### ABOUT SCANTECH

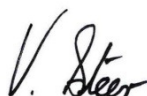

Scantech is a world leader in process control technologies, specialising in the minerals, cement and coal industries.

Its award-winning technology measures the composition and quality of bulk materials as they pass through its analysers on conveyor belts.

Detailed analysis is provided in real time, enabling quick decisions that can result in improved process control, significant cost savings, longer plant life and substantial environmental benefits.

Scantech analysers are designed and manufactured in Adelaide, South Australia.

For enquiries refer to Valerie Steer on (08) 8350 0200.
