Definitions

- **Company** means Laneway Resources Ltd.
- **Exercise Price** means \$0.003.
- **Expiry Date** means 31 January 2016.
- **Share** means a fully paid ordinary share in the Company.

(a) Terms

- The securities to be issued are Options to subscribe for fully paid ordinary shares in the capital of the Company (**Shares**).
- The Options are to be issued for no consideration.
- The Options will vest on issue.
- The exercise price of the Options will be \$0.003 each.
- The Options will expire on 31 January 2016 (**Expiry Date**) unless earlier exercised.
- Shares issued on exercise of the Options will rank pari passu with all existing Shares of the Company from the date of issue.
- The Options may be exercised, wholly or in part, by delivering a duly completed form of notice of exercise, together with a cheque (or a transfer of funds) for the Exercise Price per Option to the Company at any time on or before the Expiry Date.
- The number of Options that may be exercised at one time must be not less than 100,000 (or 1/3 of the total number issued if less than 150,000 Options have been issued).

- The Options shall be unlisted.
- The Options are not transferable, except with the approval of the Board of Directors.
- Option holders will not participate in dividends unless the Options are exercised.

+ See chapter 19 for defined terms.

- Following the issue of the Options, in the event of any reconstruction (including consolidation, subdivision, reduction or return) of the issued capital of the Company:
 - The number of Options, the exercise price of the Options, or both will be reconstructed (as appropriate) in a manner consistent with the ASX Listing Rules, but with the intention that such reconstruction will not result in any benefits being conferred on the holders of the Options which are not conferred on shareholders; and
 - Subject to the provisions with respect to rounding of entitlements as sanctioned by a meeting of shareholders approving a reconstruction of capital, in all other respects the terms for the exercise of the Options will remain unchanged.
- If there is a pro rata issue (except a bonus issue), the Exercise Price of an Option may be reduced according to the following formula:

$$O^n = O - \frac{E [P - (S + D)]}{N + 1}$$

Where:

- O^n = the new exercise price of the Option;
- O = the old exercise price of the Option;
- E = the number of underlying securities into which one Option is exercisable;
- P = the average market price per security (weighted by reference to volume) of the underlying securities during the 5 trading days ending on the day before the ex-rights date or the ex-entitlements date;
- S = the subscription price for a security under the pro rata issue;
- D = dividend due but not yet paid on the existing underlying securities (except those to be issued under the pro rata issue); and
- N = the number of securities with rights or entitlements that must be held to receive a right to one new security.

- If there is a bonus issue to the holders of shares in the Company, the number of shares over which the Option is exercisable may be increased by the number of shares which the Option holder would have received if the Option had been exercised before the record date for the bonus issue.
- The terms of the Options can be varied by the Directors of the Company. However, the terms of the Options shall not be changed to reduce the Exercise Price, increase the number of Options, change the vesting terms and conditions or change any period for exercise of the Options.
- The Company shall apply for listing of the resultant shares of the Company issued upon exercise of any Option.
