

30 November 2015

## Broadpectrum responds to *Australian* article

Broadpectrum Limited refers to the misleading headline “*Detention centre operator Broadpectrum’s funding in doubt*” in today’s Australian newspaper.

Broadpectrum is completely comfortable with the commercial terms of its Deed of Variation with the Department of Immigration and Border Protection and is progressing towards the finalisation of the new five year contract.

As announced on 28 October 2015, Broadpectrum confirmed it had signed a Deed of Variation with the Department of Immigration and Border Protection to continue to provide logistics, facilities management and welfare services at the Regional Processing Centres in Nauru and Manus Province.

This Deed, under which Broadpectrum’s scope was expanded to include the provision of additional welfare services, extended the company’s existing contract with the Department for a further four months from 1 November 2015. This allows for the progressive transition to any new contract arrangements.
