

Net Tangible Assets & Monthly Investment Report 30 November 2015

NET TANGIBLE ASSET BACKING PER ORDINARY SHARE (all figures are unaudited)	OCTOBER	NOVEMBER	CHANGE
NTA before tax on unrealised gains, but after tax accrual on realised gains	\$1.1866	\$1.1748	-0.99%
NTA after tax	\$1.1418	\$1.1421	+0.03%

NTA Disclosure

As at 30 November 2015, the NTA before tax accrual was \$1.2036 per share. After the accrual of tax on realised gains (but before tax on any unrealised gains), the NTA was \$1.1748 per share as shown in the table above.

Month in Review

Visa Inc. (Visa), one of the Company's holdings announced the acquisition of Visa Europe for €21.2 billion. The structure of the deal is a mix of cash, shares and deferred payments. Visa will pay at the time of closing €16.5 billion of which €11.5 billion will be in the form of cash and €5 billion in preferred shares that are convertible. The remaining €4.7 billion is in the form of earn-out (€4.7B includes €0.7 in cumulative interest) that will be paid to Visa Europe on the 4th anniversary of closing if certain revenue targets are met.

Visa believes the deal will be earnings accretive by at least high single digits and they expect \$200 million in annual pre-tax cost savings by 2020. Visa currently has cash on its balance sheet of approximately \$10 billion, some of which is offshore. Thus funding the deal at attractive rates will also help earnings accretion. We continue to view Visa positively and believe this deal should accelerate cash to card conversion, increase Visa's penetration in prepaid, digital checkout, tokenization and ancillary processing fees for Visa in Europe over time.

Countrywide PLC (UK's largest property services group) impacted the Company's performance, falling nearly 16% after management lowered their full year guidance on a slower-than-expected recovery in UK housing transaction volumes in the second half of 2015.

Comcast, a leader in US Pay TV reached our target price and was sold during the month. The Company continues to maintain currency exposures that are predominately US Dollars.

PORTFOLIO COMPOSITION

^ The Company has no exposure to the Chinese A-Share market listed on the Shanghai Exchange

^^ Represents net exposure to AUD and NZD. Actual NZD exposure is -22.7%

Company Profile

PM Capital Global Opportunities Fund Limited (PGF or the Company) provides investors with an opportunity to invest in a concentrated portfolio of listed securities that are diversified across global equity markets (including Australia). The aim is to provide investors with an opportunity to invest in an actively managed portfolio that does not replicate standard industry benchmarks.

Who manages the Company's portfolio?

The Chief Investment Officer of PM CAPITAL, Paul Moore, who has over 30 years experience in successfully managing global investment funds. The portfolio manager, Ashley Pittard, who has over 17 years industry experience. Paul and Ashley are supported by a team of investment analysts.

Manager Profile

PM CAPITAL Limited, founded in 1998, is a Sydney based specialist equity and income fund manager that manages over \$2.2 billion on behalf of private clients, institutional investors and the clients of financial advisers. PM CAPITAL provides its clients with an opportunity to invest alongside its investment team, investing in businesses that it believes are currently trading below their long-term intrinsic value, but will return to full value over time.

PGF's investment mandate is based on the guidelines of the unlisted PM CAPITAL Global Companies Fund (GCF) and will generally invest in the same investments as the GCF once the portfolio has been established (although there may be differences in portfolio positioning from time to time). PGF's investment objective is to provide long-term capital growth over a seven-year plus investment horizon through investment in a concentrated portfolio of global equities and other investment securities.

Investment Philosophy

PGF's investment portfolio is managed by PM CAPITAL, which uses the same investment philosophy and process they utilise for their unlisted retail funds. This philosophy is a belief that:

"the best way to preserve and enhance your wealth is to buy a good business at a good price."

This investment philosophy has been successfully executed by PM CAPITAL's Chief Investment Officer, Paul Moore, for 30 years, and has been applied at PM CAPITAL since its inception in 1998. The philosophy involves taking a business owner's approach to investing by looking to understand how the business works, management's philosophy in managing the business and those parts of the business that determine its intrinsic value.

PM CAPITAL then asks, "What would a rational business owner pay for the business?" Because in the end, the Manager believes that if a company's intrinsic valuation is not recognised by the stock market, it will eventually be recognised by a business owner.
