section 3.9 no later than 5.00pm (Sydney time) on Monday, 26 October 2015.

If the Origin Share Registry receives both a completed Renunciation and Transfer Form and an application for New Shares in respect of the same Entitlement, the transfer will take priority over the application.

If you wish to transfer part of your Entitlement and allow the balance to be sold into the Retail Shortfall Bookbuild, follow the procedures above in respect of the part of your Entitlement you wish to transfer, and do nothing in respect of the balance. You will receive the Retail Premium (if any) in respect of those Entitlements sold through the Retail Shortfall Bookbuild.

If you transfer your Entitlement, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up that Entitlement. Your percentage shareholding in Origin will also be diluted.

You may only transfer your Entitlement in this way to a purchaser whose address is in Australia or New Zealand, who is not in the United States and who is not acting for the account or benefit of a person in the United States. Persons that are in the United States or that are acting for the account or benefit of a person in the United States will not be eligible to purchase, trade, take up or exercise Entitlements. You should inform any transferee of these restrictions.

See Sections 6.1 and 6.14 for more information on restrictions on participation.

3. HOW TO APPLY

3.5.4 If you wish to let your Entitlement be sold through the Retail Shortfall Bookbuild

Any of your Entitlement which you do not take up, sell or transfer will be sold through the Retail Shortfall Bookbuild on Wednesday, 28 October 2015 to eligible institutional investors. You will receive the Retail Premium (if any) in respect of those Entitlements sold through the Retail Shortfall Bookbuild (see Section 3.7).

By allowing your Entitlement to be sold through the Retail Shortfall Bookbuild, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Entitlement (or any value for your Entitlement which may have been achieved through its sale on ASX or otherwise). Your percentage shareholding in Origin will also be diluted.

3.6 Ineligible Retail Shareholders

Ineligible Retail Shareholders will receive the Retail Premium (if any) for Entitlements that have been sold on their behalf into the Retail Shortfall Bookbuild.

3.7 Retail Shortfall Bookbuild

Retail Entitlements which are not taken up by the close of the Retail Entitlement Offer, and Retail Entitlements of Ineligible Retail Shareholders, will be sold through the Retail Shortfall Bookbuild. Any Retail Premium (being any amount paid in respect of those Entitlements sold into the Retail Shortfall Bookbuild) will be remitted proportionally to such shareholders on or about Monday, 9 November 2015, net of any applicable withholding tax.

If you have an Australian bank account and it is recorded on the register on payment date you will receive monies via direct credit.

If you do not hold an Australian bank account or if your Australian bank account is not recorded on the register on payment date you will receive payment via Australian dollar cheque.

The Retail Premium may be zero, in which case no payment will be made to holders of those Entitlements sold into the Retail Shortfall Bookbuild. The outcome of the Institutional Shortfall Bookbuild (including the Institutional Premium) is not an indication as to whether there will be a Retail Premium or what any Retail Premium may be.

The ability to sell Entitlements under the Retail Shortfall Bookbuild and the ability to obtain any Retail Premium will depend on various factors, including market conditions. If there is a Retail Premium, it may be less than, more than, or equal to the Institutional Premium or less than, more than or equal to any price or prices for which Entitlements may be able to be sold on ASX or otherwise transferred. To the maximum extent permitted by law, Origin, the Underwriter, their related bodies corporate, directors and employees disclaim any liability, including for negligence, for any failure to sell Entitlements in the Retail Offer Bookbuild at a price in excess of the Offer Price.

You should note that if you sell or transfer all or part of your Entitlement or allow all or part of your Entitlement to be sold into the Retail Shortfall Bookbuild, then you will forgo any exposure to increases or decreases in the value of New Shares (or any value for that Entitlement which may have been achieved through its sale on ASX or otherwise) and your percentage shareholding in Origin will be diluted by your non-participation in the Retail Entitlement Offer.

3.8 Payment

You can pay in the following ways:

- by BPAY; or
- by cheque.

Cash payments will not be accepted. Receipts for payment will not be issued.

Origin will treat you as applying for as many New Shares as your payment will pay for in full, up to your Entitlement.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

3.8.1 Payment by BPAY

For payment by BPAY, please follow the instructions on the personalised Entitlement and Acceptance Form or online at originoffer.boardroomlimited.com.au. You can only make payment via BPAY if you are the holder of an account with an Australian financial institution that supports BPAY transactions.

If you are paying by BPAY, please make sure you use the specific Biller Code and your unique Customer Reference Number (**CRN**) on your personalised Entitlement and Acceptance Form or accessed online at originoffer.boardroomlimited.com.au.

3. HOW TO APPLY

If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your application will not be recognised as valid.

Please note that if you pay by BPAY:

- you do not need to submit your personalised Entitlement and Acceptance Form but are taken to make the declarations, representations and warranties on that Entitlement and Acceptance Form and in Section 3.10; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies.

It is your responsibility to ensure that your BPAY payment is received by the Origin Share Registry by no later than 5.00pm (Sydney time) on Monday, 26 October 2015. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making your payment.

3.8.2 Payment by cheque

For payment by cheque, you should complete your personalised Entitlement and Acceptance Form in accordance with the instructions on the form and return it accompanied by a cheque in Australian currency for the amount of the Application Monies, payable to 'Origin Retail Offer' and marked 'Not Negotiable'.

Your cheque must be:

- for an amount equal to AS\$4.00 multiplied by the number of New Shares that you are applying for; and
- in Australian currency drawn on an Australian branch of a financial institution. Payment cannot be made in New Zealand dollars. New Zealand resident shareholders must arrange for payment to be made in Australian dollars.

You should ensure that sufficient funds are held in relevant account(s) to cover the Application Monies as your cheque will be processed on the day of receipt. If the amount of your cheque for Application Monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay in full for the number of New Shares you have applied for in your personalised Entitlement and Acceptance Form, you will be taken to have applied for such lower whole number of New Shares as your cleared Application Monies will pay for (and to have specified that number of New Shares on your personalised Entitlement and Acceptance Form). Alternatively, your application will not be accepted.

3.9 Mail delivery

To participate in the Retail Entitlement Offer, your payment must be received no later than the close of the Retail Entitlement Offer, being 5.00pm (Sydney time) on Monday, 26 October 2015. If you make payment via cheque, you should mail your completed personalised Entitlement and Acceptance Form together with Application Monies to:

Neither the Entitlements nor the New Shares may be offered, sold or resold, either directly or indirectly, to persons in the United States or to persons acting for the account or benefit of a person in the United States, except in a transaction exempt from, or not subject to, the registration requirements of the U.S. Securities Act and the applicable securities laws of any state or other jurisdiction in the United States;

3. HOW TO APPLY

- if you are acting as a nominee or custodian, each beneficial holder on whose behalf you are submitting the Entitlement and Acceptance Form is resident in Australia or New Zealand and is not in the United States and is not acting for the account or benefit of a person in the United States, and you have not sent this Retail Offer Booklet, including the Origin Investor Presentation, the ASX Announcements and the Entitlement and Acceptance Form or any information relating to the Retail Entitlement Offer to any such person; and
- you agree that if in the future you decide to sell or otherwise transfer the New Shares, you will only do so in transactions where neither you nor any person acting on your behalf knows, or has reason to know, that the sale has been pre-arranged with, or that the purchaser is, a person in the United States or who is acting for the account or benefit of a person in the United States.

3.11 Representations by acquirers of Retail Entitlements

Investors who acquire Retail Entitlements on ASX or otherwise will, by acquiring those Retail Entitlements, and by applying to take up all or part of those Retail Entitlements, be deemed to agree to make and be subject to the representations, declarations, warranties and agreements in Section 3.10 above (with references to the personalised Entitlement and Acceptance Form to be read as including any other form provided or required to be provided to Origin, the Origin Share Registry or the person's stockbroker).

The Retail Entitlements may not be purchased, traded, taken up or exercised by persons in the United States or by persons who are acting for the account or benefit of persons in the United States.

Investors should note that if you purchase Retail Entitlements in a transaction on ASX or otherwise, in order to take up or exercise those Entitlements and subscribe for New Shares you:

- must be an Eligible Retail Shareholder (as defined in Section 6.1), a resident in Australia or New Zealand, or otherwise qualify as an 'Eligible Person'²; and
- must not be in the United States or acting for the account or benefit of a person in the United States.

If you do not satisfy the above conditions, you will not be entitled to take up Retail Entitlements or subscribe for New Shares.

It is the responsibility of purchasers of Entitlements to inform themselves of the eligibility criteria for exercise. If holders of Entitlements after the end of the trading period do not meet the eligibility criteria, they will not be able to exercise the Entitlements. In the event that holders are not able to take up their Entitlements, those Entitlements will be sold into the Retail Shortfall Bookbuild and holders may or may not receive any value for them.

SECTION FOUR

AUSTRALIAN TAXATION CONSIDERATIONS

4. AUSTRALIAN TAXATION CONSIDERATIONS

This section is a general summary of the Australian income tax, goods and services tax (**GST**) and stamp duty implications of the Retail Entitlement Offer for certain Eligible Retail Shareholders.

The taxation implications of the Retail Entitlement Offer will vary depending upon your particular circumstances. Accordingly, you should seek and rely upon the professional advice of your own taxation or financial adviser before determining the particular taxation treatment that will apply to you.

Neither Origin nor any of its officers, employees, or agents, nor its taxation and other advisers, accepts any liability or responsibility in respect of any statement concerning taxation consequences, or in respect of the taxation consequences.

The comments in this section deal only with the Australian taxation implications of the Retail Entitlement Offer if you:

- are a resident of Australia for Australian income tax purposes;
- acquired (or are taken to have acquired) your existing Shares on or after 20 September 1985; and
- hold your existing Shares on capital account.

The comments do not apply to you if you:

- are not a resident of Australia for Australian income tax purposes; or
- acquired (or are taken to have acquired) your existing Shares before 20 September 1985; or
- hold your existing Shares as revenue assets or trading stock (which will generally be the case if you carry on a business of share trading or dealing in securities); or
- acquired the existing Shares in respect of which the Retail Entitlements are issued under any employee share scheme or where the New Shares are acquired pursuant to any employee share scheme; or
- acquired Retail Entitlements otherwise than under the Retail Entitlement Offer (e.g. where the Retail Entitlements are acquired on ASX); and/or
- are subject to the “taxation of financial arrangements” provisions in relation to your holding of existing Shares, New Shares or Entitlements.

This taxation summary is necessarily general in nature and is based on the Australian tax legislation and administrative practice in force as at the date of this Retail Offer Booklet. It does not take into account any financial objectives, tax positions, or investment needs of Eligible Retail Shareholders. It is strongly recommended that each Eligible Retail Shareholder seek their own independent professional tax advice applicable to their particular circumstances.

4.1 Issue of Entitlements

The issue of the Entitlements should not, of itself, result in any amount being included in your assessable income.

4.2 Sale of Entitlements

If you sell your Entitlement on ASX or otherwise, you should derive a capital gain for capital gains tax (**CGT**) purposes equal to the sale proceeds less certain non-deductible incidental costs of disposal.

Individuals, complying superannuation entities or trustees that have held their existing Shares for at least 12 months prior to the date of sale of their Entitlements should be entitled to discount the amount of a capital gain resulting from the sale of the Entitlements (after the application of any current year or carry forward capital losses). The amount of this discount is 50 per cent for individuals and trustees and 33⅓ per cent for complying superannuation entities. This is referred to as the ‘**CGT discount**’. The CGT discount is not available for companies that are not trustees. Trustees should seek specific tax advice regarding the tax consequences arising to beneficiaries because of discount capital gains.

4.3 Entitlements sold into the Retail Shortfall Bookbuild

Any Entitlements not taken up by you will be sold into the Retail Shortfall Bookbuild and any Retail Premium you receive in respect of the Entitlements will be remitted as a cash payment to you (after deducting applicable withholding tax).

The Commissioner of Taxation has released Taxation Ruling TR 2012/1 ‘Retail Premiums paid to shareholders where share entitlements are not taken up or are not available’ where the Commissioner ruled that certain retail premiums are assessable as either an unfranked dividend or as ordinary income, and not as a capital gain. However, TR 2012/1 states that it does not apply to share entitlements which are assignable by, tradeable by, or given to a nominee for disposal on behalf of, shareholders entitled to them.

As previously noted, the Retail Entitlements issued by Origin are tradeable by Eligible Retail Shareholders on ASX. In addition, Entitlements which are not taken up by Eligible Retail Shareholders will be sold on their behalf via the Retail Shortfall Bookbuild.

4. AUSTRALIAN TAXATION CONSIDERATIONS

Having regard to the manner in which the Retail Shortfall Bookbuild is to be conducted, Origin's taxation adviser considers that any Retail Premium received by Eligible Retail Shareholders should be treated as capital proceeds. Accordingly, in the view of Origin's taxation adviser:

- Eligible Retail Shareholders whose Entitlements are sold into the Retail Shortfall Bookbuild should derive a capital gain for CGT purposes equal to the amount of any Retail Premium received; and
- Australian tax resident Eligible Retail Shareholders who are individuals, complying superannuation entities or trustees that have held their existing Shares for at least 12 months prior to the date of sale of their Entitlements, should be entitled to the CGT discount (see Section 4.2 above) in respect of any capital gain resulting from the sale of the Entitlements into the Retail Shortfall Bookbuild (after the application of any current year or carry forward capital losses).

However, the Commissioner has not issued any public ruling or other guidance specific to the tax treatment of Retail Premiums received in the particular circumstances of the Retail Shortfall Bookbuild. Eligible Retail Shareholders need to be aware that the Commissioner may seek to apply the tax treatment specified in TR 2012/1 to Entitlements sold via the Retail Shortfall Bookbuild and treat the Retail Premium as assessable either as an unfranked dividend or as ordinary income and not as a capital gain. Eligible Retail Shareholders who are considering allowing their Entitlements to be sold into the Retail Shortfall Bookbuild should consider instead selling their Entitlements on ASX, the tax treatment for which is more certain (refer to Section 4.2 above).

Given the uncertainty surrounding the tax treatment of Retail Premiums, Origin recommends that you seek your own tax advice if you propose to allow your Entitlements to be sold into the Retail Shortfall Bookbuild.

If you are an Australian tax resident Shareholder, and you have not previously provided your TFN or ABN to Origin, you may wish to do so prior to the close of the Retail Entitlement Offer to ensure that withholding tax is not deducted from any Retail Premium payable to you at the rate of 49 per cent. You are able to provide your TFN or ABN online with the Origin Share Registry at www.investorserve.com.au. When providing your details online, you will be required to enter your SRN or HIN as shown on your issuer sponsored/CHESS statements and other personal details such as your postcode.

4.4 Exercise of Entitlements

The exercise (i.e. taking up) of your Entitlements should not, of itself, result in any amount being included in your assessable income.

If you take up all or part of your Entitlement, you will acquire New Shares with a cost base for CGT purposes equal to the Offer Price payable by you for those New Shares plus certain non-deductible incidental costs you incur in acquiring them.

New Shares will be taken to have been acquired on the day you exercise the Entitlements.

4.5 Dividends on New Shares as a result of Entitlements taken up

Any future dividends or other distributions made in respect of New Shares acquired as a result of taking up your Entitlements will be subject to the same income taxation treatment as dividends or other distributions made on existing Shares held in the same circumstances.

4.6 Disposal of New Shares

The disposal of a New Share will constitute a disposal for CGT purposes.

On disposal of a New Share, you will make a capital gain if the capital proceeds on disposal exceed the total cost base of the New Share. You will make a capital loss if the capital proceeds are less than the total reduced cost base of the New Share. The cost base of New Shares is described above in Section 4.4.

Individuals, trustees or complying superannuation entities that have held New Shares for 12 months or more at the time of disposal should be entitled to apply the applicable CGT discount factor to reduce the capital gain (after offsetting capital losses). The CGT discount factor is 50 per cent for individuals and trustees and 33½ per cent for complying superannuation entities.

New Shares will be treated for the purposes of the CGT discount as having been acquired when you exercise your Entitlement. Accordingly, in order to be eligible for the CGT discount, the New Shares must be held for at least 12 months after the date that you exercised your Entitlement.

If you make a capital loss, you can only use that loss to offset other capital gains from other sources; i.e. the capital loss cannot be used against taxable income on revenue account. However, if the capital loss cannot be used in a particular income year, it can be carried forward to use in future income years, providing certain tests are satisfied.

4.7 Other Australian taxes

No GST or stamp duty will be payable by you in respect of the issue, sale or taking up of Entitlements or the acquisition of New Shares.

3. Outlook

15

FY2016 is a transformational year for Origin as APLNG commences production

FY2016 Underlying EBITDA (excluding LNG Underlying EBITDA) expected to be \$1.45 - \$1.55 billion ¹

- Energy Markets contribution expected to be in line with the strong earnings achieved in FY2015 based on
 - Increasing gas sales to LNG projects expected to offset reduction in benefits from ramp gas
 - Retail competition expected to continue
 - Operating cost reduction in Electricity & Natural Gas
 - Increased costs associated with expanding new solar and energy services
- Lower contribution expected from Exploration & Production based on
 - Lower production due to scheduled maintenance shutdowns at Otway and Kupe and field decline at Otway
 - Lower oil price as oil and condensate revenues reflect the fixed price of US\$62.40/bbl² compared to US\$91/bbl in FY2015
 - Write off for exploration in Vietnam of \$53 million
- Early benefits from cost reduction program expected to partially offset higher corporate costs as previously guided. Restructuring costs associated with cost reduction program expected to be excluded from Underlying EBITDA
- 6 weeks contribution from Contact up to date of sale

Refer to the 'Key Risks' section 7 and the 'Appendix-- Forward Looking Assumptions

(1) Based on forward oil price of US\$54/bbl and AUD/USD \$0.73

5. ASX ANNOUNCEMENTS

Origin Investor Presentation dated Wednesday, 30 September 2015

FY2016 is a transformational year for Origin as APLNG commences production

APLNG is on track to deliver first cargo from Train 1 in November and Train 2 approximately 6 months later

- Origin reaffirms that earnings from LNG sales expected to commence in H2 FY2016 following the Bechtel Performance Date (BPD) for Train 1
- Consistent with previous guidance it is expected that the BPD for Train 1 will be met in Q3 FY2016 however this depends on factors outside of Origin's control
- Based on this, Origin expects¹
 - LNG Underlying EBITDA to be \$110–230 million reflecting minimal revenue from the sale of gas to QGC and disproportionate recognition of LNG operating expenses compared to revenue
 - LNG Depreciation & Amortisation expected to be \$230–340 million and includes amortisation of future downhole capital expenditure
 - LNG net financing cost (including MRCPS interest expense) expected to be \$60–\$170 million
 - Origin's Underlying net financing costs relating to funding of APLNG² (previously outside of Underlying net financing costs) expected to be \$30–60 million
- These factors could result in a negative contribution to Underlying NPAT from LNG in FY2016 of \$170–220 million

Refer to the 'Key Risks' section 7 and the 'Appendix– Forward Looking Assumptions

- (1) Based on forward oil price of US\$54/bbl and AUD/USD \$0.73
(2) Including MRCPS interest income

17

FY2017 is expected to provide a step change in earnings

FY2017 Underlying EBITDA (excluding LNG Underlying EBITDA) expected to be \$1.9 - \$2.1 billion¹

- Strong growth expected in Energy Markets based on
 - Full year of sales to GLNG under long term contracts
 - Electricity margin expansion in NSW
- Strong growth expected in Exploration & Production based on
 - Increased production as Halladale and Speculant come online (expected in early FY2017) and no material scheduled shutdowns
- Full year of expected functional cost savings

LNG Underlying EBITDA expected to be \$1.2 – 1.3 billion¹

- Both LNG trains on line
- LNG sales volumes recognised in earnings expected to be around 85% of designed nameplate capacity of 9 mtpa due to Train 2 ramp up and scheduled shutdowns

Depreciation & Amortisation

- Depreciation & Amortisation of existing business to increase by \$100–150 million with increased E&P production
- LNG Depreciation & Amortisation expected to be \$650–750 million and includes amortisation of future downhole capital expenditure

Refer to the 'Key Risks' section 7 and the 'Appendix– Forward Looking Assumptions

- 18 (1) Based on forward oil price of US\$59/bbl and AUD/USD \$0.73

INTEGRATED GAS

APLNG's reserves position is more than sufficient to support domestic and LNG contracts, with further resource upside in low permeability areas

Production and pipeline capacity beyond contracted LNG and domestic sales, providing a significant opportunity for increased sales to domestic and export markets

(1) Refer to the Important Notices section for more information on reserves and resources.

(2) Represents tail gas for two trains, volume will vary depending on operational strategy

(3) Refer to SPE PRMS 2007 for classification and categorization guidelines for reserves and contingent resource estimates. Drilling results and evaluation methodology have resulted in reduction to the 3C contingent resource estimates reported in June 2012.

25

INTEGRATED GAS

APLNG is expected to have an operating breakeven of approximately \$US24/bbl and distribution breakeven at approximately A\$55/bbl oil on average during steady state operations from FY2017

Cash cost (targeted average steady state FY17-23)	A\$	A\$/boe ¹	US\$/boe ²
Operating expenses (upstream & downstream)	\$1.5b	\$22	
Capital expenditure	\$1.2 - \$1.4b	\$17-\$20	
Capital expenditure – E&A	\$100m	\$1	
Less: Domestic revenue	(\$400m)	(\$7)	
Operating breakeven	\$2.8 – \$3b	\$33 - \$36	\$23 - \$25
Project finance interest	\$450m	\$7	
Project finance principal	\$1b	\$14	
Distribution breakeven	\$3.8 - \$4.0b	\$54 - \$57	\$38 - \$42

Every A\$10/bbl movement in oil results in approximately A\$200m change in free cash flow available for distribution from APLNG to Origin

- APLNG has implemented initiatives to deliver \$720 million in recurring annual savings in upstream, and is expected to achieve \$1 billion by December 2015
- Cash distributions received in FY2017 from APLNG are expected to be less than those expected in subsequent years. This is due to initial timing of half yearly distributions resulting in the last 3 months of FY2017 cash flow distributed in the following year, and the requirement to fund the project finance reserve account in FY2017
- At low oil prices, distribution from the downstream project may be restricted if certain project finance metrics are not satisfied

(1) Based on LNG sales volumes converted to barrels of oil equivalent with adjustment for slope of contracts

(2) Converted at an average AUD/USD \$0.70

(3) It is not expected that tax will be payable at A\$55/bbl oil over this period

Key Risks

An investment in Origin has risk attached to it and neither Origin nor its Directors, management and any related entities, nor any party associated with the preparation of this Presentation, is able to guarantee that any specific objectives of Origin or any particular performance of shares will be achieved.

Prior to making an investment decision, investors should read this entire document and carefully consider all risk factors. Investors should have regard to their own investment objectives and financial circumstances and should seek appropriate professional advice before deciding whether to invest.

Origin's business activities and investments (present and future), are subject to risk factors, both specific to its business activities and investments (present and future) and of a general nature. Many of these risk factors are outside the control of Origin and while management implements risk strategies not all risks can be fully mitigated. These risks include, but are not limited to, the risks set out in this document, all of which (individually or in combination) might lead to a material variation in the performance of the business and may adversely affect the future operating and financial performance of Origin and the value of its shares.

Commodity Prices

Oil prices - Origin has a material long term exposure to the international oil price via the sale of gas and LNG where the sale price is linked to the international oil price. This exposure arises both through Origin's shareholding in Australia Pacific LNG and from Origin's sales of gas or crude oil and LPG. The international oil price is subject to volatile price movements which are difficult to predict and downward price movements can have a material adverse impact on Origin's cash flow, financial performance and recoverable reserve base. For more factors that can have an impact on reserves, see also the "Oil and Gas Reserves" risk below.

Wholesale Electricity Prices - Origin procures electricity supply from Australian wholesale electricity markets for on-sale to customers. Wholesale electricity prices are volatile and influenced by many factors that are difficult to predict, such as supply and demand balancing. Unexpected movements in wholesale prices can result from a range of factors including operating constraints at Origin's owned and operated power stations. Unexpected movements, which are not mitigated through hedging arrangements, could result in material adverse impacts on Origin's financial performance.

Other Commodity prices - Origin is exposed to commodity price fluctuations in respect of coal and gas purchases for electricity generation and gas, renewable energy and LPG for on-sale to customers. If the cost of purchasing coal, gas, renewable energy or LPG is higher than expected this could have an adverse impact on Origin's margins to the extent it is unable to pass on the additional costs to customers. In addition, using higher priced gas or coal could limit Origin's ability to competitively operate its power stations and to hedge its exposure to wholesale electricity prices and Origin would need to arrange alternate hedging arrangements which may be on less favourable terms. Unexpected movements in commodity prices could result in material adverse impacts on Origin's financial performance.

Origin Investor Presentation dated Wednesday, 30 September 2015

Key Risks (cont.)

Project delivery and reserves

Project delivery - Origin undertakes investments in a variety of major projects including gas, oil, electricity generation and operational systems. There is a risk that major projects, including Australia Pacific LNG's CSG-to-LNG project in Queensland, could be subject to events outside of Origin's control, such as weather events, natural disasters or regulatory intervention or other factors within or not within Origin's control which could result in projects costing more than intended or not proceeding as planned, including start up or completion of the project being delayed, which could adversely impact the Company's future financial performance. There is also a risk of exposure to cost increases in non-operated joint ventures in which Origin (or Australia Pacific LNG) has an interest but does not control.

Oil and gas reserves - There are numerous uncertainties inherent in exploring for new oil and gas reserves including estimating oil and gas reserves and factors beyond Origin's control.

Origin is involved in oil and gas exploration and there is no assurance that resources will be discovered through these activities or that any particular undeveloped reserves will proceed to development or will be ultimately recovered. This risk could adversely impact Origin's future financial prospects.

Reserves classification is the attempt to define the degree of uncertainty involved in estimating oil and gas reserves. There is a risk that actual production may vary from reserves predicted and any material variances could have an adverse impact on Origin's future financial prospects and ability to supply fuel to its generation portfolio and to customers.

Competition and energy demand

Competition in energy markets - In the competitive Australian energy retailing markets, electricity, gas and LPG customers are able to change providers which, in turn, can affect Origin's future financial performance. High levels of competition can result in downward pressure on margins, customer account losses and higher costs of acquiring and maintaining customers, which can adversely impact future financial performance. There are many power generators in Australia which compete for generation capacity and sources of fuel, and that activity impacts the cost of energy supply. Further, there is a risk that the future development of competing generation technologies will displace Origin's existing generation assets. These industry changes, including the competitive demand and supply balance for energy, may result in Origin's portfolio becoming uncompetitive in the market.

Competition for sale and purchase of gas in eastern Australia - The potential discovery or commissioning of significant new gas resources in eastern Australia could have a significant impact on the gas supply and demand dynamics in eastern Australia. This could result in changes in gas prices and therefore Origin's future revenues and purchase costs. In addition, the LNG production on Curtis Island in Queensland will compete with domestic demand for gas. Changes in the demand and supply of gas in eastern Australia could result in material changes to the gas price, which could result in adverse impacts on Origin's financial performance.

35

Key Risks (cont.)

Demand for energy - The volume of electricity, gas and LPG the Company sells is dependent on our customers' energy usage. Reductions in energy demand from price changes, consumer perception of energy affordability, operational closures across energy intensive industries, technological advancement, mandatory energy efficiency schemes, weather and other factors, can reduce Origin's revenues and adversely affect Origin's future financial performance.

Operational

Health, safety and security - The complexity, scale and geography of Origin's operations give rise to a range of health, safety and security risks potentially affecting our employees and contractors, including travel to and from our operations. Unintended harm to our employees and contractors may adversely impact the Company.

Production - Origin is involved in large scale operating activities including oil and gas projects, power generation, LPG facilities and, through Australia Pacific LNG, construction and operation of CSG to LNG wells, facilities and infrastructure. There is a risk that our operating equipment and facilities may not operate as intended and suffer outages or significant damage. This includes interruptions to any fuel supply required to operate the assets including gas, water and power in addition to subsurface reservoir underperformance which may negatively impact production. In addition, any failure or unavailability of third party infrastructure or providers including, in particular, transmission, distribution and pipeline infrastructure, could materially and adversely affect the ability of Origin to conduct business and production operations.

Technological developments - The energy industry is the subject of considerable research and development in respect of electricity generation technologies, delivery of energy and electricity to homes and businesses, and management of energy usage throughout buildings and industrial sites and development of new business models utilising new technology. There is a risk that technological developments may result in Origin's existing assets becoming redundant or may result in Origin incurring substantial customer losses. This could reduce the value of Origin's assets, earnings and cash flows.

Counterparty and Customers – performance and collections - Origin and Australia Pacific LNG supply a large base of customers including residential and commercial and industrial customers. Some of these customers, for example LNG purchasers, purchase significant volumes. Failure by such a counterparty to perform under their contract in accordance with its terms may cause delay or reduction in earnings to Origin and, which in the case of significant counterparties, may not be able to be replaced or replaced on similar terms. If any of these events occur, or Origin is unable to effectively bill and or collect outstanding debt from customers, it could have an adverse impact on Origin's future financial prospects.

Process safety - Origin's production assets, including onshore and offshore wells, platforms, drilling facilities, onshore gas processing plants, pipelines and power stations, are exposed to process safety and other containment loss risks. Unintended losses of containment in our assets, or those in which we have a non-operated interest may adversely impact the Company.

5. ASX ANNOUNCEMENTS

Origin Investor Presentation dated Wednesday, 30 September 2015

Key Risks (cont.)

Joint venture relations - Origin's joint venture partners may have economic or other business interests or goals that are inconsistent with Origin's and may take actions contrary to the objectives or interests of Origin. There is also the risk that joint venture partners may become bankrupt, default on or fail to fulfil their obligations as required or expected thereby impacting the performance of the joint venture and adversely affecting Origin or its interests in the joint venture.

Supply chain - In Origin's projects and operations, there is a risk that goods or services may not be delivered or supplied to contracted price, time or quality specifications or in accordance with Origin's anti-bribery and corruption or health, safety and environmental requirements. Inadequate supply chain performance both internally and externally may adversely impact the Company achieving its financial prospects.

Cyber security - A cyber security incident could lead to a breach of privacy, disruption of critical business processes or theft of commercially sensitive information. Such events could have an adverse impact on Origin's profitability or financial position.

People and culture - There is a finite availability of skilled labour with expertise in some of the market sectors in which Origin operates, and certain of its operations may be reliant on small groups of individuals with specialist knowledge. The ability to attract and retain such personnel may impede Origin's ability to undertake its activities efficiently and effectively. Origin is also exposed to the risk that industrial disputes may arise (for example, in relation to claims for higher wages or better conditions) which might disrupt some of Origin's business.

Insurance - In accordance with customary industry practices, Origin maintains insurance coverage limiting financial loss resulting from certain of these operating hazards. Origin performs a cost/benefit analysis when determining its insurance coverage, as not all risks inherent to the operations can be insured economically or at all. Losses and liabilities arising from uninsured or underinsured events could reduce Origin's revenues or increase costs.

Liquidity, Financial Market, Dividends and Credit

Access to Capital Markets - To meet its financial obligations, Origin is required to maintain sufficient cash and available funding through an adequate amount of committed credit facilities. Due to the dynamic nature of its business, Origin aims to maintain flexibility in funding by keeping committed credit lines available and ensuring that it has liquidity buffers in accordance with Board approved limits. Whilst Origin considers that it currently has sufficient secured liquidity, if it fails to appropriately manage its liquidity position in the future, or if markets are not available generally, or not available to it (or any entity in which Origin holds an interest, such as Australia Pacific LNG) at the time of any financing or refinancing that it (or such entity) requires, there is a risk that Origin's credit ratings, business and prospects, and financial flexibility will be adversely affected.

Financial Market - Origin is exposed to foreign exchange rate fluctuations directly and through its interest in Australia Pacific LNG. These include the Australian dollar value of foreign currency denominated assets and liabilities, revenues, dividends received and expenses including interest expense. Interest rate risk rises in respect of the Company's long term borrowings could adversely impact Origin's financial prospects.

37

Key Risks (cont.)

Australia Pacific LNG project finance facility - Australia Pacific LNG has a US\$8.5 billion project finance facility fully drawn and utilised to fund the downstream parts of the project. Each shareholder has provided a several guarantee of its shareholding percentage of the debt during the project construction phase. Those guarantees terminate upon completion of the construction phase of the project provided customary completion tests have been achieved by specified dates. A delay in doing so will mean the Company's guarantee remains in place longer, which would be detrimental to the Company's credit metrics. Additionally, if the completion test for Train 1 is not met by Q3 FY2017, an event of default will occur under the facility which could require Australia Pacific LNG to repay all of the project finance facility. Failure to meet the Train 2 completion tests by Q2 FY2018 could require Australia Pacific LNG to repay that amount of the project finance facility relating to Train 2 (maximum US\$3.4 billion). If Origin was called by Australia Pacific LNG to contribute its shareholding percentage of the project finance debt this would have an adverse impact on the Company's credit rating and liquidity position.

The project finance facility contains restrictions on Australia Pacific LNG making distributions to shareholders from the downstream project if specified financial metrics are not satisfied. There is a risk that these restrictions could apply in the future, which would reduce the level of distributions that the downstream project is permitted to make to the parent company of Australia Pacific LNG, which in turn would reduce the level of distributions that Australia Pacific LNG is able to make to shareholders including Origin, and consequently could adversely impact on Origin's financial prospects.

Risk of Dividends Not Being Paid - The payment of dividends by Origin is announced at the time of release of Origin's half year and full year results as determined by the Board from time to time at its discretion, dependent on the profitability and cash flow of Origin's business. While Origin has a stated dividend policy, circumstances may arise where Origin is required or decides to reduce or cease paying dividends for a period of time.

Credit - Origin is subject to the risk that some counterparties may fail to fulfil their obligations under major hedge and sales contracts, including making payments as they fall due, and such defaults could adversely impact Origin's financial prospects.

Regulatory, tax and legal

Reversion - The CSG interests that Australia Pacific LNG acquired from the Tri-Star Group in 2002 are subject to reversionary rights. If triggered, these rights would require Australia Pacific LNG to transfer back to Tri-Star a 45% interest in those CSG interests for no consideration. The reversion trigger is calculated in accordance with a formula. It would occur when Australia Pacific LNG has fully recovered from its revenue derived from the reversionary tenements, its capital and operating expenditure plus an uplift factor, together with the acquisition price and government and vendor royalties for all of the reversionary tenements. If reversion is triggered, it would do so simultaneously for all of the reversionary tenements.

Approximately 22% of Australia Pacific LNG's 3P CSG reserves as of 30 June 2015 are subject to these reversionary rights. If reversion occurs, the reserves and resources that are subject to reversion may not be available for Australia Pacific LNG to sell or use after the date of reversion.

5. ASX ANNOUNCEMENTS

Origin Investor Presentation dated Wednesday, 30 September 2015

Key Risks (cont.)

Tri-Star Claim – On 24 October 2014, Tri-Star filed proceedings against Australia Pacific LNG (the “Tri-Star Claim”) claiming that reversion has occurred. Tri-Star alleges that the subscription amounts received by Australia Pacific LNG from ConocoPhillips in 2008 and Sinopec in 2012, any amounts Australia Pacific LNG will receive from LNG sales contracts and domestic gas sales contracts constitute “revenue” for purposes of the reversion trigger. Tri-Star also disputes Australia Pacific LNG’s treatment of other elements of the reversion formula. The relief which Tri-Star is ultimately seeking is not clear, but if the Tri-Star Claim is successful, Tri-Star may be entitled to an order that reversion has occurred as early as 1 November 2008.

While the Tri-Star Claim was filed in October 2014, it has not yet been served on Australia Pacific LNG and hence there is currently no active litigation for Australia Pacific LNG to respond to. Since the filing there has been no interaction between Australia Pacific LNG and Tri-star in relation to the Tri-Star Claim. Australia Pacific LNG disagrees with all claims in the Tri-Star Claim and intends to defend it, if brought. It is possible that Tri-Star may bring an amended claim or take other action.

There is no guarantee that Australia Pacific LNG will prevail in defending the Tri-Star Claim or any other dispute between it and Tri-Star, including future disputes. Failure to succeed in any of these disputes may mean that reserves that are subject to reversion may not be available for Australia Pacific LNG to sell or use after the date of reversion, that Australia Pacific LNG incurred costs which are not recovered and that Australia Pacific LNG may need to bring forward other well developments to meet sales commitments. There may be a circumstance where these events have a material adverse impact on the financial performance of Australia Pacific LNG and therefore significantly affect the amount and timing of cash flows from Australia Pacific LNG to its shareholders (including Origin).

Acts and regulations - Origin operates in highly regulated environments, both domestic and international and is exposed to the risk of changes in regulations or its own failure to meet regulatory requirements. Origin’s business, in particular Energy Markets, includes regulated electricity and gas retailer operations and is subject to a wide range of regulations such as dealing with customers, tariff setting in some States, participation in energy trading markets and competition. Origin’s assets are governed by a range of regulations, both during construction and once operational, including environmental, industrial relations, health and safety, gas and electricity markets and competition. Origin is exposed to the risk of changes in government policy, and changes in the interpretation and enforcement of policy, for example climate and renewable policy. Further, retail tariffs set by regulators in regulated markets may not reflect Origin’s underlying costs, which could cause deterioration in profit margins. Failure to respond to changes in or meet regulatory requirements may result in a loss or constraint to Origin’s licence to operate and its inability to achieve its future financial prospects.

39

Key Risks (cont.)

In Australia Origin is required to comply with a range of regulations intended to reduce carbon emissions and increase the proportion of renewable electricity generation. There is a cost of complying with these regulations which may increase if these regulations are amended and new legislation is introduced by government.

In general, the costs of complying with climate change regulations including the Renewable Energy Target are recovered from customers. However, there is a risk that costs associated with climate change regulation will impact profitability to the extent that Origin is unable to pass them on to customers, and may impact the commercial viability and value of its existing generation interests and existing and proposed oil and gas reserves and production facilities (including the development of Australia Pacific LNG). Over time, the costs associated with climate change regulation may also reduce the competitiveness of some generation assets relative to other generation technologies, and, similarly, may reduce the competitiveness of Australia Pacific LNG relative to competing LNG suppliers outside Australia.

The Australian Government has authorised the Australian Competition and Consumer Commission to inquire into the operation of the east coast gas market in Australia. That inquiry is due to report to the Government in April 2016. There is a risk that, in response to that report, there are changes made to the operating environment for the Company which are adverse to its interests.

Tax liabilities - Origin is exposed to risks arising from the manner in which the Australian and international tax regimes may be amended, applied, interpreted and enforced. Any actual or alleged failure to comply with, or any change in the interpretation, application or enforcement of, applicable tax laws and regulations could significantly increase Origin’s tax liability and expose Origin to legal, regulatory and other actions that could adversely affect Origin’s financial performance and prospects.

There is also a risk that the Australian federal government or, where relevant, state or territory governments, or foreign governments, will alter (or will alter the interpretation or enforcement of) tax or royalty regimes that apply to Origin, Australia Pacific LNG, or to other entities in which it holds an investment, thereby adversely impacting Origin’s financial position.

Australia Pacific LNG is required to pay royalties on its production to the Queensland government. A determination of the pricing mechanism in respect of the calculation of royalty payments to the Queensland government has been requested from the Queensland authorities. At the date of this Offer document, no determination has been forthcoming. The outcome of this determination could have an adverse impact on the profitability of the project and thus on Origin’s financial performance.

Litigation and dispute resolution - The nature of Origin’s business means that it has been, currently is and from time to time is likely to be involved in litigation, regulatory actions or similar dispute resolution processes arising from a wide range of possible matters. Origin may also be involved in investigations, inquiries, audits, disputes or claims. Any of these could result in delays, increase costs or otherwise adversely impact Origin’s assets and operations, and adversely impact Origin’s financial performance and future financial prospects. See also the “Tri-Star Claim” risk above.

5. ASX ANNOUNCEMENTS

Origin Investor Presentation dated Wednesday, 30 September 2015

Key Risks (cont.)

Environmental and Social

Environment - The complexity, scale and geography of Origin's projects and operations, including gas and oil exploration and production, give rise to a range of environmental risks including carbon emissions, water and brine management, waste management, environmental contamination and biodiversity risks (both land and marine). These risks have the potential to harm the environment, increase operating costs and cause the loss of operating licences, potentially significant monetary damages, suspension of Origin's operations and reputational damage, all of which may reduce Origin's profitability and ability to operate in the future.

Social - Origin's projects and operations interact with a range of community stakeholders who have an interest in the impacts of our activities and the manner in which economic benefits are shared from such activities. These interactions give rise to a range of social risks including land access, reduced community acceptance and adverse public perception of Origin and the industries in which it operates. These risks have the potential to reduce access to resources and markets, impact Origin's reputation and increase operating costs including from compliance obligations arising from changes in laws and regulations.

Investment in Equity Capital

There are general risks associated with investments in equity capital. The trading price of shares in Origin may fluctuate with movements in equity capital markets in Australia and internationally. This may result in the market price for New Shares being less or more than the Offer Price.

Generally applicable factors which may affect the market price of shares include:

- general movements in Australian and international stock markets;
- investor sentiment;
- Australian and international economic conditions and outlook;
- changes in interest rates and the rate of inflation;
- changes to government regulation and policies;
- announcement of new technologies; and
- geo-political instability, including international hostilities and acts of terrorism.

No assurances can be given that the New Shares will trade at or above the Entitlement Offer Price. None of Origin, its Board or any other person guarantees the market performance of the New Shares.

41

Key Risks (cont.)

Risks Associated with Renouncing Rights under the Offer

Prices obtainable for retail Entitlements may rise and fall over the Entitlement trading period. If you sell your Entitlements at one stage in the retail Entitlement trading period, you may receive a higher or lower price to a shareholder who sells their Entitlements at a different stage of the retail Entitlement trading period or through the retail shortfall bookbuild.

If you are a Shareholder and renounce your Entitlement by doing nothing under the Entitlement Offer, there is no guarantee that any value will be received for your renounced Entitlement through the bookbuild process.

The ability to sell New Shares under a bookbuild and the ability to obtain any premium will be dependent upon various factors, including market conditions. Further, the bookbuild price may not be the highest price available, but will be determined having regard to a number of factors, including having binding and bona fide offers which, in the reasonable opinion of the underwriters will, if accepted result in otherwise acceptable allocations to clear the entire book.

To the maximum extent permitted by law, Origin, the underwriters and any of their respective related bodies corporate, affiliates, Directors, officers, employers or advisers, will not be liable, including for negligence, for any failure to procure applications under the bookbuild at a price in excess of the Offer Price.

There is no guarantee that there will be a viable market during, or on any particular day in, the rights trading period, on which to sell retail Entitlements on ASX.

You should also note that if you sell, or do not take up, all or part of your Entitlement, then your percentage Security holding in Origin will be diluted by not participating to the full extent in the Entitlement Offer and you will not be exposed to future increases or decreases in Origin's share price in respect of the shares which would have been issued to you had you taken up all of your Entitlement.

The tax consequences from selling Entitlements or from doing nothing may be different. Before selling Entitlements or choosing to do nothing in respect of Entitlements, you should seek independent tax advice and may wish to refer to the tax disclosures contained in the Retail Offer Booklet which will provide further information on potential taxation implications for Australian shareholders.

Glossary

Term	Meaning
1P reserves	Proved Reserves are those reserves which analysis of geological and engineering data can be estimated with reasonable certainty to be commercially recoverable. There should be at least a 90% probability that the quantities actually recovered will equal or exceed the estimate.
2P reserves	The sum of Proved plus Probable Reserves. Probable Reserves are those additional reserves which analysis of geological and engineering data indicate are less likely to be recovered than Proved Reserves but more certain than Possible Reserves. There should be at least a 50% probability that the quantities actually recovered will equal or exceed the best estimate of Proved Plus Probable Reserves (2P).
3P reserves	Proved plus Probable plus Possible Reserves. Possible Reserves are those additional Reserves which analysis of geological and engineering data suggest are less likely to be recoverable than Probable Reserves. The total quantities ultimately recovered from the project have at least a 10% probability of exceeding the sum of Proved plus Probable plus Possible (3P), which is equivalent to the high estimate scenario.
1C resources	The low estimate quantity of petroleum resources estimated to be potentially recoverable from known accumulations by application of development oil and gas projects, but which are not currently considered to be commercially recoverable due to one or more contingencies. The total quantities ultimately recovered from the project have at least a 90% probability to equal or exceed the low estimate for 1C contingent resources.
2C resources	The best estimate quantity of petroleum estimated to be potentially recoverable from known accumulations by application of development oil and gas projects, but which are not currently considered to be commercially recoverable due to one or more contingencies. 3C resources	The high estimate quantity of petroleum resources estimated to be potentially recoverable from known accumulations by application of development oil and gas projects, but which are not currently considered to be commercially recoverable due to one or more contingencies. The total quantities ultimately recovered from the project have at least a 10% probability to equal or exceed the high estimate for 3C contingent resources.
Bechtel Performance Date	The date at which the performance tests for each Train under the Bechtel EPC contract are satisfied. Expected to be achieved 3-4 months after first cargo, at which time revenues and expenses for the export of LNG will be recognised in the income statement. Accounting treatment for APLNG was disclosed to the market in an ASX release lodged on 31 July 2015.

Canada (British Columbia, Ontario and Quebec provinces) (cont.)

The following is a summary of the statutory rights of rescission or to damages, or both, available to purchasers in Ontario. In Ontario, every purchaser of the Entitlements or the New Shares purchased pursuant to this document (other than (a) a "Canadian financial institution" or a "Schedule III bank" (each as defined in NI 45-106), (b) the Business Development Bank of Canada or (c) a subsidiary of any person referred to in (a) or (b) above, if the person owns all the voting securities of the subsidiary, except the voting securities required by law to be owned by the directors of that subsidiary) shall have a statutory right of action for damages and/or rescission against the Company if this document or any amendment thereto contains a misrepresentation. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against the Company. This right of action for rescission or damages is in addition to and without derogation from any other right the purchaser may have at law. In particular, Section 130.1 of the *Securities Act* (Ontario) provides that, if this document contains a misrepresentation, a purchaser who purchases the Entitlements and the New Shares during the period of distribution shall be deemed to have relied on the misrepresentation if it was a misrepresentation at the time of purchase and has a right of action for damages or, alternatively, may elect to exercise a right of rescission against the Company, provided that (a) the Company will not be liable if it proves that the purchaser purchased such securities with knowledge of the misrepresentation; (b) in an action for damages, the Company is not liable for all or any portion of the damages that the Company proves does not represent the depreciation in value of such securities as a result of the misrepresentation relied upon; and (c) in no case shall the amount recoverable exceed the price at which such securities were offered.

Section 138 of the *Securities Act* (Ontario) provides that no action shall be commenced to enforce these rights more than (a) in the case of any action for rescission, 180 days after the date of the transaction that gave rise to the cause of action; or (b) in the case of any action, other than an action for rescission, the earlier of (i) 180 days after the purchaser first had knowledge of the fact giving rise to the cause of action or (ii) three years after the date of the transaction that gave rise to the cause of action. These rights are in addition to and not in derogation from any other right the purchaser may have.

Certain Canadian income tax considerations. Prospective purchasers of the Entitlements and the New Shares should consult their own tax adviser with respect to any taxes payable in connection with the acquisition, holding or disposition of such securities as any discussion of taxation related matters in this document is not a comprehensive description and there are a number of substantive Canadian tax compliance requirements for investors in the Provinces.

Language of documents in Canada. Upon receipt of this document, each investor in Canada hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the New Shares (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *Par la réception de ce document, chaque investisseur canadien confirme par les présentes qu'il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d'achat ou tout avis) soient rédigés en anglais seulement.*

ASX/Media Release

30 September 2015

Origin launches \$4.7 billion of new capital initiatives to strengthen balance sheet

Capital Initiatives – Highlights

- Raise \$2.5 billion via fully underwritten pro rata renounceable accelerated entitlement offer
- Implement additional \$2.2 billion of targeted cash preservation initiatives:
 - Reduce capital expenditure and working capital requirements during FY2016 and FY2017 by \$1.0 billion
 - Dividend guidance of 20 cents per share for FY2016 and FY2017 supported by cash flow from existing business (excluding Australia Pacific LNG) to save \$420 million of cash flow
 - Target up to \$800 million of non-core asset sales by FY2017
- Initiatives expected to reduce net debt to below \$9 billion by end FY2017
- Provides and maintains headroom for Origin's investment grade credit rating

Origin Energy Limited (Origin) today announced an extensive suite of capital initiatives to strengthen the Company's balance sheet and maintain an investment grade credit rating.

Origin Chairman Gordon Cairns said, "At current market forward oil prices and exchange rates, Origin's Net Debt/Underlying EBITDA is expected to be comfortably below 4x in FY2017 and reducing below 3x in subsequent years.

"In addition to raising \$2.5 billion in capital, we plan to reduce the Company's dividend for FY2016 and FY2017, make further reductions in capital expenditure and sell non-core assets to strengthen Origin's balance sheet.

"These initiatives will lower debt, strengthen the balance sheet and reduce reliance on distributions from Australia Pacific LNG.

"We believe this package of initiatives is prudent in light of current market conditions and strikes a reasonable balance in the best interest of all shareholders," Mr Cairns said.

5. ASX ANNOUNCEMENTS

Institutional Entitlement Offer Launch Announcement dated Wednesday, 30 September 2015

Narrowed focus to Energy Markets and Integrated Gas

Origin Managing Director, Grant King said, "Origin has narrowed its focus to its two core Australian-based businesses – Energy Markets and Integrated Gas.

"Origin's Energy Markets business has a track record of producing strong and stable cash flows. We have a leading market share position with 4.3 million customer accounts, a diverse and flexible fuel and generation portfolio, an unmatched portfolio of gas and gas transportation arrangements from which to capture value in Australia's growing gas market – and we are well placed to benefit from the growing trend to renewables.

"Origin's Integrated Gas business, comprising a 37.5 per cent interest in Australia Pacific LNG and our stable Exploration & Production interests, is set to be a major beneficiary of growing domestic and global gas markets. Australia Pacific LNG, which is developing Australia's largest CSG to LNG project, is on track to produce first LNG in November – a key milestone in a journey that began eight years ago.

"Australia Pacific LNG has invested in production and pipeline capacity beyond existing sales contracts, providing potential upside through additional sales to domestic and export markets," said Mr King.

Origin does not expect to make further contributions to Australia Pacific LNG beyond the previously announced \$1.8 billion¹, which will bring both trains into production in FY2016.

Origin is focused on its Energy Markets and Integrated Gas businesses, and will discontinue and exit all geothermal and international hydrocarbon exploration and development activities.

Fit for the future

Mr King said, "Origin has implemented and is implementing \$6.9 billion in initiatives to strengthen its balance sheet and build resilience in a lower oil price environment".

Origin, as upstream operator for Australia Pacific LNG, is also on track to deliver its planned \$1.0 billion reduction in the project's upstream cost structure.

Previously announced initiatives include the sale of Contact Energy and capital and operating cost reduction programs. We are making good progress on our recently announced target to reduce cash costs by \$200 million a year from FY2017.

Origin is targeting a further \$1 billion reduction in capital expenditure and working capital across FY2016 and FY2017. This is a 40 per cent reduction on previous capital expenditure guidance by stopping uncommitted E&P projects and limiting expenditure to joint venture and permit commitments.

Origin will also target up to \$800 million in asset sales by FY2017. This will include non-operated upstream interests and direct investments in assets for wind generation and infrastructure assets such as pipelines that require tolling arrangements to be put in place.

¹ Together with contributions from other shareholders.

5. ASX ANNOUNCEMENTS

Institutional Entitlement Offer Launch Announcement dated Wednesday, 30 September 2015

Outlook⁴

FY2016 transformational year for Origin as Australia Pacific LNG commences production

Underlying EBITDA from Origin's existing businesses (excluding LNG Underlying EBITDA) is expected to be \$1.45-\$1.55 billion⁵. This reflects a strong contribution from our Energy Markets business and lower earnings in Exploration & Production.

Origin expects LNG Underlying EBITDA to be \$110-\$230 million⁵ reflecting minimal revenue from the sale of gas to QGC and the disproportionate recognition of LNG operating expenses compared to revenue. This will be more than offset by the disproportionate recognition of interest and depreciation during the ramp up to full production, which could result in a negative contribution to Underlying NPAT from LNG in FY2016 of \$170-\$220 million.

FY2017 expected to deliver earnings step change

Underlying EBITDA (excluding LNG Underlying EBITDA) from Origin's existing businesses during FY2017 is expected to be \$1.9-\$2.1 billion⁶. This result will be driven by strong growth in Energy Markets and Exploration & Production as well as a full year of functional cost savings.

LNG Underlying EBITDA is expected to be \$1.2-\$1.3 billion⁶ when both of Australia Pacific LNG's production trains will be on line.

The entitlements may not be taken up by, and the New Shares may not be offered or sold to, directly or indirectly, any person in the United States or any person that is, or is acting for the account or benefit of, any person in the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws.

Forward looking statements

This announcement contains forward looking statements, including statements of current intention, statements of opinion and predictions as to possible future events. Forward looking statements should, or can generally, be identified by the use of forward looking words such as "believe", "expect", "estimate", "will", "may", "target" and other similar expressions within the meaning of securities laws of applicable jurisdictions, and include but are not limited to expected production volumes, the outcome and effects of the offer. Indications of, and guidance or outlook on, future earnings or financial position or performance are also forward looking statements. Such statements are not statements of fact and there can be no certainty of outcome in relation to the matters to which the statements relate. These forward looking statements involve known and unknown risks, uncertainties, assumptions and other important factors that could cause the actual outcomes to be materially different from the events or results expressed or implied by such statements. Those risks, uncertainties, assumptions and other important factors are not all within the control of Origin and cannot be predicted by Origin and include changes in circumstances or events that may cause objectives to change as well as risks, circumstances and events specific to the industry, countries and markets in which Origin and its related bodies corporate, joint ventures and associated undertakings operate. They also include general economic conditions, exchange rates, interest rates, regulatory environments, competitive pressures, selling price, market demand and conditions in the financial markets which may cause objectives to change or may cause outcomes not to be realised.

None of Origin or any of its respective subsidiaries, affiliates and associated companies (or any of their respective officers, employees or agents) makes any representation, assurance or guarantee as to the accuracy or likelihood of fulfilment of any forward looking statement or any outcomes expressed or implied in any forward looking statements. Statements about past performance are not necessarily indicative of future performance.

Financial data

Investors should be aware that certain financial data included in this announcement are "non-GAAP financial measures" under Regulation G of the U.S. Securities Exchange Act of 1934. These measures include EBITDA, Underlying EBITDA, Working Capital and Net Debt.

In addition, such measures may be "non-IFRS financial information" under Regulatory Guide 230 Disclosing non-IFRS financial information published by ASIC. The disclosure of such non-GAAP financial measures in the manner included in this announcement may not be permissible in a registration statement under the U.S. Securities Act. These non-GAAP financial measures do not have a standardized meaning prescribed by Australian Accounting Standards and therefore may not be comparable to similarly titled measures presented by other entities, and should not be construed as an alternative to other financial measures determined in accordance with Australian Accounting Standards. Although Origin believes these non-GAAP financial measures provide useful information to users in measuring the financial performance and condition of its business, investors are cautioned not to place undue reliance on any non-GAAP financial measures included in this announcement.

Investors should note that this announcement contains pro forma financial information, including a pro forma balance sheet as at 30 June 2015. In preparing the pro forma financial information, certain adjustments were made to Origin's audited balance sheet as at 30 June 2015 that Origin considered appropriate to reflect the application of the proceeds of the entitlement offer to repay debt, as if the entitlement offer and application of proceeds had occurred on [30 June 2015]. The pro forma financial information does not purport to be in compliance with Article 11 of Regulation S-X of the rules and regulations of the U.S. Securities and Exchange Commission ("SEC").

Investors should note that while, as an Australian public company with securities listed on the ASX, Origin's oil and gas reserves and resource estimates are prepared in accordance with the Petroleum Resources Management System (PRMS) 2007 published by the SPE and ASX reporting guidelines, such oil and gas reserves and resource estimates, including those included in this announcement, have not been prepared in accordance with, and do not purport to comply with, methodologies and classifications used by oil and gas companies subject to the reporting obligations of the SEC, including the reporting requirements set out in Regulations S-K and S-X under the U.S. Securities Act and related SEC disclosure requirements. In particular, in relation to Origin's Australia Pacific LNG estimates, in addition to estimating and disclosing proved (1P) reserves, Origin also estimates and discloses proved plus probable (2P) reserves, proved plus probable plus possible (3P) reserves, and best estimate contingent (2C) resources, and that 3P reserves and 2C resources would not be permitted to be disclosed in a registration statement, annual report or other public report filed with the SEC. Investor should be aware that no assurance can be given that Origin's reserves or resources will be recovered at the levels presented, and that unproved reserves and resources are by their nature more speculative than proved reserves and, accordingly, are subject to substantially greater risk of not being realized by Origin. In addition, different reporting systems employ different assumptions, and Origin's methodologies for classifying reserves and resources and its reserves and resources classifications vary in certain respects from the methodologies and classifications used by oil and gas companies subject to other reporting obligations, including those of the SEC.

Origin and the Underwriter will have no responsibility and disclaim all liability (to the maximum extent permitted by law) to persons who trade New Shares they believe will be issued to them before they receive their holding statements, whether on the basis of confirmation of the allocation provided by Origin or the Registry or otherwise or who otherwise trade or purport to trade Entitlements in error or which they do not hold or are not entitled to.

If you are in any doubt as to these matters, you should first consult with your financial adviser or other professional adviser.

6.1 Eligible Retail Shareholders

This Information contains an offer of New Shares to Eligible Retail Shareholders in Australia or New Zealand. The Retail Entitlement Offer is being made in Australia pursuant to section 708AA of the Corporations Act as notionally modified by ASIC Class Order 08/35 and relief obtained from ASIC, which allows entitlement offers to be made to retail investors without a prospectus. The Retail Entitlement Offer is also being made to Eligible Retail Shareholders with registered addresses in New Zealand in reliance on the Securities Act (Overseas Companies) Exemption Notice 2013 (New Zealand), allowing the Retail Offer Booklet to be prepared in compliance with Australian law and not requiring an investment statement, prospectus or product disclosure statement under New Zealand law.

6. IMPORTANT INFORMATION

Eligible Retail Shareholders are those persons who:

- are registered as a holder of Shares as at the Record Date, being 7.00pm (Sydney time) on Tuesday, 6 October 2015;
- have a registered address on the Origin share register in Australia or New Zealand;
- are not in the United States and are not acting for the account or benefit of a person in the United States (to the extent such person holds Origin ordinary shares for the account or benefit of such person in the United States);
- were not invited to participate (other than as nominee, in respect of other underlying holdings) under the Institutional Entitlement Offer, and were not treated as an Ineligible Institutional Shareholder under the Institutional Entitlement Offer; and
- are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

Shareholders who are not Eligible Retail Shareholders and did not receive an Entitlement under the Institutional Entitlement Offer are Ineligible Retail Shareholders. Origin reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder or an Ineligible Retail Shareholder.

By returning a completed personalised Entitlement and Acceptance Form or making a payment by BPAY, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

Origin may (in its absolute discretion) extend the Retail Entitlement Offer to any institutional Shareholder that was eligible to participate in the Institutional Entitlement Offer but was not invited to participate in the Institutional Entitlement Offer (subject to compliance with relevant laws).

6.2 Ineligible Retail Shareholders

Origin has decided that it is unreasonable to make offers under the Retail Entitlement Offer to Shareholders who have registered addresses outside Australia and New Zealand, having regard to the number of such holders in those places and the number and value of the New Shares that they would be offered, and the cost of complying with the relevant legal and regulatory requirements in those places. Origin may (in its absolute discretion) extend the Retail Entitlement Offer to Shareholders who have registered addresses outside Australia and New Zealand (except the United States) in accordance with applicable law.

The Entitlements that would otherwise have been received by Ineligible Retail Shareholders will be sold under the Retail Shortfall Bookbuild process described in this Retail Offer Booklet (see Section 6.17 below). Any proceeds of such sales will be paid proportionately to Ineligible Retail Shareholders and also to Eligible Retail Shareholders who did not take up their Entitlements (net of any withholding tax). Macquarie Securities (Australia) Limited has been appointed as the nominee to arrange for the sale of the Entitlements of Ineligible Retail Shareholders through the Retail Shortfall Bookbuild, and for the payment of any proceeds to those Shareholders.

Any proceeds may have Australian and overseas tax consequences for Ineligible Retail Shareholders depending on their own individual circumstances. Ineligible Retail Shareholders should seek professional tax advice regarding the taxation of any proceeds they receive from the Underwriter.

Ineligible Retail Shareholders should shortly receive a letter from Origin outlining their rights in relation to the Entitlement Offer.

6.3 Ranking of New Shares

New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally in all respects with existing Shares and will be entitled to dividends on the same basis as existing Shares. The rights and liabilities attaching to the New Shares are set out in Origin's constitution, a copy of which is available at www.originenergy.com.au.

6.4 Risks associated with participation in the Entitlement Offer

The Origin Investor Presentation details important factors and risks in relation to the Entitlement Offer or that could affect the financial and operating performance of Origin. You should refer to the 'Risks associated with participation in the Entitlement Offer' section of the Origin Investor Presentation released to ASX on Wednesday, 30 September 2015 which is included in Section 5 of this Retail Offer Booklet. You should consider these factors in light of your personal circumstances, including financial and taxation issues, before making a decision in relation to your Entitlement.

6. IMPORTANT INFORMATION

6.5 Reconciliation and the rights of Origin and the Underwriter

The Entitlement Offer is a complex process and, in some instances, investors may believe that they will own more Shares than they ultimately did as at the Record Date or are otherwise entitled to more New Shares than initially offered to them. In addition, where trustees of Origin's employee share plans hold shares on behalf of participants in those plans, the number of New Shares that are offered may need to increase to take account of the rounding referred to in Section 6.8. These matters may result in a need for reconciliation. If reconciliation is required, it is possible that Origin may need to issue additional New Shares to ensure that the relevant investors receive their appropriate allocation of New Shares.

Origin also reserves the right to reduce the size of an Entitlement or number of New Shares or the amount of the Institutional Premium or Retail Premium allocated to Eligible Institutional Shareholders or Eligible Retail Shareholders, or persons claiming to be Eligible Institutional Shareholders or Eligible Retail Shareholders or other applicable investors, if Origin believes in its absolute discretion that their claims are overstated or if they or their nominees fail to provide information requested to substantiate their claims. In that case, Origin may, at its discretion, require the relevant Shareholder to transfer excess New Shares to the Underwriter at the Offer Price per New Share. If necessary, the relevant Shareholder may need to transfer existing Shares held by them or to purchase additional Shares on-market to meet this obligation. The relevant Shareholder will bear any and all losses caused by subscribing for New Shares in excess of their Entitlement and any actions they are required to take in this regard.

Investors who sell Entitlements to which they are not entitled, or who do not hold sufficient Entitlements at the time required to deliver those Entitlements, may be required by Origin to otherwise acquire Entitlements or Shares to satisfy these obligations.

By applying under the Entitlement Offer, including pursuant to acquisitions of Entitlements, those doing so irrevocably acknowledge and agree to do the above as required by Origin in its absolute discretion. Those applying acknowledge that there is no time limit on the ability of Origin or the Underwriter to require any of the actions set out above.

6.6 Receipt of excess Retail Premium

If you receive a Retail Premium payment in excess of the Retail Premium payment to which you were actually entitled based on that part of your Entitlement under the Retail Entitlement Offer which remains held by you as at close of the Retail Entitlement Offer on 5.00pm (Sydney time) on Monday, 26 October 2015 then, in the absolute discretion of Origin, you may be required to repay Origin the excess Retail Premium.

By taking up or transferring your Entitlement, or accepting the payment to you of a Retail Premium, you irrevocably acknowledge and agree to repay any excess payment of the Retail Premium as set out above as required by Origin in its absolute discretion. In this case, the amount required to be repaid will be net of any applicable withholding tax. You also acknowledge that there is no time limit on the ability of Origin to require repayment as set out above and that where Origin exercises its right to correct your Entitlement, you are treated as continuing to have taken up, transferred or not taken up any remaining part of the Entitlement.

6.7 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your application once it has been accepted.

6.8 Rounding of Entitlements

Where fractions arise in the calculation of an Entitlement, they will be rounded up to the nearest whole number of New Shares.

6.9 Trading of Retail Entitlements

Entitlements under the Retail Entitlement Offer are tradeable and can be sold or transferred. They are expected to be quoted and tradeable on ASX from Tuesday, 6 October 2015 to Monday, 12 October 2015 (on a deferred settlement basis) and Tuesday, 13 October 2015 to Monday, 19 October 2015 (on a normal settlement basis). You may sell your Entitlement (which you do not wish to take up or let be sold into the Retail Shortfall Bookbuild) in order to realise value which may attach to those Entitlements if sold at that time. If you let your Entitlement be sold into the Retail Shortfall Bookbuild, you have the opportunity to receive any Retail Premium (see Section 3.5.4). There is no guarantee that there will be a liquid market in traded Entitlements. A lack of liquidity may impact the ability to sell Entitlements on ASX and the price able to be achieved.

Prices obtainable for Retail Entitlements may rise and fall over the Retail Entitlement trading period and will depend on many factors including the demand for and supply of Entitlements on ASX and the value of existing Shares relative to the Offer Price. If you sell your Entitlement, you may receive a higher or lower amount than a Shareholder who sells their Entitlement at a different time in the Retail Entitlement trading period or through the Retail Shortfall Bookbuild.

If you decide not to take up all or part of your Entitlement, you should consider whether to sell all or part of your Entitlement or allow all or part of it to be sold into the Retail Shortfall Bookbuild. Information on Australian taxation considerations is set out in Section 4.

6. IMPORTANT INFORMATION

Institutional Entitlements under the Institutional Entitlement Offer were not quoted on or tradeable on ASX nor privately transferable.

The Retail Entitlements may not be purchased, traded, taken up or exercised by persons in the United States or by persons who are acting for the account or benefit of persons in the United States.

Investors should note that if you purchase Retail Entitlements on ASX or otherwise, in order to take up or exercise those Retail Entitlements and subscribe for New Shares you:

- must be an Eligible Retail Shareholder, a resident in Australia or New Zealand, or otherwise qualify as an 'Eligible Person'³; and
- must not be in the United States or acting for the account or benefit of a person in the United States.

If you do not satisfy the above conditions, you will not be entitled to take up Retail Entitlements or subscribe for New Shares.

It is the responsibility of purchasers of Entitlements to inform themselves of the eligibility criteria for exercise. If holders of Entitlements after the end of the trading period do not meet the eligibility criteria, they will not be able to exercise the Entitlements. In the event that holders are not able to take up their Entitlements, they may receive no value for them.

6.10 Notice to nominees and custodians

If Origin believes you hold Shares as a nominee or custodian you will have received, or will shortly receive, a letter in respect of the Entitlement Offer. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Entitlement Offer is not available to, and they must not sell or transfer Entitlements in respect of or purport to accept the Retail Entitlement Offer in respect of, Eligible Institutional Shareholders who were invited to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not) and Institutional Shareholders who were treated as Ineligible Institutional Shareholders under the Institutional Entitlement Offer.

Persons acting as nominees for other persons must not take up any Entitlements on behalf of, or send any documents related to the Retail Entitlement Offer to, any person in the United States or any person that is acting for the account or benefit of a person in the United States.
