## Notes to be read in conjunction with the Appendix 4C for the quarter ended 30 September 2015

#### Factors to Consider in Assessing the Company's Cash Position

There are a number of factors that should be taken into account in assessing the Company's cash position, the main factors being:

#### Operating Cost Base and Anticipated Growth

The Company has adjusted its operating cost base, to ensure that it can effectively continue to deliver services, and is well positioned to benefit from anticipated growth.

#### **PYOTravel and Recurring Revenues**

The Company is progressively increasing its recurring revenue base from PYOTravel, which has now become the Company's primary focus. World.Net is confident that the transaction business will realise improved booking volumes.

#### Continued Financial Support from Directors and Major Shareholders

Over the past few years, the Company's directors and major shareholders have continued to fund anticipated cash shortfalls. The directors and major shareholders have undertaken to continue to provide financial support to the Company if required.

In taking the above factors into consideration, the Company is confident that it will have sufficient cash to fund its business activities going forward.
