

Net Tangible Assets & Monthly Investment Report 31 October 2015

NET TANGIBLE ASSET BACKING PER ORDINARY SHARE (all figures are unaudited)	SEPTEMBER	OCTOBER	CHANGE
NTA before tax on unrealised gains, but after tax accrual on realised gains	\$1.1434	\$1.1866	+3.78%
NTA after tax	\$1.1133	\$1.1418	+2.56%

NTA Disclosure

As at 31 October 2015, the NTA before tax accrual was \$1.2039 per share. After the accrual of tax on realised gains (but before tax on any unrealised gains), the NTA was \$1.1866 per share as shown in the table above.

Month in Review

The Company's performance benefited from several underlying holdings which advanced due to positive announcements over the month.

Our global beverage names which represent 10.8% of the Company performed well this month (up 16% on average) as the world's largest brewer Anheuser Busch InBev (ABI) and SABMiller (SAB) jointly announced they have reached agreement in principle on the key terms of a recommended offer at £44.

Positive news that the Bank of England (BoE) announced a series of rules protecting retailing banking operations from investment banking activities and that the Competition and Markets Authority had ruled out the potential "break-up" of the four major banks in the UK, was not sufficient to override Lloyd's earnings result, which did not meet market expectations, with the stock falling almost 2%.

The announcement that Pfizer were in discussions to merge with Allergan saw the stock up over 7% for the month, reflecting the positive view of potential cost savings and an improved tax position.

There was little change in the Company's positioning during the month. The Company continues to maintain currency exposures that are predominately US Dollars.

PORTFOLIO COMPOSITION

^ The Company has no exposure to the Chinese A-Share market listed on the Shanghai Exchange

^^ Represents net exposure to AUD and NZD. Actual NZD exposure is -24.0%

Company Profile

PM Capital Global Opportunities Fund Limited (PGF or the Company) provides investors with an opportunity to invest in a concentrated portfolio of listed securities that are diversified across global equity markets (including Australia). The aim is to provide investors with an opportunity to invest in an actively managed portfolio that does not replicate standard industry benchmarks.

Who manages the Company's portfolio?

The Chief Investment Officer of PM CAPITAL, Paul Moore, who has over 30 years experience in successfully managing global investment funds. The portfolio manager, Ashley Pittard, who has over 17 years industry experience. Paul and Ashley are supported by a team of investment analysts.

Manager Profile

PM CAPITAL Limited, founded in 1998, is a Sydney based specialist equity and income fund manager that manages over \$2.2 billion on behalf of private clients, institutional investors and the clients of financial advisers. PM CAPITAL provides its clients with an opportunity to invest alongside its investment team, investing in businesses that it believes are currently trading below their long-term intrinsic value, but will return to full value over time.

PGF's investment mandate is based on the guidelines of the unlisted PM CAPITAL Global Companies Fund (GCF) and will generally invest in the same investments as the GCF once the portfolio has been established (although there may be differences in portfolio positioning from time to time). PGF's investment objective is to provide long-term capital growth over a seven-year plus investment horizon through investment in a concentrated portfolio of global equities and other investment securities.

Investment Philosophy

PGF's investment portfolio is managed by PM CAPITAL, which uses the same investment philosophy and process they utilise for their unlisted retail funds. This philosophy is a belief that:

"the best way to preserve and enhance your wealth is to buy a good business at a good price."

This investment philosophy has been successfully executed by PM CAPITAL's Chief Investment Officer, Paul Moore, for 30 years, and has been applied at PM CAPITAL since its inception in 1998. The philosophy involves taking a business owner's approach to investing by looking to understand how the business works, management's philosophy in managing the business and those parts of the business that determine its intrinsic value.

PM CAPITAL then asks, "What would a rational business owner pay for the business?" Because in the end, the Manager believes that if a company's intrinsic valuation is not recognised by the stock market, it will eventually be recognised by a business owner.
