

# Net Tangible Assets & Monthly Investment Report 31 October 2015

NET TANGIBLE ASSET BACKING PER ORDINARY SHARE (all figures are unaudited)	SEPTEMBER	OCTOBER	CHANGE
NTA before tax on unrealised gains, but after tax	\$ 1.0138	\$ 1.1343	+11.89%
NTA after tax	\$ 1.0378	\$ 1.1230	+8.21%

## NTA Disclosure

As at 31 October 2015, the NTA before tax accrual was \$1.1824 per share. After the accrual of tax on realised gains (but before tax on any unrealised gains), the NTA was \$1.1343 per share as shown in the table above.

## Month in Review

The Company's performance benefited from both a strong recovery in broader equity markets after the aggressive sell off in September and the outperformance of several underlying holdings which advanced on positive stock specific news flow released during the month.

Beijing based hypermarket operator Wumart Stores' share price jumped 77% after receiving a takeover offer from its parent company Wumei Holdings.

Baidu's share price advanced 36% after announcing plans to exchange their 45% voting stake in Chinese online travel agent (OTAs) Qunar for 25% voting stake in market leader Ctrip. The consolidation of the Ctrip and Qunar businesses will result in a dominant market leader in the OTA segment and effectively ends the pricing war between the two companies which has impacted industry profitability.

Donaco International continued its recent strong performance after third quarter results, particularly at the recent acquired StarVegas property, were better than expected. Due to its rapid appreciation in stock price over the last week of October, the Donaco position exceeded our normal 10% position limit. We are managing the position having regard to the volatile intra-day price movements of the stock.

The invested position increased to 95.1% with one new position added over the month. No positions were exited.

<b>INVESTOR PROFILE</b>	PAF may be appropriate for investors seeking long term capital growth over a seven year plus investment horizon, through investment in a concentrated portfolio of Asian (ex-Japan) <sup>1</sup> equities

**PORTFOLIO COMPOSITION**

### Company Profile

PM CAPITAL Asian Opportunities Fund Limited (PAF or the Company) provides investors with an opportunity to invest in a concentrated portfolio of predominantly undervalued listed Asian equities and other investment securities in the Asian region (ex-Japan)<sup>1</sup>. The aim is to provide investors with long term capital growth and an opportunity to invest in an actively managed portfolio that does not replicate the standard industry benchmarks.

### Who manages the Company's portfolio?

The Chief Investment Officer of PM CAPITAL, Paul Moore, who has over 30 years experience in successfully managing global investment funds. The portfolio manager, Kevin Bertoli, who has over 10 years industry experience. Paul and Kevin are supported by a team of investment analysts.

### Manager Profile

PM CAPITAL Limited, founded in 1998, is a Sydney-based specialist equity and income fund manager that manages over \$2.2 billion on behalf of private clients, institutional investors and the clients of financial advisers. PM CAPITAL provides its clients with an opportunity to invest alongside its investment team, investing in businesses that it believes are currently trading below their long-term intrinsic value, but will return to full value over time.

PAF's investment mandate is based on the guidelines of the unlisted PM CAPITAL Asian Companies Fund (ACF) and will generally invest in the same investments as the ACF once the portfolio has been established (although there may be differences in portfolio positioning from time to time). PAF's investment objective is to provide long-term capital growth over a seven-year plus investment horizon through investment in a concentrated portfolio of Asian (ex-Japan)<sup>1</sup> equities and other investment securities.

### Investment Philosophy

PAF's investment portfolio is managed by PM CAPITAL, which uses the same investment philosophy and process they utilise for their unlisted retail funds. This philosophy is a belief that:

***"the best way to preserve and enhance your wealth is to buy a good business at a good price."***

This investment philosophy has been successfully executed by PM CAPITAL's Chief Investment Officer, Paul Moore, for 30 years, and has been applied at PM CAPITAL since its inception in 1998. The philosophy involves taking a business owner's approach to investing by looking to understand how the business works, management's philosophy in managing the business and those parts of the business that determine its intrinsic value.

PM CAPITAL then asks, "What would a rational business owner pay for the business?" Because in the end, the Manager believes that if a company's intrinsic valuation is not recognised by the stock market, it will eventually be recognised by a business owner.
